Boiled Asparagus—Never use tough asparagus. Trim off the weedy ends, wash the stalks and cut them in inch pieces. Put them into plenty of boiling salted water and cook very gently one hour, if necessary. Drain off the water and lay the asparagus upon slices of buttered toast. Take one cupful of milk, and when boiling, thicken with two teaspoonfuls of flour rubbed into two tablespoonfuls of butter. When thick and smooth, remove from the fire, add the beaten yolk of an egg, stir well, and pour over the asparagus.

Asparagus Soup—Take three bunches of asparagus, cut of the tender points, and break the rest into small pieces. Cook them until perfectly tender in a little boiling water to which may be added either salt or a small piece of salt pork. Drain; rub the pulp through a colander and add to two quarts of boiling veal stock, or three pints of milk. If milk is used, cook the tips fifteen minutes in boiling salted water, otherwise, put them into the stock with the asparagus pulp and cook them. Rub a little butter and flour together, add pepper and stir gradually into the soup. When it boils up, take it from the fire, stir in half a cup of cream, if you have it, and pour into the tureen. Serve immediately.

Asparagus on Toast—Cut the shoots when about three inches high. Let them soak in salt and water a few minutes. Half an hour before dinner put into a kettle of boiling water the stalks tied in small bunches, and boil rapidly for twenty-five minutes or until soft. Have ready slices of buttered toast; skim out the asparagus, lay upon the toast, untie the strings; spread out and serve immediately.—The Housekeeper.

A Fast Trotter Killed by Lightning.

BLOOMINGTON, Ill., June 18.—During a storm Saturday afternoon the racer Carrie Walton, record 2.24½, valued at $10,000, owned by Mayor Foster, and Progue Hague, valued at $10,000, are killed by lightning. Ed. Hunter, the trainer, was stunned.

Killed on the Track.

ST. THOMAS, June 20.—The dead body of E. Scott, aged 40, a laborer in the employ of George Nichol, 7th concession, Westminster, was found on the track yesterday near Glanworth. Both feet and one arm were cut off. It is supposed he was walking on the track.

The German Ambassador Worse.

VIENNA, June 20.—The departure of Prince Reuss, the German ambassador, for Carlsbad, has been postponed, his condition having changed for the worse.

To Avert Contests in Uncertain Constituencies.

LONDON, June 20.—It is stated in Parnellite quarters that Gladstone, Morley and Schnadhorst have resumed their efforts to prevail upon the opposing faction in the Irish party to avert contests in the coming general elections in districts where such contests are likely to benefit the Unionist candidates in Ireland and England. Mr. Healy opposes any such attempts, and is determined that the seats shall be contested.

20 Miles to Procure Medicine.

Winfield, Ont.
W. H. COMSTOCK, Brockville.

DEAR SIR:—Am selling your "Dr. Morse's Indian Root Pills" in this locality. I have customers who come 20 miles for the sake of getting Morse's Pills. This speaks for itself as to their value. I use them in our family with "the most satisfactory results." My wife has been cured of sick headache by their use. We could not do without them.

Yours, etc.,
A. KRAMPIEN

APPROACHING MARRIAGE OF YOUNG BISMARCK.

Rioting in Various Parts of Ireland—Another Scandal Rivalling the Tranby Croft Case—Stanley Nominated By Liberal Unionists—Another Bride for the Duke of York.

LONDON, June 21.—The long-deferred authoritative description of Count Herbert Bismarck's bride was furnished by a Vienna correspondent of The Daily News, who telegraphs as follows: "I saw the young bride that is to be yesterday at an establishment where she had come to try on some 30 costumes. Among them is the tea gown for the [illegible] de Maringe and the ball dress for the party on the eve of the wedding. The young Countess Maggie, as she is called, is very young and slender and sylph-like, with blue eyes that have a dreamy look in them and a crown of golden hair. Notwithstanding that she has a Hungarian father and her cradle was on the Adriatic, she is unmistakably English in appearance and in manner, and only the graceful courtesy with which she greets the stranger is Italian.

A HIGH LIFE SCANDAL.

A Physician Turns Forger and Forced to Sign a Confession.

LONDON, June 21.—The latest society scandal is a repetition, in a way, of the Tranby Croft process. Dr. Collins, a popular aristocratic physician, enjoying an income of £6000 yearly, is being tried for forging the name of a patient, Captain Selwyn of the Horse Guards, who was supposed to be dying in November, to a promissory note for £1500.

Captain Selwyn discovered the forgery, and consulted Lord Walsingham, Sir Nigel Kingscote and Major Atherley, who conferred and induced Dr. Collins to sign a confession, which they had attested by witnesses, and which embraced an understanding to leave the country before June. It is believed that the gentlemen concerned have thus laid themselves open to the charge of compounding a felony in order to shield Dr. Collins.

ZANZIBAR, June 21.—A report has been received here that a German force, commanded by Baron von Bulow and consisting of five Europeans and 150 Soudanese natives, with one gun, was severely defeated on the 10th inst. in the Moshi territory, near Kilimanjaro.

It is said that one European and 100 Soudanese were killed, that the gun belonging to the force was captured and that Baron von Bulow and another European were among the wounded.

Rioting in Tralee.

DUBLIN, June 21.—Rioting broke out in Tralee last night on the conclusion of a federation meeting. As the delegates to the meeting were being escorted to the railway station by a large force of police, a serious conflict arose on the arrest of a Parnellite by the police. During the conflict many persons were injured and numerous arrests were made. The excitement continues.

DUBLIN, June 21.—The anti-Parnellites tried to hold a meeting to-day in Killorglin, near Tralee. While the audience was assembling a party of Parnellites descended upon them, wrecked the platform and drove off the band. Clubs and stones and pieces of the broken platform were the weapons.

The chairman was knocked senseless. Two hundred military and police were summoned, but they were unable to stop the fighting.

While awaiting reinforcements they were so roughly handled by the mob that they were compelled to fall back, taking with them three constables who had been disabled with stones. When 200 more soldiers arrived the force of 400 charged the meeting, and after a struggle of 15 minutes cleared the place.

Eight men were found lying unconscious on the ground, where they had been trampled by the rioters. Three are so seriously injured that they may die. The other five had sustained injuries of arms or legs, but will recover. The number of seriously injured is reported to be 25 or 30.

Hardly a man of either party got away without at least a bloody nose or black eye. The platform vanished entirely during the fight, having been broken up to supply the anti-Parnellites with weapons. There were no arrests.

A Raffle With Dice for Bibles.

LONDON, June 21.—There occurred a few days ago in the parish church at St. Ives, in Hants, a peculiar ceremony that is a relic of a bygone age. This was a raffle with dice for Bibles. The vicar directed the proceedings, and 12 children cast dice for the six Bibles awarded. The custom dates from 1675, and is in accordance with the will of Dr. Wilde, who left £50 to provide a fund. The money was expended in the purchase of what is still called "Bible Orchard," with the rent of which the books are bought and a small sum paid to the vicar for preaching the special sermon, which is annually delivered in accordance with the terms of the bequest.

Queries Respecting Lord Wolseley.

LONDON, June 21.—Mr. John O'Connor, Parnellite member for South Tipperary, called the attention of the House of Commons to the references made at the Ulster convention by Mr. Kane, Grand Master of the Belfast Orangemen, to General Lord Wolseley's alleged statement that he would call upon the people to prevent the dismemberment of the Empire.

Mr. O'Connor wanted the War Office to ask Gen. Wolseley to explain whether he had given the Ulsterites authority to state that he was prepared to lead them in a civil war against the forces of the Crown. It was a serious matter, Mr. O'Connor said, if the Government employed a man in Gen. Wolseley's position who professed treasonable sentiments. It was not the first time such statements had been made, and Gen. Wolseley ought to be given an opportunity to repudiate them.

The Government made no reply to Mr. O'Connor.

TORONTO, June 21.—There were no offerings of grain on the street yesterday. Hay was in good supply at $12 to $14 for timothy and $8 to 10 for clover. Straw sold at $10.

On call board business was very dull, no transactions being reported. No. 1 Manitoba hard wheat to arrive North Bay offered at $3.06 with $1 bid, and No. 2 hard to arrive, all rail, offered at 93c with 90c bid. No. 1 regular afloat at Port Arthur offered at 61c without bids. Cars of sample wheat were offered at 87c and 93c without bids. Oats steady, mixed offering at 30c outside and white east at 32c.

Missionaries Roughly Treated by Fanatics

VANCOUVER, B.C., June 21.—Advices from China by the steamer Empress of Japan say that the anti-foreign riots have been resumed in the Yangtsekiang Valley.

In Chingko, the house of two ladies of the Church of England was attacked and the ladies insulted and Dr. Kinds' hospital wrecked and the doctor badly treated. He was assaulted by a mob of Chinese; and escaped only after his clothes had been torn to rags and his watch stolen.

Vigorous measures of redress have been taken by the British Consul at Foo Chow.

Hung His Clothes On a Hickory Limb.

MACLEOD, N.W.T., June 21.—An ex-policeman named Kjostured, strolled down to the river at Kipp. About half an hour after, when dinner was ready, his absence was noticed, and on a search being made his clothes were found hanging on the trees on the bank of the river, but he could not be found anywhere in the vicinity. It is supposed that he went in for a swim and was taken with cramp and drowned.

Capt. Stairs' Death Doubted.

HALIFAX, N.S., June 21.—The family of Capt. Stairs have strong grounds for the belief that the rumored death of the famous explorer is not true. They have made thorough inquiry, and can get no verification of the report. What strengthens the belief that he is still alive is the fact that no information of his death has reached Brussels, where it would be sent.

IT'S THE WEAR THAT TELLS!

Reader, may we ask you a question? Did you ever purchase a suit of clothes that looked exceedingly well, but which when it came to be worn proved to be as mean shoddy as could be scared up? Well, there is plenty of just such clothing in the market to-day. The place where you can be sure to find no such stuff is at GRAFTON & CO.'S, 393 George Street, Peterborough. Fine foreign fabrics at remarkably low prices is what you will find there. There you will be certain to obtain something that will not only be satisfactory in price but will also give satisfactory service. Every garment we sell is made up in our own factory in Dundas, of cloths directly imported by us, or from Canadian Tweeds. Before leaving our factory, every garment is closely examined and its actual cost computed. It is then marked at the lowest possible price, and as we are direct importers as well as manufacturers and retailers we can sell fine goods at first cost or from twenty to thirty per cent. cheaper than any other merchant. Our $9 Brighton Overcoat and our $7.50 London Sack Suits are but two of the many bargains we are now offering.

Full English Cassimere Suit	$9.00 to $12.00	Aberdeen Cassimere Suit	$14.00 to $16.50

WOULD YOU BUY

If the Price were Low?

Most men who do not own houses would become owners if they could do so at a moderate cost.

It is my business to build houses, the cost of which is within the reach of people in fair circumstances.

I have one house, well built, good location, Aylmer Streets, between Townsend and Rink Streets—$2,200. Look it up. Will have two on Dalhousie; work now going on.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 8,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6¼c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 85c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 86 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

DOMINION PARLIAMENT.

ANOTHER DULL DAY AT OTTAWA YESTERDAY.

Still Hammering Away At the Redistribution Bill—Some Further Changes Made—Mr. Maclean and Two-Cent Railway Fares—General Notes of the Capital.

OTTAWA, June 22.—On the House again going into committee of the whole this yesterday on the Redistribution Bill the third clause, that relating to the Province of Quebec, was taken up and on sub-section A defining the boundaries of South Ottawa, Hon. Mr. Laurier moved in amendment that that and all the other sub-sections of section three be struck out of the bill. He spoke for three-quarters of an hour, again urging the conference of both sides of the House to lay down the lines of a redistribution bill, and arguing that county lines should be adhered to. If changes had to be made he argued that the proper way to make them would be by uniting two small counties, instead of hacking at the county lines and carving some of the constituencies entirely out of existence.

Hon. Mr. Ouimet replied, opposing the amendment and strongly supporting the bill as introduced and defending it as an equitable measure. He pointed out that the proposed amendment of the Liberals would deprive Montreal of that increased representation to which it was so fairly entitled and that uniting the counties of Laval and Two Mountains, as suggested by Mr. Laurier, would necessitate the wiping out of the county of Argenteuil, which would be manifestly unjust to that English-speaking constituency.

Mr. Brodeur followed in French, speaking up to recess in support of Mr. Laurier's amendment.

After recess the debate was continued by Messrs. Bechard and Choquette in support of the amendment.

Mr. Jeannotte, the new member for L'Assomption, made his maiden speech in support of the bill and received considerable applause.

Sir John Thompson briefly answered Mr. Laurier, holding that it would be most unfair to Montreal Hochelaga and Ottawa County, where the population had largely increased in the last 10 years, if the section of the bill relating to Quebec was dropped and that province left as it is at present.

After some remarks by Messrs. Mills and Davin, a count was taken on Mr. Laurier's amendment, which was lost—37 for, 57 against.

On the first sub-section, defining the limits of South Ottawa, Sir John Thompson announced that it had been decided to divide the county by a line north and south, instead of east and west as provided in the bill. The western section would be called Wright and the eastern section Labelle. These delicate tributes to the "King of the Gatineau," who so long represented the county, and to the late Father Labelle, whose exertions in causing the Northern Colonization Railway (now part of the C.P.R.) to be built, caused considerable applause.

The Quebec sub-clauses were continued until 12.45, all those relating to Montreal being passed.

A good deal of discussion took place on the division of Chateauguay and the committee finally rose without passing that sub-section.

Two-Cent Railway Mileage.

Mr. Maclean gives notice that in committee of the whole on bill No. 84, an act further to amend the Railway Act, he will move that it be amended by the addition of the following clause:

"Nothing in the bylaw or regulation of any railway or railway company, whether approved of by the Railway Committee of the Privy Council or not, shall be so construed as to allow on and after July 1, 1892, any rate of fare for way passengers greater than two cents per mile to be charged or taken over the track or tracks of such railway or company east of a meridian line drawn through Port Arthur in the Province of Ontario."

The Senate met this evening at 8 and sat for some time transacting routine business.

The Speaker has issued his warrant for an election in Chicoutimi, but as the voters' list for that county are still in the printer's hands it will be some little time before the writ is issued.

Mrs. Wyndham Gets a Letter.

CLIFTON, Ont., June 22.—Mrs. Wyndham, who was deserted by her miscreant husband, Capt. Wyndham, at this place while on their wedding tour, has received a letter from him, mailed in England. He claims that financial embarrassment caused him to leave her, and states that since she has denounced him to the public generally he does not want anything more to do with her. It is said that Wyndham also left a wife at Portsmouth. His late bride is stopping at the Windsor House here and is earning a living by nursing.

Jack Bartram's Cancerous Eye Removed.

HAMILTON, June 22.—Jack Bartram's cancerous eye, which played such an important part in the make-up of its interesting owner during the Heslop trial, is now literally "out of sight," it having been taken out entirely this morning, and for the rest of his days the notorious crook will go through life with the assistance of but one optic. The delicate operation of cutting out the cancer was performed by Dr. Rosebrugh, the Toronto oculist. The operation is considered to have been a successful one.

A Girl Abducted from Thamesville.

THAMESVILLE, Ont., June 22.—A warrant is out for the arrest of John Jaques, a married man of about 40 years of age, about 5 ft. 10 inches in height, weight 180 lbs., for the abduction of Maggie Cowal, 13 years of age, near 5 ft. in height, weighing 100 pounds. When the girl left home ostensibly to go to a neighbor's she had on a red dress, with cream lace about the throat, a black straw hat with lace and a white flower. She is light-complexioned, with brown hair.

Postoffice Robbed and Burned.

ST. JOHN, N.B., June 22.—The postoffice at Sackville was entered at 1 o'clock this morning, the safe blown open and its contents, including 11 registered letters and a small sum of money, taken. The burglars then set fire to the office, destroying a large amount of stamps and postal cards, but the fire was discovered by parties driving by before it had made much headway.

Did Not Live to Enjoy It.

WINNIPEG, June 22.—Rewards have been offered amounting to $1100 for the recovery of the body of Kjosterund, mounted policeman, who was drowned at Fort Kipp a week ago. The day of the drowning a cablegram was received at Macleod announcing that he had been bequeathed over $40,000 by the death of his mother in Norway

CLEVELAND WILL WIN

THE OPPOSITION TO HIM ALMOST FIZZLES OUT.

All the Ante-Convention Indications at Chicago Point to the Third Nomination for President of the Tariff Reformer by the Democrats—New York Leaders Worsted.

CHICAGO, June 22.—The Democratic National Convention on its opening day has not the interest of the convention held two weeks ago at Minneapolis. The opponents of Mr. Harrison kept up a bold front until the third session of the convention. They claimed, even an hour before the nomination was made, that they had hopes of success. The men who have been fighting Cleveland most bitterly have given up all hope. They have even stopped the sheeting of their followers in the corridors of the hotels, and the convention opens as tamely almost as the Cleveland ratification meeting at St. Louis four years ago. Tammany men did not give up the battle until an early hour this morning. They have not made a formal surrender yet, but as the various state delegations determined one by one to support Cleveland as a unit, the anti-Cleveland case grew more and more hopeless, and when the news that Illinois had refused to break from its instructions came in the battle was over. Only two favorite sons remain in the fight uncompromisingly, Hill and Boies.

The general air of quietude about the Tammany and Hill headquarters this morning was indicative of defeat, and it was noticeable that the leaders made no more claims of any chance of winning for Mr. Hill. Assemblyman Timothy Sullivan of New York city stood in the waiting room of the State Committee and said, "We might as well take our medicine gracefully. We are beaten out of sight and the only thing to do is to turn in and elect Cleveland." The rest of the Tammany chieftains nodded assent.

Chairman Murphy when asked the situation said: "We shall present the name of Senator Hill to the convention, and New York State will vote solidly for him. We must fulfil our pledge. We have worked hard for our candidate and we are evidently beaten, but that should not make us desert him."

The Scene in the Wigwam.

The convention was roped in like a gigantic prize ring and guarded by a strong force of police. It was a muggy, sticky, sweltering Chicago day. The air was so thick with smoke that respiration was difficult. Occasionally the sun struggled through the gloom only to make more plainly visible the perpetually-descending soot flakes. Through these cheerless surroundings the vast crowd forced their way, hedged in by alternate layers of livery stables and huge Chicago office buildings on one side and by tall bill poster boardings shutting out the view of the lake on the other side.

Conspicuous painted signs announced the different sections where tickets of admission to the wigwam had been issued, and a small army of deputy sergeants-at-arms superintended the process of packing the delegates and spectators into their allotted places. Fully two hours before the time set for the commencement of proceedings the crowds began to climb the outside stairs and tumbled themselves inside the ugly wooden box.

Perambulating bands and marching processions innumerable kept outside life to the streets. But inside the building the effect of the decorations was lost in immensity of space and depressing obscurity of the opaque atmosphere. The constructors of the wigwam claimed that it would pack 20,000 people standing and seated 19,000. Apparently these limits were reached, but as for hearing the speeches or discerning the features of the speakers the great majority of the audience was about as well off as the onlookers at a spectacular exhibition of the "Fall of Babylon."

Nevertheless the discomforts were in great part taken good-humoredly, and to be in and form a part of a great national Democratic convention seemed to be soul-satisfying glory enough even for the most exacting.

An unexpected burst of sunshine just before the opening lit up the building and raised the already superheated temperature a few notches higher.

Scenes and Incidents.

The first cheers, rather feeble then otherwise, were drawn by the entrance of a Boies club at 11.50.

The New York delegation, headed by Governor Flower, Bourke, Cockran, Murphy and George Raines, came in directly afterwards and were received with a Tammany yell.

Pennsylvania entered later with a banner so much larger than any of the other states that cries of "Pull it down!" "Take a reef in it!" were raised. Directly afterwards a rain and thunderstorm arose, necessitating the lowering of canvas around the air and light spaces under the roof. The darkness thus produced made the Chicago convention at midday as gloomy for the time being as the Minneapolis gathering was at night when the electric lights were shut off. Occasional bright flashes of lightning lit up the hall. It was a welcome relief, and was hailed with cheers when the band in the gallery back of the chairman at 12.15 struck up a lively air.

The storm was not of long duration. In 10 minutes the hall began to brighten. At 12.30 most of the delegates were in their seats, but the galleries were sparsely filled.

The Proceedings Inaugurated.

Chairman Brice of the National Commitee was on the platform. His entrance passed unnoticed, but though everything seemed in readiness there was some further delay and even the intermittent applause from the galleries did not hurry the proceedings. The Michigan delegation was the last to march in. Its big white and gold banner was carried ahead of it.

Five minutes later ex-Governor Campbell's entrance was greeted with cheers and applause, the Ohio delegates rising in his honor.

As most of the delegates were in their seats many of the silken banners with names of states were folded up and put away.

At 12.42 Chairman Brice came to the front of the platform, and standing with gavel in hand called the convention to order.

Rev. John Reese, having offered up prayer, Chairman Brice introduced Chairman Owen, who, in a short address, pointed out the danger threatening the Democratic party from internal dissensions and urging unity and harmony. Concluding, he said:

"Impelled by a purpose, and that purpose the public good, we will free ourselves from the bickerings and heartburnings that characterized the Republican party when its Marshal Ney went downat Minneapolis before the mailed legions of the bread and butter brigade."

Mr. Owen had a respectful and interesting hearing, but there was no great enthusiasm over his remarks until he came to the lexicon of the bread and butter brigade. Then the convention cheered again and again.

The various committees were selected and the rules of the last Democratic national convention were adopted to govern the proceedings of this convention.

Hill Practically Out of It.

CHICAGO, June 23.—The New York delegates met at 10.30 o'clock and had a very long and hot session. It was announced that Mr. Hill's chances had ceased to exist, and the statement was made that Mr. Cleveland would undoubtedly be nominated on the first ballot. In an instant Mr. Croker was on his feet advocating seconding the Cleveland nomination. Mr. Murphy, however, backed by Mr. Sheehan and Mr. Ridgeway, said it would be unworthy for the state at this time to drop its candidate.

A lively tilt ensued. Mr. Gilroy of Tammany also insisted on turning down Hill as a candidate. Gilroy said that the attitude of Tammany was being ridiculed. Tammany was for the Democratic nominee, and Mr. Hill's chances having failed it should be on the winning side.

Mr. Murphy argued that the February convention had specifically instructed delegates to vote for Mr. Hill, and it was their duty to do so. The views of Mr. Murphy were sustained at the delegation meeting, but it is alleged that at another meeting to-night the decision may be reversed and Tammany may support Mr. Cleveland.

The colored men's National Convention met to-day. The roll of delegates showed 17 states represented. The committee adopted resolutions pledging support to the Democratic party's national candidate and calling for an expression in the platform more clearly defining civil rights.

Sympathy With Blaine.

Mr. Cable of Illinois offered a resolution:

That this convention tender its profound sympathy to that distinguished American, James G. Blaine, in the many afflictions which have befallen him.

The reading of the name of Mr. Blaine was the signal for an outburst of greater enthusiasm than the convention has known before.

The resolution was adopted without dissent.

The convention then adjourned until 11 o'clock to-day.

Playing Their Last Card.

CHICAGO, June 22.—The anti-Cleveland men prepared to play their last card last night. They sent emissaries this evening to all delegations which were not bound by the unit rule to vote for Cleveland to try to obtain pledges to an agreement not to vote for Cleveland under any conditions. With the pledges of more than one-third of the delegates to such an agreement they can deadlock the convention. The argument that they used was "party expediency." To-night the Hill leaders figure 319 votes pledged against Cleveland on the first ballot, and say that they have assurances of a great many more.

CARRIED THE BALL 28 YEARS.

The Other Day He Coughed It Up and Now Feels Like a New Man.

PETERSBURG, Va., June 22.—At the Battle of Spottsylvania Court House, April 14, 1864, W. D. Walton of this town was struck by a minie ball in the arm pit. The ball has been in him ever since.

For years Mr. Walton has been in bad health. An abcess formed on his breast where the ball was lodged. The abcess broke and a quantity of matter came from it. Shortly afterwards in a coughing fit he coughed up the ball.

Mr. Walton now looks and feels like a new man. His appetite, which was before very bad, now can scarcely be satisfied.

Three Giants Come on the Aurania.

NEW YORK, June 22.—The registry clerks at Ellis Island were astounded yesterday at the appearance of three giants who were landed from the steerage of the Aurania. The first was Gustave Andreasen, a Swede, 20 years old. He was 7 feet 4 inches in height, weighed 280 pounds and was bound for Chicago. The second was Michael Nicholson, 25 years old and a native of Ireland. He was 6 feet 7 inches in height and weighed 280 pounds. The third was Thomas O'Brien, 24 years old, an Irishman from Galway, who stood 6 feet 6 inches in his stocking feet and weighed only 180 pounds.

Ministers Enrolled in Salvation Ranks.

NEW YORK, June 22.—The Rev. Dr. Charles A. Briggs, the Rev. Dr. Lyman Abbott, pastor of Plymouth Church, Brooklyn; the Rev. Dr. B. F. de Costa of the Church of St. John the Divine and the Rev. Henry Wilson, formerly Dr. Rainsford's assistant at St. George's Church, as well as Mrs. Abbott and Mrs. Briggs, have taken an action the announcement of which will undoubtedly be a great surprise to many of the more orthodox of church members. They have enrolled themselves in the Auxiliary League of the Salvation Army, and by this action have signified their approval of the objects of that organization.

Golden Wedding Bells—Ring out for the Fiftieth Anniversary of the Marriage of Mr. and Mrs. Thomas Houlihan.

(From Our Own Correspondent.)

An unusual event in the Township of Smith and an unusual one in matrimonial experience was the golden wedding of Mr. and Mrs Thomas Houlihan which was handsomely celebrated on Friday night. There were present a large number of relatives and neighbours the former including Messrs. Thomas and Ambrose Houlihan, of Buffalo, N.Y. Mr. and Mrs. Houlihan who have passed half a century of life side by side are among the pioneer residents of the township and have passed the long years of their life winning respect and esteem from a very wide circle of friends and acquaintances. They received cordial congratulations from all quarters and were substantially remembered by numerous handsome and costly presents. A delightful evening was enjoyed by those fortunate enough to spend the evening at this auspicious reunion. The EXAMINER cordially unites with their hosts of friends in giving the heartiest congratulations and good wishes for many happy years yet spent together, and expressing the hope that the signal for separation may long be delayed.

Save the Helpless Babies!

This is a Critical Season!

THE experience of hundreds of physicians, public institutions and mothers proves that Lactated Food is the safest article that can be used as the diet of babies and young children during the hot months, when so many fall the victims of those fearful scourges, cholera infantum and dysentery.

Thousands of young infants die every summer, simply because they receive improper and insufficient nutrition.

Proper and sensible diet for the infant in summer weather is of the greatest importance, as life depends upon it. Lactated Food is acknowledged to be a prime necessity for every infant who cannot be wholly nourished by pure and healthy breast milk.

Lactated Food has an important influence in overcoming any irritable condition of the stomach and bowels, and thus becomes an infants' food of great value. It is a food which nourishes every part of the system and is digested and assimilated with the greatest ease.

Facts About Dyspepsia.

Wrong action of the stomach and liver occasions dyspepsia. Dyspepsia in turn gives rise to bad blood. Both these complaints are curable by B. B. B., which acts on the stomach, liver, bowels and blood, and tones and strengthens the entire system, thus positively curing dyspepsia, constipation, bad blood and similar troubles. dw

Keene.

(From Our Own Correspondent.)

On Saturday, the 11th inst, a game of baseball was played in our school ground between the Keene boys and a team from Hiawatha. The Keene boys were the victors, but on Saturday afternoon last the Keene boys were defeated by the Hiawatha boys on their own grounds.

Mr. Strethers, of Toronto gave a fine stereopticon exhibition in the Presbyterian church on Friday evening. There was a fair attendance. The scenes were beautiful, and much appreciated by the audience.

It is with feelings of regret that we chronicle the demise of Mrs. James Wood, which sad event occurred on Wednesday, the 15th inst. The deceased had been in poor health for some time. She was a devoted wife, a loving mother and a kind neighbor, and will be sadly missed by her neighbors as well as by her husband and family. We tender our heartfelt sympathy to the bereaved family and relatives and trust that their loss is her gain.

A horse belonging to Mr. Duncan, of Lang, while leaving Mr. Harry Cruickshank's blacksmith shop became unmanageable and ran for some distance, badly demolishing the buggy to which it was attached, but luckily Mr. Duncan escaped uninjured.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with sage herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE AMERICAN DOCTORS

(29 Years practice in Europe and America.)

A staff of eminent American Physicians and Surgeons have opened an office for medical and surgical attendance, at No. 2323½ Catherine Street, Montreal. They give free services to all who call upon them before August 1st, 1892, and frankly tell you if your case is curable or not. All incurable cases are rejected. Special attention is paid to every case. Invalids living outside of Montreal should address their letters to Mr. JOHN MURE, Manager, and inclose two 3 cent Stamps for symptom blank and question sheets.

To "Simon, the Poet," North Monaghan.

Dear, Simon, your poem I have read,
I read it o'er with fear and dread,
That wrath had fallen on my head,
And that I had come under your ban,
But, then, it really made me laugh
For nearly a minute and a half,—
I thought you had written my epitaph—
The way you talked to Shantyman.

You say I am an oddity,
And yet you claim sobriety;
Did you speak in real honesty?
Or have I come under your ban?
I only said you must have the blues
To compare your M.P.P.'s to our Sam
These were the words that I did use, Hughes
These words were used by Shantyman.

You say that I have lots of cheek,
Because of Hymen I chanced to speak,
If rhymes has made you so weak,
Why should I come under your ban?
Cast off your rhymes, take a wife,
Or a half a man you'll be for life,—
I'm for your good and not for strife—
So be advised by Shantyman.

Well, Simon, if I must speak my mind,
A very queer fish in you I find,
Yet I am glad to know you are not inclined
To place me under your ban.
I am glad to hear you are not offended,
But take things as they are intended,
I hope your charity will be extended,
To cheer the heart of Shantyman.

But say, you seem to have self-esteem,
Why of my sister did you dream?
This rhymes I fear is only a scheme,
To place me under your ban.
Presumption, no, I'll be more meek,
But shantymen have lots of cheek,
I suppose you did only seek,
Acquaintance with the Shantyman.

Now, brother poet, there's meaning in it,
I accept your friendship this very minute,
Do not put off, but now begin it,
And take me at once from under your ban.
I'll soon expect to hear a roar,
Or a rap some day at my hall door,
A half a man you'll be no more,
Once in the clutches of Shantyman.

Come, come in fine or rainy weather,
We both will write our rhymes together,
The girls around you I will gather,
Now, surely I'm not under your ban.
Come right along let what may betide,
And all your rhymes cast aside,
I'll send you home with a Kinmount bride,
And you will bless the Shantyman.

SHANTYMAN.

Kinmount.

[The above places on a par the parties to this poetical controversy and we must ask that it be brought to a close. Would our friends also note that our reading space is so largely encroached upon by advertisements, that we have not enough room for the current news, and in this practical age practical matters must be given the preference to sentimental matters, and poetry is largely a matter of sentiment.

Single Dahlias.

The growing of dahlias from seed is one of the pleasures of gardening, and the wonder is that the practice is not more universal, since it is attended with so little trouble in proportion to the success attained. A correspondent in the American Agriculturist explains that seeds grown in a hotbed or in pans in the house will make good flowering plants by the middle of July; in fact, they come into flower nearly as soon as when the roots are planted out in May. The plants should be set in rows three feet apart and a foot apart in the rows, so that if one-half of the plants produce flowers that are not desirable they may be thrown out, and the remainder will amply cover the ground. A great cause of failure in planting dahlias, as with most other flowers, comes with planting too closely. Plants must have room for their perfect development. This rule is generally disregarded, and as many as twenty plants are allowed to occupy the space that is but sufficient for one.

Sheep Dipping Tank.

The V-shaped tank about 16 feet long, 4 feet deep, 2 feet wide at the top and 8 inches wide at the bottom is a good size. Dip immediately after shearing. Each grown animal will take out of the tank from two quarts to a gallon of wash. If 200 or more animals are to be dipped I would construct a dipping platform of matched boards, dressed on one side, at least 16 feet square; break it at the center and have the floor slant to carry a good 3-inch stream back to the tank. A tank and dipping stand such as I have described would have a capacity of 1,600 to 1,800 sheep per day if the sheep were fed into the tank regularly and the tank kept full, say six to eight soaking all the time.—F. E. Burch, in American Agriculturist.

How to Graft Nut Trees.

The failures so generally attending the grafting of the hickory are, according to Professor Budd, due to the fact that the operator neglects to prevent too rapid evaporation from the scion while the slow process of uniting with the stock is going on, and that in the moister climate of a large part of Europe this is never forgotten in grafting the nut trees, the mulberry or any other tree known to be slow in uniting. He recommends that, after the scion is inserted and waxed or covered with clay, the whole be covered with a tight paper sack tied at the bottom.

EXTENSIVE CHANGES IN
THOMAS KELLY'S
DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilson, Secretary of Committee.

Fell With a Great Crash.

The Edison General Electric Company have just turned out at the works here one of the largest electric mining locomotives ever built. The United States companies have failed in building the same class of motor, which weighs eight tons. The Edison Company here, however, have manufactured two of these gigantic pieces of mechanism, having shipped one, which is now in successful operation. This large electric motor had been fully tested in the testing room, and had been removed into the machine shop to be lifted on a truck and prepared for shipment. Yesterday afternoon while in the act of being hoisted by the large electric crane, the ropes by which she was slung, when about two feet from the ground, broke on one side, and the ponderous motor turned over, falling to the floor with a crash. None of the workmen were hurt, although one man while placing a skid underwent a marvellous escape. How he got out of the way is a mystery. The floors were smashed, but the amount of damage done to the locomotive cannot at present be estimated.

Hurrah! For Dominion Day!

And also for St. Peter's Cathedral picnic, which is a regular and brilliant feature of the day. It will be held on the St. Joseph's Hospital grounds. The public know that past picnics have been a grand success as well as a first class source of enjoyment, but the preparations for the coming event on July 1st are on a grander scale. An energetic committee have the programme in charge, and the list of sports and games comprise 15 exciting events, for each of which elegant prizes will be given. A first class orchestra will provide music for dancing. And the good ladies will supply dinner at high noon and refreshments during the day. Keep this date open. Admission 25c, children 15c, dinner 25c.

Worth Doing Right.

By referring to Mr. J. J. Sheeby's advertisement in this paper it will be seen at a glance that it is his intention to keep in line with the times. He evidently advertises in such a way as to lead the public to believe that "If a thing is worth doing it is worth doing right." Looking at his window display one is struck at once with the neatness and freshness of the stock shown. For the balance of the month he will continue to show a beautiful line of wool delaines, challies, parasols and lace curtains. The prices must be right judging from the large parcels that are continually leaving the store. His special bargains this week and next will be in black dress goods and silks. The variety shown in this department gives his store a just claim to be named "the Awadome of Peterborough."

A Reminder.

The Emeralds of Peterborough are holding their annual excursion to Toronto on Friday, June 24th, via G.T. Railway. We regret very much to observe that a rival railway have reduced their rates the same as ours, but we do not believe this sort of thing will find favour with the generous public of this town. It has been through the action of the B B A. that this low rate of $1.75 has been secured, we therefore ask every individual who intends visiting the Queen City on the above date to accompany the Emeralds, they having co-operated with the brethren in Toronto to make our visit most enjoyable, and at the same time witness one of the grandest street pageants of modern times. The committee having charge of the excursion will furnish all information on the trains when the parade takes place, where from and also as to the most convenient places to stop while in the city. Trains leave Peterborough at 6.40 and 8 20 a.m. Fare for round trip, good for two days, $1 75 adults, 90c. children. 21

Card of Thanks.

To the Officers and Members of St. Peter's Court, No. 225, Catholic Order of Foresters:

Gentlemen,—I desire to convey to you my most sincere thanks for the noble and affectionate manner that the members of your Court interested themselves in my behalf on the occasion of the death of my beloved husband, Joseph Griffin.

Be assured I shall always feel grateful for your evidence of sympathy. Words cannot express the kind regard and remembrance which I shall ever cherish for you.

May God bless the good work you are promoting, hoping that that the power of the Catholic order of Foresters will be ever felt in assisting suffering humanity and most fervently praying that its influence be felt in every home and family.

I also beg leave to acknowledge receipt of funeral benefit, together with cheque for one thousand dollars, full amount of beneficiary certificate, both of which has been promptly passed to me some time ago.

Again thanking you, I remain

Yours respectfully,
Mrs. Joseph Griffin,
Peterborough, June 20th, 1892.

Battalion Pencillings.

The 57th had an excellent battalion drill last evening in the drill shed and central park. The turnout of men considering the night was fair, and they put in some effective work last night. There will be another battalion parade on Thursday evening, let all the men turn out and fill up the companies. It is only a little over a week before the battalion go to Kingston and with the name Kingston is associated the word inspection, consequently the time for preparation is short. The following orders were read:—

Headquarters,
Peterborough, 21st June, 1892.

Orders by Lieut.-Col. J. Z. Rogers, commanding the 57th Battalion of Infantry, Peterborough Rangers.

No. 1. The order for the brass band for the evening is hereby cancelled.

No. 2. The battalion will parade on Thursday evening next at 8 p.m.

No. 3. All men who go to Kingston must appear on the regiment books as regularly enlisted. The adjutant will be in the orderly room after parade for the purpose of swearing in those who have not been enrolled.

No. 4. The officer commanding has been pleased to make following promotions: "C" Company, to be sergeant (prov.) Corporal Gaskins, vice P. Goldsmith resigned. To be corporal, (prov.) Pte. Thos. J. Baker, Vice Gaskins promoted.

$15,000 Bankrupt Stock of T. Bolam & Co. to be cleared out at 50c. on the dollar for the benefit of his creditors. This is sufficient for town and country to know.

Personal.

Mr. A Dulmage, of Belleville, was in town yesterday.

Mr. George A Cox has been re-elected president of the Bank of Commerce.

Mr. R. J. Hooper, of Mackleston & Co. Kingston, is in town for a few days.

Mr. W. L. Pope, assistant solicitor of the Grand Trunk Railway, Belleville, is in town to-day.

Mrs. Evans, nee Miss Pengelly, of Waterport, N. Y., formerly of Peterborough, is in town renewing old acquaintances.

Mr. A. E. Ovarell, of Belleville, statistician, is in town to-day with the lacrosse team and favoured the Examiner with a call.

Fred J. Metherall left this morning for Chicago where he will locate. His many friends will wish him success in the great western metropolis.

The condition of Mr. William Hamilton, of the William Hamilton Manufacturing Company, shows very little change. There are slight indications of improvement in some respects, but on the whole he remains very ill.

The Port Hope *Guide* says:—Mr. F. W. Wilson and his brother, Geo. H. Wilson, Toronto, went out to Stony Lake this morning to enjoy a cruise among the islands of of that beautiful water on the steamer "Golden City."

Mr. Richard Tierney, accompanied by his mother and sister, left this morning for New York city where they will reside in future. Their many friends while regretting their departure will wish them every success in New York.

Mr. W. E Roxburgh, of Norwood, was married in Toronto yesterday to Mrs. Wm. Cameron. Mrs. Cameron's many friends in Peterborough, where she resided so many years, and Mr. Roxburgh's numerous friends in East and West Peterborough, will unite in wishing them every happiness and prosperity.

Y. M. C. A. Notes.

Resignation of Mr. R. J. Colville as General Secretary Accepted.

It was with profound regret that the Board of Directors at a special meeting of their association held in their rooms last night, accepted the resignation of Mr. R. J. Colville, the general secretary, who has been appointed to the more important office of secretary to the West End Y.M.C.A. Toronto. Mr. Colville has been connected rather more than three years with the association here, during which time he has done noble work for his Master and won for himself a host of friends and admirers, and the Board have a difficult duty before them in filling his place.

Owing to this unexpected change in their circumstances, it was decided that steps be taken to arrange for the holding of the Provincial convention elsewhere, which was to have met in Peterborough in February next. The time of Mr. Colville's departure to his new home is not yet finally fixed. Arrangements will be made in due course to give him a fitting "send off." What Peterborough loses, West Toronto gains, and that Association is to be congratulated on securing as devoted and energetic a worker as the province contains, Mr. Colville will leave Peterborough with the good will and esteem of all who know him, and him, and his friends can wish him nothing better than that he may succeed in Toronto as well as he has done here in Peterborough.

Hot for Jubilee!

All arrangements complete for the excursion per Golden Eye and palace scow attached and J. Butcher's orchestra on board for dancing, to the R. C. picnic, Jubilee Point, on Thursday. A delightful excursion, delightful enjoyment at the picnic grounds. A big crowd coming. Cheap rates from Peterborough to Jubilee—round trip only 50 cents, children half rates. Splendid weather, magnificent trip. Come one, come all. 2d

Committee Meetings.

A meeting of the Finance Committee was called last night but there was only a quorum present. The Property and the Fire, Water and Light Committees meet but nothing of importance was done. In reference to the extension of the fire hall stables the Property Committee and the Fire, Water and Light Committee will hold a joint meeting to-night to consider the matter. It is understood that instead of the band stand in the park being extended as was originally intended, it being urged that the convex roof drowns and destroys the sound, a new band stand will be built, an open one which will be large and capable of holding the band comfortably. Poles will be erected and lights suspended from them, the present stand being left for ladies and children to use as a sitting house in the day or evening. The new stand will cost little, if any more than the extensions and improvements of the old one. This morning Councillor Young, Chairman of the Property Committee, Bandmaster Millar and Mr. John Kincaid, contractor, visited the park to discuss the matter and form an estimate of the cost. Mr. Kincaid was the one who tendered for the work to be done on the old band stand and his figures are satisfactory to the committee.

—The market this morning was a small one—hardly worthy of the name.

—Kingston is soon to appear in an Illustrated Saturday number of the *Globe*.

—The Court of Revision meets at Norwood to-day. Judge Weller and Mr. E. B. Stone are in attendance.

—The council will hold a special meeting to-night to prepare the sewerage by-law for submission to the ratepayers. General business will also be transacted.

—Mr. J. Castell Hopkins, associate editor of the *Empire*, has purchased the plant of the daily *Times*, Port Hope. Mr. J. B. Trayes, former proprietor, will continue to edit the paper.

—The Shamrock lacrosse team of the south end of the town will play the Norwood junior lacrosse team on July 1st at Norwood. It is probable that a match may be arranged also with Peterborough juniors at an early date.

—The bicycle club will hold a run to-morrow night to Springville, leaving the market square at 7 15 o'clock sharp. There should be a very large attendance at these popular weekly runs. The matter of sending representatives to Kingston on July 1st will be definitely settled to-morrow night.

Police Court.

Wednesday, June 22.

The case of Lewis Merrill, who hails from Uncle Sam's domain, who was committed to gaol on remand charged with stealing a horse and buggy on Saturday night, came up again this morning. Mr. Harry Coombs, of Otonabee, in his evidence stated that he came to town about seven o'clock on Saturday night and tied his horse and buggy under the Phelan House shed. He was crossing the street at the corner of Simcoe and George when he noticed Merrill driving up Simcoe street with his conveyance. He asked the prisoner what he was doing with it, and he replied that he was taking the horse and buggy to the Cavanagh House. Mr. Coombs then ordered the thief out of his vehicle and took it back to the Phelan House. He notified the Chief of Police immediately and he arrested the culprit on the street. Witness said prisoner was a stranger to him, he had never seen him before, and had given no permission to take his horse and buggy. The evidence of several other witnesses was taken and the magistrate committed the prisoner for trial at the next court of competent jurisdiction, which will be at the fall assizes which open on Oct. 31st. Prisoner elected to be tried before a jury.

Blake for Ireland

Is now the talk of every politician throughout Canada and the British Isles, but the whole talk of the citizens of Peterborough is of the E. B. A. excursion to Toronto on Friday, June 24th and just imagine the small price of the tickets—$1 75 for adults and 90 cents for children for the round trip—good for two days per G T.R. via Port Hope at 6 40 and via Lindsay at 8 20 a.m. Secure your tickets in time and take the 6 40 train in the morning and enjoy the healthful breezes of Lake Ontario, arriving in Toronto in ample time to see the grand uniformed corps of the Knights of St. John, in procession to the number of 15 00). Remember also that Friday is a half holiday in town and by attending the excursion you will only lose a half day. Everyone is going, why not you? Husbands bring your wives and young men your sweethearts. This is to be the best excursion of the season and make no mistake. If you remain at home you will be sorry when it will be too late, too late, too late. Tickets for sale at W. J. Devlin's, 160 Hunter street, at F. The Good Derived from

HOOD'S

Sarsaparilla

All Run Down With **Dyspepsia**

The peculiar combination of stomach tonics and alterative remedies in Hood's Sarsaparilla cannot be equalled, and this superiority explains the wonderful success of

This Great Medicine

in cases of Dyspepsia, Indigestion and similar troubles. Mr. T. A. Wheelock, a well known citizen of Burlington, Vt., writes:

"Six months ago I was badly run down and unable to attend to business. The principal trouble seemed to be due to indigestion and aggravated dyspepsia. I had no appetite,

Nothing Tasted Good

and what I did eat distressed me. Added to this was a nervous disturbance. Physicians that I employed failed to reach my case. I grew worse, lost flesh and almost hope. One day I ran across a testimonial for Hood's Sarsaparilla stating what it had done in what seemed to be a case similar to mine. I got a bottle and in three or four days saw that I felt better. Before I had finished the first bottle, was greatly improved. Rested better, felt better, and knew I was

Better All Over

I continued with the medicine, and have taken two bottles and now feel better than at any time for the past five years. Feel as hearty as when a boy. Have regained my flesh, have good appetite, can sleep well, and my nerves are in excellent condition. I would not value a thousand dollars for what it did for me." T. A. Wheelock, Burlington, Vt.

Fully Indorsed

"We have sold Mr. T. A. Wheelock several bottles of Hood's Sarsaparilla and have heard him tell in high terms of commendation what it has done for him. I know that he has recommended

Hood's Sarsaparilla

to many others here. Our customers generally speak well of it." F. L. Tefft & Co., Pharmacists, Burlington, Vt.

Baseball at Lindsay.

The Peterboroughs Badly Defeated by the Lindsay Nine—The Score Stood 19 to 2.

The Peterborough Baseball team returned last night from Lindsay where they had accompanied the St. Peters Court, No. 225, C.O.F. excursion, to play the Lindsay Baseball Club. The match took place in the afternoon on the agricultural grounds and was witnessed by a large number of spectators. The grounds were very rough and the grass long, the diamond being distinctly an "agricultural" field. The Peterboroughs held their own pretty well as the score will show until the eighth innings when they seem to have got rattled as they allowed their opponents to pile up 11 runs, McCabe allowing them to pound his delivery for four base hits. The outfielding of Peterborough was rank in the extreme and accounts largely for their defeat. Then too the boys had no catcher. O'Brien caught four innings then retired and played left field, Smith left field, then tried to hold the leather with varying success for one and a half innings, when he gave way to Pomfret. This interchanging of position, second and first base, left field and catcher all joining in the revolution, could not but presage defeat. Peterborough outbatted the Lindsays, making 13 base hits off the pitcher, McMillan, who is by no means a hard man to bat, and having only three men struck out, while the Lindsays only made 9 base hits and 5 men were struck out. Their catcher, Malcolmson, is a good thrower to bases, and McAdams on first is always there. A particularization is unfair, as the Lindsays all played a united, well fielded and well supported game, while the home team lost by not doing this, as is shown by the error column. Barnes on third and Ray as short distinguished themselves, while McCabe as usual did well.

The Peterboroughs will play the Cobourg baseball club on the P. A. A. A. grounds on Friday afternoon next, Decoration Day.

John Callaghan as umpire gave the best of satisfaction, his decisions never being questioned by either club. Following is the score:

GEO. MATTHEWS.

Somebody Suffers.

Yes, somebody suffers when these great take-em-away-for-nothing sales are announced, but it isn't the promoters, it is the confiding public who are eventually the sufferers. The goods look all right, but wear them, and how soon you will be surprised when they fall to pieces. Our reputation for selling reliable, trusty, serviceable shoes is quite sufficient to draw people to our store. It wouldn't do for a house of established reputation to indulge in sensational half-off, below cost, give-away sales. There's a moral to all this. Buy the best at Kidd's the bootera, and pay a reasonable price, and no more, and in the long run you will come off the winner. Kidd not only claims, but does sell the best of summer foot wear at the lowest living profit, at 376 George street.

Our Fire Hall Improvements.

The Changes and Improvements Which Have Taken Place Around Our Fire Hall.

For some time past improvements and alterations have been going on at the fire hall, and now the work is completed. Peterborough can look with pardonable pride to the changes which have been wrought and the improvements effected. Everyone is conversant with the arrangements before the alterations, and they need no description. The stable doors leading in the hall have been built anew and raised some two feet higher and new mangers erected on to the doors. The reason for raising the doors was that the former ones were so low the horses often struck their heads while passing out. The weights in the ceiling which hold up the harness have had an oak casing placed around them so that the plaster might not be broken. The biggest improvement of all is the self-opening doors, the ringing of the gong and the stop-clock over the doors telling to a second at what time the alarm was sounded. The driver of the hose wagon, Mr. John Murphy, as soon as the alarm is sounded, merely has to pull a lever fastened to a spring at the front doors and a copper wire leading to the 12 inch gong in the middle of the hall causes that to ring, while another wire branching off the original one causes the iron crossbar which holds the doors in position, to raise at the same time, and by the heavy weights on either corner the doors fly open at lightning speed. The way is all cleared for the horses who the moment that the doors open, leap out on the trot and rush to their respective places in front of the hose wagon with marvellous quickness, and using great horse sense. The horses are also unfastened when the door fly open, and the clock stops to the second. The horses, although only training a short time, have achieved wonderful excellence and do their business as if they were old veterans in this line, which reflects great credit upon their energetic trainer, Mr. John Murphy. The members of the Fire, Water and Light Committee last night inspected the fire hall in a body. The working of the new improvements and the training of the horses were exhibited. Everything worked perfectly, as good as in any large city fire station, and the councillors were well pleased. They felt that the changes they have made in the department has not been for naught. The bay team remains in the stable all the time while the grays team does the street watering. A change will soon be made, and the bay team will take the place of the greys for a time while the latter will be trained along the same lines as their predecessors. This will prove of great convenience and may serve to good advantage in an emergency, as either team, knowing their duties when the alarm is sounded, can be out with the hose waggon quick as thought. One team remains in the stable all the whole night and day. A large number of spectators saw the horses train again this morning and were loud in their praises of the efficiency of the town fire service.

The Outing to Lindsay.

St. Peter's Court, No. 225, C.O.F. Excursion to Lindsay Largely Patronized Yesterday—A Great Success—Games and Sports—Winners.

The excursion of St. Peter's Court, No. 225, excursion to Lindsay yesterday was largely patronized, over three hundred availing themselves of the trip. Lindsay was reached at 9 o'clock yesterday morning and the seven coach loads of human freight unpacked itself for the day. Some spent the morning in viewing the town's many sights, while others adjourned to the exhibition grounds, the principal centre of attraction during the day. Dinner was partaken of here and soon after many of the pleasure seekers were shaking their dainty feet in light steps across the pine floor of the pavillion in the agricultural park. Prof. Batcher's orchestra supplied capital music. Mr. M. D. Murphy was master of ceremonies, and under his able supervision the dancing passed off pleasant and successfully. A fine programme of sports was run off and excellent prizes offered. Messrs. J. P. Shevlin, J. B. Larocque, Dr. Brennan, John Clancy and others had charge of the events of the day. Following is the list of sports and the winners in each. All the events were excitedly contested.

200 yards boy's race—1st, W. Heffernan, 2nd, Samuel Ritchie.

100 yards men's race.—1st, A Moore, 2nd, A. Pomfret.

Tug of war.—Won by Lindsay Team.

Hop, step and jump —1st, Frank Peckenham, 2nd, M. Collins.

Putting heavy weight.—1st, A. Moore, 2nd, J. Meehan.

Running long jump.—1st, M. Perry.

Girl's Race.—1st, Jennie Reilly, 2nd, Susie Guerin.

Married men's race—1st, W. T. Watson, 2nd Geo. Ahern.

Irish jig.—Geo. Dovey.

Throwing baseball.—1st, Mr. Meehan, 2nd, W. E Houghton.

Fat man's race.—Won by J. Meehan.

Man with largest family from Peterborough.—1st, T. Guerin, 2nd, D. Jones.

Prizes for the most active member of the Excursion Committee was awarded to Mr. J. P. Bryson who generously distributed them among the rest of the committee as he thought all the committee had tried to do their best to make the picnic a success.

The sports were concluded at 6 o'clock, and were highly enjoyed by all present. The various events were open to all outsiders, but as the list will show Peterborough boys, as usual, came out ahead. The excursion's returned at nine o'clock, happy and contented with the day, its pleasures and its associations. Those who contributed actively to the financial and numerical success of the picnic and to whom the credit can be ascribed, were Messrs. J. P. Shevlin, M. O'Reilly, W. T. Watson, W. J. Overend, J. B. Larcque, E. Godin, J. P. Bryson, J. A. Harley, Dr. Brennan and M. D. Murphy.

The Steamer 'Golden-Eye'

To the Editor of the Examiner:

DEAR SIR,—I was pleased to read the letter which appeared a few days ago in your columns, congratulating the management and crew of the steamer Golden-Eye on the way they are handling that boat this year. In company with a party of friends I took a trip to Rice Lake a few days ago, and can endorse every word Mr. Collins said. The trip is simply delightful — particularly at this season of the year—the water being high and the beauty of the scenery enchanting.

That the steamer is in good hands this season is evidenced by the fact that she leaves and arrives "on time," while the officers and crew are exceedingly obliging and courteous.

I quite agree with Mr. Collins that Mr. Calcutt should be encouraged in his efforts to give the public a good steamboat service on the lower waters. There is nothing more health-giving than the fresh and invigorating air off the water, which can be had for a mere nominal cost, thus placing it within the reach of everyone.

In conclusion let me point out another great advantage this route has over all others, and that is there is no "changing cars."

Thanking you, Mr. Editor, for your valuable space,

I am, yours truly,
WM. WALSH

WHY THE BOYS LIKE HER.

They Can Appreciate the Tailor-Made Suit and They Admire Her in It.

"I encourage her because she is the living example of the beauty of cleanliness. She can't be anything else and look good form. Imitating he brother, her skirt and coat have to be well brushed; again imitating him, her shirt must be immaculate and the collars and cuffs on it as white as the driven snow, and as unwrinkled as a baby's face. She has a certain amount of latitude in color as far as her scarf is concerned, but it must be tied in the most precise way and exactly after the manner of that affected by the gentle dude. As far as her belts go she can be as fanciful as she pleases; sometimes she chooses a belt that will draw in tight and display the slenderness of her waist as compared with the breadth of her hips, and again she will choose a soft sash knotted at one side, and say unconsciously: 'Don't I make a girly-looking boy?' But the keynote of the whole get-up is neatness and exquisite cleanliness, and so I approve of it."

The other woman had been listening to this tirade with wide-open eyes, and then she asked, in a very positive way:

"Who are you talking about?"

And the lady with an opinion said:

"The tailor-made girl. One reason why she is bound to keep herself, as her English cousin would say, 'fit,' is that the men can criticise her toggery. They know about shirts, scarfs, and cutaway coats, and some of them are far enough advanced to have an opinion about well-fitting skirts. They will discuss for hours exactly the sort of get-up that their favorite young woman should wear, and really, my dear, I never thought talking about dress was a bad thing, for when the men are doing that they are not making love, they are not making scandal. What do I think is good style? Here is a picture of the very best: it is that of an English girl. She has on a plain black cloth skirt, a blue and white striped shirt with white collars and cuffs, a black cloth jacket faced with silk, and a black sash. Her scarf is of white China silk and the pin in it is of pearls and diamonds. Generally she wears a black belt, but to be a little out of the common she has donned this soft, pretty sash. Now, that girl has to be immaculate, which is the reason, I say positively, that the tailor-made girl is the best evidence of the advance of cleanliness."

And the other woman went right off to a tailor, a shirt maker, and a haberdasher and bought and was measured, and next week she will be out as not a horrible but a most desirable example.

The Author of "Beulah."

Mrs. Wilson is not a rapid literary worker, writes T. C. De Leon in a delightful sketch of the home life and personality of Augusta Evans Wilson, in the new series of "Literary Women in their Homes," in the June Ladies' Home Journal. In the writing of a novel she never begins the manuscript until the entire plot and characters stand out clearly before her. So clearly photographed is the story upon Mrs. Wilson's mind that she could as easily begin by writing the closing chapters of a book as the opening portion. In the case of her novel "Vashti," for example, the description of Mrs. Gerome's death was written before a word of the first chapter was penned. Mrs. Wilson's care of details are shown in the fact that for several years before her last book, "At the Mercy of Tiberius," was published, she investigated electrical phenomena, especially freaks of lightning, and collected eight well-authenticated accounts of electric photography. Among these were four remarkable instances of human faces photographed by lightning on window panes. On this basis of fact Mrs. Wilson built her novel. In view of these facts, now printed for the first time, the ridicule of the literary reviewers touching the lightning photograph on the window-pane at "Elm Bluff" as "impossible, absurd and sensational," must have sounded rather strange and amusing to Mrs. Wilson.

MRS. WILSON.

The Long Trailed Gown.

The men of Maine have put their feet down in regard to the wearing of long trailed gowns by their womenfolk. They have gone to the length of forming a society for the purpose of doing away with a nuisance which they justly but idly stigmatized as "unhealthy and dirty." They have agreed together that they will not appear in public with any lady with a long skirted frock, no matter if she be their nearest and dearest; and the membership of the club is said to be already large. Unless the women of Maine are far behind their sisters in other parts of the world in independence and in decision, it will not be long before the members of that club will be solemnly led forth in the eyes of all the world, each in the keeping of a woman who for the occasion wears an extra long gown sweeping behind her in the mud. The fair sex may be coerced in many things, but not in the matter of clothes.—Boston Courier.

Fashion Dots.

Wide baby sashes of moire or fancy ribbon will be very much worn with summer dresses.

Breakfast jackets are made of flowered delaines and nainsook, and trimmed with Valenciennes lace and ribbons the exact shade of the pattern.

Dressing gowns are almost as pretty as tea gowns. One made of pink wool stuff has white lace about the neck, a hood frilled with lace and a girdle of white silk cord.

The newest shirts are made of French batiste, colored or white, and have a broad turned-down collar reaching almost to the shoulder. Beneath this is tied a small edition of the "Windsor" tie.

A novel summer cloak to wear over a silk dress is made entirely of black lace, with large bishop sleeves and a ruffle of lace at the neck. It falls in loose folds, has no lining, and reaches to the feet.

The latest report says that Chauncey M. Depew will be appointed U. S. Minister to England and that Robert Lincoln will go to Washington to succeed Blaine as Secretary of State.

Miss Stowell of Melbourne and Miss Abbott of England have carried the highest honors in the Cambridge examinations, coming out equally with the men of the first class, first division.

The Marquise de Belbeuf, who is the sister of the Duke of Morny, is said to have appeared in a box at an exhibition in the "Vieille Amerique," at Neuilly, France, dressed as a man, smoking a cigar and kissing her hands and throwing flowers to the ballet girls on the stage.

Little Things That Tell.

It is the little that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effectual, they are rapidly supplanting the old-style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort. o

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

"German Syrup"

G. Glogei, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief." ©

THE GREAT BLACKMAIL CASE.

Thomas Neil Before the Bow-Street Court in London.

LONDON, June 21.—Thomas Neill was brought up on remand before Sir John Bridges in the Bow-street police court to answer to a charge of attempting to extort money from Dr. Joseph Harper of Barnstable. It is alleged Neill, who claims to be a doctor and the representative in London of G. H. Harvey, a drug manufacturer of Saratoga, N. Y., wrote under the name of Murray the following letter to Dr. Joseph Harper.

DEAR SIR,—I have to inform you that one of my operators has positive proof that W. Harper, medical student of St. Thomas' Hospital, and son of Dr. Harper of Barnstaple, is responsible for the deaths of Alice Marsh and Shrivell, he having poisoned these girls with strychnine. This proof you can have on paying my bill for services to George Clark, detective, of Cockspur-street, Charing Cross, to whom I will give the proof on his paying my bill. Yours respectfully, W. MURRAY.

The sum referred to in the letter amounted to £1500. At the previous hearing Clark, the detective, testified that he had received a letter signed Murray, reading thus:

"Dear Sir: If Mr. Wyatt, the coroner, calls upon you with regard to the murder of Alice Marsh and Emma Shrivell, you can tell him you can give proof positive that W. Harper, medical student of St. Thomas Hospital, son of Dr. Harper, of Barnstable poisoned these girls with strychnine, provided he pays you well for your services. I will give you the proof when he comes to our terms. I will write you again in a few days. Yours respectfully, W. H. MURRAY.

When the case was reported it was thought to be nothing more than a common blackmail case. It subsequently transpired, however, that the Scotland Yard authorities reason to suspect that Neill himself had poisoned the two girls. The police also had a strong suspicion that he was concerned in the taking of two other girls, Ellen Doddsworth and Matilda Clover, whose deaths are now known to have been caused by strychnine. At the inquest on the body of Ellen Doddsworth, it was shown that she had met her death from strychnine and morphine combined. After the deaths of the Marsh and Shrivell girls, the peculiar circumstances attending the death of the Clover girl were called to mind and her body was exhumed for examination. At the hearing to-day evidence was given showing that she, too, had been poisoned with strychnine. Great interest is manifested in the case, and the courtroom was crowded with curious listeners, including a number of young girls of the unfortunate class to which the victims of the poisoner belonged. Angers Lewis, who is prosecuting the case on behalf of the treasury, produced letters that Neill had written to William Frederick Smith, son of the late William Henry Smith, who represents the Strand division in the House of Commons, and Dr. William Henry Broadbent, of 34 Seymour-street, Portman-square. In these letters Neill made threats against Smith and Broadbent in connection with the poisoning of the Marsh and Shrivell girls and attempted to levy blackmail. Mr. Lewis also produced a letter written by the prisoner regarding the death of the Glover girl. The prisoner was again remanded. It is thought a charge of wilful murder will be made against him.

Keep the Works in good order.

NORMAN, Ont., January 13, 1892.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.
Yours faithfully,
H. F. ATWELL.

RUSSIAN SHEEP DOG.

The Owtcher a Tried and Faithful Friend of the Sheep Owner.

The vast steppes of Russia are in many respects similar to the great plains of our own northwest. The Scotch collie in the northwest has suffered occasionally from the cold in our extreme winters. To some extent the owtcher, or Russian sheep dog, has been substituted for the faithful collie. Wherever he has been thus tried, the owtcher had proved to be the sheep owner's most faithful friend and servant. We hope he will be further experimented with, as he promises to be a most valuable dependence for stock raisers.

The American Cultivator gives this information about the owtcher:

The old province of Ukraine, which is now incorporated in the Russian government district of Kiev, is an extremely fertile country, but only sparsely populated. The greater portion of this territory consists of vast, slightly undulated steppes which are watered by the Dneiper and its numerous tributaries. The wealth of the inhabitants consists of live stock, and particularly sheep, of which enormous flocks are kept. One of the largest landowners is Mr. Falz Fein, and the number of sheep on his runs is so large that he can only form an estimate by the number of dogs which are required to guard them, and there are generally 5,000 kept for that purpose. On an average forty sheep are apportioned to each dog; the total must, therefore, reach the prodigious figure of 2,000,000.

These sheep dogs have a long coat, which very often gets matted. The color generally is a kind of gray, formed by a mixture of black and dingy white hair. The medium height is twenty-eight inches, and their tail is always short, frequently carried very gayly, and only sparsely coated. Sometimes there exists only quite a rudimentary trace of a tail. The breed is highly esteemed in Russia, where it is known by the name of the Owitcher.

Live Stock Points.

Fall pigs do best when farrowed in September.

June is the month in which to breed for fall pigs.

Potatoes fed to a cow will increase her flow of milk.

Use only soft twine for tying wool. Binding twine cuts wool.

Hogs running on a clover pasture should have besides a grain ration.

The weaning time for lambs is from early in May till the middle of August, according to the age and condition of the lamb.

Peas in the northwest make an excellent food for hogs. The best time to turn the hogs upon the green pasture is when the peas are in milk.

Why is not a draft horse race prepared as one of the attractions for fairs this fall? There would be quite as much fun in it as in a race between thoroughbreds.

If the lambs are not doing well wean them early and let them have good pasture along with oats, oil cake and bran. If, however, they are thriving, they may run with the ewe as long as it is possible without weakening her down too much.

The Apple Orchard.

With other valuable suggestions made by Professor Lazenby at an Ohio horticultural meeting were the following:

Never plant deeper than the tree stood in the nursery row. Never omit applying a mulch to young trees if there is the slightest danger of a drought. Never forget that low, stout (not stunted) trees are preferable to tall, slender ones.

Never forget that a hardy, vigorous, productive variety, of medium quality, is infinitely more desirable than a feeble growing, shy-bearing variety of much better quality.

Never buy a large number of varieties for a strictly commercial orchard. This is a common and serious mistake. Five varieties are usually too many; three are better and a single one may prove to be the best of all.

Never fail to have a succession of apples for home use. For this purpose a few trees each of a somewhat larger list of varieties may be selected.

Italy's Financial Situation.

ROME, June 21.—In the Chamber of Deputies Premier Giolotti announced that the financial situation had greatly improved and that a balance between revenue and expenditure would shortly be attained.

After this statement a bill granting the Government supplies for six months was approved by a vote of 99 to 16.

THE PROPOSED IMMIGRATION OF SCOTCH CROFTERS.

A Lively Discussion in the British Commons—Opening of the Trial of Ravachol—Gladstone Seeking to Unite the Irish Factions—Frightful Accident on a Steamship—Engineers Scalded to Death.

LONDON, June 22.—In the House of Commons yesterday the Radicals strongly opposed the bill authorizing a loan to British Columbia to enable the Scotch Crofters to settle.

The stand of the Opposition was that there was plenty of ground in Scotland for all the people if the game preserves should be abolished.

Sir John Swinburne (Liberal) urged that British Columbia ought to pay full interest on the loan, in view of the fact that the colony imposed a heavy tax on British imports.

The bill passed a second reading by a vote of 66 to 22.

BURYING LEPERS ALIVE.

Horrible Practice That is Said to Exist in Some Parts of India.

LONDON, June 22.—Considerable commotion has been caused by the publication of a report of Surgeon-General Sir William Moore of India, treating of leprosy in that country. Sir William tells a terrible tale of a leper who beseeched his people to bury him alive, and thus get him out of misery and sight simultaneously. The people, more than half willing to oblige the invalid and relieve themselves, forthwith dug a hole, gathered their neighbors about, beat drums and tum-tums in order to drown the regretful cries of the principal actor in the tragedy, and buried him alive.

As Viewed In England.

LONDON, June 22.—Speaking of President Harrison's message advising retaliation against Canada, Hon. Charles H. Tupper, Canadian Minister of Marine, yesterday ridiculed the idea that Canadians would be alarmed at President Harrison's threats. He denied that Canada discriminated against United States vessels. They were treated just the same as Canadian. Mr. Tupper considers the message a mere political trick.

Hon. Mr. Tupper responded for the guests at the brilliant banquet of the Fishmongers' Guild last evening. When friendly references were made to his Behring Sea mission Mr. Tupper thanked the speakers, and acknowledged the remarks as a compliment to Canada and the Canadians.

THE FIEND RAVACHOL

The Trial of the Anarchist for Murder Now in Progress.

PARIS, June 22.—The trial of Ravachol, the Anarchist, now serving a life sentence for dynamite outrages in Paris, opened yesterday before the Montebusson Assize. He is charged with having committed five murders, and with having violated a tomb for the purpose of plundering it. The grave that he violated was that of the Baroness Roche-Taille in the St. Jean Bonnefonds Cemetery.

Among the persons he is accused of having killed were a man named Brunel, known as the hermit of Chambles, and two ladies named Marcon at St. Etienne.

James Beala, the man who assisted Ravachol in the dynamite outrages committed a short time ago in Paris, and Rosalie Soubere Bealas' mistress were also arraigned with Ravachol, charged with aiding and abetting him in the murder of one of the Mesdames Marcon.

Ravachol was examined at great length by the judge concerning the crimes of which he is accused. He confessed that he had murdered the hermit of Chambles, and said he had obtained from the premises occupied by his victim the sum of 31,250 francs. He declared that he stole to save himself from death by starvation and to aid the Anarchists.

Hints of Gladstone's Retirement.

LONDON, June 22. — Edmund Yates cables: Some very curious hints are being put about as to the possibility of Mr. Gladstone's retirement from active political life before very long. I quote them because they are persistently repeated in well-informed quarters. The ex-Premier, so it is said, is seriously thinking of seeking quiet in another place when the general election is over. To this he is urged by domestic influence—for some physical infirmities, not to be wondered at concerning his age, are, I regret to learn, giving anxiety—and possibly by a desire to escape from the growing trade of his followers.

For Preferential Trade.

LONDON, June 22.—The Canadian delegates to the Congress of Chambers of Commerce of the Empire are commencing to arrive. This congress is about to meet to settle on a common plan of action, and hope to agree upon a national Canadian platform. The majority of the delegates seem to favor a preferential tariff.

A few, including some of the Montreal delegates, urge lower colonial tariffs with special regard to British trade.

The Malfeasance Case Against Hon. Mr. Mercier.

QUEBEC, June 22.—The case of the Queen against Hon. Mr. Mercier, for malfeasance of office, was proceeded with yesterday in the Police Court, when the last witness on behalf of the prosecuting party, Mr. A. Charlebois, contractor, was examined as to what he knew about the subsidies voted for the Montreal and Ottawa Railway. His evidence was very short, and the only important fact elicited was that he, the witness, had subscribed into the hands of Mr. Geoffrion the sum of $25,000 for the general election of 1890. He was positive that neither Messrs. Mercier nor Pacaud had anything to do with that transaction. The lawyers then declared their enquete closed and the case was immediately taken en delibere. This is the last political case against Mr. Mercier in the Police Court.

ON FIRE WITH ECZEMA

Terrible Sufferings of Little Baby. Seven Doctors and Two Hospitals Fail. Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face, and head, until he was nearly covered; his torturing agonies were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were eased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

Peterborough, Ont.

Grafton & Co.

393 GEORGE ST.

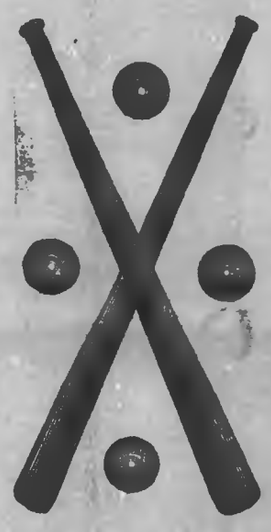
Be sure you find the right place and then you may be sure you will get the right goods at the right price. One thing you will not find in our store is old goods. Everything is made in our own factory, cut by hand in the very newest style and made up equal to any custom work turned out in the Town of Peterborough. It is nothing new for us to hear a man say, this is the first time I ever bought a suit ready-made, but it will not be the last, as long as Grafton & Co. are in Peterborough.

WE HAVE THE NICE, NEAT, NEW STYLISH GOODS!

And are bound to do the trade. We did not rush into Peterborough without letting the people know from whence we came. We are an old established firm in Dundas, where the firm has been running for forty years and had the experience of years before some of the dealers of the present were in existence, or at least were just learning the first lesson in the English language necessary to start through this weary world. There are three branches of this firm—Dundas, Owen Sound and Peterborough. In each of these places

WE LEAD IN CLOTHING

And intend to keep the lead, by doing things on the square, up and up plan. This is the principle we work on. Come and see for yourselves. Don't be afraid to come and look at the goods, you will go away more than surprised to see such good goods for such little money.



HERE ARE A FEW PRICES:

See our 35c. and 50c. Overalls; cannot be bought wholesale for the money.

See our Men's Pants, 95c., $1.25, $1.50, $1.75, $2 and up; these we sell to other dealers at these prices

See our Men's Suits—You who have seen them need no price quotations, you who have not seen them come and be convinced; you will never regret it.

In Boys' and Youths' Clothing we take the lead—we always have and always will. Why not have the boys fitted out in first-class style when you can do it so cheaply.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

CLEVELAND

Nominated at Chicago This morning

ON THE FIRST BALLOT.

He Sweeps the Convention With a Rush.

Scenes and Incidents of the Democratic National Quadrennial Assembly — The Rain Leaked Through the Wigwam and Dampened the Ardor of the Shouters — But There Was Plenty of Noise Nevertheless.

CHICAGO, June 23.—At 4.15 this morning Grover Cleveland was nominated on the first ballot, securing 618 votes. The New York delegation voted solidly for Hill, who only obtained 111 votes.

CHICAGO, June 23.—The morning was bright and clear in direct contrast with the muggy, stormy weather of the early days of the week. It was 11.30 yesterday before Chairman Owens rapped the Democratic Convention to order.

Mr. English of Indiana, chairman of the Committee on Rules and Order of Business, read the committee's report. To the surprise of the convention no minority report was presented and on motion the majority report was adopted without objection.

The entire session until adjournment at 5 p.m. was taken up in the delivery of a series of speeches.

Shortly after the evening session convened a delegate moved to adjourn to 11 o'clock to-morrow. There were cries of "no," and when the question was put and a decisive negative given cheers went up.

Finally the Committee on Resolutions entered the wigwam and Chairman Jones asked Mr. Vilas to read the report. Mr. Patterson, from the Committee on Resolutions, announced that he would present a minority report. The majority report in opening referred to the illustrious leaders from Madison to Cleveland, and mention of the latter evoked an outburst which lasted 20 minutes. The platform denounced the force bill, pledges the Democratic party to keep down government expenses and reduce taxation, demands revision of the tariff without injury to any domestic industry, denounces the McKinley tariff law and endorses the action of the present Congress in moving to modify its most objectionable features, says that since the inauguration of the McKinley Bill there have been ten reductions in wages for one advance, refers to the great mortgage debt on western farms, denounces the reciprocity provision of the McKinley bill as a sham, advocates coinage of gold and silver without discrimination, that both shall be equal in value in payment of debts of all kinds, recommends repeal of the 10 per cent. taxes on state banks, calls for the enforcement of laws regulating civil service, expresses sympathy with Ireland in its efforts to obtain Home Rule, denounces any attempt to restrict the immigration from any land of the industrious, advocates the improvement of the Mississippi River and recognizes the World's Columbian Exposition as a national undertaking, thinks Congress should make necessary financial requisition consistent with the honor of the nation.

At 7.20 Neal of Ohio, for the minority, presented a substitute for the tariff section, which denounces protection as a fraud, amid great confusion, cheers and hisses.

Chairman Jones of the Committee on Resolution announced that the committee had decided to accept Mr. Neal's amendment, which is a positive declaration of tariff for revenue only.

Tariff for Revenue Only.

Mr. Neal offered a motion to substitute the minority report on the tariff and a call of roll of States was demanded on the motion.

The minority report was adopted by a vote of 564 to 342. It relates solely to the tariff, and is as follows:

We denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to enforce and collect tariff duties, except for the purpose of revenue only, and demand that the collection of such taxes shall be limited to the necessities of the government and honestly and economically administered.

It was substituted for a section, which, in effect, declared that many industries have come to rely upon legislation for successful continuance. Major Patterson then moved to substitute for the coinage plank one to read, "Free coinage of gold and silver, the unit to be of equal intrinsic and exchangeable values."

Patterson was frequently interrupted and the chairman had to appeal to the convention to hear him. Finally Patterson's substitute was rejected and the platform as reported by the committee was finally adopted with the exception of the tariff plank, for which a substitute was accepted.

Wild Scenes in the Wigwam.

There was much animation in the Convention Hall at the evening session, but the first important demonstration was when ex-Secretary Vitus, in reading the report of the Platform Committee, reached the phrase, "From Madison to Cleveland." There was a quick shout of one voice near the platform. It was lost, however, in a flash, for it seemed as though with one impulse the entire 20,000 people leaped upon their chairs, and with hats and handkerchiefs in air 20,000 throats let loose yells and screams that shook the heavy air and almost made the barracks quiver.

In a flash a white satin banner, heavy with gold fringe, shot aloft and was moved to the centre isle. It was the ensign of Michigan, and on one side was a picture of Mr. Cleveland.

The first outbreak had been but a murmur beside the savagery of noise and din that rose then and swept and rolled from side to side of the great wigwam and around and around the amphitheatre.

David Ripped Up the Back.

A man in the rear of the delegates hoisted a picture of David B. Hill. Quick as human impulse moves a hostile hand ripped it from the standard and tore it up, while hisses for and against the act swept in a wave around the hall.

Then came into the arena the crimson banner of Iowa. A sturdy bearer bore it aloft and waved it constantly, while the mass of sweltering people if possible swelled the din and storm of sound.

A tempest ebbed and flowed until 6.47, when Don Dickson of Michigan caused the Michigan banner to be carried from view in order that business might be resumed. There were hisses from the crowd that the guerdon and baton which were the cause of its applause should be removed.

Through all this Tammany men in the centre aisle sat grim and silent, neither hissing Cleveland nor cheering him. Its thunderous disapproval, held perfectly in leash challenged admiration even from those who opposed the Manhattan Indians.

Finally, at 6.43 Mr. Vilas again resumed the reading of the platform.

The Nomination.

At 9.16 a call of States was ordered for the presentation of candidates. Governor Abbett of New Jersey was the first to take the platform to present the name of Grover Cleveland.

When Governor Abbett named Cleveland the hurrah of an hour before was renewed. The delegates sprang to their feet, many of them mounted chairs, hats were thrown into the air, and the noise of the cheering was deafening.

William C. Dewitt of New York arose to present the name of David B. Hill, but a fierce storm was in progress, and to stand on the platform was like getting into a shower bath. Cockran of New York suggested a short wait until the downpour had let up a bit, and confusion reigned supreme. Up in one of the galleries a Hill adherent and a Cleveland supporter were having a pugilistic battle and all around there was much excitement, noise and confusion.

At 10.40 Dewitt began his speech, presenting Hill's name. He said that without New York the Democratic party could not hope to elect a Democratic president. Senator Hill had several times proved his ability to carry New York and was therefore the logical candidate of the party in the nation.

At 11.10 o'clock, when Dewitt had concluded his speech, the eminent Tammanyite, Col. Fellows, ascended the platform to second the nomination of Hill. Fellows informed the convention that New York from its western boundary to the ocean demanded the nomination of David Bennett Hill. Mr. Hill had made New York Democratic in every department and function, and if we give him four years as President he would make the nation as thoroughly so. Fellows spoke for 25 minutes.

When Illinois was reached on the roll call, A. W. Green took the platform to second Cleveland's nomination and was followed by Mr. English of Indiana to the same effect.

Duncombe of the Iowa delegation was the next to appear on the platform. He presented as a Presidential candidate the Governor of Iowa, Horace Boies. He said that for 35 years the Democratic party has chosen all its candidates from the east, and during that time only one Democratic President has been inaugurated.

For over a quarter of a century no man residing elsewhere than New York State has had the honor of a Democratic nomination. In the course of a eulogy of his candidate the Iowa delegation started a cheer, which was heartily joined in, the New York delegates being prominent in the applause.

Fenton of Massachusetts and Henry Watterson of Kentucky seconded the nomination of Boies, and Stevenson of Kentucky and Gen. Collins of Massachusetts seconded Cleveland's nomination.

Montana, South Dakota, also seconded the nomination of Boies, whilst Missouri, Pennsylvania and Tennessee performed a like service for Cleveland.

This closed the formal presentations, after which much confusion reigned, and the sergeant-at-arms was instructed to use force in keeping the galleries quiet.

A motion to adjourn till 11 to-day was made and withdrawn.

At 3.20 a.m. an effort was being made to secure a recess until 10.30, the anti-Cleveland people opposing a ballot at this session.

THEY DIED TOGETHER.

He Shot His Sweetheart and Then Put Bullets in Himself.

PITTSBURG, Pa., June 23.—Emil West shot and killed his sweetheart, Miss Adeline Buttress, aged twenty, in her hair-dressing rooms in Allegheny yesterday and then fired a bullet into his own head and another through his heart. West was a barber, about 40 years old. He had several times proposed marriage to Miss Buttress, but she had put him off. On Sunday afternoon he saw her promenading with two young men. They were her brothers, but West did not know this.

Yesterday afternoon West walked into Miss Buttress' place of business and said he wanted to see her home. She said she would see him as soon as she was through with her customer, Lena Huntsinger.

"I thought the man was joking at first," said Miss Huntsinger, "but when he said, 'You are my wife; come with me.' I began to feel frightened. When Miss Buttress only laughed and continued her work on my hair, the man became infuriated and said: "I will end it all here.' I saw him take out his revolver, and I jumped out of the chair and ran out."

Judge Kingsmill's Daughter Married.

WALKERTON, Ont., June 23.—Miss Pauline Kingsmill, youngest daughter of Judge Kingsmill, was married at St. Thomas Church yesterday to Mr. Langdon Wilks of Brantford. The occasion was graced by relatives from Washington, New York, Virginia, Winnipeg, Toronto, Montreal, Galt and other places. Nine brothers and sisters of the bride took part in the ceremony.

The Insane Preacher Released.

HAMILTON, June 23.—Yesterday afternoon T. E. Shoemaker of Deansville, Pa., got an order from the police magistrate for the discharge of Rev. George A. Reedy, the insane preacher, who has been in jail for a couple of weeks. There has been no change in the condition of the man. Mr. Shoemaker came here at the request of Reedy's mother and he took the unfortunate young man back to the States.

It is not known if Mrs. Reedy, the young bride, accompanied her husband.

Took a Dose From the Wrong Bottle.

FREDERICTON, N.B., June 23.—Robert Neill of Gibson was found dead on the sidewalk yesterday between 9 and 10 p.m. He was on the way to his home in Gibson and had in his pocket two bottles, one containing a remedy for sleeplessness and another carbolic acid. It is thought that on his way home he took what he thought was the sleeping powder but got hold of the bottle of carbolic acid.

The Overdose Killed Him.

TAMWORTH, Ont., June 23.—An old man named Flanagan died yesterday from the effects of an overdose of medicine.

DOMINION PARLIAMENT.

THE HOUSE TO PROROGUE DURING NEXT WEEK.

It Is Expected That the Redistribution Bill Will Be Rushed Through To-Day —Senator Boulton to Move an Amendment in the Senate—Scenes of the Capital.

OTTAWA, June 23.—The House met at 11 yesterday and sat until 1, resuming again at 3 and sitting until 6.

At the morning session the discussion was confined to the sub-clauses in the Quebec clause relating to the proposed changes in Chateauguay, Chambly and adjoining counties.

After some discussion the Chateauguay clause was allowed to stand, and it is probable that some compromise will be arrived at with reference to the redistribution of this section of the Province of Quebec.

The House met again at 3 o'clock, when the sub-clause relating to West Toronto was passed without any change, the amendments proposed by Messrs. Denison and Cockburn being reserved for a later stage of the bill.

The clause relating to Nova Scotia was passed without any changes.

The New Brunswick clause was passed, the only change being the substitution of the title "Sunbury and Queen's" for the united counties instead of Queen's and Sunbury, as it appears in the bill.

The Manitoba clause was passed without amendment, a few verbal errors in the bill being corrected.

On the British Columbia clause being reached Mr. Corbould moved that the District of New Westminster be divided into two electoral districts, to be known as Burrard and New Westminster respectively, instead of the whole district returning two members, as provided in the bill. The matter was discussed up to 6 o'clock without being decided.

Prince Edward Island occupied nearly the whole of the evening session and that was not completed when the House rose at 12.45.

The Redistribution Bill will be put through to-morrow, and it is now considered most likely that prorogation will take place on June 30.

Notes.

Senator Boulton proposes to have a whack at the Redistribution Bill when it reaches the Senate, and to-night gives notice that he will move "that it be referred to the Supreme Court for an expression of opinion as to its constitutionality, upon the ground that Parliament should arrange the mode upon which the redistribution shall be made, while leaving it to experts to carry out its details according to clause 51 of the British North America Act."

Mr. Featherston to-night gives notice that he will ask on Friday whether the Government has issued instructions to the inspectors of Inland Revenue in the Province of Ontario to have all milk cans inspected and stamped in accordance with the weights and measures regulations and Inland Revenue Act; and, if not, is it the intention of the Government to issue instructions to the inspectors at Toronto and immediate vicinity to have all milk cans inspected and stamped, in compliance with a promise made to the milk producers supplying milk to the city of Toronto and its suburbs?

Toronto Deputations At Ottawa.

OTTAWA, June 23.—Ald. Small and Lamb, with City Solicitor Biggar and City Surveyor Sankey, visited Ottawa yesterday and waited upon several of the members. The deputation desired to settle the details of the transfer of the rifle butts from the Garrison Commons to Mimico, to get leave from the Government to cut a channel through the breakwater in order that the water in Ashbridge's Bay may be purified, and finally to have transferred to the city the 66-foot fishing reserve around the Island.

Hon. Frank Smith, acting Minister of Marine and Fisheries, gave the deputation to understand that the Government would, if possible, agree to the transfer to the corporation of the 66-foot strip of land. He also promised the Government's immediate attention regarding the breakwater cut.

Hon. Mr. Haggart said the Railway Committee would meet in a fortnight, when the question of ordering the railway companies to contribute a portion of the cost of the proposed high level bridge over the Don at the Queen-street intersection would be considered.

To Prorogue To-morrow.

QUEBEC, June 23.—The prorogation of the Provincial Legislature has been fixed for Friday.

The Strange Case New York Doctors Were Called Upon to Attend.

NEW YORK, June 23.—Stephen Nadjer walked into Bellevue Hospital Monday afternoon and wanted treatment for a wound in his head. A knife blade was found lodged in his brain, projecting through the frontal bone. He is in a critical condition.

On Sunday night Frank Dalint, with whom he boarded, and his son Marcus followed him to the cellar and the son wounded him with a stiletto, part of which remains in his head. The police are investigating the case.

A Grey Merchant's Terrible Death.

HANOVER, June 23.—This afternoon James Johnston, merchant, of Lamlash, Township of Bentinck, was driving between Lamlash and Hanover when the horse took fright and ran away. Johnston in jumping caught his foot in the sulky and was dragged a considerable distance and killed. A companion named Glass jumped out and escaped injury.

Lakefield.

(From Our Own Correspondent).

Court Lakefield, No. 43, C.O.F. meet in their hall next Thursday evening, the 23rd.

Clementi Lodge, No. 313, A. F. and A.M. meet in their lodge room next Friday evening the 24th, St. John's Day.

W. A. Eastland, of Apsley, was in the village Saturday and Sunday seeing his old friends.

The council have purchased a large Dominion ensign from Turner & Son, Peterborough, for the town hall.

Our village constable has six more young cattle in pound, yearlings, 3 steers and 3 heifers, one steer white. A few fines and we will be free from the annoyance caused by stray cattle.

Picnics are all the rage at present. The Presbyterians had one to-day (Tuesday), the Church of England have one next Thursday, and the Methodists one on Friday. All to Stony Lake per steamer Sunbeam.

Quite a large number of our fishermen were out on the 16th, the first day of the open season, and some muskinonge and bass were taken between here and Young's Point, and very good strings were obtained in the rapids below the village.

A number of our ratepayers are asking when the fire alarm bell is going to be placed on the tower of the town hall. All in good time gentlemen, the committee are having the metal mixed and will have a special one cast, which will be a credit to the place. That accounts for the delay in reporting, so don't hurry them.

Quite a large number have gone up and taken possession of their summer cottages on Stony Lake, and next week will see a large addition, as we understand all the boats will begin their regular trips on Monday, and the summer train service will also commence.

As will be noticed in the council report another grant of $6.00 was made for charity, notwithstanding the strong opposition of the Reeve. We wonder what the ratepayers will think of handing over their hard-earned taxes for the support of a woman of loose character and her bevy of illegitimate children who do not belong here and have no claim on our village funds.

COUNCIL MEETING.

A special meeting of the village council was held in the town hall on Monday, the 20th, there being no regular meeting the week before for want of a quorum.

Present, W. H. Casement, reeve, in the chair, Messrs. Hall, Lillicrap and Moore.

Minutes of last meeting and court of revision read and adopted.

A large number of communications were read, and on motion received and ordered to be taken up separately, those of Mr. J. P. Strickland re the culvert on Queen street being referred to the Road and Sidewalk Committee.

Moved by Mr. Hall, seconded by Mr. Moore, that the communication of Mr. Robt. Johnson be received, but we will not accept less than $50 for the said lot.—Carried.

Moved by Mr. Hall, seconded by Mr. Lillicrap, that as regards the application of Dr. Burgess re the Orange demonstration on the 12th July, while we are pleased to have a visit of the Orangemen we do not think we would be justified in granting them a subscription to decorate the village.—Carried.

The Finance Committee presented their report recommending payment of the following accounts, the reeve's cheques to issue for the same:—

John Simpson, teaming	$ 6 63
Robt. Johnson, wages	6 50
Geo. Young, lumber	19 76
Chas. Hales, lumber	10 34
John Isbister, cart	6 30
Village Clerk, postage and express	3 46
Electric Light Co, light etc	56 00
Wm. Doldge, fixing flag	50
David Smith, salary	25 00
Pay sheet No. 5	75 04
	$210 53

Report adopted on motion of Mr. Hall, seconded by Mr. Lillicrap.

Moved by Mr. Lillicrap, seconded by Mr. Hall, that a grant of six dollars be made in favour of Margaret Mooney as charity.—Carried.

Moved by Mr. Lillicrap, seconded by Mr. Hall, that the council grant the sum of $50 towards watering the streets.—Carried.

A bylaw to borrow money, and one to license billiard tables received their several readings, were passed, sealed and signed by the Reeve and clerk.

Moved by Mr. Lillicrap, seconded by Mr. Hall,—That this council grant Mr. D. Mann exemption of taxes on the woollen factory and machinery for the term of five years, subject to the conditions made in his offer to the council.—Carried.

Moved by Mr. Hall, seconded by Mr. Lillicrap,—That the action of the reeve in renting the fire hall to the Ladies' Aid society of the Presbyterian church for the 12th of July be confirmed and that the price for same be $10.—Carried.

Council then adjourned to meet at the call of the reeve.

Young's Point.

(From Our Own Correspondent.)

A large drive of logs, about 70,000 pieces, the property of the Dickson Co. has just passed down the river, under the management of Messrs Long and Lyall.

Your correspondent upon stepping into Mr. C. Young's saw mill, found everything alive with the hum and buzz of business, lumber, shingles and lathe being turned out in large quantities. The mill is to be kept running until November to supply the large demand for its products.

Large fish stories are now the order of the day. Affidavits are not required.

The long talked of sidewalk in our village is heard of no more. Lack of municipal funds is the cause.

Mr. F. E. Spilsbury and Miss Spilsbury from Liverpool, England, have been staying at the Point for the last two weeks at the Carlton House, enjoying the pleasure which the lakes afford. Miss Spilsbury who is an artist took paintings of natural scenery. They left for England on Saturday.

Our roads are very much improved since the statute labor has been performed. The work under the supervision of the roadmaster Mr. Wm. McFarlane has been creditably done. Large quantities of gravel have been placed where required and deep cuttings made to level the road. In conclusion we may say "He raised the valleys, lowered the hills, and made the crooked paths straight."

Mr. A. A. Smith, our former school teacher, who has been attending the Ottawa Normal School, has returned home and favored us with a visit.

Large numbers of summer visitors are at present amongst us, the busy season for the summer is opening, and the steamboats are busily engaged in traffic.

Wun Lung.

This is the queer name of a Chinese laundryman in Hartford, but he has probably two lungs, like most of us. Some crying babies seem to have a dozen. Lungs should be sound, or the voice will have a weakly sound. Dr. Pierce's Golden Medical Discovery makes strong lungs, drives the cough away, generates good blood, tones the nerves, builds up the human wreck and makes "another man" of him. Nightsweats, blood-spitting, short breath, bronchitis, asthma, and all alarming forerunners of Consumption, are positively cured by this unapproachable remedy. If taken in time, Consumption itself can be baffled.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

THE FORCE OF HABIT.

We have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

The Town Legislators.

A Special Meeting Held Last Night to consider the Sewerage By-Law Which was not Ready—A Truant Officer Appointed—A Drinking Fountain in the Park—The Market Scales Building Discussed—The Town May Buy the Waterworks—Other Matters and Business.

A special meeting of the town council was held in the council chamber last night. There present were his Worship, Mayor Kendry, and Councillors Cahill, Best, Winch, Young, Bradburn, Dawson Ferguson, Meldrum, Donnistoun and Kelly. The minutes of the previous meeting were read and approved.

COMMUNICATIONS.

The following communications were presented:

From E. B. Edwards enclosing by-law repealing By-law No. 661 and notice of the passing thereof, also enclosing form of by-law appointing an arbitrator together with notice of the passing thereof.—Received.

From W. G. Morrow, secretary of Board of Education, requesting the council, in compliance with the Board's request, to appoint a truant officer.—Received.

From rate payers in No. 1 Ward asking the council to remove the fence from the east side of Park street, between Midland and Canada Pacific railways—Referred to Street and Bridge Committee.

From Terrance Smith enclosing account of $17.80 for articles furnished and also requesting compensation for a horse lost in answering a false alarm of fire—Referred to Fire, Water and Light Committee.

TORONTO, June 4th, 1892.

J. E. CORE, Town Clerk, Peterborough:

DEAR SIR,—Yours of the 3rd inst. has been received. In reply I beg to direct your attention to Section 492, Revised Statutes of Ontario, 1887, which I think is quite sufficient to relieve your municipality of the difficulty. I am not aware of any amendment since that time which will affect the powers given to the municipality under this clause. I have received protests from North Monaghan and Otonabee townships against the proposed pollution by your town. I shall forward the same with the Board's decision to the Attorney General's department. I do not think it need affect your council going on with the construction because the Board's conditional approval of the scheme is, I imagine, enough to allow those municipalities at any time to take action should the pollution of the stream cause a nuisance or outbreak of disease.

Trusting that you may proceed rapidly with your work, I have the honor to be

Your obedient servant,
PETER H. BRYCE,
Secretary.

From Hall & Hayes, solicitors for the Canadian General Electric Company, requesting the council to proceed with the laying of a six-inch sewer from the Edison Co.'s land to the river Otonabee, provided for in the agreement between the town and the company.—Referred to the Sewerage Committee.

A second communication of a later date was received from Hall & Hayes requesting the council to proceed within a week with the six inch Edison sewer. The drain is now choked with filth and immediate flushing is necessary as the nuisance can no longer be tolerated. If immediate steps are not taken to construct the sewer, legal proceedings would reluctantly be taken.—Referred to the Sewerage Committee.

From the Speight Waggon Company of Markham stating they would deliver a champion street sweeper in Peterborough set up and given a test free of charge for $450, half payable down, providing, if it worked satisfactorily the council would purchase it.—Received.

Mr. Cahill, chairman of the Street and Bridge Committee, said they had decided not to purchase a street sweeper this year. He moved that the clerk notify the Speight Waggon Co. to that effect.

A SEWERAGE LETTER.

The following letter from Mr. MacDougall, of Toronto, to Mr. Thomas Cahill, chairman of the Sewerage Committee, was read and referred to the Sewerage Committee:—

DEAR SIR,—My attention has been called to a letter in the papers of the 16th inst. from Mr. Ramsay, on which it may be well to offer for your consideration a few remarks. The plans and profiles presented to you with the report are amply detailed and sufficiently accurate to enable you to submit a money by-law to the people, and they would be accepted by any company undertaking to do the whole work by franchise. Nobody would let such portions of the work for contraction without taking accurate profiles of the streets to ascertain the exact lengths and depths of cutting before construction is commenced. I would insist on this being done before the contracts are let. Reference is made in the letter to the clause in specifications referring to levels of the ground. No public corporation with which I have ever been connected will assume the responsibility to say those levels, etc., are correct. The contractor is bound in every specification I have ever seen to satisfy himself as to the accuracy of the information on which he tenders.

It would be an unnecessary expenditure to make more surveys for sewers, as exact and detailed as though the work were at once to be contracted for before you submit the by-law to the people. The information before you is ample, and you need not hesitate to act upon it.

Yours Faithfully,
ALLAN MACDOUGALL.

MARKET SCALES BUILDING.

Mr. WINCH said the report of the street committee at the last meeting had been referred back to the committee, to see if they could not erect a cheaper market scales building. He said this was impossible. The farmers could not weigh their hogs on the present scales without lifting them on and off their waggons, and five weight could not be weighed. He had talked with two or three contractors and found that a suitable and substantial building would cost $400 or $500. He did not believe in putting up a cheap market scales building, but something that was a credit to the town. A cheap building would be the dearest and most insufficient in the long run. The cost of $500 would include moving of the scales, filling up the hole and putting them in their proper place.

Mr. MELDRUM thought it would be better to have a draft prepared and the cost estimated upon. He concurred with Mr. Winch; such a building was badly needed. He thought the building might be built in sections.

Mr. DENNISTOUN was not in favor of doing anything this year. He thought a fence at about $50 cost could be erected around the scales for weighing live cattle.

A BY LAW SESSION.

Mr. Cahill moved, seconded by Mr. Donnistoun, that a by-law to repeal by-law 661, which contains an error in the description of the lots through which main sewer runs be read a first time—Carried.

Mr. Cahill moved the reading of a by-law to appoint an arbitrator for the town of Peterborough to act as arbitrator re the extension of the sewer in and through the township of North Monaghan—Carried.

The council went into committee of the whole on the reading of bylaws.

Councillor Cahill in the chair. The bylaws were read a second and third time and duly passed.

A TRUANT BY-LAW AND OFFICER.

Mr. Donnistoun moved the reading of a by-law to appoint a truant officer for the town of Peterborough—Carried.

The bylaw was read a second time and discussed.

Mr. CAHILL moved that Constables Adams and McGinty be appointed truant officers, and that their salary be $50 each. At a meeting of the council last year they had increased the salaries of the Chief of Police and Constable Stewart but not of the other officers. Mr. Young seconded the motion.

Mr. DENNISTOUN thought the duty involved no extra exertion and time on the part of the police, requiring that their salaries be increased. If a salary of of $50 was to be paid he would move that an outsider be appointed. He thought it would interfere with the duties of the police to become truant officers.

Mayor KENDRY thought the police should do the work.

Mr. DAWSON said the chief should do the work. The police were well paid for their services. They should scour the outlying districts of the town, where truant boys generally went to play.

Mr. DENNISTOUN moved that the chief be appointed truant inspector at a salary of $1 a year. Mayor Kendry seconded the motion.

Mr. KELLY thought that Constable Adams should be appointed. He had more time than the chief.

Mr. DAWSON thought the police all had time enough.

Mr. Donnistoun's motion carried, and the bylaw was duly passed.

A DRINKING FOUNTAIN FOR THE PARK.

Mr. DENNISTOUN wished to bring up a matter in connection with the Fire, Water and Light Committee. Thousands assembled on the nights when the band played at the Court House Park, but they could not get a drink of water during the evening. He believed the fountain could with some fixing be used as a drinking fountain. He moved, seconded by Mr. Meldrum, that the Fire, Water and Light Committee be authorized to place a drinking fountain in the Court House park, the cost not to exceed $25.—Carried.

Mr. Donnistoun said he did not think the cost would equal the half of $25 when he mentioned test sum.

THE SEWERAGE BY LAW NOT PREPARED YET.

Mr. Cahill said he had decided to allow his motion which he introduced at last meeting respecting the engagement of another engineer to make a report on the proposed system of sewerage and also to verify the levels, to stand over again.

Mr. Donnistoun said they hoped to have the sewerage by-law ready for the next meeting, as it had been found impossible to get it prepared for the present sitting. It was very important to have everything right before submitting the by-law to the people. There would be numerous attempts to quash the by-law if it were found faulty or incomplete.

PURCHASING SUPPLIES FOR FIRE STABLES.

Mr. MELDRUM moved, seconded by Mr. Ferguson, in reference to supplies for the fire hall stables, that the chairman of the Finance Committee be empowered to issue checks for same when certified to by the chairman of the Fire, Water and Light Committee—Carried.

THE MARKET BUILDING AGAIN.

Mr. Winch moved, seconded by Mr. Best, that the Market Committee be empowered to have the town engineer prepare a plan for the proposed improvements referred to in the Market Committee report, presented at the last meeting of the council.

Mr. DENNISTOUN moved in amendment that it was undesirable to change the position of the market scales this year.

Mr. BEST thought something should be done in reference to the market scales. A building would improve the looks of the market. Give the market clerk an office and it would be a benefit to the whole community.

Mr. DAWSON thought nothing should be done this year. The town could not afford it.

Mr. Meldrum moved in amendment, to the amendment, seconded by Mr. Donnistoun who withdrew his amendment that the whole question of the market improvements be referred back to the committee to bring in a plan and estimate more in conformity with the principles of economy as outlined by the council.—Carried.

OTHER MOTIONS PASSED.

Moved by Mr. Cahill, seconded by Mr. Best that the clerk be directed to write the authorities of the Midland Railway about the grading and planking of Romaine and Brassard streets across the tracks.—Carried.

Mr. Cahill moved, seconded by Mr. Best, that the town engineer be instructed to prepare a plan and estimates of deepening the drain on Parks street north of Townsend street and continuing such drain from Sherbrooke street northerly to Weller street, and also to prepare a statement of the property to be benefited by such work.—Carried.

LEVEL CROSSING GATES.

Mr. KELLY called attention to the fact that gates should be placed on the three dangerous crossings in Peterborough. Some day there would be a serious accident. He moved the town clerk should write the corporations of the G.T.R. and C.P.R. to see what could be done. The matter had been brought up before the in council but nothing had resulted.—Carried.

THE EDISON SEWER.

Mr. R. H. D. HALL, of the firm of Messrs. Hall & Hayes, solicitors, was heard on behalf of the Edison sewer. He said the company were anxious to have the 18 inch pipe put in at once as the sewer was in a most disgusting state and was a nuisance.

Mr. CAHILL thought there was no use in putting in this pipe, when the council expected to have the sewerage system so soon completed. It would only be an additional expense and the sewerage would embody it all and remove the whole difficulty.—Referred to Sewerage Committee, with power to act.

PURCHASING THE WATERWORKS.

Mr. Meldrum moved, seconded by Mr. Donnistoun, that a committee of the whole council be called before the next regular meeting night to take up the question of taking over the waterworks system by the town.—Carried.

Mr. MELDRUM said he had been considering the matter for some time, and he thought a progressive town like Peterborough should own her waterworks. We could take them over now, according to the waterworks by-law, before the 31st of October. The sewerage system could be completed with more advantage to the town if the town owned the waterworks. Peterborough annually paid out for water purposes some $5,000, which was equivalent at 5 per cent, to the interest on $100,000. The money necessary to complete the purchase might be borrowed at a low rate of interest.

Mr. DENNISTOUN strongly supported the motion. In Kingston the city made enough on owning its waterworks to meet the interest and sinking fund on their standing debt. Woodstock, Guelph and other towns and cities owned their waterworks, and found that it paid them well. If the town decided to take over the system they could borrow money at a low rate and it would not make a cent extra on the taxes. If they did not do this before Oct. 31st, according to contract, the town would not have the privilege of doing so again for five years. He would strongly support the motion.

The Mayor said he was glad that matter had been brought up. He thought that before the town went on with the sewerage they should own the waterworks. If they were taken over now they could be secured from $75,000 to $100,000 less than in five years from now.

Mr. Best said the idea was a popular one. He was in favor of taking over the waterworks.

THE AUDITORS' REPORT.

Mr. BRADBURN asked when the auditors were going to complete their work. It was time their work was finished.

The Clerk said as nearly as he could judge they were only about half through with their work.

Mr. Donnistoun moved, seconded by Mr. Meldrum, that the auditors be requested to state in writing to the council when they expect to have their work done.—Carried.

Mr. Meldrum enquired when the council was going to have a report from the Charity committee. They had not reported for some time.

The council adjourned at 10 40 o'clock.

EXTENSIVE CHANGES IN
THOMAS KELLY'S
DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

It begins on the P.A.A.A. grounds at 3.30 o'clock sharp. There should be a large attendance to witness the game. Mr. John Callahan will umpire. The following team will play the Cobourgs to-morrow afternoon:—Malcomson, c; McCabe, p., Heap, 1 b., O'Brien, 2 b., Ormble, s s., Burson, 3 b., Evans, l f., Sharpe, c f., Ray, r f.

THE FIRE BRIGADE BAND IN ATTENDANCE.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campen and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilson, Secretary of Committee.

ADMISSION 10 CENTS.

A Reminder.

The Emeralds of Peterborough are holding their annual excursion to Toronto on Friday, June 24th, via G.T. Railway. We regret very much to observe that a rival railway have reduced their rates the same as ours, but we do not believe this sort of thing will find favour with the generous public of this town. It has been through the action of the B.B.A. that this low rate of $1.75 has been secured, we therefore ask every individual who intends visiting the Queen City on the above date, to accompany the Emeralds, they having co-operated with the brethren in Toronto to make our visit most enjoyable, and at the same time witness one of the grandest street pageants of modern times. The committee having charge of the excursion will furnish all information on the trains when the parade takes place, where from and also as to the most convenient places to stop while in the city. Trains leave Peterborough at 6.40 and 8.20 a.m. Fare for round trip, good for two days, $1.75 adults, 90c. children. 24

REMEMBER

The Stony Lake excursion on July 1st, via G.T.R. and steamer "Golden City" with palace barge "Wave Crest" attached. Return tickets 75c, children half price. Train leaves G. T. R. station at 8.45 a.m. Tea and hot water provided. tf

Personal.

The condition of Mr. Wm. Hamilton is no better to-day. He lies in a precarious condition.

Miss Pearce, of Norwood, is in town to-day, on her way to Niagara Falls for a few weeks' visit with friends.

Mr. G. M. Boers, of the Ontario Bank, has returned from Le Roy, N.Y., where he has been spending his holidays.

Mr. George H. Wilson, of *Truth*, Toronto, and Mr. F. W. Wilson, of the Port Hope *Guide*, were in town this morning and gave us a call.

The Shamrocks and the Park Nine played a lacrosse match in the Central Park last night. The Shamrocks won by 2 games to 1. A return match will be played on Tuesday next.

Mr. Geo. Rutledge, who has been in the Toronto General Hospital for some days, where he had his left arm amputated, will return home to-night. He is progressing favourably.

Now is your time to buy Strawberries. Thousands of quarts arriving daily at Ostrom's. Must be sold cheap. 21

Lawn Social.

The Ladies' Aid Society of the Charlotte Street Methodist church, will hold a lawn social and strawberry festival on the grounds of Mr. Aaron Cox, within the next few days. Particulars later. 1d

Closing up Business.

The lease of Burt & Co.'s store expiring on July 1st, they have decided to sell their stock and close up business at their present stand. All letters addressed P.O. box 485, Peterborough, will be promptly attended to.

Calcutta Line of Steamers—Cheap Excursion.

Don't forget the Saturday afternoon excursion to Victoria Park on 25th June. Steamer will leave the Peterborough wharf at 2 p.m. Good music for dancing, with screw attached. Tickets 25c., children 15c.

The Ottawa Fair.

We have received a copy of the prize list of the Central Canada Fair, to be held at Ottawa from Sept. 22nd to Oct. 1st. It is neatly gotten up and the list of prizes is very liberal. Is it not nearly time the Central Exhibition directors were getting their prize list before the public?

Decoration Day.

On Friday, June 24th the steamer Golden Eye and Daisy will run every ten minutes from Peterborough wharf to Cemetery point, calling at Ashburnham. In the morning they will run over every half hour, commencing at 10 a.m. for the benefit of parties wishing to convey flowers to the cemetery. Return tickets 10 cents. d4d

The Cantata, Flora's Festival.

Rehearsals for that fine cantata, "Flora's Festival," to be held in the opera house on Tuesday, June 28th, are going on with great success. Be sure to see this, the finest cantata ever presented to a Peterborough audience. Secure your seats early. Plan open at Greatrex's. Children under twelve, 15 cents; general admission 25 cents; reserved seats 35 cents. 2d

Knights of St. John.

Look at those celebrities who are going to attend the Great Order of Knights of St. John's parade to hold in Toronto to-morrow. Quartermaster Gen. W. P. Reagan, of Detroit; W. T. McGurren, Grand Commander, Grand Rapids, Mich.; John W. Drury, First Vice Commander, Detroit; and others of note. Those going on the E.B.A. excursion to Toronto to-morrow are sure to have a good time and see a sight. Go one, go all. 1d

What they Will Play To-night.

The band will play to-night at a garden party on the handsome lawns of Mr. J. J. Lundy, Ashburnham, to be given by the Young People's Society of Christian Endeavour of St. Andrew's Presbyterian Church. The following programme will be presented:

March, Hurrah for the Road.....*J. H. Hyde*
Overture, Bohemian Girl.....*W. L. Balfe*
Religious Fantasia.....*S. V. Balfe*
Overture, The Califf of Bagdad.....*Boreldieu*
Valse, Donau Weller Vatter!.....
Fantasia, The Broken Chain.....*Charles Payne*
Quadrille, Jolly Company.....*Carl Kope*

Hurrah! For Dominion Day!

And also for St. Peter's Cathedral picnic, which is a regular and brilliant feature of the day. It will be held on the St. Joseph's Hospital grounds. The public know that past picnics have been a grand success as well as a first class source of enjoyment, but the preparations for the coming event on July 1st are on a grander scale. An energetic committee have the programme in charge, and the list of sports and games comprise 15 exciting events, for each of which elegant prizes will be given. A first class orchestra will provide music for dancing. And the good ladies will supply dinner at high noon and refreshments during the day. Keep this date open. Admission 25c, children 15c, dinner 25c.

Children's Day at the Baptist Mission.

Sunday, June 19th, was a very interesting day at the South Ward Baptist Mission. A nice programme, called "Summer Joy," was carried out very satisfactorily. A number of the parents of children and friends of the school were present to encourage the workers in the school. The room was well filled with smiling faces and fragrant flowers, almost every pupil bringing a bouquet, to which was attached a scripture verse. The flowers were sent to the Nicholls' Hospital and the Protestant Home, with the hope that sad hearts, beating feebly in diseased bodies might be cheered. Miss Friend from the Hospital gave a beautiful and helpful address to the children. A collection was taken, amounting to $6.76, for Sunday School Missionary Work.—Com.

Decoration Day To-morrow.

Everything is in preparation for the fitting and proper observance of Decoration Day to-morrow afternoon. The Peterborough and Otonabee lodges of Oddfellows will assemble in Central Park to-morrow afternoon at two o'clock and headed by the band and Canton Peterborough as a guard of honor they will march to Little Lake Cemetery where the graves of the deceased brothers will be decorated, the grounds viewed and suitable addresses delivered by Past Grand Master Dr. Bell, Grand Chief Patriarch Moore, the Noble Grands and the town clergymen. It is expected that this year's ceremony will be the most impressive and successful yet held. The day will be generally observed as a holiday.

$15,000 Bankrupt Stock of T. Dolan & Co. to be cleared out at 50c. on the dollar for the benefit of his creditors. This is sufficient for town and country to know.

Obituary.

The Late Geo. Hilliard, ex-M.P.

This morning Mr. Geo. Hilliard, who has been a prominent and progressive element in Peterborough citizenship for the past 45 years, passed away. Last January Mr. Hilliard was attacked with *la grippe*, from which he has suffered more or less since, and to the consequences of which he owes his death. Lately he was thought to be improving in health, but his active life in the past made confinement and inaction irksome, and he doubtless exerted himself unduly. Last Saturday he was able to take a trip to Stony Lake as far as Bobcaygeon. On Monday he was working a little in his garden. Becoming fatigued he retired to his room complaining of not feeling well and his old disease, whose local manifestation was in the nature of an abscess which affected his brain, became aggravated in form, and in spite of the best surgical advice and attention terminated his life this morning at four o'clock. From the time of his attack on Monday till his death he was unable to speak. Mr. Hilliard was born in 1827, at Dundas, township of Williamsburg, Ont. His father was Christopher Hilliard, a British army officer, and his mother was the daughter of an U. E. Loyalist, Daniel Myer. Mr. Hilliard came to this county in 1847. He was at first in the employ of Mr. William Snyder. After five years in his general store Mr. Hilliard opened out a general store business in association with his brother at Omemee. He returned to town in a few years and entered into the management of Mr. Snyder's lumber business. In 1862 he went into the same line of business on his own account, since which time he has conducted it with energy and success, adding subsequently the business of flouring and woollen mills. He was an active business man and public spirited citizen. He was a director of the Peterborough Lock Manufacturing Company and also of the *Review* Printing Company. He was greatly interested in farming, being a successful and progressive practical farmer and also an active member of the West Riding Farmers' Institute. In fact, he was in all respects a most useful and respected citizen, and as such will be greatly missed in Peterborough. In politics Mr. Hilliard was an uncompromising Conservative. He represented West Peterborough in the Dominion Parliament two terms, having been first elected in 1878, and subsequently in 1882. He was for many years a prominent and influential member of the congregation of George street Methodist church. He was a church steward, church trustee, and member of the board of management, and all the interests of the church, benefited by his liberality in contributing to its schemes and his personal activity in their promotion. Mr. Hilliard leaves behind him a wife—a most estimable lady—and five sons, George the eldest, married and settled in Manitoba, Mrs. Ross, of New York, and Charles, Frank and Helen members of the home circle. Funeral on Saturday afternoon at 2 o'clock.

An Important Railway Enterprise.

Work Begun on a Third Trunk Line for Peterborough—An Important Factor in the Town's Prosperity.

The proposed Peterborough, Sudbury & Sault Ste Marie Railway is assuming practical shape. Work will begin to-morrow upon the survey to locate a portion of the line north from Peterborough. Mr. W. A. Ramsay, C.E., and party of ten or twelve assistants, will begin work and push the location of the line as rapidly as possible. The significance of this information to every well-wisher of Peterborough's prosperity cannot be over-rated. The importance of the proposed line can best be estimated by consideration of the effect of a failure to construct it. On the west side of the county we have the Victoria Railway converging northward to the northern part of the county, and on the east side the Central Ontario Junction Railway converging in a like manner, both in operation and carrying the great traffic of the northern country past our doors, on the one side to Trenton and on the other side to Lindsay. Besides the extension of the Ircadale and Bancroft, now a pretty well assured fact, runs across the northern part of our county and constitutes a feeder of the above two roads, whose traffic from the north should, and would come to or pass through Peterborough if the proposed line were constructed. North of this county the new road would make tributary to Peterborough a vast tract of country now served by no other railway, which would develop it in a manner which would add very materially to the material advantage of this town. The through traffic of the proposed line will also be large, and passing through Peterborough will be of large incidental advantage. It will be the most direct route from the Sault to the St. Lawrence and the seaboard, and, as existing railway facilities are notoriously insufficient to move the immense and increasing grain crops of the Northwest, the new road will be assured of a great traffic from this source.

News Nuggets.

—There was no police court this morning. All is quiet.

—There will be a battalion parade to-night at 8 o'clock. There should be a large turnout of the men.

—Real estate dealers say that business is fair this morning. Several smaller properties are changing hands.

—The Council of the Board of Trade will meet this evening to send representatives to the funeral of the late George Hilliard, ex-M.P., the first president of the Board of Trade.

—The Cobourgs and the Peterborough Baseball Clubs will play a game to-morrow afternoon on the P.A.A.A. grounds at 3.30 o'clock.

—The junior and senior cricketers will play a match on Saturday afternoon in all likelihood. The "colts" will put up a strong eleven.

—The directors of the P.A.A.A. this morning purchased a new lawn mower for the caretaker of the grounds in order that the cricket crease may be kept in first class order.

—The directors of the P. A. A. A. have decided upon the following use of the grounds for the various evenings of the week: Monday and Friday evenings for lacrosse practice, Tuesday and Saturday evenings for baseball practice, Thursday evening closed night for the bicycle club only, Wednesday evening practice for all sports. The various clubs will please observe these regulations.

Judgment Reserved.

Argument by counsel took place yesterday before His Honour Judge Weller in Chambers in the case of Desmarais vs. Ostrom, an action entered by plaintiff, who resides in Louisville, Kentucky, against M. T. Ostrom, of Peterborough, to recover the sum of $117, balance of an account and interest thereon. Judgment reserved. Riordan & Dixon, for plaintiff, W. H. Moore for defendant.

The Good Derived from

HOOD'S

Sarsaparilla

All Run Down With **Dyspepsia**

The peculiar combination of stomach tonics and alterative remedies in Hood's Sarsaparilla cannot be equaled, and this superiority explains the wonderful success of

This Great Medicine

in cases of Dyspepsia, Indigestion and similar troubles. Mr. T. A. Wheelock, a well known citizen of Burlington, Vt., writes:

"Six months ago I was badly run down and unable to attend to business. The principal trouble seemed to be due to indigestion and aggravated dyspepsia. I had no appetite,

Nothing Tasted Good

and what I did eat distressed me. Added to this was a nervous disturbance. Physicians that I employed failed to reach my case. I grew worse, lost flesh and almost hope. One day I ran across a testimonial for Hood's Sarsaparilla stating what it had done in what seemed to be a case similar to mine. I got a bottle and in three or four days saw that I felt better. Before I had finished the first bottle, was greatly improved. Rested better, felt better, and knew I was

Better All Over

I continued with the medicine, and have taken two bottles and now feel better than at any time for the past five years. Feel as hearty as when a boy. Have regained my flesh, have good appetite, can sleep well, and my nerves are in excellent condition. I would not value a thousand dollars for what it did for me." T. A. Wheelock, Burlington, Vt.

Fully Indorsed

"We have sold Mr. T. A. Wheelock several bottles of Hood's Sarsaparilla and have heard him tell in high terms of commendation what it has done for him. I know that he has recommended

Hood's Sarsaparilla

to many others here. Our customers generally speak well of it." F. L. Taft & Co., Pharmacists, Burlington, Vt.

Relentless Break in Prices —OF— SUMMER CLOTHING —AT— H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent. reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains.

THE CANADIAN BANK OF COMMERCE.

The twenty fifth annual meeting of the shareholders of the Canadian Bank of Commerce was a most interesting occasion. The date was the quarto-centenary of the establishment of the bank, and a review of its past operations, as well as the statement of its present standing, gives a most encouraging idea of its stability and progress and the soundness of its present condition. In 1867 the deposits of the bank were $766,000; at the close of the next decade—1877—they had increased tenfold or to $7,364,000; in 1887 the deposits were $10,082,000, and at the close of the fiscal year, May 31st, the deposits totalled the large sum of $17,000,184. Including this, and capital, circulation and other resources, the total amount requiring management totalled twenty seven millions. The bank has paid half yearly dividends averaging 7½ per cent, on the capital, and the shareholders have received in dividends during the past twenty-five years over ten million of dollars. The excellent standing of this institution is largely due to careful and efficient management. The general manager, Mr. Mr. E. B. Walker, comes in for a large share of praise from the shareholders, and the assistants who have co-operated with him have largely contributed to the excellent results the latest annual statement disclosed. The business public of Peterborough know that the management of the local branch, has contributed its full quota to the prosperity that has attended the general operations of the Canadian Bank of Commerce for past years. While the interests of the bank have been guarded effectively the business public and customers experienced courteous and considerate treatment.

Cheap Groceries.

As I am giving up the grocery and baking business, I will sell my present stock at a sacrifice in order to make a speedy clearance, as I am leaving town in a few weeks. McChaulo's Bakery and Grocery, corner of Dalhousie and Rubidge streets. T. I. WILLIAMS.

Somebody Suffers.

Yes, somebody suffers when those great take-em-away-for-nothing sales are announced, but it isn't the promoters, it is the confiding public who are eventually the sufferers. The goods look all right, but wear them, and how soon you will be surprised when they fall to pieces. Our reputation for selling reliable, trusty, serviceable shoes is quite sufficient to draw people to our store. It wouldn't do for a house of established reputation to indulge in sensational half-off, below cost, give-away sales. There's a moral to all this. Buy the best at Kidd's the bootere, and pay a reasonable price, and no more, and in the long run you will come off the winner. Kidd not only claims, but does sell the best of summer foot wear at the lowest living profit, at 376 George street.

The Father Mathew Remedy.

HOW IT WORKS.

From the very first doses a feeling of general relief is experienced, as if the system was awakened to the consciousness of a better mode of life.

It never takes more than three or four bottles to work a complete change in the former condition of the stomach, and to create a strong appetite for regular and substantial food, with the ability of properly digesting the same.

Nervousness and sleeplessness have also disappeared.

While the system is thus being built up again with its natural materials, while the natural stimulant is thus being restored to the circulation, the desire for liquor or artificial stimulant gradually decreases in the same proportion, and after an average of three weeks' faithful use of the Antidote, the system can do without liquor or artificial stimulants, and does no longer call for them; the patient is cured. He was a slave to disease; he is now again his own master, in good health. 14

Our National Game.

The Peterborough and Belleville Lacrosse Teams Cross Sticks—The Home Team Wins Easily by 5 Goals to 1.

It was not the usual large number of Peterboroughians who attended the lacrosse match and lent their patronage and encouragement to Canada's National Game, that wended their way over to the P. A. A. A. grounds yesterday afternoon to see the match between the Belleville and the home team. At 3.25 o'clock the two clubs lined up in the following positions:—

PETERBOROUGH.		BELLEVILLE.
F. Adams	goal	W. MacLeod
G. H. Parks	point	W. Hutchin
F. Pakenham	cover point	E. W. Holton
J. McDonough	3rd defence	W. Taber
G. Heap	2nd "	J. Phillips
E. Hickey	1st "	J. Brophy
J. Bagley	centre	M. Jamieson
W. Phelan	1st home	J. Thompson
J. Phelan	2nd "	A. E. Overell
J. McCabe	3rd "	E. E. Calling
J. Daly	outside	H. Twining
W. Simpson	inside	A. Christie
W. E. Lush	field captain	Geo. Holton

Referee, Dr. Brennan.

The spectators were hardly aware that the ball had been faced and play began before the magnificent stick work and the clever dodging done by the Peterboroughs had carried the rubber well up into the enemy's territory, when, J. Daley, the clever outside home, caught it and with a well-timed shot, sent the ball through the uprights in less than three minutes. After five minutes' rest, and the change of positions, the ball was again faced, and Bagley taking it away from his opponent, and after some fine dodging, made a beautiful shot to McCabe, who catching it sent it whizzing between the flags, winning another game for Peterborough in fifty seconds. It now began to look as if the home team would capture the four necessary straights and have the match won before ten minutes playing was indulged in. At 20 minutes to four the ball was again faced. The struggle for the third game lasted a little longer in which Pakenham as cover point did first class work. After a foul made by McDonough, Belleville had a free throw on Peterborough's goal which was returned in quick order by Parks. McDonough, after a few seconds got possession of the sphere and by a splendid drop to McCabe, who was always there when wanted and a sure catch, he sent the ball through the sticks again, taking the third game for Peterborough in 9 minutes time.

The fourth game after a hard struggle was taken by Belleville. Peterborough tried the old style round arm dodge with which their opponents were unaccustomed, and at the same time running all over the field keeping half a dozen Belleville men from claiming the rubber. Whenever Belleville tried the round arm dodge, their players were body-checked by the home team. At last Belleville managed to carry the ball up the field, and by a clashing of sticks and fouls around the goal. Twining assisted by Thompson knocked the ball along the ground through the flags, taking the first game for Belleville in nine minutes. In the fifth game McDonough made a pretty drop on goal and also did McCabe, and Heap's fine throw, but the ability of McLeod in goal for Belleville saved the ball many and many a time from going through. He stood like a mighty bulwark against the incessant volley of shots by his opponents. Bagley and Daly made splendid aims for goal. Phillips for Belleville in this innings catching the ball made a fine throw up the field, for a brief time delivering his territory from danger. Overell also got the ball and did some good dodging. W. Phelan catching the ball passed it to Simpson who scored fourth game for Peterborough. Time, 15 minutes.

In the fifth game another succession of shots were fired at the enemies goal. It would be useless to particularize Daly, Phelan, McCabe, Heaps and others having a hand in the volley. E. W. Holton for Belleville, like Phillips in the fourth innings, caught the rubber and made a good shot up the field. C. Phelan caught the ball and and passed to W. Phelan, who scored the fifth game, ending the match. Time, 15 minutes.

FREE THROWS.

The Belleville's played a fair and gentlemanly game and deserve great credit for the good natured way in which they took defeat.

No one was hurt during the game which was very quiet and orderly throughout, no rough playing characterizing the match.

The Belleville's are weak at team play and passing. They are also poor body checkers and are not familiar with the round arm dodge.

Dr. Brennan as referee gave the best possible satisfaction. His decisions were not questioned once.

Peterborough club excelled herself, her team play, stick handling, dodging, passing, etc., were all first-class. The club have not indulged in their nightly practices for nought.

The "Quintes" as the Belleville Lacrosse Club is known best by in its own town returned home at 9 o'clock last night by way of Port Hope. The return match will be played at Belleville some time in July.

Hall's Bridge.

(From Our Own Corresponde t.)

The Hall's Bridge Sunday School held their picnic in the grove at Buckhorn and a most enjoyable time was spent. The friends commenced to gather about noon, several loads coming from Lakehurst and the 16th Line, Smith. Enjoyments of different kinds were indulged in, as swinging and ball playing. After the crowd had gathered they marched down to the bridge, and the races were commenced, and prizes were given to the boy or girl who won, and after about an hour in this sport the crowd betook themselves to the grove. Tea was served at five o'clock, after which the Lakehurst choir and friends entertained the people with singing. Towards the close of the evening a boat race took place. There were three canoes containing six first class paddlers. They paddled from Mr. Parker's boat house, across the bay and back. Quite a crowd collected on the shore to see the race. Messrs. R. Freeburn and W. Nicholls came in about two canoe lengths ahead of the others. The Sunday School is to be congratulated upon the success of the picnic, which was got up at rather short notice.

The Rev. John Raley leaves this circuit for Bridgenorth.

A Timely Warning.

Beware of Deception.

SUCCESS and fame are always envied; and as of old, there are men small enough in soul, who in order to make money, will mislead and deceive their fellow men. Some of these imitators and deceivers have lately stepped into the domain of medicine, and are imposing upon the public imitations of Paine's Celery Compound.

It is well known that in all lands there exists a class of adventurers who are ready to imitate anything that succeeds; failures are never touched or bothered with.

The bank-note counterfeiter does not waste his time counterfeiting bills of a bank that has ceased to exist. He goes to work imitating the notes of some good, solid bank; and continues in his nefarious work until the law seizes him.

The wonderful remedy, "Paine's Celery Compound," has proved such a magnificent and successful medicine, that certain imitators are now endeavoring to foist upon the public certain preparations which are as far below the value of the genuine "Paine's Celery Compound," as the cost of cheap glass compared with the valuable diamond.

"Paine's Celery Compound," owing to its peculiar composition, is a perfect cure for disease; the imitations only tend to aggravate and increase the sufferings of the afflicted and suffering. "Paine's Celery Compound" is the embodiment of power, virtue and honesty; the imitations are useless, misleading and hurtful.

We think it our duty to strongly impress upon all the great necessity of being particular and careful when buying "Paine's Celery Compound."

Do not buy any preparation unless the name "Paine's" is found on the carton and bottle, as well as the stock of celery. No preparation is genuine without these. Finally, remember, that the genuine "Paine's Celery Compound" always CURES; the imitations are useless and unsatisfactory, and only tend to increase existing woes and miseries.

Bridgenorth.

Foresters' Excursion.

Court Bridgenorth, No. 315, C. O. F., will hold their second annual excursion to Buckhorn per steamer Maple Leaf and palace cars on Saturday, July 9th. An enjoyable trip is promised all who attend. Music and hot water provided. For particulars, see posters.

A Point for You.

In view of what Hood's Sarsaparilla has done for others, is it not reasonable to suppose that it will be of benefit to you? For Scrofula, Salt Rheum and all other diseases of the blood, for dyspepsia, Indigestion, Sick Headache, Loss of Appetite, That Tired Feeling, Catarrh, Malaria, Rheumatism, Hood's Sarsaparilla is an unequalled remedy.

Liquid Manure.

In making liquid manure to use on plants in the garden, there is little danger of getting it too strong when made from common stable manure. A half bushel of manure, soaked over night or longer, in a 40-gallon cask of water, will be about right. Fill up the cask with water, and use this the following day. Poultry manure is stronger than stable manure, and a less quantity will answer, say one pack to 40 gallons of water. Stable manure will lose much of its strength, if left out and exposed to rains; in fact, if left long enough, it will all be washed away, or, at least, all of its soluble parts. The older and more thoroughly decomposed, if kept under cover, the more quickly does it act as a nutriment to plants. But moisture is necessary in its decomposition; consequently, it must not be allowed to become thoroughly dried when under cover, but just enough water added to keep the mass moist and prevent a too high temperature during fermentation.

Advantages of Wide-Tired Wheels.

We have had an object lesson on the advantages of wide-tired wagon wheels. When the East Jersey Water Co. were laying water pipes, a large number of them were carted through the main street of our village. The street is macadamized, and, owing to imperfect drainage, had to be repaired. This left considerable loose stone (broken trap rock) on the surface. Now the large and very heavy trucks upon which the pipes were carted had very wide tires, and it was a surprise to see that, instead of rutting, or in the least injuring the road, as they certainly would have done if the tires had been narrow, they actually improved the condition of the road, and left it as smooth as a floor. It is a great pity that something cannot be done to induce the owners of heavy wagons and trucks to have wider tires upon their wheels.—American Agriculturist.

Poultry Manure.

Poultry manure is worthless unless it is composted when fresh, owing to a large portion becoming hard and insoluble silicates being formed. It rarely contains over 2 per cent. of nitrogen or phosphoric acid, and less than 1 per cent. of potash. Collected daily, however, and mixed with dry dirt and plaster, the mass being kept moist with soapsuds, it will be in a more available form for plant food than if kept dry.

Little Things That Tell.

It is the little that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effectual, they are rapidly supplanting the old-style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort. o

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—
HEINTZMAN
AND
EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KILLED THE DETECTIVE.

And a Londoner Wounded by a German Who Resisted Arrest for Theft.

LONDON, June 22.—George Wenzel, a German employed in a butcher's shop in Charing Cross-road, shot unto death Detective-Sergeant Joyce, who went to arrest him on a charge of theft.

Wenzel fled, and as Joyce was gaining on him drew a revolver, and turning around fired at him twice. Both bullets struck him, one taking effect in the abdomen and the other in the head.

Some of the crowd still followed the fugitive, who again turned and fired, wounding one of his pursuers in the shoulder. He was finally run down and overpowered.

Gladstone Wants Peace.

LONDON, June 22.—Mr. Gladstone held a long conference Tuesday with Messrs. Justin McCarthy, John Dillon and T. Healy (anti-Parnellites).

Mr. Gladstone advised that renewed efforts be made to re-establish union in the Irish Parliamentary party, pointing out the evil effects that would result to the Home Rule movement from continued strife of the Irish faction.

He urged that concessions be made on each side in order that McCarthyite and Parnellite candidates should not stand against each other in parliamentary constituencies in the approaching general elections.

Killed by an Exploding Boiler.

BREST, June 22.—While the new French cruiser Depuy de Lome was testing her machinery the boiler burst. The fire room was filled with scalding steam. Engineers and stokers were unable to escape, and when aid came they were found in a frightful condition, some blackened and distorted and others delirious from the terrible injuries they sustained. Those who were not dead were taken to the ship's hospital and treated. From 15 to 20 men were fatally scalded.

The Kaiser's Imperial Crown.

BERLIN, June 22.—Emperor William has designed an imperial crown for himself with the assistance of the well-known painter, Emil Doepler. It is to be composed of pure gold, entirely covered with large diamonds and pearls, surmounted by a cross which is to be studded with some of the finest diamonds of the famous Hohenzollern family collection of jewels. The crown was to have been formed after the pattern of the first royal crown of Prussia, but the Emperor ultimately decided to have it made to fit his own head.

The Bismarck Nuptials.

VIENNA, June 22.—The marriage of Count Herbert Bismarck and Countess Hoyos, daughter of Count George Hoyos, took place at 12.30 o'clock Tuesday in the Evangelical Church in Dorothea-Gasse. The weather was beautiful. Police were stationed everywhere to watch the parties of anti-Semitic students who, it was thought, might attempt a demonstration. The students, however, behaved in an orderly manner.

Prince Bismarck was loudly cheered as he drove along the street from the palace to the church.

The Queen's Coming Council.

LONDON, June 22.—The Queen is to arrive at Windsor Castle at 9 o'clock this morning from Balmoral, and next Tuesday afternoon Her Majesty will hold a council for the prorogation and dissolution of Parliament in the White Drawing Room. Lists of dissolution honors are to appear in the papers to-morrow morning.

Rain at Last in India.

LONDON, June 22.—The Times Calcutta correspondent says: "The monsoon has commenced blowing throughout Bengal and a large part of Madras, less heavily than usual, but sufficiently strong to remove anxiety as to crops and cattle."

Killed in the Shaft.

LONDON, June 22.—While the cage was descending the shaft in the Ferndale colliery in the Rhondda valley it was upset and its 10 occupants thrown out.

Two of them were instantly killed and the other eight were badly injured.

Fell Dead in His Yard.

BRANTFORD, June 22.—John Beers, aged 78, went to the pump to draw a little water. Before he had filled the pail he took ill and called for his son, but before anything could be done the old gentleman was dead from heart failure.

THE BEST FAMILY PILL IN USE

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of *Morse's Pills*, and so preserve vigor and vitality.
Yours faithfully,
H. F. ATWELL.

William's Sister Betrothed.

BERLIN, June 22.—A parade of the Potsdam garrison was held Tuesday in the Lustgarten. The parade was witnessed by the King and Queen of Italy and Emperor William and Empress Augusta.

After the parade was over the betrothal of Emperor William's youngest sister, Princess Margareth, to Prince Frederick Charles, eldest son of the Landgrave of Hesse, was announced.

Princess Margareth was born April 22, 1872, and her fiance was born May 1, 1868. He is a lieutenant of the First Dragoon Guards.

Death From Vaccination.

LONDON, June 22.—Dr. Macdonald held an inquest on Thursday at Hackney on the body of Lilian Antoinette Lefont, 5-months old, the daughter of a glassblower of Prince Edward-road, Hackney Wick. According to the evidence of the father, the child was healthy until it was vaccinated on the 17th ult., after which its arm became much inflamed. Medical aid was called, but death ensued on Saturday. Dr. Arthur Southcombe deposed that the cause of death was blood poisoning, which started from the spot where the child had been vaccinated. He thought that the sore had become infected just as any sore was liable to. There was no constitutional disease in the child. It was not usual to vaccinate from two children.

Just One Million Short.

PARIS, June 22.—It is rumored that Leguay, the director of the great Paris dynamite factory, has absconded. His accounts are said to be short five million francs.

Edging Plants.

I am often asked to give a list of good edging plants, by those who desire to have a few beds on the lawn. Below I name and give a brief description of a few that I have found well adapted for this purpose. It will be necessary to order them at the time the plants with which the center of the bed is filled are ordered. They cannot be grown from seed and made effective.

Alteranthera. Often called "Rainbow" plant, because of its varied and brilliant colors. It is of easy culture. Plants should be set about six inches apart.

Achyranthes. One of the best because of its vivid crimson color. Should be treated like Alteranthera.

Golden Pyrethrum, or Golden Feather, as popularly known. A good yellow. Excellent for massing where this color is wanted. Not surpassed, I think, by

Coleus Yellow Bird, which is the only other plant of this color which compares with it.

Coleus Verschaffeltii. One of the first varieties of this plant to come into popularity, and still one of the best, if not the best, where a dark crimson or maroon is wanted.

Geranium Madame Salleroi. If I could have but one plant for edging a bed, it should be this. It grows only eight or ten inches high, forms a compact, rounded mass of foliage, and retains this form all through the season without any attention in the way of clippings. Its foliage is a light green, edged with white, and a row of it is very pleasing in connection with other plants, because of contrast in color. All the other geraniums having a white variegation are comparative failures for bedding use, but this is perfection in every way. Among flowering plants of a habit of growth suitable to this purpose, I consider the

Dwarf Ageratum one of the best, because of its thick, low, compact form. Its lavender-blue flowers are borne in such profusion that they almost cover the plant, and by them we get a color for pattern or ribbon work that we can get from no other plant.

Sweet Alyssum is useful for small bloom, if kept properly clipped.

In order to succeed satisfactorily with any of these plants, they must be clipped frequently to prevent them from taking on a straggling or uneven form. Clipping not only keeps them in shape, but causes them to become thick and compact, because it forces them to throw out many more branches from the base or lower branches of the plant than they would be likely to do if not cut back. One of the chief beauties of these plants, when used as edging, consists in their neat, trim appearance. The Coleus is the rankest grower of all named, but plants should not be set more than eight inches apart. Mignonette is not only pretty for edging beds of annuals where a formal effect is not cared for, but it is so fragrant, and so useful for cutting that I prefer it to anything else for this purpose, in this part of the garden.—E. E. Rexford, in American Agriculturist.

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments.
HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only Electric Belt made which fulfils the requirements of Modern medical science. It is a complete BODY BATTERY. It has an Electrolytic Battery, which generates a mild, continuous current of Electricity (without shocks) that can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, and merely a suggestion current, and the quantity circulating the liver and kidneys more than the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them, but after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.
CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Remember that the Dorenwend Belt is the very latest invention in this line, and was invented by a competent electrician, and employs the best in the world; we defy anyone to produce equal to the Dorenwend.

Do not close this Belt with the harmful electricity of lead and acid, which is condemned by doctors and many who have used it, but if you want to experiment with cheap articles, buy them. But if you want to procure a genuine Belt, get one that will be a benefit and a blessing to you for life.

Send name and address for Illustrated Book on Home Electro-medical Treatment and mention this paper. J. D. TULLY, Agent, Peterborough. odw

GHOULS ROB GRAVES

A Whole Community Up in Arms at Wholesale Desecration.

HAMBURG, Iowa, June 22.—Forest Hill Cemetery, one mile south of this town, is alive with a swarming mass of people, excited almost beyond bounds by this discoveries that are hourly being made there. Yesterday an examination of a newly-made grave disclosed the fact that it had been robbed. The examination was quietly proceeded with until more than a dozen graves were opened. In each instance it was found that the body had been stolen. The news of the discovery spread rapidly, and fully 1000 people were waiting at the cemetery to note the progress of the investigation. Within the past 18 months nearly 100 people have been buried there, and it is believed that every one of these graves has been desecrated by the ghouls. The evidence points to the existence of a well organized and bold body of graveyard ghouls. There is no large medical institution near here, hence the only demand must have come from a tanning establishment. No mercy will be shown if any member of the gang is caught.

TO SAIL ON MONDAY.

The Peary Arctic Relief Expedition Ready for Northern Seas.

PHILADELPHIA, June 23.—The arrangements for the voyage of the Peary relief expedition are completed. The members have all been selected, their outfits received and stores for themselves and Lieut. Peary packed and shipped to New York, together with the knives, files, hatchets and other implements for the destitute Esquimaux on the west coast of Greenland from Cape York northwardly.

The Miranda will sail with the party on Monday afternoon at 4 o'clock from Robinson's, Congress-street Stores, Brooklyn, for St. Johns, where the program, as before announced, will be carried out.

The entire party consists of Prof. Angelo Heilprin, Philadelphia, leader; Henry G. Bryant, Philadelphia, in command; Dr. Jackson M. Mills, New York, surgeon; William E. Meehan, Philadelphia, botanist; C. E. Hite, Burlington, N.J., taxidermist; F. W. Stokes, Philadelphia, artist; Albert W. Vorse, newspaper correspondent, and Samuel J. Entrikin.

A JEALOUS WOMAN'S REVENGE.

Her Rival Beaten Black and Blue and Nearly Strangled to Death.

COLOGNE, June 23.—The Gazette publishes a sensational story, the facts of which are as follows:

Mrs. Amay, a young Belgian woman, who had recently become engaged to be married, became greatly infuriated through jealousy on account of her rival flirting with her betrothed.

Mlle. Amay plotted with three of her companions to have revenge on her rival. The four conspirators inveigled the girl into the seclusion of a deep forest, and beat her until her body was black and blue.

They then hanged their helpless victim to a tree, and would doubtlessly have strangled her to death, but for the interference of a person who chanced to pass near the spot where the girl was hanging.

QUEBEC'S NEW BISHOP.

Rev. Hunter Dunn of London, England, to Fill the Vacancy.

QUEBEC, June 23.—In the Anglican Synod Bishop Hamilton of Niagara continued to receive the clerical vote up to the 13th ballot, but failed to receive the necessary lay vote.

On the 13th ballot the clergy elected the Rev. Hunter Dunn of All Saints, South Acton, London, England, and on the 14th ballot the laity fell into line and gave Mr. Dunn the necessary majority. The election was then made unanimous.

FLOCKING TO WINDSOR.

Prince Michael's Followers to Transfer Their Headquarters to Canada.

DETROIT, June 23.—Brother Stoneman, the latest victim of the North End haircutters, has announced his intention of deserting the Hamlin-avenue colony and removing to Windsor. The $300 received from Indiana by Brother Bechel was divided among the different families and is said to be the forlorn hope of the Israelites. When that is gone they will probably have no source of revenue whatever and a liberal exodus to Windsor is said to be contemplated.

Judge Armour's Daughter Wedded.

COBOURG, June 23.—The marriage took place yesterday of Miss Elsie Armour, daughter of Chief Justice Armour, to Auguste Bolte of Toronto. The bride was attired in a dress of ivory satin, the skirt of which was embroidered with pearls and trimmed with hyacinths and orange blossoms. The train was bordered with a net of ruching. The waist was set off with point lace and orange blossoms and the veil, which did not cover her face, reached to the end of the train. Miss Nora Armour was maid of honor to her sister and the bridesmaids were Miss Bolte and Miss Castle of Toronto, Miss Black of Cobourg, Miss Lottridge of Hamilton and Miss Lowrey of New York. They were all dressed in white crepe de chine, with girdles of green moire ribbon, and wore white leghorn hats trimmed with light and green flowers. Each carried a bunch of white roses and the bride a very large one of cream roses. The ushers were Mr. George Armour, Mr. D. Armour, Mr. H. Wyatt, Mr. Hugh Hartshorn, Mr. A. Morphy, Mr. George Higginbotham of Toronto and Mr. A. Kemp of New York.

Had Been Married Five Days.

LACHUTE, Que., June 23.—By the explosion at Brownsbury cartridge factory yesterday three men were instantly killed: John Curran of Lachute, aged 27; James Kearns of Montreal, aged 17, and William Gunn of North Maisonneuve, aged 30. William Burk, who had been in the building, was blown through a door and was picked up after the explosion unconscious and seriously injured, but he may recover. Curran, who was foreman of this department, was blown to atoms, and leaves a young wife to whom he was married last Thursday. The building was shattered.

Peaches Will Be Dear This Year.

GRIMSBY, Ont., June 23.—The reports of the fruit crops in the Niagara Peninsula are not of the nature to make people happy. The continuous rains in the spring had a bad effect on the fruit blossoms, and a great many trees are almost barren this season. Peaches, apples and cherries will, in consequence, be scarce in this district in the fall and prices will probably be away up.

TORONTO GRAIN MARKETS.

Business Transacted and Prices at Grain in the Queen City Yesterday.

TORONTO, June 23.—The receipts of grain on the street yesterday were represented by one load of goose wheat at 67 and 400 bushels of oats at 34c to 35c. Hay was in good supply, 30 loads selling at $11 to $13 for timothy and $9 to $10 for clover. Straw sold at $9 to $10.

On call board business was very dull with light offerings. No. 1 regular afloat Fort William offered at 70c without bids and one car at North Bay offered at 71c without bids. No. 2 regular at North Bay offered at 61c without bids. Oats on track offered at 33c without bids.

Hunting Bear in a Ship.

PORT ARTHUR, Ont., June 23.—Captain Beebe killed a pretty big bear on the Kakabeka's last trip. When passing through Nepigon straits the crew saw bruin swimming. Then followed a series of manœuverings, in the course of which the bear was shot, clubbed, axed and hanged to death. He is about 250 pounds weight, and his fur is prime.

Stung to Death by Bees.

WABASH, Ind., June 23.—Mrs. Joseph Keim, living near Roann, died a horrible death yesterday. She undertook to hive a swarm of bees and a hundred of them stung her. She lived two or three hours in intense agony before death came to her relief. Mrs. Keim was a member of one of the most prominent families in the county.

His Ingenuity Landed Him in Jail.

WINNIPEG, June 23.—William Johnston, advocate, of McLeod, and formerly of Regina, who was charged with obtaining from the Dominion Government money under false pretences, by forged evidence and certificates, re coroner's inquests, has been convicted and sentenced for term of 22 months in Regina jail.

Prof. McLaren Goes to Winnipeg.

WINNIPEG, June 23.—The staff of Manitoba College here for the summer session will be strengthened by Prof. McLaren of Knox College, Toronto, and Prof. Scrimger of Presbyterian College, Montreal.

Be sure you find the right place and then you may be sure you will get the right goods at the right price. One thing you will not find in our store is old goods. Everything is made in our own factory, cut by hand in the very newest style and made up equal to any custom work turned out in the Town of Peterborough. It is nothing new for us to hear a man say, this is the first time I ever bought a suit ready-made, but it will not be the last, as long as Grafton & Co. are in Peterborough.

WE HAVE THE NICE, NEAT, NEW STYLISH GOODS!

And are bound to do the trade. We did not rush into Peterborough without letting the people know from whence we came. We are an old established firm in Dundas, where the firm has been running for forty years and had the experience of years before some of the dealers of the present were in existence, or at least were just learning the first lesson in the English language necessary to start through this weary world. There are three branches of this firm—Dundas, Owen Sound and Peterborough. In each of these places

WE LEAD IN CLOTHING

And intend to keep the lead, by doing things on the square, up and up plan. This is the principle we work on. Come and see for yourselves. Don't be afraid to come and look at the goods, you will go away more than surprised to see such good goods for such little money.

HERE ARE A FEW PRICES:

See our 35c. and 50c. Overalls; cannot be bought wholesale for the money.

See our Men's Pants, 95c., $1.25, $1.50, $1.75, $2 and up; these we sell to other dealers at these prices

See our Men's Suits—You who have seen them need no price quotations, you who have not seen them come and be convinced; you will never regret it.

In Boys' and Youths' Clothing we take the lead—we always have and always will. Why not have the boys fitted out in first-class style when you can do it so cheaply.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

DOMINION PARLIAMENT.

FIVE CONSERVATIVES VOTE WITH THE OPPOSITION.

In the Division On the Prince Edward Island Clause of the Redistribution Bill—Personal and Political Notes Picked Up At the House.

OTTAWA, June 24.—The only feature of the House yesterday was the discussion on the clauses of the readjustment bill that apply to Prince Edward Island. At present that province is made up of three counties, each of which sends two members. Of these six members two are Conservative and four are Liberal. By the readjustment under the last census the island must lose one seat. The Government bill proposes to meet this situation by cutting the island into five ridings, one result of which is to take three townships out of one county and two out of another and put them into ridings in adjoining counties. In this way complete equality of population is secured, but county lines are broken into.

Mr. Davies, the Liberal leader from that province, moved an amendment not to disturb the county lines, but to give King's county one member and the remaining two counties two members each. This at the same time gave a fairly even unit of representation as regards population.

After a long debate, kept up for most of Wednesday and all Thursday, in which nearly every one in the House spoke while in committee, a vote was taken on the amendment of Mr. Davies.

Messrs. Cockburn, Denison, Maclean (East York), Dickey (Nova Scotia) and Weldon (New Brunswick), all Conservatives, voted with the Liberals, the vote standing 39 to 71 against the amendment.

The five Conservatives gave as their reasons for voting as they did that, while on the whole they supported the bill in its general features, they were perfectly free to dissent from any of its details.

When asked to-night Mr. Maclean said he voted for the Davies motion because it exemplified the only principle that could be laid down as underlying a redistribution measure—the principle of disturbing existing conditions as little as possible having due regard to the incidence of population.

The Civil Service Report—Personal and Political Paragraphs of Interest.

OTTAWA, June 24.—The department of Justice has received from the Citizens League of Montreal a memorial asking that steps be taken to make foreign lottery tickets and advertising matter absolutely contraband and liable to seizure and confiscation when found in the country; also that debauchery and incitement of minors to vice or crime be dealt with as a felony up to the age of 16 and as a misdemeanor beyond that age; that brothel keepers be invariably imprisoned as well as fined, and that public officers who do not do their duty shall be guilty of a misdemeanor.

Construction is going on steadily on the Gatineau Valley Railway. The third 10 mile section will be opened on July 10, and work is being pushed on the fourth 10 miles so that by September 40 miles of the road will be in operation.

The genial countenance of Mr. Adam Brown, ex-M.P., postmaster of Hamilton, was seen about the lobbies yesterday, and Mr. Brown's many friends were glad to have him amongst them again.

Mr. H. J. Beemer, contractor for the Montreal & Western Railway, was in town to-day. He says the first 30 miles of the road from St. Jerome to St. Agathe, now completed, will be opened the first week in July, when the C.P.R. will take it over. Thirty-four miles of the road are graded and 26 ballasted. Up to the 52nd mile to St. Jovite is under contract.

In the Senate yesterday, in reply to a question by Senator Power whether the Government proposed to amend the Civil Service Bill next year, Sir John Abbott said that the report of the civil service commissioners was very voluminous and the evidence which had been taken required careful study. The Government had not been able during the session to give the subject much consideration, but during the recess the whole matter would be examined with a view to seeing whether it would be necessary to propose any amendments to the Civil Service Act next year.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City Yesterday.

TORONTO, June 24.—Receipts of grain on the street market yesterday were represented by two loads of wheat at 82c and 400 bushels of oats at 33c to 34c. Hay was in good supply at $12 to $13.50 for timothy and $10 to $12 for clover. Straw sold at $10.

On call board No. 1 hard all rail North Bay offered at $1.06 with $1.01 bid. No. 2 hard to arrive North Bay offered at 84c with 81c bid. No. 1 regular, now at North Bay, offered at 71c and No. 2 regular at North Bay offered at 81c without bids. A car by sample offered at 97c. Oats steady with offerings at 33¼c to arrive.

W. K. Muir Dead.

DETROIT, June 23.—W.K. Muir died yesterday at his residence in this city. For some time he had been afflicted with rheumatism, and three weeks ago returned from a trip to Japan not improved. The immediate cause of his death was inflammation of the brain.

Mr. Muir was for several years assistant-superintendent of the Great Western Railway of Canada under C. J. Brydges, and later was general manager of the Detroit, Grand Haven and Milwaukee Railway and superintendent of the Michigan Central Railway.

At the time of his death he was president and general manager of the Eureka Iron and Steel works and the Star Line of steamers.

He leaves a $1,000,000 estate.

C.P.R. Conductor Killed.

MONTREAL, June 24.—A C.P.R. train conductor named Moses Narean, belonging to Richmond, Vt., was killed in the yard at Farnham yesterday. He was struck by a passing engine and died instantly.

In Search of His Wife.

LONDON, Ont., June 24.—Abrahem Fisher of Beamiller, near Goderich, is in the city yesterday looking for his wife, who disappeared from her home on Tuesday afternoon. She had only a limited amount of money and her husband thinks she is laboring under mental aberration.

Killed by a Fish Bone.

HALIFAX, N.S., June 24.—W. B. Christian of Prospect accidentally stuck a fish bone in his hand and blood poisoning followed. His recovery is doubtful.

STEVENSON OF ILLINOIS

NOMINATED AS VICE-PRESIDENT YESTERDAY.

Close of the Chicago Convention—A Steady Downpour of Rain Makes the Leaky Wigwam Uncomfortable—How Cleveland Received the News of the Nomination.

FOR PRESIDENT—Grover Cleveland of New York, lawyer, President United States, 1884; re-nominated and defeated in 1888.

FOR VICE-PRESIDENT—Hon. A. E. Stevenson of Illinois, First Assistant Postmaster-General under Cleveland's Administration.

CHICAGO, June 24.—Grover Cleveland was nominated for President on the first ballot at 4.49 a.m. He received 616½ votes; Hill 112, Boies 103, Gorman 36½, Stevenson of Illinois 16 2-3, Morrison 5, Carlisle 15, Campbell 2, Patterson 1, Whitney 1, Russell of Massachusetts 1.

It was a muggy, damp atmosphere and uncomfortable quarters that the delegates and spectators entered in the wigwam this afternoon. The conditions were not pleasant. All the speculation on the floor and in the benches was about the length of time in which the convention could complete its work and enable the visitors to leave the city. Another heavy rainstorm in the morning added to the general desire to get away.

Every day since the majority of attendants upon the convention from abroad have been in the city it has rained sometimes three or four times a day, and the eagerness of the visitors to get into dry atmospheric surroundings is almost pathetic in its intensity.

When Chairman Wilson pounded the table for order most of the delegates were in their places.

After the opening exercises the nomination of candidates for the Vice-Presidency was proceeded with, and during the entire proceedings the rain pattered on the roof and percolated through its interstices.

Governor Boies was looked upon as a likely candidate, but prompt upon his name being proposed the announcement was made that he would not stand. It then became evident that the contest would be between Hon. A. Stevenson of Illinois and Ex-Governor Gray of Indiana, the other nominees, Mitchell and Boies, not being in it. When the roll was called the vote stood: For Stevenson 402, and Gray 243; no choice. Then began the changes, Iowa first came into the Stevenson camp, Montana next, followed by Nebraska. Ohio got into line amid great cheers. Missouri climbed over the wall, Georgia close behind and Kentucky came next. The flock of the states outside the Stevenson corps came to cover with a rush of wings and flutter of feathers. It became only a question of time, and when the two-thirds vote for Stevenson had been obtained the nomination was announced.

At 5.20 the convention adjourned.

Grover is Touched.

BUZZARD'S BAY, Mass., June 24.—At 4.30 yesterday Mr. Cleveland transmitted the following statement to the press: "I should certainly be chargeable with dense insensibility if I were not profoundly touched by this new proof of the confidence and trust of the great party to which I belong and whose mandates claim my loyal obedience. I am confident that our fellow-countrymen are ready to receive with approval the principles of true democrac, and I cannot rid myself of the belief that to win success it is only necessary to persistently and honestly advocate these principles. Differences of opinion and judgment in Democratic conventions are by no means an unwholesome indication, but it is hardly conceivable in view of the importance of our success to the country and to the party that there should be anywhere among Democrats any lack of harmonious and active effort to win in the campaign which opens before us. I have therefore no concern on that subject. It will certainly be my consistent endeavor to deserve the support of every Democrat."

ESCAPED TO TORONTO.

After Blessing New York Fur Dealers Out of $20,000.

NEW YORK, June 24.—The detectives are looking for Myman Gutfeld, a furrier of 290 Mercer street, who obtained $20,000 worth of Edward Lazarus, a wholesale dealer in skins, and then fled to Toronto, Canada. The swindling scheme adopted by Gutfeld was an ingenious one. He deposited $5000 in a bank and then ordered goods from numerous dealers, the order on each firm not exceeding $2500. Of course when the merchants inquired at the bank if Gutfeld was good for the amount of his indebtedness they were told that he was good for more than double the amount. When the debt became due it was discovered that Gutfeld had removed the goods, drawn his money and decamped.

THE JAW STICKS.

And a Professional Ballplayer is Starving to Death.

READING, Pa., June 24.—The professional baseball-player, W. S. Humbard, is starving to death. He is serving a two and a half years' term in the Berks County Prison for forgery. Some years ago he was struck on the jaw by a baseball. An operation was performed and an artificial plate jaw supplied. He is now unable to open his mouth and can take no solid food.

Dropped Dead While Lighting His Pipe.

HAMILTON, June 24.—At 7.15 yesterday John Hildreth, aged 40 years, a resident of Ancaster, dropped dead in James' Hotel at the racetrack. Deceased was in the hotel with a relative named William Hildreth, and after a couple of drinks retired to the sitting-room; and while in the act of filling his pipe preparatory to having a quiet smoke, he fell backward off his chair, and when several bystanders ran to his assistance they found life extinct.

BURNED THE TOWN.

Serious Charge Against Joseph Bloore, a Merchant of Bervie.

KINCARDINE, Ont., June 23.—Joseph Bloore of Bervie has been remanded to jail on a charge of being the person who started the fire which burned down half of Bervie village two or three years ago.

Hudson Bay Poaching.

OTTAWA, June 24.—Mr. Charlton, M. P., gives notice that he will ask the Government whether they have given consideration to the paragraph in the report of Lieutenant-Governor Schultz in which he speaks of, and condemns, the poaching by American whalers in Hudson Bay, and whether it is the intention to refer this statement to the Behring Sea arbitrators or take other steps to prevent the alleged poaching and smuggling by American vessels in Canadian waters.

A BRANTFORD SENSATION.

Suspicious Death of a Brantford Man—Tell-Tale Marks on His Body—Inquest to Be Held.

BRANTFORD, June 24.—The time-keeper at the Grand Trunk shops, Mr. Orr, had occasion to call at the residence of Charles Griffiths, 44 Lawrence street, at noon yesterday, regarding some question of payment of time worked.

When Orr entered the house he found Charles Griffiths, the man whom he sought, lying dead upon the kitchen floor. Further inspection found the wife of deceased was also in the house, in, it is alleged, a state of semi-intoxication and unaware of the death of her husband. Judging from appearances deceased had not been dead more than a few hours. Certain portions of the body are swollen, bruised and discolored. A coroner's inquest has been ordered by the authorities and which will be held by Coroner Kerr.

From information derived from the neighbors Griffiths, who is about 60 years of age, has been drinking rather heavily of late, and has indeed been what is described as "a prolonged spree." He was last seen by the people in the neighborhood on Sunday.

HEIRS TO A FORTUNE.

Forty Thousand Pounds Awaiting Claimants—The Ontario Heirs.

ST. JOHN, N.B., June 24.—The people of Sutton parish, York County, are wonderfully excited just now over the good fortune that has befallen the Linton family. It appears that about 40 years ago a gentleman of London, England, of the name of Linton, died, leaving an estate of £40,000 sterling in cash in the Bank of England. This sum has been accumulating since, and it was not until the last few months that any heirs to this wealth have been discovered. The heirs who reside in this province are Mrs. Solomon Vail and Mrs. John Brockway of Brockway settlement in Manners-Sutton, York, and Mrs. Grant and Mrs. O'Brien of St. George, and Thomas Nutter of Lower Hill, Charlotte County. Their claim is through their mother, who was a Linton, and married a Mr. Nutter. She was a direct heir to the Lintons who left the money now on deposit as above stated. In these there are some 40 heirs; some of them reside in Ontario, some in Quebec, some in Nova Scotia and others in Great Britain. The interest of the parties named is now about established, and the receipt of their share is only a matter of a few months.

A Good Appointment.

WOODSTOCK, June 24.—Very general satisfaction is felt at the action of the Woodstock Board of Trade in appointing Hon. Thomas Ballantyne as its representative at the London Congress of Chambers of Commerce. Woodstock is one of the dairy centres of the Dominion, and it is appropriate that such an appointment should be made here. No Canadian knows more about the dairy interests than Mr. Ballantyne, and in this connection and otherwise he will prove an able representative of Canada in London. The Board of Trade has paid a well-deserved compliment to Mr. Ballantyne and has done honor to itself in so doing.

A Sensible Move.

OTTAWA, June 24.—The Agriculture and Colonization Committee met yesterday. Mr. Burgess, Acting-Deputy Minister of the Interior Department, said the transfer of the immigration work from the Agriculture to his department took place on April 1. By the superannuation of the immigration agents a saving of $20,000 annually would be made.

It Is the Wives Who Suffer.

GALT, June 24.—James and William Henderson, who were tried at Berlin on two charges of breaking into G.T.R. cars at Galt and found guilty by the jury, have been sentenced to five years in the penitentiary. The wives of the young men were in court when the sentences were pronounced. They cried very bitterly, and left the courtroom sobbing as if their hearts would break.

Cut Completely in Two.

COLLINGWOOD, June 24.—A terrible accident, which resulted fatally to a lad of some 13 summers, named Patrick McNeil, occurred at Burton's mill, Byng Inlet. The lad, who was an employe of the mill, endeavored to cant a log to the large circular saw. The cant hook slipped and the lad fell over the log on the saw end in an instant his body was severed in two. Death was instantaneous.

His Foot Cut Off.

ST. CATHARINES, June 24.—Wednesday night a farmer named Lindsay, who resides near Port Colborne, was doing some work around a car at the G.T.R. station there when the train moved and the wheels passed over his foot, cutting the right one clean off at the instep and smashing the toes of the left one badly. He was brought to the hospital.

Death of a Miser.

HALIFAX, N.S., June 24.—An aged farmer named James Mullins died recently at Vernon River, P.E. Island. It was believed in the settlement that the old man had plenty of money in the house, and after his death the rumor was abundantly verified, as 12 lb. weight of old sovereigns and $350 in Prince Edward Island notes were found in his possession.

Killed by Brigands.

VALPARAISO, June 24.—Santiago is greatly excited over the cruelty committed by one of the numerous bands of robbers which infest that city. The highwaymen killed Jose Miguel Velasco Colapas and then criminally assaulted his wife and two daughters on their ranch at San Jose, less than six leagues distant from the capital.

Mr. Blake to Sail on Sunday.

QUEBEC, June 24.—Hon. Edward Blake arrived yesterday from Murray Bay, where he bade adieu to his family before leaving for Ireland. Mr. Blake remains here until Sunday, when he will embark on the Parisian for Dublin.

For Embezzling Funds.

WINNIPEG, June 24.—James Embree, formerly Canadian Pacific station agent at Boissevain, was sent up for trial yesterday on a charge of embezzling $400 of the company's funds.

Furness Liner Missing.

MONTREAL, June 24.—The steamship Wetherby, a grain, deal and cattle boat, no passengers, is missing 23 days out from here for Liverpool. Seven Canadian cattle attendants are on board.

A SOUND AND PROSPEROUS BANK.

Solidity and progressiveness were features of the Ontario Bank conspicuously suggested by the annual report of the president presented at the recent annual meeting, and the report must be pleasant reading for the shareholders. The net profits for the bank year were $152,115 12, not counting a profit and loss account balance brought forward of nearly $23,000. After paying the usual dividends at the rate of seven per cent. on the capital stock, there was left $35,000 to be carried to rest, making the total of this comfortable fund, $315,000. The president in his address refers to the substantial increase in deposits and also in the discount branch of the bank's business. Add to this a reserve fund equal to 21 per cent. of the capital, and we have evidences of good standing and good management, which must not be only gratifying to the shareholders, but also a source of confidence to the public. The local branch has shared in the general prosperity of the institution, and it is safe to say that no agency in the constituency of the bank has done more, by conservative and capable management and a happy combination of vigilance in behalf of the bank's interest, and the interests of the customers of the bank and the general public, to ensure the satisfactory result of last year's operation.

Government Aid to Our Roads.

The Bobcaygeon *Independent* says:—It certainly is a great advantage to a district needing new roads to have for its representative in the Legislature a gentleman of push and snap who can press upon the Government the necessity of liberal grants of assistance. Mr. J. B. Stratton, M.P.P. for West Peterborough, has obtained various grants for Galway, Cavendish and Harvey, which will be of valuable service in giving permanent means of communication, to say nothing of the immediate pecuniary advantage in the expenditure of the grants. This village has felt the benefit of the road in North Harvey, opening as it does a large district tributary to this centre of supply. In the list of amounts that will be expended this summer, a portion of the $300 on the North Harvey road is for the construction of a rather difficult bridge across the Mississauga Creek.

The merit of Hood's Sarsaparilla is not accidental but is the result of careful study and experiment by educated pharmacists.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

The Cheapest and the Best.

"Indigenous Bitters" are the cheapest Bitters which have ever been offered to the public, because instead of buying a preparation all ready put up one can buy the ingredients for making them at the market price. For instance, with a box of these Bitters which cost 25 cts. you can make three or four bottles similar to those which sell for one dollar; therefore with the money which you would pay for one bottle you can make twelve or fifteen bottles. 1d

Facts About Dyspepsia.

Wrong action of the stomach and liver occasions dyspepsia. Dyspepsia in turn gives rise to bad blood. Both these complaints are curable by B. B. B., which acts on the stomach, liver, bowels and blood, and tones and strengthens the entire system, thus positively curing dyspepsia, constipation, bad blood and similar troubles. dw

The Handsomest of all Coins.

This proud distinction is generally conceded to the United States' twenty-dollar gold piece, a marvel of beauty in design and finish. The loveliest of God's handiwork is a handsome woman, if in the bloom of health; if she is not, Dr. Pierce's Favorite Prescription will restore her. Ladies who use this peerless remedy are unanimous in its praise, for it cures those countless ills which are the bane of their sex—irregularities, dragging-down pains, inflammation, hysteria, sleeplessness, and the "all-gone" sensations which burden their daily lives. A tonic and nervine, without alcohol. b

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistant for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

Mrs. M. A. Booth, of Longmeadow, Mass., is editor of the microscopical department of several scientific papers, and was honored by having the degree of F.R.M.S. conferred upon her by the Royal Microscopical Society of London. I will let her tell of her work in her own words: "Nature had denied me the gift of a facile pencil and what the microscope revealed to me I could depict to others only through the very imperfect medium of languages, so photomicrography became an absolute necessity. By means of its light, the unerring pencil delineates upon the photographic plate just what the miscroscope reveals. Not the conceptions of a biased mind, the inventions of a fertile imagination or the errors of unskillful fingers. There are at least two essentials to successful photomicroscopic work, a thorough knowledge of microscopical science and familiarity with photographic methods, for the details of this work are too delicate to be entrusted to the hands of even the most careful professional photographer. I have rarely passed a more delightful time than on the stormiest winter day, when, with microscope and camera, I have betaken myself to my dark room and then by lamp light successively exposed and developed negative after negative. The process is a rapid one, the tube of the microscope is horizontally inclined, the lamp placed in the optical axis, the object to be photographed laid upon the stage of the microscope and focused as for ordinary observation. The camera is then attached, the object focused on the ground glass, which is replaced by plain glass, when with the aid of a hand lens the object is still more carefully focused. Light is now shut out from the objection, the plate holder inserted in the camera, the slide withdrawn and an exposure of from 20 seconds to several minutes made, and the most rapid plates are used. I am a thorough advocate of photography for women. If I were a physician I should certainly in the case of delicate nervous patients often prescribe a camera in lieu of drugs." Miss Booth's photographs show, as no drawings possibly can, the wonderful construction of the most minute objects in the animal and vegetable world.

OLD TIME RELIC.

CARPET BUG'S HAIRS.

An amateur's failures are often so funny that they are the spice of his career. But entirely aside from the fact that a blunder is the mother of discovery, there is a good deal of art as well as humor in photographic mistakes. Shall I ever forget the gentleman who wanted the picture of the old mother cat with her five little kittens, taken in their ancestral home, an old ragged basket, in which family after family of far-scattered cats had grown up. We decided on a flashlight, so when night came the kitchen was darkened and the basket artistically arranged among carpet strips on the kitchen table. We focused it, inserted the plate holder, turned out the gas, pulled out the slide and opened the shutter and then the flashlight went off like the illumination of a million electric lights and all was dark again. When we lit the gas, the old cat was on a chair on the other side of the kitchen and all her little folks sprawling on the floor. The developed negative showed a beautifully clear rendering of the ragged basket and the carpet drapery, but the cat family were not in it. And then, too, this last sketch tells its own story, of an amateur whose chief ambition was a moonlight. One night when the moon was full and the reflection on the sea was perfect, she sat patiently for one mortal hour with her Hawk-eye planted on a fence, keeping it as steady as tired arms would permit. Of course she had forgotten that while the camera was steady, the moon was ascending from the horizon to the heavens overhead, and this was the result.—Elliott, in Farm and Home.

Bones.

The following composition on bones was actually written for a school exercise by a boy, and was thought so amusing and original by the teacher that she gave it to the editor of the Popular Science News for publication, from which journal we extract it:

Bones are the framework of the body. If I had no bones in me, I should not have so much motion, and grandmother would be glad, but I like to have motion. Bones give me motion because they are something hard for motion to cling to. If I had no bones, my brains, lungs, heart and large blood-vessels would be lying around in me and might get hurted, but now the bones get hurted, but not much unless it is a hard hit.

If my bones were burned I should be brittle, because it would take the animal out of me. If I were soaked in a acid I should be limber. Teacher showed us a bone that had been soaked. I could bend it easily. I would rather be soaked than burned. Some of my bones don't grow close to my body, snug, like the branches of a tree, and I am glad they don't for if they did I could not play leap-frog and other nice games I know.

The reason they don't grow snug to my body is because they have joints. Joints is good things to have in bones. There two kinds. The ball and socket, like my shoulder, the best. Teacher showed it to me, only it was the thigh bone of an ox. One end was round, smooth, and whitish. That is the ball end. The other end was hollowed in deep. That is the socket, and it oils itself. It is the only machine that oils itself.

Another joint is the hinge joint, like my elbow. It swings back and forth and oils itself. It never creaks like the schoolroom door. There is another joint that don't seem like a joint. That is in the skull. It don't have no motion.

All my bones put together in their right places make a skeleton. If I leave any out, or put any in their wrong places, it ain't no skelton. Cripples and deformed people don't have no skeletons. Some animals have their skeletons on the outside. I am glad I ain't them animals; for my skeleton, like it is on the chart, would not look well on my outside.

Farm For Sale!

THE Executors of the late Thomas Hetherington offer for sale that well-known property, in the Township of Smith, in the County of Peterborough, composed of Lot No. 23 in the 11th Concession of the said township, containing two hundred acres of land more or less. This farm is free from bad weeds, is well fenced and in a good state of cultivation. It is well adapted for stock and grain, and is situated one mile from Young's Point, fronting on Katchawanooka Lake, Steamboats passing daily during the summer, touch at the farm. On the premises are erected the following buildings all in first-class repair:—

Dwelling house, one and-a-half stories high, 32x22, extension kitchen, 21x17 with cellars under both, and hard and soft water convenient to the house. There are surrounding the dwelling about one-and-a-half acres of grounds and orchard, stocked with apple, cherry, pear and plum trees, grapes, gooseberries, currants, etc., all bearing.

The outbuildings consist of a frame barn, 32x50 basement used for cow byre, and stabling for two horses at end of upper storey; a frame barn 32x55 with extension 12x55; a log barn 62x28, sheep house attached 32x14; driving shed 15x22; implement house 16x45; summer kitchen and wood house 16x28; pigsery and poultry house, one-and-a-half storeys with stone basement, 20x12.

Intending purchasers can have full information as to price and terms of sale, which will be fair, on application to any of the undersigned executors, namely:—Mrs. Mary Hetherington, on the premises; Lawrence G. Steele, Lakefield; William Leeson, Township of Douro; or to

EXTENSIVE CHANGES IN THOMAS KELLY'S DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy now, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Next Wednesday.

Not often is a specialist detained by making a greater success than was anticipated, but such is the case with Dr. Jebb, the renowned optician, who is now at W. R. Greatrex's drug store. He came to remain for a few days only, but the pressure of appointments has compelled him to remain nearly four weeks. He positively asserts that he cannot possibly remain longer than Wednesday, June 29th, which will give those who intend seeing him another opportunity. The only specialist in Canada with many years of practical experience. Inventor of the new Optometer for testing the eye and sight. Examination free. 21148

An Enjoyable Outing.

The choir of the Charlotte street Methodist church, Mr. A. L. Davis, leader, held an enjoyable day's outing yesterday with a few friends. They left Peterborough at 8.45 o'clock in the morning for Lakefield where an embarkment was made on the steamer Mary Ellen. The party enjoyed a pleasant sail around the lakes stopping at Buckhorn for two hours where the scenery was viewed. Some of the party went fishing with varying success. The pioneers returned home after a pleasant day's trip by way of Chemong, reaching Peterborough at the early hour of 6.30 o'clock. Music flowed freely on the boat, Dr. and Mrs. Jebb, of New York, rendering some fine selections on their banjos. Several choruses and solos were sung and all went merry as merry could be. The choir is deservedly popular with the congregation who gave them the trip.

A Successful Garden Party.

The first garden party of the season was held on the spacious and beautiful grounds of Mr. J. J. Lundy, Ashburnham, last night and was largely attended. The number present was about 300. The Peterborough Fire Brigade Band were present and discoursed enchanting selections to the large number who lined the walks and balconies. The grounds were finely decorated with Chinese lanterns suspended in pretty array from under the numerous boughs of green. Ice cream, strawberries and other delicate and tempting things were served by the pretty waitresses in gay costumes, both from the tables and in baskets, and many responded to the call of a keen appetite. The first garden party of the season, given under the auspices of the Young People's Society of Christian Endeavour of St. Andrews' Presbyterian church was a great success. The proceeds of the evening were devoted to the Y.M.C.A.

DUNCAN CAMERON & Co.

Peterborough First.

The enterprising firm of Pete Simons & Co. have received orders from Keewatin, Motcomas, Winnipeg and Brandon for their suits of clothes. Mr. Simons has received orders for 13 suits of clothes from different parties to be made by July 1st and shipped to various customers of his in the Northwest and Manitoba. This bespeaks credit for the work, style and material of a Peterborough firm.

Battalion Episodes.

The 57th Battalion had a parade last night. Ten turn-out was a fair one. The men are fast getting into shape, and will present a good appearance on inspection day. The trip to Kingston was the talk of the boys. Next Thursday night the companies will board the train for the Limestone City, and an enjoyable time is anticipated. Quartermaster Lungford and a squad of men will leave a day or two in advance to make all the necessary arrangements. There will be a battalion parade next Tuesday evening. A large turn-out is requested by the captains.

Bicycle Club Potucer.

The members of the Bicycle Club held a spin last evening. Ten master was poorly attended only 12 wheelmen being in line. The boys took a run up to Nassau came down by the Ashburnham shore down to the locks and back to town. There was not an officer of the club in the run and the turnout of only twelve bicyclers from a club which claims to have a membership of sixty is a disgrace. The officers seem to be manifesting little or no interest in the club when not a single one of them turned out last night. It was expected that the matter of sending representatives to the great C.W.A. meeting at Kingston, on July 1st and 2nd would be definitely settled last evening but nothing was done owing to the lack interest and small turnout.

Hurrah! For Dominion Day!

And also for St. Peter's Cathedral picnic, which is a regular and brilliant feature of the day. It will be held on the St. Joseph's Hospital grounds. The public know that past picnics have been a grand success as well as a first class source of enjoyment, but the preparations for the coming event on July 1st are on a grander scale. An energetic committee have the programme in charge, and the list of sports and games comprise 15 exciting events, for each of which elegant prizes will be given. A first class orchestra will provide music for dancing. And the good ladies will supply dinner at high noon and refreshments during the day. Keep this date open. Admission 25c, children 15c, dinner 25c.

A Successful Picnic.

The annual picnic of the Rev. Father Sweeney, of Harwood, took place yesterday at Jubilee Point and was an immense success. The steamer Golden Eye left Peterborough and Ashburnham at 8 o'clock yesterday morning with a fair number of pleasure on board. The steamer Daisy also brought a large number to the Point from Harwood, Cobourg, Campbellford and other places. About three or four hundred were present in all. Prof. Belcher's orchestra accompanied the excursion and furnished excellent dancing music, both on the way down and at the Point. A splendid dinner was served by the ladies of the parish. The Peterboroughians returned home about 8 o'clock last evening well pleased with the day's outing. Father Sweeney deserves credit for the interest and activity he took in everything pertaining to the success of the day. Miss Lillie Dineen, of Peterborough, in the prize drawing contest won the suit of clothes donated by Gough Bros., she holding the winning number.

A Cadet Corps.

The project has been under consideration of forming a cadet battalion of boys in town of four companies, one from each ward. A meeting will be held in the Central School premises on Monday afternoon at 2 o'clock, and all lads who view the project favourably and those interested in the formation of the proposed corps are requested to be present. It is proposed to organize and thoroughly drill the corps, to be followed later by equipping them with uniforms and outfasses. The members of the corps will be under certain forms of discipline and conduct, and will be required, in general deportment, aside from their drill, to do nothing unsoldierly—to avoid strong drinks, tobacco and other habits that are unbecoming and injurious. The drill and discipline will have, of course, a beneficial effect physically, and the moral effect of the discipline will be to make the lads better able and more willing to conform to the code of morals that higher civilization demands, and be law-abiding citizens. All who delight in seeing sound minds in sound bodies, and to see boys trained to become erect and manly in figure and respectful in demeanor, will help on this project.

—Dr. J. F. Wilkinson met with an unfortunate accident on Wednesday. He was splitting wood with a hatchet when the weapon slipped, cutting two or three inches clear off the index finger of his left hand.

—The council of the Board of Trade met last evening and selected the following representatives to attend the funeral of the late Mr. Hilliard. Messrs. R. Fair, pres., J. H. Burnham, sec., H. S. McDonald and T. A. Hay.

—The annual meeting of the West Peterborough Farmers' Institute will be held in the town council chamber to-morrow afternoon at 3 o'clock for the election of officers, the receiving of reports and transaction of general business.

—In the lacrosse match on Wednesday evening between the Shamrock and the Park Lacrosse Clubs, the latter won, taking four goals to their opponents' one. The return match will be played on Saturday night on the old circus ground.

—The Kingston *Whig* says:—The Peterborough baseball club accepts the offer, by telegram, this morning, of a game of ball with the Princess street boys on Dominion Day. The match will be for $75, and will take place at Long Island park.

—Three attempts have been made to run a delivery waggon in Campbellford for the benefit of the merchants, and all have failed. Query: What is the matter, isn't the town booming enough for the merchants' trade to require the services of a delivery waggon?

—The Kingston *Whig* says:—The sergeants of the 14th batt. intend giving the sergeants of the 57th Rangers, Peterborough, a big time on Dominion Day. The brigade band will also entertain the visiting pipers in the new hall in the artillery barracks.

—Mr. Jas. E. Johnston, of the 13th concession of Seymour, while blasting last week allowed a burning match to drop into a pan of powder which he held in his hand. His hands, head and body were burned, while the flesh hung from his face in strips, almost dropping off in many places.

—To day is Decoration Day. This afternoon was generally observed as a holiday. A large number visited Little Lake Cemetery this morning with bouquets of flowers. The steamers Daisy and Golden Eye began running trips to the cemetery at 10 o'clock this morning and took a large number over to the city of the dead.

—Two young men were arrested in Ashburnham Tuesday night by Constable Craig for creating a disturbance on the principal street of the village. They were brought up before John Wood, J. P., on Wednesday, and fined $4 each and costs. This will, it is hoped, serve as a warning to all young men who are in the habit of shouting and creating a disturbance on the public streets after dark.

—At a meeting of the Campbellford Cheese Board on Tuesday evening last 17 factories were represented, whose products amounted to 1,515 boxes, 460 being colored. J. T. Warrington purchased 140 boxes, colored, at 9½ and balance was sold to Hodgson Bros. for 8 5 16c. Mr. W. Charters bought 155 boxes at 8½c., and Messrs. T. and J. Warrington the balance, 155 boxes at 8 15 16c.

HOOD'S

Sarsaparilla

All Run Down With **Dyspepsia**

The peculiar combination of stomach tonics and alterative remedies in Hood's Sarsaparilla cannot be equalled, and this superiority explains the wonderful success of

This Great Medicine

in cases of Dyspepsia, Indigestion and similar troubles. Mr. T. A. Wheelock, a well known citizen of Burlington, Vt., writes:

"Six months ago I was badly run down and unable to attend to business. The principal trouble seemed to be due to indigestion and aggravated dyspepsia. I had no appetite,

Nothing Tasted Good

and what I did eat distressed me. Added to this was a nervous disturbance. Physicians that I employed failed to reach my case. I grew worse, lost flesh and almost hope. One day I ran across a testimonial for Hood's Sarsaparilla stating what it had done in what seemed to be a case similar to mine. I got a bottle and in three or four days saw that I felt better. Before I had finished the first bottle, was greatly improved. Rested better, felt better, and knew I was

Better All Over

I continued with the medicine, and have taken two bottles and now feel better than at any time for the past five years. Feel as hearty as when a boy. Have regained my flesh, have good appetite, can sleep well, and my nerves are in excellent condition. I would not value a thousand dollars for what it did for me." T. A. WHEELOCK, Burlington, Vt.

Fully Indorsed

"We have sold Mr. T. A. Wheelock several bottles of Hood's Sarsaparilla and have heard him tell in high terms of commendation what it has done for him. I know that he has recommended

Hood's Sarsaparilla

to many others here. Our customers generally speak well of it." F. L. TAFT & Co., Pharmacists, Burlington, Vt.

Lacrosse Paragraphs.

Peterborough lacrosse club did up Belleville in great style on Wednesday afternoon, and she can wipe up Kingston also, but the club does not propose to do it to the tune of sixty or seventy dollars, the all expenses racket on which the Limestone City's "swift" team want to come here. The Bellevilles came here for twenty-five dollars, and Peterborough gets the same when playing the return match there.

It was learned on good authority yesterday that Kingston has made a standing offer to play Belleville for thirty dollars, yet they want double that amount to come to Peterborough. The Peterboroughs do not propose to play the Kingston team for money, twenty-five or fifty dollars or whatever the sum may be, as they are not professionals nor do they claim to be, but they will meet any *bona fide* twelve players from Kingston on neutral grounds and at a half way distance—say Belleville, to play for a cup, medal or any trophy which may be offered of equal value to the sum which Kingston's "swifts" twelve desires to put up "just for a bluff" and to "cause a titter all around." That Kingston *Whig* reporter, who has the honour of being Secretary of the Kingston lacrosse team and also of bolstering up the reputation of his club on newspaper clippings, will please not date his letters and challenges a month ahead from the date he really intended—time is whizzing around too fast in his active cranium. The Peterborough Secretary received a letter asking the home team to give Kingston a game here, as it said, on their Decoration Day, July 15th, whereas latter events show the date really meant was June 15th. Then last week another card was received dated July 17th, asking Peterborough to give the Kingstons a game here this week. Will the Secretary of the Kingston club please state what he means after this, look up his calender and not let eternity slip round so fast?

Madoc Lacrosse Club will play Belleville on Wednesday next at Belleville.

The Belleville *Ontario* referring to the lacrosse match here last Wednesday between Belleville and the town team has this to say: While the Belleville lacrosse team suffered defeat at Peterborough yesterday they have no reason to feel discouraged. The team at best was only a scratch team. E. Christie, one of Belleville's strongest men, went on the grounds in poor condition on account of illness and it was thought that he would have to remain in Peterborough. The Peterborough boys got the first three goals in twenty minutes. The fourth goal was won by the visitors in thirty minutes. The fifth game was taken by Peterborough in forty minutes. The Belleville boys speak in the highest terms of the treatment accorded them by Peterborough. They class the latter as a gentlemanly crowd of fellows and look forward to a date here in July to reciprocate their courtesy.

The Quinte lacrosse club have secured the services of the Cobourg and Belleville baseball clubs to give an exhibition game of baseball on the old cricket grounds on July 1st, at 10.30 a.m.—Belleville *Ontario*.

Somebody Suffers.

Yes, somebody suffers when those great take-em-away-for-nothing sales are announced, but it isn't the promoters, it is the confiding public who are eventually the sufferers. The goods *look* all right, but wear them, and how soon you will be surprised when they fall to pieces. Our reputation for selling reliable, trusty, serviceable shoes is quite sufficient to draw people to our store. It wouldn't do for a house of established reputation to indulge in sensational half-off, below cost, give-away sales. There's a moral to all this. Buy the best at Kidd's the bottom, and pay a reasonable price, and no more, and in the long run you will come off the winner. Kidd not only claims, but does sell the best of summer foot wear at the lowest living profit, at 376 George street.

Meritorious Maiden Music

Musical Review at the Convent Congregation de Notre Dame—A Fine Programme Splendidly Given—Evidences of Careful Musical Training—The Bishop's Cordial Commendation.

Last night a most delightful and successful musical review marked the close of the musical term at the Convent Congregation de Notre Dame, and, like all similar occasions, it was not only a great treat for those present, but served to show in a practical manner how excellent and thorough the training in both vocal and instrumental music is at this excellent school. His Lordship Bishop O'Connor was present and also Rev. Father Demazieres and Rev. Father Scollard of the Cathedral clergy, and five of the Sisterhood of St. Joseph, Sister Theodosia, music teacher at the Lindsay Convent, and Sister Aurelia, town. There was also present a large number of the parents of the pupils and of the friends of the institution. Below is a copy of the programme rendered:

Entree.....Trio.....By Juvenile Pupils
Solo and chorus....'Come and Join the Merry [Song."
"Jarricola."
"Bicycle Parade."
"Hungarian March."....Kowalski
"Selection from Weber."
"Rondo,".....(Trio)....Streabbog. Op. 100
"Caprice,"
Solo and chorus.....'Sing Little Blue Bird."
"Heather Bell"
"Alice."....By Archer.....F. Mahoney
"Dohler's Nocturne."....M. Doherty
"Chopin's Impromptu, Op. 36".....M. Kelly
"Beethoven's Compositions,".....M. Morrow
Finale.....Beethoven's Sonata, Op. 13
(Two First Movements—Grave, Allegro).
By the four last named.

All the executants who gave the above programme acquitted themselves in a very creditable manner. The first selection was performed by twelve of the juvenile pupils. In the solo and chorus—"Come, Join the Merry Song,"—the solo was taken by Miss Maggie McCabe in a very tasteful manner, while the chorus was charmingly sung. It would not be improper, but just, to mention particularly the little pianoforte solo of Miss E Mailer, which was loudly applauded and which was followed by the singing of a charming French chansonette, "Soyez Modest," which was rewarded with the most cordial applause. The little prima donna scored a decided triumph last night.

The "Bicycle Parade", the selection from Weber, the "Caprice" and "Heather Bells" were performed each by four young girls. Streabbog's "Rondo" was performed by twelve pupils. The solo and chorus, "Sing Little Blue Bird," was a delightful number. The solo was sung in unison by Misses Jessie Riley, Lily Simons, G. Lynch, Kate Mahony, A. Mahony and K. McNamara, members of the singing class of the Convent, and the chorus was sustained by all the pupils. The last four numbers and the finale were splendidly performed by the four gold medallists and the music in its classical excellence, was to the amateur of music, a charming sequel to the comparatively lighter selections which preceded it.

At the close of the programme His Lordship made a few commendatory remarks. He cordially praised the excellence of the music, and the taste and skill shown in its production. It was exceedingly creditable to the musical training imparted at the convent and was a charming evidence of the care and patience of the teachers. The little players they had heard to-night would progress, and take the place of the gold medallists who had charmed them with their excellent playing. To-night the review will be continued and the gold medals presented.

A Distressing Situation.

What a dreadful thing it is to wake up in the middle of the night suffering from cholera,—the nearest doctor a mile away and no one to send for him. Imagie a more distressing domestic situation, if you can: and yet cases of this kind are very common. The trouble, however, would never have become serious if the man of the house had a bottle of PERRY DAVIS' PAIN KILLER at hand, for it is a remedy that never fails to cure cholera, cramps, diarrhœa, or dysentery. All druggists keep it. 25c. for large new size.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilcox, Secretary of Committee.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing.

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent. reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains.

Sisymbrium officinale (Hedge Mustard).

Plant one to three feet high; wide spreading branches; small yellow flowers; pods awl-shaped, closely pressed to the stem, and erect, of about same size as those of common mustard. A very common roadside weed, growing usually close to the sidewalks in villages and small towns, but seldom proving a nuisance on the farm.

PAPAVERACEÆ (Poppy Family).

We are not troubled much with weeds from this order, of which the plants have a milky or colored juice, regular flowers, which soon fall to pieces and cover the ground where they have been in bloom.

Papaver rhœas (Field Poppy).

This variety bears red flowers, which are exceedingly common in the fields of England, but as yet have not got such a foothold in Canada. The variety P. dubium, with lighter red flowers, is also making its appearance. Hand-weeding is a good method to get rid of these annual weeds bearing showy flowers.

Chelidonium majus (Celandine). FIG. 12.

This is sometimes found by the waysides, having escaped from gardens, where it has been grown. The flowers are small, of yellow color, and arranged in a sort of umbel; the pods long and slender. The juice is a thick yellow fluid. It is not likely this plant will prove troublesome where thorough cultivation is carried on.

HYPERICACEÆ (St. John's-wort Family).

The only plant in this family that may be classed as a weed is:

Hypericum perforatum (St. John's-wort).

This has a shrubbery appearance, and is about 1½ feet high. It is very common along the railway track, where its yellow flowers present an attractive appearance. In some places it becomes a nuisance, and as the root is perennial, it is not easily destroyed. But where the land is thoroughly worked it is not troublesome.

The spotted appearance of the leaves, especially when held between the observer and the light, together with the innumerable stamens in its yellow flowers, serve to distinguish it from other flowers of the same color.

CARYOPHYLLACEÆ (Pink Family).

Herbs, of which the stems are somewhat enlarged at the joints; leaves mostly opposite and entire; flowers terminal, consisting of four or five parts. Some very beautiful flowers are found in this group, such as the Pinks, Carnations, Soapworts and Sweet William.

Lychnis Githago (Purple Cockle). FIG. 13.

A beautiful flower, but in the wheat field it has lost its attractiveness, and is considered a pest. Its seeds are not so readily got rid of in cleaning the wheat as some, so that it injures the quality of the flour. The plant has a grayish look; is about 2 to 3 feet high, and bears beautiful violet-purple flowers. The seeds are black and irregular in form. The bright flowers make it readily seen, so that it can be pulled before seeding, and being an annual, be checked in its distribution.

Silene inflata (Bladder Campion. FIG. 14.

This plant bears a white flower; the calyx or outside floral cup is quite veiny and bladder-like in appearance. The pistil has three styles, while the cockle has five. It is a perennial, and in some parts quite common, but is not difficult to suppress by clean cultivation.

Lychnis vespertina (White Cockle).

This weed has a white flower, which, in general appearance, resembles the Cockle; but an examination of the flowers shows there are two kinds—those on one plant being all staminate, those on another pistillate, that is, each plant bearing one set of reproductive organs. This biennial plant is getting more common of late, but is not difficult to get rid of where thorough cultivation is practiced.

Cerastium arvense (Field Chickweed).

This weed is usually found in dry fields, and is sometimes very common; leaves hairy and small; white flowers, with five-notched petals twice as long as the sepals; the stems are also hairy. Not a troublesome weed.

Stellaria media (Chickweed).

The stem of this annual is weak and spreading, with a line of hairs; leaves somewhat oval and many small star-like white flowers, and is generally found growing on damp ground. It is quite hardy, but is readily checked by under-draining and frequent cultivation.

Saponaria officinalis (Bouncing Bet). FIG. 15.

A strong, coarse plant in the Pink family; flowers somewhat pinkish, clustered in corymbs; leaves 3-5, ribbed, 2-3 inches long; lower ovate; upper more tapering; stem 1-2 feet. Being a perennial and vigorous grower, this weed spreads rapidly. It is very common by the roadsides, Lundy's Lane, Niagara, and other parts of Ontario. It does not appear to invade cultivated fields to any great extent, but is chiefly confined to the roadside.—Prof. Panton, O. A. C., Guelph, in Farmers' Advocate.

Little Things.

It is curious to note that many things which have turned out most useful discoveries for man, having a great influence upon the lives and destinies of mankind, owe their beginning to some slight accident.

It is said that the art of printing took its origin from some rude impressions taken (for the amusement of children) from letters carved on the bark of a beech-tree.

The stupendous results of the steam-engine may all be traced to the boy who sat watching the steam which came from the nose of the tea-kettle.

Electricity was discovered by a person observing that a piece of rubbed glass attracted small bits of paper.

Gunpowder was discovered from the falling of a spark on some materials mixed in a mortar.

Little Things That Tell.

It is the little that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effectual, they are rapidly supplanting the old-style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort. c

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

"German Syrup"

J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

An Episcopal Rector.

J. F. Arnold, Montevideo, Minn., writes: I always use German Syrup for a Cold on the Lungs. I have never found an equal to it—far less a superior.

FOR OUR YOUNG FOLKS.

THINGS GRAVE AND GAY TO INTEREST BOYS AND GIRLS.

The Story of Two Carpet Tacks—How Their Jealous Rivalry was Cut Short—Social Inequality Illustrated—Some Notes on Little Things.

It was the 15th of May. The family had moved in on the first, and ever since had been more than busy. The nail box was nearly empty. There had been so many carpets and mattings put down, and so many pictures hung up, that almost all the nails and tacks had been used. Indeed, only a fat old hook, a crooked nail and two tacks remained behind. One of these tacks was as bright as silver, and had two legs, but no head, but the other was a one-legged chap with a flat round head.

"Dear me," said the silvery tack, "I wonder what I am. I asked my brothers—those who have left us—I wonder where they are gone—and they said we are so very new they really didn't know. How strange not to know what one is."

"I know what you are," said the one-legged tack sharply, "you're a tack, same as myself, only made a little different. And if you wonder what tacks are, I can tell you that, too. They are the smaller members of the nail family."

"O, no indeed," exclaimed the two-legged one; "you must be mistaken. I can never be a relation of yours. I don't look like you in the least. I have two lovely slender legs, and I can dance beautifully. While I'm sure you can no more than hop." And he began to waltz, rather stiffly to be sure, but very well indeed for a tack.

"Dance or no dance," replied the other, "you're nothing but a tack and so you'll find out before long."

"But," persisted the dancer, "I'm made of silver, and you—well, I don't know what you're made of, but you look like common iron."

"'Silver,'" sneered the tack with a head, "great, old silver! And as for your two lovely slender legs," he added scornfully, "I'd rather have one leg and a head any day. You may think being all back and legs pretty, but I don't." "Who cares what you think?" said the silvery fellow in a rage, at the same time giving his neighbor a spiteful kick. "You're only mad because I am so much handsomer than you are, and because you know you have been telling stories." "Two more tacks—two more tacks and we shall be done," cried a voice near them, and they were lifted from the box and carried into a room, where they saw a whole row of their relations glittering in the carpet close by the wall.

With one blow on the head the tack-hammer drove the one-legged tack through the carpet into the floor beside the rest, and a sharp rap on the back of the silvery one caused his two lovely, slender legs to disappear forever.

"Well, what do you think now?" asked Round-head as soon as the hammer was gone.

"I don' see how you can speak," answered the other. "You must have the hardest kind of a head. As for me I don't want to talk, I've got a pain in my back."

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

THE FORTHCOMING BRITISH ELECTIONS.

Chamberlain's Views on the Issues—The Liberal-Unionist Leader Out With a Manifesto—Harcourt on the Government's Action in Avoiding Saturday Polling.

LONDON, June 23.—Mr. Gladstone, in a letter to a Welshman named Gee, declares that the reports that have been circulated to the effect that he intended to dissolve the new Parliament immediately after settling of the Home Rule question and not to proceed with disestablishment and the other items of the Newcastle program are purely a Tory figment.

On the contrary, he says, the Newcastle program will be carried out as far as possible.

THE ENGLISH ELECTIONS.

Mr. Balfour Objects to Saturday as the Day for Voting.

LONDON, June 23.—George Shipton, secretary of the London Trades Council, wrote a letter to Mr. Balfour a few days ago urging the necessity of holding the coming elections for members of the House of Commons on a Saturday so that the workingmen could take advantage of their half-holiday on that day to vote.

Mr. Balfour has replied to Mr. Shipton's letter, saying that on no day of the week will workmen find any difficulty in recording their votes. The day for the elections should be fixed so as to enable the greatest number to poll their votes without pecuniary loss. Saturday, Mr. Balfour adds, is not that day.

Harcourt says the Trick is "Real Smart."

LONDON, June 23.—Sir William Vernon Harcourt, speaking at Manchester yesterday, stigmatized the Government's action in avoiding Saturday polling as base and contemptible. That manœuvre, he said, might be what the Americans call "real smart," but it was not statesmanship.

All the nonsense about a rebellion in Ulster, he added, was the invention of Lord Salisbury and was got up for party purposes.

Chamberlain's Views on the Issues

LONDON, June 23.—Mr. Joseph Chamberlain has issued his electoral address, in which he says that the maintenance of the Union is still the main issue.

He points approvingly to the liberal labor legislation which the Unionist Government has accomplished in spite of Liberal obstruction, and to the success of the Government's Irish policy.

He contends that the indignation expressed against the safeguards provided for in the Irish Local Government Bill was due to the conviction that those safeguards would prove effectual, and he trusts that the next Government will pass the bill.

With reference to Ulster, he says that apart from the prospect of a civil war, the mere reopening of the Home Rule agitation will bring crime and disorder in its train, the Nationalists avowing that they will merely use Home Rule as a lever with which to extort the most extreme demands.

MR. BLAKE NOMINATED.

Selected by the Anti-Parnellites to Stand for South Longford.

DUBLIN, June 23.—The Anti-Parnellite Convention yesterday, M. Davitt presiding, selected Timothy Healy to stand for North Longford, which he now represents, and Hon. Edward Blake of Canada to be candidate for South Longford.

South Longford has been represented by James G. Fitzgerald, who was returned unopposed in June, 1868. It has a voting population of 4614, a large preponderance being Home Rulers or Nationalists. When it was last contested it recorded 3046 Home Rulers and 331 Unionists.

A Shower of Frogs.

DANBURY, Conn., June 23.—A huge black storm cloud was seen hovering over the eastern half of the city very early this morning.

The rain fell in torrents while the cloud was passing over East Danbury, and thousands of lively little frogs tumbled from the heavens, literally covering the earth.

They were no bigger than a potato bug, but they were exceedingly lively, and people who had left the windows of their sleeping-rooms open were awakened by frogs in their beds.

The sidewalks were slippery with dead frogs. The little creatures seemed to expand and burst after a few minutes.

ANTI-PARNELLITES APPEAL FOR ASSISTANCE.

A Vigorous Manifesto—Electoral Contests Inevitable in View of the Obstinacy of Mr. Redmond and His Colleagues—Havachol Condemned to Death.

LONDON, June 24.—The following address has been issued to the friends of the Irish cause in America, signed by Justin McCarthy, Thomas Sexton, John Dillon, Timothy Healy, William O'Brien, T. P. O'Connor, Arthur O'Connor, David Sheehy, William Abraham and Michael Davitt:

The Coercion Parliament will be dissolved in a few days, and the general election which will follow, will decide the fate of Ireland for the present generation.

The great prize of national self-government, for which the Irish race has made incalculable sacrifices during a long course of years, is within our grasp. Home Rule for Ireland is the issue upon which the general election will be fought and to which all other questions by common consent have been subordinated.

Gladstone's Loyalty.

There is not a shadow of a reason to suspect that Mr. Gladstone's ardor in the Home Rule cause has abated or that his fidelity to his engagements regarding the powers and attributes of the future Irish Parliament has been in the least degree shaken. Within the past week he has given renewed proof that he regards Home Rule as the paramount object of his remaining days.

No Home Rule bill could by any possibility be forced through the House of Commons which will not command the full assent and approval of the Irish people.

The success of Mr. Gladstone's polls will therefore mean an immediate and generous measure of self-government for Ireland.

The success of Lord Salisbury would mean certain destruction to the hopes of Ireland for the lifetime of the present generation and a new term of coercion, depopulation and despair for our country.

Beware of Dissension.

We have reason to entertain the fullest confidence that the verdict of the British masses will incline to the side of liberty for Ireland.

The ancient curse, domestic dissension, alone can now stand between our country and a decisive Home Rule victory at the polls.

The representatives of an overwhelming majority of the Irish people have gone to the utmost limits of concession to the minority in their anxiety to save their own cause from the scandal and peril of a conflict between brother Nationalists at such an hour as this.

Obdurate Foes.

At the time of Mr. Parnell's death those who had supported Mr. Parnell were publicly invited to rejoin the majority of their colleagues and thus reconstitute a united Irish party. The proposal was rejected with insult and contempt.

Finding it impossible to reunite the party, we endeavored to save the country from the spectacle of a bitterly contested general election by offering to adopt any reasonable method of ascertaining in what number of constituencies Mr. Redmond's followers were in a majority, and we were willing to recommend that in such constituencies their candidates be accepted without a contest.

All our efforts in the direction of conciliation were met with insult and misrepresentation, and the repeated declaration that Mr. Redmond's friends would have no union on any terms with the majority of their countrymen.

Fatal Rivalry.

Under such circumstances no power on earth could induce their constituencies to re-elect men so deeply pledged against national unity.

Even if it were possible to coerce the Irish constituencies into accepting them, it would not be, humanly speaking, possible to pass the Home Rule bill into law in a parliament wherein the Irish national cause is represented by two rival and conflicting parties.

Men who confess themselves to be condemned by the patriotism and common sense of a vast majority of their fellow-countrymen have now committed themselves to a reckless and wicked attempt to overrule the will of the Irish people by leaguing themselves with the Orange landlord minority and openly invoking as weapons riot and violence.

Appeal to Irish-Americans.

In the face of such tactics it only remains for the Irish people now to decide between us at the polls, and we appeal to our countrymen in America to enable the Irish constituencies to pronounce judgment freely, without passion or disorder, upon our side, and with a weight of authority sufficiently overpowering to take away the last pretex for a continuation of those scenes of faction and recrimination which are the shame of Ireland's friends throughout the world.

All that is needed is that Irish constituencies shall not be disfranchised in this supreme hour by reason of the expense of contests which are wantonly forced upon them in all directions by the combined forces of faction and coercion.

Pecuniary aid Wanted.

We stand in need of instant generous help to meet the enormous expense of the general election, and to secure that Ireland shall be represented in the coming Parliament by a strong and united Irish party, with unquestioned authority to formulate the demands of the Irish Nationalists.

To our ever faithful American friends and allies we, in this emergency, appeal for aid, with all the more confidence, because we are convinced that to strengthen the hands of the Irish party at this moment will be to aid in averting a miserable future of dissension, coercion and despair from our country, and to crown the labors and sacrifices of our race by the achievement of Home Rule with all its attendant train of blessings and freedom.

GLADSTONE AND THE IRISH.

Important Conference in Regard to the Minority Guarantees.

LONDON, June 24.—It is stated on good authority that the conference between Mr. Gladstone and the McCarthyite leaders almost solely concerned the proposals of Mr. Gladstone to extend guarantees to the minorities under the proposed new Home Rule Bill.

At the opening of the conference Mr. Gladstone asked what prospects there were for a reunion of the Irish Parliamentary Party. He was told that the prospects were remote. Though he said that renewed efforts should be made to re-establish union, he expressed no great concern as to the result should that end be not attained. He is so hopeful of such a solid majority at the approaching general elections that he believes that the return of a few so-called independents will not affect the issues.

The statement that Timothy Healy was present at the conference was erroneous. A long conversation was held on the new minority guarantees. Mr. Gladstone said he desired to secure the opinions of the leaders of the anti-Parnellites on the questions, as he designed to dilate upon them in his manifesto to the electors of Midlothian with a view to counteracting the effects of the Ulster agitation.

Mr. Justin McCarthy subsequently convened a private meeting of his colleagues to discuss Mr. Gladstone's proposals and communicated the proposals to Archbishop Walsh. It is likely that the proposals will be approved all round.

With regard to a reunion commission which is coming here from the United States, Mr. John Dillon says it will be too late for its work to be effective, as it will arrive on the eve of the polling and after the final preparations for the contests are completed. The anti-Parnellites, he declared, will be ready even to the last moment to effect a conciliation or to favorably consider such attempts should they be made by the Parnellites.

Aid for Ulster.

A crowded Unionist meeting was held in St. James' Hall last evening to support the appeal of the Protestants of Ulster to England.

Among the prominent persons present were the Duke of Abercorn, the Archbishop of Armagh, the Duke of Argyle, the Earl of Courtown, the Earl of Darnley, the Earl of Winchilsea and Nottingham, the Marquis of Londonderry and Lord Powerscourt. Sir George Chubb presided.

The Duke of Argyll delivered a speech in which he declared that it was a slanderous falsehood to say that the people of Ulster were aiming at religious ascendancy. They were, he said, against the ascendancy of "the village ruffian and the parish pope."

A resolution, proposed by Dr. Kane and seconded by the Earl of Winchilsea and Nottingham commending the appeal of the people of Ulster to the attention of the British electors, was unanimously carried.

EARTHQUAKES AND SHOCKS.

Earthquake and Volcano Said to Have Visited Taruna.

PHILADELPHIA, June 24.—Cable advices received here yesterday from London stated that Taruna, the principal and only seaport town of Sangier Island, Dutch East Indies, had been swallowed by an earthquake. What remains of the island is now a barren waste. It is feared that the shipping of all nations has suffered, as at this particular season many vessels are loading sugar there for Philadelphia and New York as well as the European markets. The news was forwarded from Macassar, Celebes Islands, to London. In the centre of the island is a volcano, which has been extinct for years, and this is reported to have belched out fire and cinders during the earthquake.

LONDON, June 24.—A despatch from Macassar, in the Dutch island of Celebes, states that an earthquake has occurred on the islands in that vicinity. The natives were greatly frightened and some of them rushed into the sea and were eaten by sharks.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,800 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

Meritorious Maiden Music.

Musical Review at the Convent—Large Attendance of Parents, Patrons and Friends—Four Gold Medallists—A Golden Distinction Richly Merited—Presenting the Medals—A Fine Programme Finely Presented.

The second evening of the review that marks the close of the musical term of the Convent, congregation de Notre Dame, was even more numerously attended than the first. His Lordship Bishop O'Connor was again present and also several of the Catholic clergy, Rev. Father Rudkins, Rev. Father Scollard, and Rev. Father Collins. Also Mr. Mayor Kendry, Mr. J. R. Stratton, M.P.P., several members of the Separate School Board and a large assemblage of parents, patrons and friends of the institution. At eight o'clock promptly the programme began and this promptitude and the rapid and regular manner in which the several numbers came on, gave an added pleasure to that produced by their musical excellence. This is a copy of the programme:

Recreo—"Duett".....Four pianos and organ
Solo and Chorus.....
"Moses Prayer," Violin accompaniment by Miss [Louise Yokoma
"Illusia".....On Four pianos
Vocal solo—"To Sleep".....M Dickson
"One Sweetly Solemn Thought".....By a Silver [Medallist
"Third Meditation" (Jael)...By two Silver Medallists
Vocal—"Pray for Us" (Ora pro Nobis)...Piccolomini
[Martial.....M Riley
"Il Trevatore" (Paraphrase de Concert...Gottschalk.....Ida Mahoney
"Grand Fantaisie sur l'opera de Meyerbeer".....Maggie Doherty
Solo and chorus—"The Fairies' Call"...Solo by Lily Jackson; violin Miss Louise Yokoma
"Caprice Marchpue" A de Kontski...Maud Kelly
"Quadrimain de Rossini," Archer Maud Morrow
"Gathering Home"—Solo and chorus—Solo by [Maggie McCabe
.....Presentation of Medals.....
"A Word of Thanks".....Maud Morrow
Finale—"Irish Airs".....By Gold Medallists

The entree duet by ten performers was a stirring prelude to the excellent musical treat that followed.

"Moses' Prayer," by young ladies, was accompanied by the violin in the capable hands of Miss L alse Yokoma, and her sympathetic playing gave the pleasing *contento* effect which the piano under the best hands cannot produce. Her violin accompaniment to the solo and chorus, "The Fairies' Call," the solo taken by Miss Lily Jackson in an admirable manner, also greatly heightened the effect of the vocalization, and the same delightful effect of the violin was noticeable in the solo in the selection "Gathering Home," also very effectively sung by Miss Maggie McCabe. "One Sweetly Solemn Thought" was very nicely performed by a silver medallist, Miss Maggie Butler, and two other silver medallists, Miss Maggie McCabe and Miss Edith Hall, gave a fine rendering of Jael's "Third Meditation." The programme indicates the other performers, but it is only fitting that a special word of commendation should be given to the splendid performances of the gold medallists. The *technique* was brilliant and certain, the light and shade gracefully applied, the conception and interpretation of the composers' motif were admirable. Altogether their performance was unusually finished and musically and reflected not only great credit upon their own natural talent and perseverance but spoke volumes for the excellent instruction they had received. Their *ensemble* rendering of "Irish Airs" was exquisite. Miss Morrow's rendering of Borcovitz's composition was a charming bit of fine piano work. The singing of the quaint French chansonette, "*Soyez Modeste*, (Be Modest) by little Eva Muller, to her own accompaniment, was a delightful diversion of the regular programme; the lilliputian prima donna had much more trouble climbing upon the piano seat than in performing her music.

PRESENTING THE GOLD MEDALS.

This year there are four gold medallists—Miss Ida Mahoney, Miss Maggie Doherty, Miss Maud Kelly and Miss Maud Morrow. All the medals were presented to the several winners by the respective donors with appropriate words of commendation and encouragement by the several donors as follows:

To Miss Maud Morrow, by His Lordship Bishop O'Connor, the donor of the medal.

To Miss Maggie Doherty, by W. Clinton, Esq.

To Miss Ida Mahoney, by Mr. J. R. Stratton, M.P.P. on behalf of the donor, "a friend of the institution," whose modesty is in direct ratio to his liberality.

To Miss Maud Kelly, by Mr. Mayor Kendry.

At the conclusion of the presentation Miss Maud Morrow made an address of thanks on behalf of the medalists to the Bishop and the other donors, very nicely worded and excellently delivered.

His Lordship in reply thanked the medalists and the other pupils for the pleasure they had given that evening. He particularly complimented the winners of the medals and counselled a countenance of perseverance which had brought her to her present great proficiency, and insisting on the necessity of continued practice. He had very warm words of praise for all the pupils and could not speak too highly of the excellence of the instruction imparted in both vocal and instrumental music. This review showed the best results of any he had attended.

Mr. KENDRY also spoke very warmly of the excellence of the music presented and the instruction to which it was due. The results were highly gratifying to all parties concerned.

Mr. STRATTON expressed his great pleasure at the music he had heard, and warmly eulogized the efficient teaching that the convent afforded. The gold medalists must have exercised great industry and perseverance to secure such excellent results.

Mr. CLINTON said he had watched with interest the excellent work of the Convent for the past 25 years, during which he had been present on many similar occasions. The progress had been steady and the present occasion showed the best results of the series. The pupils showed remarkable execution, fine taste and good time. The Convent gave musical advantages which could not be secured elsewhere in town. In this respect it had been a blessing to the community and he wished it continued prosperity.

DR. BRENNAN, chairman of the Separate School Board, spoke briefly of the excellent results the musical department of the Convent had shown, a great of ability on the part of pupils, and efficiency on the part of the teaching staff.

His Lordship wished the children all a happy vacation, and the gathering dispersed, highly pleased with the events of the evening.

AN AWFUL LANDSLIDE.

MANY PEOPLE ENGULFED IN THEIR HOUSES.

The Net Weaving Around the Alleged London Poisoner of Girls—He Was Formerly a Resident of Canada—A Notable Wedding—Fatal Result of a Duel.

ROME, June 25.—Many people were killed and injured yesterday in an accident caused by a landside at Monte Sasso, on the line of the Bologne and Florence Railway.

The landslip happened at 3 o'clock in the morning. The inmates of the houses which were engulfed by the huge pile of debris were asleep when the river of earth struck the buildings.

Four bodies have been recovered. Ten persons were rescued alive, but suffering from severe injuries.

Twenty persons are known to be still lying beneath the debris

The London Poisoner.

LONDON, June 25.—The inquest into the death of Matilda Clovy, who it is suspected was poisoned by Thomas Neill, was continued yesterday.

Miss Laura Sabbatini testified that she was very well acquainted with Neill; in fact he had asked her to marry him and she had accepted. He was introduced by her to the members of her family and he had made a will in her favor. Subsequent to this he induced her to write the blackmailing letters. All these letters were signed "W. H. Murray." She asked Neill why he demanded such sums as in the case of Dr. Harper, $1500, and why he made such terrible charges. His reply was, "I'll tell you some day."

Miss Sabbatini said that after making arrangements for the wedding Neill went to America, telling her to address her letters to Dr. Cream, care of Daniel Cream, Quebec. He stayed at Blanchard's Hotel in Quebec and returned to London in April.

Afterwards he got her to write the letters signed Murray, accusing certain persons of poisoning Alice Marsh and Emma Shrivell with strychnine and offering to suppress the evidence supporting the accusations in the event of the payment of the money.

Died From Drinking Water.

PARIS, June 25.—Three workmen employed in a plaster quarry in the town of Argenteuil, 11 miles from Versailles, made a wagonload to which of them would swallow the most water. One man imbibed 12 quarts of the fluid, another nine quarts and the third seven quarts. In a short time the three men were taken violently sick and all died in a few hours.

A Notable Wedding.

LONDON, June 25.—Major St. Aubyn, eldest son of Lord St. Levan, and Military Secretary to the Governor-General of Canada, was married Friday afternoon at the Guards' Chapel, Wellington Barracks, to Lady Edith Edgcumbe, daughter of Lord Mount-Edgcumbe.

English Theatre Burned.

LONDON, June 25.—The Theatre Royal at Birkenhead was destroyed by fire last night. The audience had left the house before the fire broke out.

Death Results From a Duel.

PARIS, June 25.—Capt. Mayer died last evening of the wound in the lungs which was received by him in the duel with the Marquis de Mores.

Died While Shaving.

EXETER, Ont., June 25.—About noon a young man named George Monteith, aged about 25 years, son of Robert Monteith of the Thames-road, Usborne, was shaving himself to go to a picnic. When about half shaved he dropped off the chair and died immediately. Heart trouble was the cause of death.

Killed by Lightning.

WALKERTON, Ont., June 25.—A prominent farmer near this town named David Bell was struck by lightning while at work in his fields and instantly killed.

Died While Shearing Sheep.

SHELBURNE, Ont., June 25.—James Rina was engaged shearing sheep for Mr. Dunstan and was in his usual health when he left home. He was found insensible towards evening on the farm where he had been working and died in a short time.

His Life for His Hat.

NAPANEE, Ont., June 25.—The three-year-old son of Henry Milling of Richmond was playing on the bank of the creek when his hat blew into the water. In attempting to recover it he fell in and was drowned. The body was recovered.

Fatal Croton Oil.

SHAPORTH, June 25.—A young man, whose name could not be learned, came from Toronto to work in a blacksmith shop. Not feeling well he did not go to work and took some medicine, dying in a few minutes. It is said he took croton oil by mistake for salts.

Too Much Laudanum.

WINDSOR, June 25.—An old man named Reynolds took an overdose of laudanum yesterday and died from the effects.

New Sunday Trains.

HAMILTON, June 25.—On Sunday a new train will leave for Toronto at 9.15 a.m., and the present evening train at 6.55 p.m. will leave about that time.

From Toronto a new train will leave at 7.30 a.m., and the regular train will leave at 12.50 p.m., as at present.

The nine-hours' service between Toronto and Montreal will also commence next Sunday.

FOR WAYS THAT ARE DARK.

A Muscovite Police Agent Who Can Give Points to John Chinaman.

CRACOW, June 25.—A Russian agent provocateur named Hengery has been arrested here on the charge of concocting a bogus dynamite conspiracy in Poland, entailing the banishment to Siberia of hundreds of Poles whom he had enticed into making incautious statements and then denounced to the police.

Hengery's object was to obtain 250,000 roubles that had been promised from the St. Petersburg police for revealing the so-called conspiracy.

The Austrian police discovered Hengery through his buying dynamite for an alleged Polish plot against the Czar and Gen. Gourko.

STATE OF TRADE.

All Staple Prices Firm—The Cattle Exports Encouraging.

NEW YORK, June 25.—Special telegram to Bradstreet's report practically the same situation so far as general trade is concerned as existed a week ago.

General trade throughout Ontario and Quebec has improved somewhat within a week, notwithstanding heavy rains have damaged crops in those provinces. Country collections have improved some.

The Canadian export trade in cattle is more encouraging, and all staple prices are said to be firm.

Bank clearings at Halifax, Montreal, Toronto and Hamilton aggregate $18,573,000 this week, five per cent more than last week.

There are 35 business failures reported from the Canadian Dominion this week against 28 last week and 31 in the like week a year ago.

Tammany Supports Cleveland.

CHICAGO, June 25.—Richard Croker pledges the Tammany vote to Cleveland. Speaking of the ticket he says: "We will support Cleveland just as heartily as we would have supported Hill. We are Democrats, and when we are for a man we are for him. Why should anyone doubt our loyalty to the ticket? The nomination of Stevenson pleases us. We favor him because he is a good Democrat. When he was first Assistant Postmaster-General he was for turning out every Republican and putting a Democrat in his place."

"We like that kind of a man," said Lieutenant-Governor Sheehan; "the New York delegation will go home to work loyally for the ticket and so will I."

Shot By His Own Burglar Trap.

WALLACEBURG, Ont., June 25.—Theodore Pickering's house was robbed by tramps recently during his absence, and he resolved to fix a trap for the vagrants. Accordingly, he attached a wire arrangement to the top of the front door and fastened it to the triggers of a double-barreled shot gun, placed in such a position that anyone pushing the door open would receive the two charges in the lower part of the legs. After taking a trip to Wallaceburg the young man returned in the evening tired and hungry, and forgetting in his haste to get into the house all about the trap, sprang to the front door and pushing it open set off the machine and two charges of coarse shot found a lodgment in his knee.

The injury is a very severe and painful one, as over 28 shot entered his knee.

Incendiarism at Listowel.

LISTOWEL, Ont., June 25.—A deliberate attempt to burn Hay's mill early yesterday morning came but too near succeeding. The mill had been running up to midnight and about 2 a.m. Nightwatch Porter noticed a light in the mill windows and summoned the firemen. The blaze was soon extinguished. An examination showed the fire to be confined to a short elevator shaft running from the basement to the ceiling of the first flat. That the fire was the work of an incendiary was clearly proven by an attempt to fire the building in another quarter, in the grinding room near a post where a quantity of shavings, cotton waste and pine splinters, all soaked in oil, had been lighted, but after charring the wood had gone out.

A Floater from Canada.

ROCHESTER, N.Y., June 25.—Coroner Kleindienst was notified yesterday afternoon that the dead body of an unknown man had been found in Lake Ontario, a short distance north of East Webster.

The coroner found the remains to be those of a middle-aged man, but so badly decomposed that identification would have been almost impossible.

The body had evidently been in the water several weeks, and it is thought that possibly it may have floated across the lake from the Canadian shore.

Baggageman for 35 Years.

LONDON, Ont., June 25.—Samuel Rose, baggageman at the G.T.R. station here, had been ill with erysipelas for about two weeks, but recovered almost completely, and yesterday to within half an hour of his death was conversing with his son William of St. Thomas, who was visiting him. Shortly after the son left the old gentleman was seized with severe pains in the chest, and passed away. Deceased was in his 64th year, and for 35 years had held the position of baggageman at the station here. One brother resides in Toronto.

Valuable Relics.

VICTORIA, B.C., June 25.—Mr. J. Fannin, curator of the Provincial Museum, has just placed in that institution a dinner service once used by one of the ancient families of the Queen Charlotte Islands, and consists of 30 perfect pieces, 22 dishes of curious fashion, carved, of cedar inlaid with shells, and all bearing family crests. It also includes goathorn spoons and doctor's rattle of puffin bills and bones.

Became Deranged in Canada.

DETROIT, June 25.—Arthur L. Stanley of the customs office, supposed to have drowned off the Michigan Central car ferry in Windsor, June 10, has turned up alive in Chicago. His wife received a postal card from him Tuesday afternoon. It was dated Chicago, June 20, and stated that he found himself there in a dilapidated condition and with a wound in his head. The last he remembered was being in a swamp somewhere in Canada.

The Inquest Adjourned.

BRANTFORD, June 25.—The inquest into the mysterious death of Charles Griffiths, found dead in his room yesterday, has been adjourned, owing to the fact that the man's wife was not in a condition to give evidence.

The doctor is of opinion there was no foul play.

An Early Harvest.

WINNIPEG, June 25.—All opinions agree that the Manitoba harvest will be earlier this year than last notwithstanding the backward spring. Root crops are without doubt the best the country has ever produced. There is not the slightest trouble from bugs or flies.

Stung to Death by Bees.

PAWPAW, Mich., June 25.—Yesterday Mr. Baker, an old gentleman living three miles west of here, while hiving a swarm of bees in an apple tree, was stung so badly that he fell to the ground and died in a few minutes.

A Derrick Crushes a Laborer to Death.

TORONTO, June 25.—Last evening about 6 o'clock William Rutherford, a laborer, was working at the new Athletic Club building in College-street when a derrick fell, striking him on the back and on the head, causing his death.

IN LOVING REMEMBRANCE.

The Annual Tribute Paid to the Dead by the Oddfellows and their Friends.

Decoration Day Solemnities Past—The Turn Out of the Brethren a Creditable One—Thousands Throng the Dead City—Tender Memories Awakened—The Civic Holiday Duly Observed.

Another Oddfellows' Decoration Day has come and gone—departed like the brethren whose graves yesterday were fondly strewn by loving hands with floral tributes of honour and respect. The annual ceremony, impressive and solemn as it is, bringing the living in touch and sympathy with the dead, showing that the kindred ties and fraternal affections which bound in life are not severed in death. The custom inaugurated some years ago by the Oddfellows still continues and flourishes. Its interest year by year increases, and its observation grows wider and stronger as sympathy and love by association and fellowship grow deeper and more intense. Each successive decoration day recalls a flood of tender memories past, and revives much in the human heart, which otherwise would pass by and be forgotten. The solemn function was this year celebrated in a fitting manner, illustrating the inspirations that, perforce, run in the human breast and find an outward semblance in floral tokens.

The memories of the dead are revered, their virtues alone are cherished, and their imperfections—for perfect they were not—are buried beneath the clod which rests above them. Their virtue and honour, the former the only amaranthine flower of human existence, the latter the noblest type of sturdy manhood—all may emulate and practice.

THE ORDER OF MARCH.

At 2 30 o'clock the Oddfellows of the different lodges, the Canton and the band, assembled in Central Park. A few minutes before three the procession formed in order. Headed by the Fifty-seventh Band, which discoursed appropriate selections, followed by the chevaliers of Canton Peterborough as a guard of honour, the members of the subordinate lodge and encampments, including a few visiting brethren and the Past Grands and officers of Peterborough and Otonabee Lodges, the procession, ably marshalled by Bro. Miller, moved with graceful swing and easy precision down George street, the line of march on either side being thronged with numerous spectators. The procession was an imposing one, each one wearing a small nosegay fastened to the coat lapelle, and carrying many bouquets and wreaths of flowers to remember the departed in the solemn rites of the day. At the cemetery gate, under the very shadow of a heavy evergreen arch emblazoned in striking colors with the three symbolical pillars of the encampment, the procession countermarched, the Past Grands and officers leading in the van up the hillside. In front of the canopied platform in rear of the chapel, the two lines separated and a large circle was formed with the Canton and the band in the centre. On the platform were Bro. F. D. Mackay, N.G., Otonabee Lodge; Bro. R. F. Morrow, N.G. Peterborough Lodge, and Bro. Jas. McClelland, of Peterborough lodge, chaplain. Bro. Mackay opened the afternoon's solemnities by calling upon the chaplain to invoke Divine blessing upon the sacred duties they were about to perform. After prayer the band accompanying played "Nearer my God to Thee," the immense throng present singing the hymn softly and sweetly. A separation was then made, the Oddfellows dividing into two companies, one led by Noble Grand Mackay, the other by Noble Grand Morrow. The solemn service of

DECORATING THE GRAVES

of the deceased brethren was then performed amid appropriate solemnities, and bouquets of exquisite flowers were placed upon the graves of the graves of the brethren as in the following list. The city of the dead never looked more beautiful than it did yesterday. It seemed as if all nature's laws, assisted by artificial means, had combined on this occasion to make the flowers disseminate their richest fragrance, the grass sward to look its best and loveliest, the trees to show their freshest green, and the fountains to throw their sparkling gems. Every grave in the cemetery bore its mark of remembrance by supporting delicate flowers strewn over its mound.

Two deaths have occurred in the Order since last year—Bro. Wm. Smith, of Peterborough lodge, who died in October last, and Bro. Arthur Rutherford, of Otonabee lodge, who passed away in January. With these exceptions the category of decorated graves remains the same as the year just past.

The Canton had a peculiarly touching ceremony to perform over the grave of a fallen one—the first thinning out among their ranks. The chevaliers gathered in quiet order around the grave of their deceased brother, W. A. Smith, who died in October last. Bro. Jos. Mills, captain, amid a short and suitable service, placed on the grassy mound a handsome floral pillow, rich in design and beautiful array with the letters "P.M." woven in its texture, and beneath it the symbolical bond of the order, the triple links.

THE ADDRESSES.

After the ceremony of decorating the graves had been completed, the Oddfellows re-assembled at the sound of the bugle in front of the canopied stand, in the rear of the chapel, with the Canton in the centre. On the platform were Bro. F. D. MacKay, N. G., Otonabee Lodge, who presided, Bro. R. F. Morrow, N. G., Peterborough Lodge, and Revs. A. S. MacWilliams, R. F. Terrance, C. B. Kenrick, Peterborough, and Bro. Thompson, of Hastings. Rev. Geo. Edwards was unable to be present.

Bro. McKAY, presiding, called the assembly to order, and asked for good attention in order that all might get through at as early an hour as possible and before the rain, which was threatening, might come up. After expressing his regret at the unavoidable absence of Bro. Dr. Bell, Junior Past Grand Master, on account of illness, he said the brethren had finished the duties of the day which they had met there to perform. The loving had paid in a befitting manner and ceremony their tribute of love and respect to the dead. The Order of Oddfellowship was calculated to continue not only through life but through death. After the brethren had departed and been laid in their lasting place too prone was human nature to neglect and forget the one missing. But the tie that bound them together in life, in the order and in the community was too strong to be severed—even by death's cold sting. The brother still lived in their affections, his memory they love to foster and his virtues to emulate, his family remained in their love and respect and his example stood as a living monument of his fidelity and devotion to the Order. It was right for them to throw the mantle of charity over the dead and give them all the praise to which their virtues entitled them. Surroundings and ceremonies like these served to remind us of the perishable nature of the things of time. Death was no respecter of persons, his cruel hand cut with merciless disregard, and who knew but that they soon too might be living out their last long sleep beneath the sod as those over whose graves they had placed living contributions to-day. The ashy hand of death would sooner or later lay all of us low. Society was soon to forget, and the memory of the departed was not long cherished. Some of the brethren had recently died, and they had to lay on their graves the floral tribute of thought that burned and wept that breath. Life was no vague and empty thing—it was full of struggle, privation and labour. All should labour during the short span of existence in order that they too might live in the heart of the brethren and have their honour and respect. The speaker closed with a eulogistic tribute to a brother who from humble origin had by his love, fidelity and devotion to the order risen high in the ranks and had won the tribute of respect to all. He referred to Bro. D. H. Moore, Grand Patriarch of the Encampment, whom he was pleased to have associated on the platform with him. He then introduced Bro. Moore.

Bro D. H. MOORE expressed regret at Bro. Dr. Bell's absence, whose illness he hoped would not be serious. He was glad to see so many present on this memorial occasion to join with them in the sacred duties of the day. He needed no other sympathy of assurance and support. The practice of decorating the graves of their deceased brethren was no longer a ceremony but had become a fixed order. The solemnity of the occasion raised a flood of memories. It had a tendency to impress with the idea that were not mortal and to raise the memory of the dead in our minds; whose virtues and noble qualities we might all strive to emulate. For the sake of some who might not be in sympathy with Oddfellowship and who seemed to be misled with the mystery about the order he would strive to clear away any doubt or mystery which might exist in their minds. The speaker then traced and described the significance, teachings and importance of the three pillars of the encampment—friendship, love and truth. If these principles inculcated were good in the order, then too were they not good in individuals, and how much more so if practiced and inculcated by the great world at large. The benefits of the Order should be apparent to all. Its organization and bond, its pecuniary and social benefits, endeared and commended itself to all. The excellent teachings of the third degree, although appearing to the uninitiated hard and cruel—*feeling as if others had nothing to do but laugh at your mistakes*—yet after all had its educative benefits. It taught us how the cold world used the stranger in his weary pilgrimage through life. The speaker admonished all to cultivate the principles of toleration and charity so that the world might imitate the beauties of our characters and have their principles practised throughout. He hoped that he had removed the prejudice and mystery that existed in some people about the order and its principles.

Rev. A. S. MACWILLIAMS, pastor of St. Andrew's Presbyterian church, was the next speaker. He said he was pleased to be present on this occasion, as on the last, and see all the floral tributes of respect to the dead brethren. Whether the deceased knew what was going on above their heads he did not know. There were some who believed that the departed spirits knew what what was taking place, while others affirmed that they were totally unconscious of anything that was going on. The same God who in olden time communicated truths to the prophets, was capable of imparting to the dead what was going on to-day. He had no doubt that this tribute of love and honour contributed to the happiness of those in the celestial world. The present service was a memorial one. It reminds us of the character of our loved ones, and that we, one and all could make our lives sublime.

Lives of great men all remind us,
We can make our lives sublime,
And departing leave behind us
Footprints on the sands of time.

At this point the lowering clouds in the west began to grow darker and darker and the showers which came and went all the afternoon now began to find vent in a heavy downpour of rain which continued for some minutes bringing the address to an untimely end. The brethren again returned in processional order and headed by the band marched back to the Otonabee Lodge rooms.

RESOLUTION PASSED.

At the Otonabee lodge room an open meeting was held, Bro. F. D. McKay, N.G., presiding.

A resolution was moved by Bro. John Nugent, D.D.G.M., seconded by Bro. R. F. Morrow, N.G., Peterborough Lodge, thanking Bro. D. H. Moore, P.G., and the clergyman for their attendance, and expressing regret that rain interfered with the proceedings. Bro Moore who was present acknowledged the voted of thanks.

Moved by Bro. Wm. Green, P G, and seconded by Bro. A. McIntosh, P.G., that the thanks of the Oddfellows are due to those who had decked flowers.

Moved by Bro. Wm. Hill, P.G., seconded by Bro. J. McGill, J. P. G., that a vote of thanks be tendered the marshall, Bro. J. W. Miller for his capable services.

Moved by Bro. D. H. Moore, seconded by Bro. W. J. Miller, that a vote of thanks be tendered the Mayor and town council for proclaiming the afternoon a half holiday, and having the street watered to the cemetery gates, and to the citizens generally for their support and for turning out in such large numbers.

A motion of thanks was tendered to Bro. Wm. Ford and Mrs. Ford for their kindness in placing their house at the disposal of the Oddfellows.

The meeting then adjourned.

The joint committee who had the decoration day ceremonies in hand, and to whom can be accredited a large share of the success of the day were: Bros. F. D. McKay, N. G., Walter Patterson, V.G., J. A. McGill, J. P. G., and John Nugent, P. G. of Otonabee Lodge, and Bros. R. F. Morrow, N. G., W. Savigny, V.G., W. Galley, P. G, and W. White, of Peterborough Lodge.

THE FLORAL CONTRIBUTIONS.

Those who contributed flowers to decorate the graves of members of outside lodges whose remains are buried in the cemetery were Mrs. B. Cooney, Ashburnham, floral three links, floral anchor and floral cross, hand bouquets and cut flowers; Mrs. Watt, buttonhole Bouquet; Miss Everett, hand bouquets; Mrs. S. White, hand bouquet; Mrs. T. Kelly, hand bouquet; Mrs T. Hooper, Otonabee, basket of cut flowers; Mrs. S. White, hand bouquet; Mrs. F. L. Schaffer, two hand bouquets.

ANOTHER HAMILTON MIRACLE.

The Terrible Sufferings of Isaac W. Church From Paralysis.

Crushed by a Fall of Forty Feet—Six Months in a Hospital and to Discharged Only to Suffer Great Agony—Months Without Sleep and a Victim of Nervous Prostration—An Account of his Miraculous Cure as Investigated by a "Times" Reporter.

Hamilton Times, June 20th, 1892.

"In the spring of 1887, while working on a building in Liverpool," said Mr. Church, "a scaffold on which I was standing collapsed and I fell to the pavement a distance of forty feet. Bruised and bleeding I was picked up and conveyed to the Northern Hospital, and not one of the doctors who attended me held out any hope for my ultimate recovery. The base of my spine seemed to be smashed into a pulp, and the efforts of the medical men were directed altogether towards relieving the terrible agony I suffered rather than towards curing my injuries. I had the constitution of an ox though," and the speaker threw out his chest and squared a pair of shoulders that would have done credit to a prince among athletes, "and as I seemed to have a tremendous grip on life the doctors took heart and after remaining in that hospital forty weeks I was discharged as being as far recovered as I would ever be. For twenty-six weeks I had to lie in one position, and any attempt to place me on my back made me scream with pain. Through eighteen months after my discharge I was unable to do a stroke of work, and could with difficulty make my way about the house, and then only with the aid of crutches. Twice during that time I underwent operations at the hands of eminent surgeons, who were amazed at the fact of my being alive at all after they had been informed of the extent of my injuries. On the last occasion my back was cut open and it was discovered that the bones, which had been shattered by my fall, had, by process of time, completely overlapped each other, forming a knuckle that you see here," and Mr. Church showed the reporter a curious lump near the base of his spine. "All efforts to straighten those bones continued unavailing, and finally the doctors told me that in the course of a few months paralysis would set in and my troubles would increase ten-fold. Their predictions proved only too true and before long I was in almost as bad a condition as ever. No tongue can tell the pain I suffered as the disease progressed, and eventually I decided to come to America. So in 1890 I closed up my affairs in England, and on arriving at Halifax, so done up was I with my journey across the ocean that I had to take to my bed and was kept a close prisoner for several weeks. Having a brother living at Moorfield, near Guelph, I with difficulty accomplished the journey there and tried to do some work. My utmost exertions could accomplish but little, however, and as a result of my trouble, nervous prostration in its worst form assailed me. I remember once being overtaken by a thunderstorm while about a mile away from the house, and while I was making my way there I fell no less than eight times, completely prostrated by particularly vivid flashes of lightning or heavy jars of thunder. About a year and a half ago I came to this city and secured work at the Hamilton Forge Works, but before long had to quit, because I could not attend to my duties. I used to think that if I could only get a little sleep once in a while I would feel better, but even that boon was denied me. Night after night I tossed from side to side, and every time my back touched the bed the pain that shot through every limb was unbearable. The doctors prescribed chloral and bromide of potash, and for weeks I never thought of going to bed at night without having first taken powerful doses of either of these drugs. Towards the last these doses failed to have the desired effect and I increased the size of them until I was finally taking thirty grains of potash and ten grains of chloral, enough to kill a horse. I became so weak that I could hardly get around, and my lower limbs shook like those of a palsied old man. When everything seemingly had failed me and I was about to give up what seemed a vain battle for life and one of the wife here read an account in health, my newspapers of John Marshall's wonderful cure by means of Dr. Williams' Pink Pills, and although I had lost all faith in any medicine I resolved to try once more and accordingly procured a box of these little Pink Pills from Mr. Harrison, the druggist, and commenced to use them according to the directions. This was in October of last year. I had not taken them a week till I began to feel an improvement in my general health. In a month I slept every night like a baby. The pains left my back entirely, and by the beginning of the new year I could lie on my back for hours and never feel the slightest pain therefrom. Prior to taking the pills I suffered terribly with fits, many of them so severe that three or four men were required to hold me. The pills knocked those all out, though, and all the time I used them I did not have even the suspicion of a fit, and as for my weight, well, you will hardly believe it, but honestly, in that time I gained forty pounds. Well, to make a long story short, I went to work a few months ago, this time in the Hamilton Nail works, where I went as shipper, and I have worked there steadily since the first day I went in. Last fall I was took weak to walk a mile, now I work from 7 a.m. to 6 p.m., and my work is no child's play either, I can assure you. I handle about 500 kegs of nails every day and each keg weighs one hundred pounds and has to be lifted a distance of from five to six feet. All my renewed strength I ascribe to the use of Dr. Williams' Pink Pills which I consider have worked wonders in my own case. For anyone troubled with nervousness, sleeplessness or loss of strength in any way, in my opinion there is nothing in existence like these pills for restoring people who are thus afflicted. Yielding to the advice of friends, who claimed that my renewed health was not due to the Pink Pills, I quit using them for about a month, but the recurrence of those terrible fits warned me of my folly and I commenced using the pills again, and I will certainly never be without them in the house."

"Not, if I know it, anyway," remarked Mrs. Church. "I know only too well the good they have done you, and you would not have been anything like the man you are to-day if it had not been for those pills, and no one on earth knows better than I how greatly you have been helped, and not only you but others in the family who were thought to be going into a decline before they were restored by taking these pills."

Some of the particulars of the marvellous rescue of Mr. Church from a life of suffering having reached the public, a reporter of the *Times* thought it worth his while to investigate the matter for the benefit of other sufferers, and it was in response to his enquiries that the above remarkable story was narrated by Mr. Church. In connection with the reports of other equally remarkable cures—the particulars of which have been published from time to time—it offers unquestioned proof that Dr. Williams' Pink Pills for Pale People stand at the head of modern medical discoveries.

The neighbors generally were very outspoken in their astonishment at Mr. Church's miraculous cure, all who knew anything of his case having given him up months ago as rapidly approaching the portals of the great unknown. He looks far from that now, though. His eye is as clear, his cheek as ruddy, and his step as elastic as a youth in his teens. He was for seven years a member of the Life Guards, and for some time conducted a gymnasium in Liverpool. He expects to get back to his beloved athletic exercises this season, and is much elated at the success of his treatment.

The reporter then called upon Messrs. Harrison Bros., James street north, from whom Mr. Church had purchased the remedy, who further verified his statements. In reply to the enquiry by the reporter, "Do you sell many of Dr. William's Pink Pills?" Mr. James Harrison of the firm replied:

"We, yes, rather. A thousand boxes don't last long. You see our business is largely with men, women and girls employed in the big factories and mills in this locality and the recommendation we hear from these people day after day, month after month, would indeed make the manufacturer of these wonderful little pellets think he was a benefactor of humanity. Several cases have come under my own notice of women, poor, tired-out, over worked creatures, being made "like unto new" by the use of these pills and I see them passing to and from work daily and looking as though life was worth living and well worth it, too. In all my experience in the drug business I never saw anything like these pills," and Mr. Harrison related a number of cures that had come under his observation in addition to that of Mr. Church.

Dr. Williams' Pink Pills for Pale People contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and the tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore to glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for $2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold, make a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

EXTENSIVE CHANGES IN THOMAS KELLY'S DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Not often is a specialist detained by making a greater success than was anticipated, but such is the case with Dr. Jobb, the renowned optician, who is now at W. R. Greatrex's drug store. He came to remain for a few days only, but the pressure of appointments has compelled him to remain nearly four weeks. He positively asserts that he cannot possibly remain longer than Wednesday, June 29th, which will give those who intend seeing him another opportunity. The only specialist in Canada with many years of practical experience. Inventor of the new Optometer for testing the eye and sight. Examination free. 2d148

PLAN AT GREATREX'S DRUG STORE.

A Peterborough County Copper Mine.

The arrival of a lumber wagon, laden with beautiful specimens of copper ore found at the head of Stony Lake in the township of Dummer, created a sensation in town this morning when the "cargo" was deposited at the office of Mr. J. B. McWilliams, who owns the mine from which the specimens were taken. The preliminary work of stripping shows a vein of about five feet in width in which masses of the copper pyrites are associated with quartz nodules. One of the blocks shown weighs 115 lbs, another 61 and another 52. An assay of similar specimens made by the government assayer shows 37 per cent of pure copper. This is unusually rich ore and when it is considered that the vein has only been stripped to the depth of about three feet, the value of the deposit is seen to be incalculable. The mine lies only a few miles from navigable water and its development and the shipment of the ore will be comparatively easy. Preparations are on foot for entering systematically upon the development of the mine which will be an important addition to our local industries and furnish another example of the mineral wealth that underlies the rock-ribbed backbone of Ontario. It is worth while to call and inspect the splendid display of ore in the window of Mr. McWilliams office, Water street.

Taking experience as the test there can be no question about the superior quality of the "Myrtle Navy" tobacco. From the first year of its manufacture the demand for it has steadily grown. Even in the years which were marked by our business depression, there was no pause in the increase of the sale of it. In the dull years of 1876-77 and '78, the sales of it were vastly greater than in the prosperous year 1873.

Laid at Rest.

The funeral of the late Geo. Hilliard took place this afternoon at two o'clock, and the large attendance was a touching and significant tribute of respect to the deceased gentleman. Following the hearse came carriages containing the town councillors, a body, civic officials and an immense *cortege* of citizens, at least a mile and a half in length. The funeral procession was one of the largest that ever followed a citizen to his last resting place here.

Winner's names will be published in *The Toronto Mail* on first Saturday in each month.

The Rangers in Red.

Quartermaster Langford returned from Kingston this morning, where he had been making all the preliminary arrangements for the battalion's visit to that city on Dominion Day, in securing hotels for the billeting of the men and laying out the grounds on which the 57th will go under canvas. Mr. Langford and a squad of eight or ten men will go down on Wednesday next to put up the 57th's large tent. The 14th will put up all the tents for the visiting battalion. The 14th will be inspected on Friday morning after the parade, and the 57th on Saturday morning, by Lieut.-Col. Montizambert. The The prize to the crack company of the 57th for which there is a keen rivalry, will be awarded on the result of the inspection.

Hurrah! For Dominion Day!

And also for St. Peter's Cathedral picnic, which is a regular and brilliant feature of the day. It will be held on the St. Joseph's Hospital grounds. The public know that past picnics have been a grand success as well as a first class source of enjoyment, but the preparations for the coming event on July 1st are on a grander scale. An energetic committee have the programme in charge, and the list of sports and games comprise 15 exciting events, for each of which elegant prizes will be given. A first class orchestra will provide music for dancing And the good ladies will supply dinner at high noon and refreshments during the day. Keep this date open. Admission 25c, children 15c, dinner 25c.

News Nuggets.

—Tee Gee club had a shoot yesterday afternoon.

—The band played in the park last night. A large number were present.

—The market this morning was largely attended by both buyers and sellers.

—Court Little John No. 93, C.O.F., will run a three days excursion to Buffalo and Niagara Falls in August.

—Wm. Dorland from Omemee was arrested by the police last night for drunkenness. He was liberated this morning.

—The members of Hiawatha Encampment wore a fine new set of badges in the parade yesterday, which had just been received from Armstrong, of Windsor.

—Those who took in the E.B.A. excursion to Toronto returned home at nine o'clock last night. The 10,000 Knights of St. John was the finest sight ever seen in Toronto.

—The stoppage of the town clock yesterday was due to workmen disconnecting the dial preparatory to begin the work of raising the tower and adjusting the bell, which will begin on Monday.

—The officers of Hiawatha Encampment, I.O.O.F., were elected last night for the ensuing term. It is probable a joint installation of officers will be arranged with Ma. Hebron Encampment.

—The local detachment of the right wing of the Durham Field Battery returned home from their camp at Kingston to-day noon. The boys report having had a pleasant time and being used well by Kingstonians.

—Walter Williams, a young man from Barrie, had a fit on George street this afternoon. The police took him to the police station, where he went off in two severe epileptic fits. His sufferings and writhings were painful to witness.

—A meeting of the district committee of district No. 34, was held in the Otonabee Lodge rooms last night to elect a district deputy grand master. It was decided to recommend Bro. Robb, Stewart to the Grand Lodge I.O.O.F.

—Messrs. J. J. Turner & Son have turned out a fine Dominion ensign for the town hall tower, Lakefield, and a beautiful burgee for the steamer Mary Ellen. They also sent down a large tent and supply of flags for decorating Campbellford yesterday at their Masonic demonstration.

—Three hundred and fifty left on the 1 30 G. T. R train this afternoon on the Ellison Amateur Athletic Club's first annual picnic for Chemong Park. The Peterborough fire brigade band accompanied the excursionists and played sweet selections. A programme of sports and games was run off this afternoon. The day was a fine one for an outing.

—The annual meeting of the West Peterborough Farmer's Institute, which was to have taken place this afternoon in the town council chamber at 3 o'clock, has been postponed until Saturday afternoon next, to take place in the same place at 2 30 o'clock. The postponement was made to enable the members to attend the funeral of the late George Hilliard, ex M.P., this afternoon.

—During a thunderstorm yesterday forenoon the house of Mr. Gavin Preston, North Smith, was struck by lightning. No serious damage done, some plaster being knocked off and a few slivers from the outside sheeting. The lightning struck the eave and ran down the woodshed. Mr. Preston was standing just inside the summer kitchen door and he was knocked down. It was thought he was seriously hurt and medical aid was called, but he is progressing favorably to-day. He feels a queer sensation from his elbow down and also about his knee.

Somebody Suffers.

Yes, somebody suffers when those great take-em-away-for-nothing sales are announced, but it isn't the promoters, it is the confiding public who are eventually the sufferers. The goods look all right, but wear them, and how soon you will be surprised when they fall to pieces. Our reputation for selling reliable, trusty, serviceable shoes is quite sufficient to draw people to our store. It wouldn't do for a house of established reputation to indulge in sensational half-off, below cost, give-away sales. There's a moral to all this, ' Buy the best at Kidd's the bostons, and pay a reasonable price, and no more, and in the long run you will come off the winner. Kidd not only claims, but does sell the best of summer foot wear at the lowest living profit, at 376 George street.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilson, Secretary of Committee.

Doctors Use it in Their Homes.

They Strongly Recommend It.

OUR best physicians use Lactated Food in their families, and recommend it daily in their practice. No other prepared food before the mothers of Canada has had such high encomiums in its favor from the medical profession. The doctors thoroughly understand the composition of Lactated Food, and all agree that it possesses in a pre-eminent degree, every constituent of breast milk which fact should commend it to all mothers who, from circumstances, are unable to properly nurse their babes.

Babies who are fed with Lactated Food, always enjoy a perfect immunity from prevailing summer troubles; there is no impairment of the digestive organism; they sleep well, and are always bright, and vivacious.

Mothers run a tremendous risk, who use common foods of the day, as they tend to promote constipation; these foods also cause irritation of the stomach, making baby cross and fretful.

We think there can be no better recognition of the value of Lactated Food than the fact of our best doctors using it for their little ones. The mother only requires to be convinced of its great superiority over all other foods in existence.

A Social Contrast.

Lady Henry Somerset, according to a recent address to the English people, was very favorably impressed with the condition of American women, which she considers superior to that of the women in her own country. It has been generally understood that English women were more competent in the management of public affairs, as they are better informed, but the gracious English lady who made so many warm friends and admirers here says: "I was particularly impressed with the conduct of women in public meetings. They might argue vehemently and disagree during the meeting, but when it was over the disputants would leave the hall arm in arm, chatting on terms of perfect amity. In England such a discussion would involve a personal quarrel. American women understand public affairs, but English women have yet to be taught them—that is the difference."

Possessed the Art of Coddling.

It is not true that women do not realize and appreciate the attractive qualities that other women have for men. Occasionally, however, they do not. There is a woman now, of wide reputation before whom men fall in swaths. Her conquests have been signal, conclusive. The secret of this woman's charm other women have in vain tried to discover. A man who has himself been prostrate before this all-conquering lady was asked where lay her power. His first brief answer was "coddling." This he went on to explain: "If a man has a weakness, a secret grievance, her first step is to discover it. He is led to talk about it, and, alas! it is usually a relief to do so. Men love to talk about themselves to a sympathetic listener."

Bondage! Agony! Anguish!

A Lady's Experience.

SEVEN long, weary years in bondage! Think of the days and nights of agony; the anguish endured and the hopes blasted so often by cruel disappointments!

This was the sad experience of an Ottawa lady, who suffered from nervousness, sleeplessness, dyspepsia and neuralgia. Her family brought in the best medical assistance—mineral springs were tried, and in summer she was sent to the seaside. Nothing seemed to relieve the worry of mind and suffering which she endured until Paine's Celery Compound was recommended to her. After using the Compound with regularity for three months she was cured. We give a few extracts from this lady's letter to the proprietors of Paine's Celery Compound. She says:

"I very much regret that so many years of my life were spent in distress and suffering and that my friends were put to so much trouble and inconvenience on my account. Had I known about your wonderful remedy some years ago, there would have been less trouble and greater happiness for myself and family.

"It is difficult for me to put into words my feelings regarding your great medicine. It certainly cured me after all other expensive means failed; and just now I consider myself a fortunate woman. I cannot estimate the value of your Compound in money. It is invaluable to all sufferers, and I am determined to advocate its use whenever I have the opportunity. I believe that suffering women have a friend in Paine's Celery Compound that can remove all their troubles and sufferings. No more physician's treatment for me while I can obtain your Compound.

Opinions of the Canadian Press.

Those who suffer from dyspepsia, disorders of the stomach or liver, constipation bile or wind on the stomach, are strongly recommended to make use of Dr. Soy's Remedy. A few doses of this celebrated medicine cannot fail to afford relief and a speedy cure.—*Le Monde.*

New Use for Knees.

Every woman who wears the trailing skirt knows how very difficult it is to button the gloves if the toilet has been hurried and necessitated this last function being performed in the street, without letting the gown drag on the ground. If the material is delicate in hue or texture it is ruin to even go a few paces with it sweeping up the dirt of the sidewalks. A young girl and her escort created considerable amusement the other evening by walking down

Chestnut street, he holding up her gown while she struggled with a refractory glove button. It was very funny, but one could not help admiring the ingenuity of the girl and the chivalry of the men.—Philadelphia Times.

Her Name Her Only Steele.

The money order department of the Pittsburg Post Office, where the receipts are more than $2,000,000, is exclusively in charge of Mary Steele. This is said to be the largest business handled by any woman in America.

Their Favorite Flower.

The favorite flower in the Princess of Wales' household is the lily of the valley, and the dinner table is rarely without a decoration of these modest and fragrant flowers that grow in great profusion about Sandringham.

A Unique Wedding Gift.

The most highly valued gift at the Queen of Denmark's golden wedding last week was a crown of golden wheat ears and clover bought with the pennies of 100,000 school children.

Little Things That Tell.

It is the little that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effectual, they are rapidly supplanting the old-style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort. o

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. It may save you from consumption. dw

The Best Known.

DEAR SIRS,—I can recommend Dr. Fowler's Extract of Wild Strawberry for summer complaint and diarrhœa. I have used it in my family for two years for children and adults with the greatest satisfaction.
dw MRS FRANK BOHN, Austin, Man.

Dunnville Doings.

GENTLEMEN,—I had a headache for a long time, and seeing Burdock Blood Bitters advertised, I got a bottle, and it not only relieved me at the time but I have not been sick since with headache and think I have seen the last of it. MINNIE HICKS, Dunnville, Ont. dw

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of *Ayer's Pills*. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register*.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

PIANOFORTES

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

KARN ORGANS

which stand ahead of all competitors. We have also at all times in stock the well-known and popular

THOMAS ORGANS,

AND OTHER MAKES.

Our large and well-lighted show room enables us to carry the Largest Stock ever shown in Peterborough, and as regards Prices, we have only to say that we positively will not be undersold.

Those not having the inclination or the means to purchase an instrument outright, can by a small monthly investment, secure a Piano or Organ on rental until paid for.

JACKSON & CO. wish it to be distinctly understood that in cases of emergency, they are always desirous of dealing justly and fairly with their customers. They do not want both the money and the instrument.

NOTICE.

To insure confidence and satisfaction, Jackson & Co. are willing to exchange any instrument purchased from them within twelve months if not approved of, themselves bearing all expense of carriage, and allowing all that has been paid, towards any other instrument selected.

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Modern medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not close this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. B. TULLY, Agent, Peterborough. oct-w

A WILD MUSTANG.

It Bolts From the "Wild West" and Kills a Man.

LONDON, June 24.—A horse escaped this evening from Col. Cody's Wild West Show at Earl's Court. Several Mexicans on horseback galloped off after it and there was a wild chase. The horse ran down Piccadilly and the Strand, ran over and killed a man at Waterloo Bridge and was captured shortly afterward.

Empire Trade Conference.

LONDON, June 24.—The Empire Trade Conference lasted all day yesterday. Many leading colonists were present, including all the Canadian delegates.

The Right Hon. James Lowther presided. He said Lord Salisbury sympathized with the desire of the league, that preferential rates be established, but he wanted constituencies educated before undertaking to legislate on the matter. Mr. Lowther said that in his Hastings speech Lord Salisbury had shown that he no longer ignored the essential elements of the commercial situation in Great Britain. Though Lord Salisbury did not precisely endorse the fair trade principles the League advocated he said, in his Hastings speech, enough to show that he does not entertain the narrow prejudices with which the subject was too frequently surrounded in ministerial utterances.

One of the features of the sitting yesterday was an able address by Sir Charles Tupper in which he painted in glowing terms the capacity of Canada as a food-producing country. He said that even if Great Britain, by a trade policy, antagonized all of the other food-producing countries in the world the Mother Country need not be short of the amplest supply of food. Canada was quite capable of supplying the Empire with food. Sir Charles Tupper warmly urged the adoption of a preferential tariff within the empire. He also urged that the Government should place a duty of five shillings per quarter on American grain and that Canadian wheat should be admitted free.

Sir Donald Smith spoke in very much the same strain. He declared that the McNeill resolution recently passed through the Canadian House of Commons voiced the opinions of the great majority of the Canadian people, who earnestly desired even closer trade relations with the Mother Country than those actually existing.

The Agents-General of the Australian Colonies, New Zealand and the Cape of Good Hope spoke in favor of the establishment of preferential duties.

Rankine Dawson and the Hon. Mr. Holbrook also spoke, and a resolution in favor of inter-British trade was unanimously passed, amid hearty cheers.

RAVACHOL CONDEMNED.

The Paris Anarchist Sentenced to Death on a Charge of Murder.

MONTBRISON, June 24.—Ravachol was found guilty by the jury after they had been out but 15 minutes, and was sentenced to death.

Beala and the woman Soubere, who were accused of being Ravachol's accomplices in the murder of the hermit, Brunel, were acquitted.

Ravachol murdered Jacques Brunel, the "Hermit of Notre-Dame-de-Graces," near Chambles, June 21, 1891. The "hermit" dwelt in a little cabin erected on the ruins of the college where Massillon, the famous French preacher (1663-1742), once taught.

Medical testimony brought out the fact that Brunel was killed by a left-handed man. Now it is known that Ravachol uses both hands with equal facility.

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.
W. H. COMSTOCK, Brockville, Ont.
DEAR SIR.—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.
Yours faithfully,
H. F. ATWELL.

MADAME SARDOU.

As Charming a Love Episode as May be Found in Her Husband's Plays.

The family of the celebrated dramatist, Victorien Sardou, the author of "Theodora," "Fedora," "La Tosca," and other plays all

MADAME SARDOU.

more or less famous and successful, is a singularly interesting one, writes Lucy Hamilton Hooper in a delightful sketch of the wife of the famous dramatist, in the June Ladies' Home Journal. His aged father still survives, and though the elder Sardou has recently celebrated his ninetieth birthday, he preserves his faculties unimpaired, and is never so happy as when he can enjoy the society of the children of his world-renowned son, and of that gentleman and his wife as well. The elder Sardou lives at the town of Cannet, near Cannes, in one of the most beautiful sites of the Riviera, and he is the owner of the house in which the great tragic actress, Rachel, breathed her last, in 1858, after a long illness from which she had vainly sought relief in that delicious climate.

The marriage of M. Victorien Sardou was as charming a love episode as may be found in any of his plays. He was approaching middle age, and was considered as being wholly absorbed in his literary labors to the exclusion of any other passion, when the Parisian world was amazed by the announcement of his engagement to M'lle Anne Soulie, daughter of M. Eudore Soulie, chief director of the galleries and the palace of Versailles, and also of the royal library and the national archives contained therein.

An Essay on Roads.

Roads, the number of them and the condition in which they are kept always indicate the degree of civilization to which a country has attained. If, for instance, the roads are laid out without any reference to wagons, and if traffic is still carried on over them, one knows that men must play the part of beasts of burden, as they do in Africa. So in China, where human carriers are cheaper than beasts, the roads over the mountains are very bad. Waterways abound, but there are few bridges and those few are always tumbling down, so that in Northern China the coolies, who carry the tea in bags, have to ford the streams. If both the coolies in China and the natives in Africa have to do all this—the work that horses do in other countries or that steam and electricity do in our own—they cannot, as you see, be a very enlightened set of people. Indeed, how could they ever have the time or strength even to try and be?

In Thibet some of the roads are better, but that is in order that messages can be sent quickly. How do you suppose that is done? We send ours by telegraph or telephone, but theirs are sent by men who travel eight hundred miles on horseback day and night without being relieved. Sometimes the messenger dies from sheer exhaustion before he arrives at the end of his journey. For, first of all, his clothes are sealed on him, and the seals are never allowed to be broken except by the proper official when the messenger's destination is reached. Every thirty miles along the road a fresh horse is waiting and the messenger is lifted from one horse to the other and hurried on. I do not wonder that before the eight hundred miles are accomplished he so often dies. Think of how different it is with us. We send messages eight hundred miles and nobody is tired except perhaps from sitting still at a telegraph desk! Perhaps none of us yet know what true civilization means, but it seems, does it not, easier to grow in understanding when human life is not used in the way it is in Thibet?

20 Miles to Procure Medicine.

Winfield, Ont.
W. H. COMSTOCK, Brockville.
DEAR SIR:—Am selling your "Dr. Morse's Indian Root Pills" in this locality. I have customers who come 20 miles for the sake of getting Morse's Pills. This speaks for itself as to their value. I use them in our family with "the most satisfactory results." My wife has been cured of sick headache by their use. We could not do without them.

MR. GLADSTONE SPEAKS.

HIS APPEAL TO THE ELECTORS OF GREAT BRITAIN.

Great Britain to Decide Whether the Three Countries Shall Henceforth Constitute, in Reality as Well as in Name, the United Kingdom.

LONDON, June 25.—Mr Gladstone sent out yesterday his election manifesto in the form of an address to the electors of Midlothian. It is undoubtedly the ablest political paper that has come from the old man's hand in many years. In it he discusses at some length the Irish question touches upon the minor issues of the campaign and closes with a pathetic allusion to the probability that before the opening of another campaign he will be in his grave.

Never So Loyal to the Crown.

Ireland was never so loyal to the Crown, he says, never so closely attached to Great Britain, never so united in herself, as in the years following 1782 when she enjoyed self-government and until concord was disturbed after 1795 by the wicked machinations of her English enemies. For a generation after the union Ireland had slept the sleep of physical misery and political servitude. The reform victories of 1829 and 1832 had given her consciousness and voice. Thereafter her heavy grievances and her battling aspirations had formed the great standing burden of the British Parliament and had been the principal impediment of its work.

Ireland Calm and Peaceful.

In the bylaws it had been shown in recent years that the people of Great Britain recognized the irresistible claim which Ireland made upon their sense of justice. Ireland was calm and peaceful to-day because she relied upon the British electorate to relieve her other sufferings and burdens. This patience under wrongs was a happy omen. Reciprocal affection undoubtedly would follow the frank concession of self-government to the afflicted country.

Home Rule, sheltered by imperial supremacy, should be granted and England and Ireland would then be at lasting peace. Calm reason would soon bring Ulster back to its senses and to brotherhood with the rest of Ireland—to the brotherhood which existed before the union.

Dissentient Ex-Liberals.

Mr. Gladstone then criticizes recent English legislation and attempts at legislation on the part of the Government, incidentally describing Liberal-Unionists as "Dissentient ex-Liberals." He admits the importance of the labor questions and approves of reforms in electoral registration as well as the payment of members of the House of Commons, so that labor members may have means of supporting themselves and their families. The manifesto closes with these words:

"In the even sixtieth year of my public life I necessarily feel that this is the last general election at which I can expect to solicit your suffrages. Only a small special share can belong to me in the work which I have sketched. I am sincerely grateful for your past confidence, and I humbly trust that I have done nothing to forfeit it. Even now, closely circumscribed as is the space before me, I trust that I shall still be permitted, through the Almighty's bounty, to render for a while to you my imperfect but devoted services."

Gladstone a Plagiarist.

LONDON, June 25.—Prof. Lecky, the eminent historian, has a long letter in The Times in which he complains that Mr. Gladstone, in his speech to the Nonconformists, quoted a passage from a book which Prof. Lecky published anonymously 30 years ago, the chapter from which Mr. Gladstone quoted having been suppressed in subsequent editions.

Mr. Gladstone's Home Rule Scheme.

LONDON, June 25.—Mr. Gladstone's Home Rule scheme has been communicated in detail to Lord Rosebery, Mr. John Morley, Sir William Vernon Harcourt and other Liberals. Some of its most critical points have been discussed with the Irish leaders with the assurance that if the general election places Mr. Gladstone in power the bill will be presented at the autumn session of Parliament.

BALFOUR'S MANIFESTO.

The Government Leader Does Not Mince His Words.

LONDON, June 25.—Mr. Balfour in his election address says: "Every year's experience has fully justified uncompromising opposition to the abortive home rule measure of 1886. The Separatists, subsequently ambitious modification of the measure makes the proposals more unjust and dangerous. An Irish parliament controlling the Irish executive cannot be controlled by the Imperial Parliament. The promised supremacy of the Imperial Parliament as far as the Loyalists are concerned is only a sham. A system allowing a parliament in Dublin to manage Irish affairs, while Irish representatives interfere with English and Scotch business, would produce intolerable consequences in both countries. Such a condition of things would be grossly unfair to the British and cruel and aggressive to the minority in Ireland. The criminality of the methods whereby the politicians who would determine the destinies of Ireland have sought to attain their objects has been proved before tribunals. The policy of the Gladstonians would give these men control of a helpless minority whose only crimes are their religion and loyalty, and would begin and not end serious trouble."

Mr. Balfour dilates upon the successful legislation of the Government; promises measures dealing with the labor question; hints at a reduction of the Irish representation if the subject of parliamentary reform be raised, and claims for the Government credit for prudent and courageous conduct of foreign affairs.

Forecasting the Vote.

LONDON, June 25.—A comparison of the forecasts of the result of the elections shows that the official estimate of the Liberal managers is a majority of 147 for Mr. Gladstone, including the Irish members. The Liberal Unionists estimate that he will have a majority of 40, including the Irish, thus placing the Liberals in absolute dependence upon the Irish vote. Official Conservative figures give the Unionists a working majority of 30.

The Pall Mall Gazette's calculation, which is based on an analysis of the bye elections since 1886, results in a majority for Mr. Gladstone of 94, only 14 over the Irish vote.

Balancing the reports from the various sides an impartial forecast is that Mr. Gladstone will obtain no majority that will enable him to act independently of the Irish party.

"Dirty Tim."

DUBLIN, June 25.—Timothy Healy finds it dangerous to openly appear in the streets of Dublin. He was recognized there on Tuesday and was compelled to take refuge in a house under a guard of police. Again yesterday as he was leaving a federation meeting a crowd tried to stop him. Some of the crowd saluted him with cries of "Dirty Tim." Stones and handfuls of mud were thrown at him. He jumped upon a passing car, which rushed through the mob, knocking down and killing one of the men. The crowd pursued the car and a bag of flour was thrown over Healy. When he reached the office of The Freeman's Journal and National Press he jumped from the car and as he did so a man hit him a severe blow on the jaw with a stick. He was also struck in the face by a stone. The police seized one of his assailants, who was to-day sentenced to 14 days' imprisonment.

Run Down by a Street Car.

LONDON, Ont., June 24.—A 5-year-old son of David Dibbs, letter carrier, Horton-street, was run over by a street car yesterday in front of his father's residence, and his right leg was badly injured, but the limb will be saved.

Frightful Railway Wreck.

HARRISBURG, Pa., June 25.—The Western express which left Philadelphia at 9.20 last evening, collided with a switch engine in the city limits shortly after 1 o'clock this morning.

Eight persons reported killed and 25 or 30 injured.

$50,000 for the Sufferers.

QUEBEC, June 25.—Before prorogation today the Quebec Legislature voted $50,000 for the sufferers by the recent cyclone, and passed a bill prohibiting the sale of liquors on fair grounds.

Fatal Hotel Fire.

FRESNO, Calif, June 25.—The Commercial Hotel at Sanger was destroyed by fire last evening.

Six persons are said to have perished in the flames.

ON FIRE WITH ECZEMA

Terrible Sufferings of Little Baby. Seven Doctors and Two Hospitals Fail. Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face, and head, until he was nearly covered; his torturing agonies were pitiable to behold he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were eased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

Grafton & Co.

393 GEORGE ST.

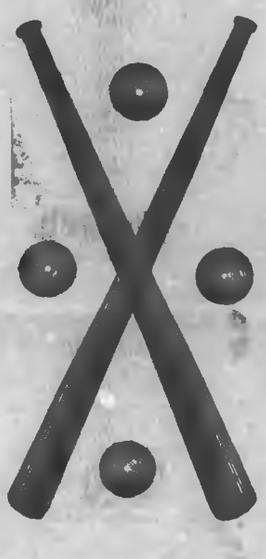
Be sure you find the right place and then you may be sure you will get the right goods at the right price. One thing you will not find in our store is old goods. Everything is made in our own factory, cut by hand in the very newest style and made up equal to any custom work turned out in the Town of Peterborough. It is nothing new for us to hear a man say, this is the first time I ever bought a suit ready-made, but it will not be the last, as long as Grafton & Co. are in Peterborough.

WE HAVE THE NICE, NEAT, NEW STYLISH GOODS!

And are bound to do the trade. We did not rush into Peterborough without letting the people know from whence we came. We are an old established firm in Dundas, where the firm has been running for forty years and had the experience of years before some of the dealers of the present were in existence, or at least were just learning the first lesson in the English language necessary to start through this weary world. There are three branches of this firm—Dundas, Owen Sound and Peterborough. In each of these places

WE LEAD IN CLOTHING

And intend to keep the lead, by doing things on the square, up and up plan. This is the principle we work on. Come and see for yourselves. Don't be afraid to come and look at the goods, you will go away more than surprised to see such good goods for such little money.



HERE ARE A FEW PRICES:

See our 35c. and 50c. Overalls; cannot be bought wholesale for the money.

See our Men's Pants, 95c., $1.25, $1.50, $1.75, $2 and up; these we sell to other dealers at these prices

See our Men's Suits—You who have seen them need no price quotations, you who have not seen them come and be convinced; you will never regret it.

In Boys' and Youths' Clothing we take the lead—we always have and always will. Why not have the boys fitted out in first-class style when you can do it so cheaply.

GLADSTONE ASSAULTED.

HIT WITH A MISSILE ON THE STREETS OF CHESTER.

His Assailant Was a Woman and Her Weapon a Piece of Hard Gingerbread—The Grand Old Man Receives Painful, But Not Serious Injuries.

LONDON, June 27.—While Mr. Gladstone was driving to address a meeting at Chester Saturday, a woman threw a piece of hard gingerbread, which struck Mr. Gladstone on the nose, bruising that member and causing it to bleed slightly. Mr. Gladstone suffered some pain from the injury, and two doctors were summoned, who bathed Mr. Gladstone's nose and relieved him sufficiently to enable him to proceed with his address.

The oculist in attendance upon Mr. Gladstone states that there is a large abrasion at the corner of the eye, extending to the edge of the pupil. He says that the greatest care will be necessary to prevent serious and permanent injury to the organ. The wound on Mr. Gladstone's nose bled freely.

The woman who threw the missile was recognized as the wife of an artisan. She has not yet been arrested, but the police are on her track and expect to soon have her in custody.

Mr. Gladstone, in describing the assault, said that the woman threw the hard mass of gingerbread at him with great violence and with such suddenness that he could make no attempt to ward it off.

Mr. Gladstone in his speech said that the opponents of Home Rule had declared that if the House of Commons passed a Home Rule bill the House of Lords would reject the measure, and that if they passed another bill of a like nature the dissolution of Parliament would follow. But the people would not be worried or pestered with a dissolution at the will of the House of Lords. The appeals to bigotry, he said, were much more serious. He did not believe that the Catholics of Ireland would be guilty of the charges which had been made against them.

While speaking, Mr. Gladstone frequently held his handkerchief to his injured eye.

Mr. Gladstone's injured eye has been bandaged and he will remain in a darkened room for a few days. It is stated that the woman who threw the missile at him said she threw it at him for luck. The oculist re-examined the eye this afternoon. He says the injury is progressing favorably and the pain has greatly decreased.

Election Literature.

The supply of election literature of the very first importance is simply overwhelming. Most of the leaders on either side of the House of Commons have now published their addresses, and the speeches of the week include at least a dozen from men of the highest political rank, Mr. Balfour, Lord Rosebery, Mr. Chamberlain, the Duke of Devonshire, the Duke of Argyle, Mr. John Morley, Sir William Harcourt, and many more. There has been a great meeting in Dublin in echo of the greater meeting in Belfast. There has been another in London. Yet it is not quite certain that much new light has been thrown on the situation. One point comes out in Lord Rosebery's speech on Thursday at Whitechapel not entirely new, but very timely. There have been rumors of dissensions between Lord Rosebery and Mr. Gladstone on foreign policy, and Lord Kimberly's name has been mentioned as a possible Foreign Minister in the Gladstonian Government instead of Lord Rosebery. The radicals of the party, or some of them, are believed to oppose Lord Rosebery, partly because he has a mind and will of his own, partly because of his opinion about Egypt and of the doubt whether he be willing to reverse Lord Salisbury's policy and fall down and worship France. Lord Rosebery's speech is in this view curious and important. He says with that gravity which he can assume when he chooses that Mr. Gladstone has gone rather too far in his condemnation of Lord Salisbury's foreign policy. Then he adds with equal gravity that the new Foreign Secretary, whoever he may be, will continue Lord Salisbury's present policy, "so far as we know it;" adding with some emphasis, "We intend to try the experiment of having a continuous foreign policy." If Lord Rosebery can persuade the country of that he will do much for his party. Most Englishmen who study foreign affairs, who remember Mr. Gladstone's five years of war and worry and humiliation and Lord Salisbury's six years of peace with honor, shudder at the prospect of another Gladstonian term with Mr. Gladstone himself running the Foreign Office as he did from 1880 to 1885. They discredit, however, the Lord Kimberly gossip. They believe that Lord Rosebery must be the Foreign Minister, that he will not be unless he has a free hand, and that he meant what he says about the continuity of English foreign policy, including much moral support to the Triple Alliance and the peace of Europe.

O'Brien Attacked By a Mob.

CORK, June 27.—While Mr. O'Brien was attending mass yesterday a crowd of Parnellites surrounded the church and continuously jeered and hooted. When Mr. O'Brien emerged from the church he was at once surrounded by a crowd of anti-Parnellites, and having boarded a car was escorted to his hotel. Several fights occurred on the way, sticks being freely used. Outside the hotel a serious conflict arose, in which several persons were injured. The crowd was finally dispersed by police.

Redmond Put to Flight.

William Redmond and the Lord Mayor of Dublin made an attempt yesterday to canvass Blainey-street, an anti-Parnellite stronghold. They were continually pelted with stones and were soon compelled to flee. An anti-Parnellite meeting held this afternoon addressed by Mr. William O'Brien was attacked by Parnellites, who used sticks and stones freely. The anti-Parnellites fled.

Later Mr. Redmond and the Lord Mayor of Dublin, supported by 3000 Parnellites, marched through Blarney-street. The Parnellites broke the windows of many houses as they went along, and the residents took shelter in their houses, from the windows of which they pelted the crowd in the streets. In return Parnellites forced the doors of several houses and beat the occupants. The Parnellites then held a meeting in the streets, addresses being made by Mr. Redmond and the Lord Mayor of Dublin. After the meeting, Parnellites wrecked the rooms of the Blackpool Bank and smashed in the windows. The anti-Parnellites being a minority were unable to cope with the Parnellites, but pelted them from behind houses. The police were too few in number to stop the disorder. Fifteen injured combatants were taken to hospitals for treament many other persons were slightly injured.

Mr. O'Brien addressed an anti-Parnellite meeting last evening. He began by declaring that if they were attacked they the anti-Parnellites would defend themselves. The issue at stake he said, was, whether they should abandon Gladstone and all the chances of Home Rule by electing factions or whether they should send a united party to Parliament.

John Redmond addressed a meeting in Cork on Saturday night. He said that the Parnellite proposals were approved by an overwhelming majority of the Irish in America and that the anti-Parnellites in America were army officers and no men. The Parnellites, he said, were determined not to be driven from public life.

Still Another.

LIMERICK, June 27.—Mr. Jordan, M.P., was attacked by a crowd of Parnellites Saturday on arriving in this city to address an anti-Parnellite meeting.

Mr. Jordan was struck on the head, his hat being smashed in, and he was compelled to take refuge in a railway station. A strong detachment of police afterward escorted him to his hotel. On the way the Parnellites stoned the police, who finally used their swords to disperse the crowd. Several arrests were made.

DANN'S STEAL IS $200,000.

Directors as Well as Depositors Robbed—Two Clerks Implicated.

BUFFALO, N.Y., June 27.—When E. S. Dann, the treasurer of the National Savings Bank, was learned to be a defaulter on Tuesday the amount of his steal was fixed at $32,000. Two hundred thousand dollars it is now supposed will cover the amount.

Not only has Dann robbed the depositors, but he has even cleaned out the accounts of the directors and trustees. Vice-President Burrows had $2800 on deposit. Dann got $2100 of that.

So far the amount stolen from depositors foots up to considerably over $100,000, and the bank's mortgages have yet to be examined.

All the clerks except one have been discharged, and the examiners have found evidence that two of them were implicated with Dann in the steal.

DEATH PRISONER'S REVELRY.

A Strawberry Festival Held in the Shadow of the Gallows.

COLUMBUS, O., June 27.—Jacob Harvey, the Dayton murderer, was hanged in the Ohio Penitentiary Saturday for the murder of his mistress. His last meal consisted of cake, ice cream and strawberries, which was served in his cell, and he invited the other prisoners under sentence of death to join him in disposing of it. A regular strawberry festival was held, presided over by the man who was so soon to be plunged into eternity, and all the others around the board were doomed to a similar fate.

Chicago Derby.

CHICAGO, June 25.—Fifty thousand persons at Washington Park to-day witnessed P. A. Swigert's Carlsbad win the ninth American Derby by two lengths, while the Californian colt, Zaldivar, ran second, and Corrigan's full brother to Freeland, Cicero, was third.

The weather was perfect overhead, the sun shining brightly, and a cool breeze blowing, but the track, owing to a recent rainstorm, was very heavy, though not wet.

THE AMERICAN DERBY, a sweepstakes for 3-year-olds, total value of stake $20,130, and value to winner $16,980, 1½ miles:

P. A. Swigert's b c Carlsbad, by Glenelg—Lady Wayward, 122.....(R. Williams) 1
W. E. Smith's ch g Zaldivar, by Joe Hooker—Lena's First, 122.....(O. Hearne) 2
E. Corrigan's b c Cicero, by Longfellow—Belle Knight, 116.....(Overton) 3

Time 3.04¼.

Azra, Newton, Chief Justice, Gallindo, Prince of Darkness, Emperor Regent, Bob Forster also ran.

THE BETTING: Azra 2 to 1, Cicero 3 to 1, Gulindo 6 to 1, Carlsbad and Zaldivar 12 to 1 each, Newton 12 to 1, Prince of Darkness 25 to 1, Chief Justice 30 to 1, Bob Forester 50 to 1, and Emperor Regent 100 to 1.

THE RACE: The flag fell to a good start, Chief Justice was the first to show to the front followed by Prince of Darkness, Azra, Carlsbad, Newton, Cicero, Bob Forester, Gulindo, Emperor Regent and Zaldivar.

Williams sent Carlsbad to the front round the turn and at the quarter he led by half a length with Emperor Regent second and Cicero third. As they came down the straight Zaldivar went through his horse and at the stand Zaldivar led by a head, Carlsbad second, Cicero third and the others well bunched. As they swept by the club house Carlsbad again took the lead and at the three-quarters he was half a length in front of Zaldivar with Cicero third, and following well up Chief Justice, Azra, Newton and Gulindo.

Along the back stretch Barnes made his run with Gulindo and at the half he was in second place, Carlsbad still leading with Zaldivar third, Azra fourth and Cicero fifth. Carlsbad opened a gap round the far turn, while Gulindo dropped back and Zaldivar, Azra and Cicero set sail to catch Carlsbad. As they swung into the stretch, Carlsbad had a clear lead, while the other three were closing up. At the carriage entrance there was a scramble and Azra stumbled. At the head of the stand Zaldivar drew up to Carlsbad and there were shouts of:

"Zaldivar wins!" "Carlsbad wins!" Williams shook up the son of Glenelg and Lady Wayward and in the last few strides he came away, winning by an open length, while Zaldivar beat Cicero for the place by half a length. Azra was fourth, a length behind, and Newton fifth, two lengths behind Azra. Chief Justice was sixth, Gulindo seventh, Prince of Darkness eighth, Emperor Regent ninth and Bob Forester last. The time was 3.04¼, which, considering the track, was good.

Longstreet Defeats Madstone.

SHEEPSHEAD BAY, June 25.—The races at Coney Island Park this afternoon took place before a large crowd, but on a track that was frightfully sloppy. Results:

First race, ½ mile, selling—Hoey 1, Jackelly 2, Alcade 3. Time 1.29 1-5.

Second race, 1½ mile, Mermaid Stakes—Yorkville Belle 1, Anea B 2, Brown Beauty 3. Time 2.00 3-5.

Third race, 1 3-16 miles—Raceland 1, Fairy 2. Time 1.52 1-5. Only two entries.

Fourth race, ½ mile, Coney Island Stakes—Longstreet 1, Madstone 2. Time 1.18.

Fifth race, Zephyr Stakes, Futurity course—Lovelace 1, Llewlen 2, Meadicant 3. Time 1.14 3-5.

Sixth race, 1¼ miles on turf—Livonia 1, Marchmont 2, Gettysburg 3.

Grand Trunk Freight Shed Burned.

BARRIE, June 27.—The Grand Trunk station and freight shed at Craigvale were destroyed by fire about 3 Saturday morning. The freight and books were burned, also about 5000 bushels of grain owned by local buyers. Loss about $6000; grain insured for $1500.

Brakeman Killed.

WINNIPEG, June 27.—Louis Olman, brakeman of the Northern Pacific was run over and killed at Brandon Saturday.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City Saturday.

TORONTO, June 27.—Receipts of grain on the street market Saturday were represented by 200 bushels of oats at 32c for white, 30c for red and 67c for goose, and 300 bushels of oats at 31c to 33½c. Hay was in good supply at unchanged prices.

On call board No. 1 Manitoba hard wheat offered at $1.06 to arrive, all rail, North Bay, with $1.01 bid. No. 2 hard to arrive Toronto offered at 93c, and to arrive, all rail, North Bay, 93c was offered and 90c bid. No. 2 regular to arrive North Bay offered at 90c, with 40c bid. Five thousand bushels of wheat offered by sample at 92c. Manitoba white oats to arrive North Bay offered at 34c, with 30c bid.

THE PRINCE'S JILTED SWEETHEART.

The Roumanian Poetess Takes an Original Revenge.

NEW YORK, June 27.—The Herald's Paris correspondent says he hears from Bucharest that Mlle. Vacaresco, formerly the fiance of the Crown Prince of Roumania, is sending to the Princess Marie of Axbenbergh, who is now the fiancee of the Prince, the love letters which she received from Prince Ferdinand. The English court is excited over the scandal.

A Hamilton Man's Suicide.

BUFFALO, June 27.—At 3 o'clock Saturday morning Officer Tom Leonard, on duty at the Erie depot at Michigan-street, found a man in an insensible condition lying against the flag shanty. When the man was taken to the hospital it was discovered that he was suffering from opium poisoning. Two one-ounce bottles of laudanum were found in his pockets, and a bottle of rough on rats, half emptied.

All efforts to revive him proved in vain and he expired within half an hour of being admitted to the hospital.

The only clue to his identity is the name W. Lewis on his underclothing and the fact that he told two young men at the track early this morning that he was from Hamilton.

A Remnant of a Suicide.

NIAGARA, Ont., June 27.—Along the lake shore about three miles from Niagara was discovered the leg of a man floating in the water near the shore. Upon examination it was found that it was the portion of the leg from the knee downwards and it had been in the water for some time. It was apparently the limb of a cripple, as the boot in which it was encased had a high heel, and was of a very fine make, showing that it was made especially for the foot.

It is generally supposed that the limb was that of a man who had gone over the falls and floated down to where it was discovered.

Killed By His Horse.

BRUSSELS, Ont., June 27.—Daniel McKenzie, foreman at Coleman's salt works, was dragged to death by his horse. Coleman while driving home dropped one of the lines and got out on the wagon tongue to get it. In getting back he slipped and fell and was dragged by the affrighted team. When found there was an ugly gash about 4½ inches long on the right side of the head, the skull being crushed in, caused either by the wheel or the hoof of one of the horses. He lived 15 minutes.

Not Temperate in Language.

WINNIPEG, June 27.—Robert Watson, the new Minister of Public Works in the Greenway Government, is with all other candidates, just now passing as temperance candidates. At a public meeting at McGregor Saturday he declared he had never drank, and the statement was promptly challenged by an elector, who declared he had drank with him. Watson called the man a liar, and jumping from the platform started in at his opponent. It was some time before the row was stopped.

A Female Shoplifter.

SARNIA, Ont., June 27.—Last night Mrs. William McAusland of the fourth line, Sarnia township, was arrested on a charge of shoplifting on complaint of W. J. Proctor. Mr. Proctor had for some months missed goods from his store, and on Saturday evening watched Mrs. McAusland. When arrested she had a lot of goods stowed away on her person, being prepared for handling a large quantity. Late last night her house was searched, and a large amount of goods found. She is out on bail.

Fell Dead While Chopping Wood.

NEW WESTMINSTER, B.C., June 27.—Ernest Paulette, aged 24, of Hillside, fell dead on Thursday afternoon while chopping wood upon the farm of Robert Wiltshire. Paulette was subject to epileptic fits. The body was not found till several hours after death.

A Relic of Long Ago.

NIAGARA, Ont., June 27.—A night-line set for fish at the mouth of Niagara River brought up from the bottom of the river an old flint-lock musket. It was covered with an incrustation of mud, shells, etc., that was as solid as though petrified. It is supposed to have been lost by some of the French soldiers who were stationed at Fort Niagara when the fort was in the possession of the French.

Whisky Killed Him.

BRANTFORD, June 27.—At the adjourned inquest on the body of Richard Griffiths, found dead in Lawrence-street, the medical evidence was taken and the conclusion of that testimony was that death had resulted from congested apoplexy, accelerated by over-indulgence in liquor. A verdict to this effect was returned by the jury.

Died a Pauper, Aged 100.

VICTORIA, B.C., June 27.—Thomas Ferguson, an aged colored resident of Saanich, died yesterday. He had passed the age of 100 years and since that time record of his birth was forgotten. He was in indigent circumstances at the time of his death and will be buried by the Government.

Died From Sunstroke.

LONDON, Ont., June 27.—Byron, the 12-year-old son of Osman Sherlock, London South, was prostrated with sunstroke while picking strawberries, and died before he could reach home.

CANADA SENDS THE FIRST EXHIBIT.

The World's Fair Receives Some Immense Lumber From Us.

CHICAGO, June 27.—The first exhibit to be taken into the World's Fair was received at the Custom House Saturday.

It consisted of 13 enormous logs containing 145,254 feet of lumber. They came from Canada, having been chopped from the great wilds of that country.

Congregational Gratitude.

Generous Recognition by Lakevale, Omemee and Mount Pleasant Presbyterians.

The congregations of these three Presbyterian Church possess one of the virtues in a large degree—that of gratitude—as shown by two recent events. On Wednesday last Misses Young and Annie Fowler, who have for some time performed the duties of organist, not only very satisfactorily, but without remuneration, were presented with the following joint address, accompanied by combined dressing cases, each accompanied with the following

ADDRESS:

MISSES YOUNG AND FOWLER,

DEAR YOUNG LADIES:—We the members of Lakevale Presbyterian Church desire to take this opportunity of expressing our appreciation of the faithful and acceptable labours you have given in connection with the services and interests of the Presbyterian Church. The fidelity and zeal which have marked your connection with this congregation are worthy of the higher regard which heaven bestows upon its faithful servants, yet feeling that appreciation from an earthly source is grateful, we ask your acceptance of these emblems of our good will and appreciation.

Yours with the best wishes and prayers for future happiness and usefulness.

ROBERT DYELL,
JOHN DARLING.

June 24th, 1892

The address was read by Mr. Thomas Young, jr., and the presentations made by Messrs. Robert Dyell and John Darling.

Miss Young made the following reply:

Dear friends,—It is not much that I can say, but, I am sure, I feel very grateful to you all this evening, for I cannot really see what I have done to receive this kindness. I am sure I shall prize it. What I will value more is the spirit which has prompted the act. The work I had to do was a pleasure, for when we realize that it was the Master's work how easy the service is.

Miss Fowler expressed her thanks in the following terms:

I thank you heartily again for this valuable gift, trusting that when our voices cease to sing here below we may all meet to sing around the throne of God.

The event took place at the hospitable residence of Mr. Robert Hunter, Smith. The party had brought baskets and after the contents of these were duly discussed the evening was passed pleasantly in social intercourse.

THE PASTOR REMEMBERED.

The congregations took occasion on Friday night to repair to the manse Mount Pleasant, to give Rev. Mr. Ewing, their pastor, a pleasant surprise, in recognition of his forty years faithful pastorate. Mr.—Best read the following address:

Rev. John Ewing:

REVEREND PASTOR.—We your loving and grateful parishioners feel it both a pleasure and a duty to signalize your forty years of faithful, devoted and fruitful service as our pastor, by a feeble expression of our appreciation and gratitude, and by the offering of a tangible, though slight token of them.

You have ministered to us in holy things; you have broken to us the Bread of Life; you have taught us, by both faithful precept and godly example, to walk in the narrow way; you have gone in and out amongst us; you have baptised and married our children; you have stood a comforter by the couch of sickness, and by the dying bed of our loved departed; you have been pastor and friend, and while we acknowledge all your great services to the cause of Christ in our behalf, we would offer for your acceptance, this covered buggy as a vehicle of our most dutiful regard, feeling at the same time how infinitely inadequate it would be if regarded in the light of a reward, but trusting it may serve to lighten your journey and to remind you of the devoted parishioners who herewith unite in imploring Heaven's richest blessing to rest upon you in your declining days, and that the rest of your life may be one of many years, crowned with divine loving kindness, and that its peaceful end may be a foretaste of the eternal rest that awaits the faithful at God's right hand.

On behalf of the congregations of Mount Pleasant, Omemee and Lakevale Presbyterian churches.

JAMES FOWLER,
JOS. RUTHERFORD,
SAMUEL BEST.

June 27th, 1892.

Rev. Mr. McEwan in a grateful speech rendered thanks for the dutiful address and handsome and useful present with which he had been favoured. He was deeply affected by the gratitude of his parishioners amongst whom he has labored so long.

The present was a handsome top buggy purchased from Messrs. Fitzgerald & Stanger, town, and the presentation was made in behalf of the congregations by Messrs. Jas. Fowler, Joseph Rutherford and Samuel Best.

The baskets brought by the provident ladies were opened, and after tea the evening was pleasantly spent in social enjoyment.

No Wonder That Mothers Dread the Hot Weather!

June Weather is Weakening! The Best Food For Canadian Babies.

THOUSANDS of loving mothers fear and tremble when June weather is experienced. The oppressive hot term usually begins at this time; and with it comes disease, suffering and death to the innocent baby. At this particular season the poorly fed infant is the first to be attacked by cholera infantum, dysentery and diarrhoea.

The infant who is nourished from day to day on pure and life-giving Lactated Food, passes safely through all the summer troubles that assail and cut down the poorly nourished babe. Mothers who use the healthy Lactated Food for their infants, are not disturbed by dread and fear. They see baby progressing in health and strength; they look, from day to day, on the lovely form of the child expanding in beauty and loveliness. Mothers should understand that these desired conditions are only seen when Lactated Food is used daily.

The testimony of the best physicians, and of hundreds of happy and grateful mothers who have had their babies saved by Lactated Food, are sufficient proof that, at this critical season, every languishing and weak babe may be saved if fed on the best of all foods.

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistant for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE WORLD OF FASHION.

THE SEASON'S STYLES IN CHILDREN'S COSTUMES.

How and Attractive Dresses--Their Hats, Cloaks, Shoes and Hosiery--A Pretty Little Tot in Vandyke Dress--A Jaunty Outing Suit--The Felix Bow.

The long waist and the very short skirt of the French have been adopted by some mothers in the place of the Greenaway dress, but it is quite safe to predict, says Myra in the Detroit Free Press, that the fashion will not become general. The spectacle of a little girl struggling to keep the skirts of her frock over her little black-stockinged knees is really a pitiful sight.

"I can remember just how I used to stand around on one foot," said a young mother, "dreading to sit down in my short, voluminous skirt, and I think nearly all children feel alike on the subject. Blessings on Kate Greenaway, I say, who treated me as if we were little women, not mere dolls!"

It is certainly true that the Greenaway and the empire gown with its short waist and long skirt make the little ones look like pictures and are much better from a sanitary point of view.

There are indications that the little people are to wear colored hosiery again. I find upon inquiring into the matter that red hosiery will only be worn with red slippers, and the little red morocco boots of the

CHILD'S DRESS.

past are coming in again for children. It is further said that the little ones themselves have become very tired of the succession of black stockings. So the well-appointed wardrobe of the little miss will have blue stockings and blue shoes, red stockings and red shoes, white stockings and white shoes, making a pleasant diversity.

Too much attention cannot be given to the shoes that children wear. A shoe that is too short will make a crippled foot. A medium heel is better than the flat spring heel, and assists the child to walk well. Mothers are more sensible about the children's foot-gear than they used to be, and it is seldom, nowadays, that a child is seen who is not comfortably and sensibly shod.

The simple low-neck waist with armlets, to wear over a silk or muslin gimp, still remains in favor, and even ginghams and linens are made in this way. Bashes are not as popular as big Watteau bows, with long ends. These are worn from the back of the waist or between the shoulders. The

OUTING SUIT.

half-high round neck, with a ruffle of lace, is suitable for summer dresses. The sleeves balloon to the elbow, where they are finished by a deep frill of the lace. Much of the beauty and design of the dress must be decided by the style of the child, the manner of wearing the hair and the age. There are mothers who send their children to school with the hair braided tightly in two pig-tails. When the little one goes to a party the braids are combed out into full fluffy tresses, and with the bang form a new and picturesque coiffure. I recently saw two little girls—the daughters of a well-known opera singer—whose appearance at an evening party was the signal for a murmur of admiration. They looked as if they had just stepped out of picture frames. Yet they only wore simple little white silk gowns without lace or jewelry, made as I have described in the half-low round neck and baloon sleeves. But the bangs were so picturesque they needed no other adornment, and the half-long, wavy hair that hung in tendrils over their pretty shoulders supplied the lack of jewels most adequately.

Hats for children show many pretty styles this season in the universal combination of colors, such as dark blue and brown, red and yellow or blue and black. These are mostly for school or every-day hats, the fancy lace straws being made up with soft silk crowns for dress occasions. For the little tots there are shirred bonnets with capes, and a full ruching of lace under the brim. Large hats trimmed with roses or small field flowers will be worn when warmer. The shapes of the new pointed crown hats are much liked by the children.

For outside garments there are short cloaks made full into a yoke and the always serviceable blazers, and a cloth outing jacket that is loose and easy fitting. These are made in blue or brown serge, and stitched with colors that match the dress.

Very pretty guimps are made for children now with broad ruffles of lace fulled on the edge of the collar. The hems of dresses are also finished with a fall of lace over them like a flounce, but unless it is a simple wash lace I would not advise mothers to trim their children's dresses with lace. The cheap article so soon looks draggy and disneat, and the expensive kind is neither childlike nor suitable.

The outing suit in the illustration can be made either in the narrow-lined colored flannels bordered with a plain serge of contrasting color, or in two shades of serge. Dark blue cap with visor. Outing shoes.

The child's dress in bronze Tintoretto is made in the Vandyke style with full puffed sleeves and broad waistband over yoke of white silk and embroidery. It has the long skirt so attractive for girls of four years.

The blouse dress is one of the most ser

viceable as well as the prettiest of children's styles. It is made in dull green cashmere with turnover ruffle, embroidered in colored lines, which are continued on the skirt and sleeves and around the neck.

EXTENSIVE CHANGES IN THOMAS KELLY'S DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Resolution of Condolence.

The town council held a special session on Saturday afternoon at which the following resolution was passed: Moved by Councillor Cahill, seconded by Councillor Donnistoun,

That whereas the Almighty has permitted the hand of death to rest upon the form of one whose departure, by reason of the nobility of his character and true worth, has awakened in our midst a feeling of universal regret,

And whereas the municipal corporation of the town of Peterborough in council assembled for the purpose, is desirous of paying its tribute to the memory of the late George Hilliard, Esq., ex-M.P., who for nearly half a century has been a resident of the town, and who as a citizen and legislator did his utmost to promote its prosperity and best interests, enjoying in return the confidence of the public in the highest degree, his walk and conversation in life being such as to command itself to all.

Therefore, be it resolved that, as an evidence of our appreciation of the services which he rendered to the town, and as a mark of respect to his memory, this council do attend his funeral in a body, and that the mayor and clerk sign this resolution and forward a copy to the widow and family of the deceased, with the assurance that they have, in their bereavement, the deep sympathy of this council and the community at large.

A Lively Chase.

On Saturday evening shortly before eight o'clock as Officer McGinty was on his beat on Hunter street he noticed a drunk ahead of him who was acting in a disorderly manner. The drunk also noticed the minion of the law and started up the street at a smart gait. He turned on to Water street and put to his heels at lively rate. Constable McGinty noticed the move and gave chase. A large crowd congregated and eagerly watched the pursuit. The pursued was soon captured by the pursuer and locked up. At the police court this morning the man, whose name was Jas. Buckley, was brought before Mayor Kendry on the bench, charged with being drunk and disorderly. At his own request the mayor gave the prisoner five minutes to get out of town. Buckley was only liberated from the county goal on Saturday, where he had just completed serving a term of three months for vagrancy.

Somebody Suffers.

Yes, somebody suffers when those great bake-em-away-for-nothing sales are announced, but it isn't the promoters, it is the confiding public who are eventually the sufferers. The goods *look* all right, but wear them, and how soon you will be surprised when they fall to pieces. Our reputation for selling reliable, trusty, serviceable shoes is quite sufficient to draw people to our store. It wouldn't do for a house of established reputation to indulge in sensational half-off, below cost, give-away sales. There's a moral to all this. Buy the best at Kidd's the bottom, and pay a reasonable price, and no more, and in the long run you will come off the winner. Kidd not only claims, but does sell the best of summer foot wear at the lowest living profit, at 376 George street.

News Nuggets.

—The new G. T. R. time-table goes into effect to day over the entire Grand Trunk system.

—The Lindsay Collegiate Institute Baseball Club will play the Peterborough Baseball Club here on July 2nd.

—The Lennox Reform Association will select a candidate to contest that constituency for the Local House on Tuesday, Dec. 6th next.

—The Town Council will hold a regular meeting on Monday night next. The Finance Committee will meet on Wednesday night.

—Preparations for the erection of a handsome brick residence for Mr. C B Bentley on Stewart street, opposite Mr. K. G. Loch's, are under way.

—The employees of the Wm. Hamilton Manufacturing Co., were photographed on Saturday morning by Mr. P. H. Green, photographer.

—The town council will meet on Wednesday night in committee of the whole to discuss the proposition of the town purchasing the waterworks system.

—The Grand Lodge of Independent Order of Good Templars meet in Guelph to-morrow. Mr. Geo. J. Ely, Grand Marshal, has left to day as a delegate from Peterborough.

—A few nights ago a Mrs. Corkey, of Barriefield, near Kingston, hid $30 in the stove, fearing burglars. In the morning the $30 helped to light the fire for breakfast.

—The Ashburnham school board will meet to morrow night. It is probable that owing to the increased attendance another teacher will be added to the staff of the public school.

—The High and Public schools closed on Friday for the long midsummer holidays. To-morrow the entrance examinations for High Schools and Collegiate Institutes begin and will continue three days.

—The Belleville *Ontario* says:—Alderman Luscombe this week has been engaged at the rifle range in building a marker's manitet. In front of the railway track a fence has been erected sixteen feet high. The soldiers have commenced practising.

—A lacrosse club was organized in Bramville this week with the following officers:—Honorary pres., Mr. P Furlong; pres; Mr. J. J. Gourlay; 1st vice-pres., Mr. B Hartney; 2nd vice pres., Mr. C. Reeves; secretary, Mr. J. Nicol.

—The 57th Battalion will have a march out to morrow night headed by both the bugle and drum and the battalion bands. The ambulance corps and pioneer corps will also make their first appearance. A large turnout of the boys is requested.

—Messrs. Sam Foster and Jack King with their "Rudges" yesterday covered the distance between White's Hotel, Charlotte street, Peterborough, and the St. Lawrence Hall, Port Hope, between the hours of 5 40 and 8 30 a.m. The distance is thirty miles. Home was reached at 5.30 p.m.

—The excellent paper which was read by Mr. Fred Heap, M. A., classical master of the Peterborough Collegiate Institute, before the classical section of the Provincial Teachers' Convention on "Aims and Methods of Teaching Elementary Latin," appears in the *Canada Educational Monthly*.

—Saturday afternoon Mr. J. Ernest Hodgson, an employee in the Fitzgerald Carriage Works, had the misfortune to have the sharp end of a file driven almost completely through his left hand. The wound was promptly attended to, and Mr. Hodgson will be compelled to take a three weeks' vacation.

—The annual match at cricket came off on Saturday between the Trinity College School boys, Port Hope, and the Upper Canada College boys; the Trinities beat their opponents in a two innings match by six wickets. Mr. David Rogers, son of Lieut.-Col. H C. Rogers, is the captain of the winning team.

—The Kingston *Whig* says:—The local lacrosse team is practising hard in anticipation of their game with the Canadians of Toronto, on July 1st. As the Canadians are champions in the Toronto league the boys here expect a hard fight and will exert every effort to gain for themselves a reputation of which they may be proud.

—The Kingston *Whig* says:—Word was received from the Port Hope lacrosse club this morning asking for a game with the local team to occur at Belleville about the first of the month. The club suggests that each club pay their own expenses and the gate receipt be equally divided. As this is a fair offer a match will doubtless be arranged. Why not accept Peterborough's challenge on the same condition, Kingston. Are you afraid?

—The Lindsay *Post* says:—Much adverse comment is heard among steamboat men relative to the slowness with which the repairs to the locks at Bobcaygeon are progressing, and the superintendent is blamed for not employing more men and using expedition. Neglect to rebuild the lighthouse at the mouth of the river is also a sore grievance. At present a lopped-off tree, wedged firmly among the stones of the old pier, serves to hold the lantern that guides the Eturion, with her Saturday night load of Sturgeon Point residents, through one of the most dangerous parts of the river.

A Pointer for Ferry.

To the Editor of the Examiner:

Dear Sir,—In reference to the challenge of C. H. Ferry, of Toronto, which appeared in a recent issue of the Examiner, desiring to meet some of the Peterborough sprinters, let me say this: I expect to take part in the games at Meaford on the 1st of July, and do not intend to be in Peterborough. But if none of the Peterborough runners will accommodate him, I am willing to meet him for a half-mile, for $25 a side, on the 25th of July, or I will run him a ten-mile race. Hoping Mr. Ferry will put up his forfeit, which will be promptly covered, I remain,

Yours truly,

M. Bird.

Rev. Jas. Thom, B.A., pastor of the Mark street Methodist church, and Rev. Jos. H. Locke, pastor of the George street church, exchanged pulpits last evening.

The George street Methodist church Sunday school will hold their annual picnic to Chemong Park on July 8th. A pleasant time and a large turnout are anticipated.

Communion service was held in St. Paul's Presbyterian church yesterday morning. The number of communicants was unusually large. The pastor, Rev. Mr. Torrance, presided and preached an appropriate sermon.

At the evening service in the Charlotte street Methodist church the singing of the choir was particularly attractive. The anthem was well rendered, the chorus being full and the different parts well blended the most attractive parts, however, were the solo by Mr. Davis and the duet by Mrs Clyde Green and Miss Fawcett, both of which showed excellent taste and vocal finish. Mr. Squires who sang a short tenor solo did well and bids fair to be a genuine tenor soloist. At collection time Mrs. Clyde Green and Mr. Davis sang "In the Cross." From the first words uttered they seemed to catch the audience which listened in rapt attention throughout the entire piece. Charlotte street church is certainly to be congratulated on having so excellent a choir.

Yesterday was Floral Sabbath in St. Andrew's church. The children of the Sunday school, by classes, accompanied by their respective teachers, marched into the church and occupied the middle range of seats. Each child wore a beautiful *boutonniere* while it carried a bouquet in its hand which was deposited on tables on the platform. There was a perfect mound of flowers, the aroma of which filled the beautiful church. The pastor, the Rev. A. MacWilliams, took for his text 1st Samuel II., 10: "But Samuel ministered before the Lord, being a child, girded with a linen ephod." His topic was "The Child Minister." The sermon was eloquent and racy, holding the attention of the scholars throughout. The description given of the child minister in the tabernacle will not soon be forgotten by any present. Such occasions must be productive of much good. The flowers will be taken to-day to the hospital, Barnardo Home, and Protestant Home.

His Farewell Words.

Mr. R. J. Colville, Secretary of the Y M C A., Delivered His Farewell Address Last Night.

The Young Men's Christian Association Hall was crowded to its very doors last night by an immense audience anxious to hear the farewell words of Mr. R. J Colville, for the past three years the energetic and efficient general secretary of the Peterborough Y. M. C. A. before his removal to accept the secretaryship of the West End Y. M. C. A. of Toronto.

After devotional exercises, Mr. Colville read as the scripture lesson of the evening the second chapter of first Corinthians. He said he could not help entering into the spirit of the Apostle Paul's words on the present occasion. Paul's experience was his experience. It was hard for him to break away from Toronto when he came here, and it was only at the urgent solicitation of the Board of Directors, who had put the matter fairly and squarely before him, and impressed upon him the necessity and importance of the work here that led induced him to forsake his work and old associations in Toronto where there was a wide field for usefulness and a large area for work and but few labourers for the cause of Christ. He came because he believed it was the call of his Master and he had seen the cause prosper since coming here. He came because the Holy Spirit in answer to prayer was calling him. He thanked God that the dark cloud that had hung so long over the association in Peterborough had been removed.

The Almighty had gone before them and opened up the way. It was painful to hear the young coming to him day by day and saying "Mr. Colville, you are making a mistake in going. The work in Peterborough is just as urgent as in West Toronto." Far better for the cause of God, if they were

LOOKING UPON ANY HUMAN LEADER,

that he should be removed. In that case he was better out of the way. It was hard to break away but in this world we had to make many sacrifices, we had to realize more and more what Christ says, "This is the way; walk ye in it." The speaker said that he sincerely believed that he had been called of God to the work in West Toronto. He needed the prayers of all, as he realized more and more the word of God coming to him. If the marching orders came from headquarters they were correct. In the words, "All things are possible to him that believeth," he saw it was God's will. He was going forth by faith and not by sight. The work in Toronto was much more pressing than the work in the town of Peterborough. In that city out of the thousands upon thousands of young men the Y M C A. had only about 2,000 young men identified with them in any way. The harvest was white. It was hard to say good bye to those who had been so kind and sympathetic to him during his three years stay in Peterborough, which he would look back upon as a green spot in his memory.

The speaker closed his address by asking kindness, consideration and help for his successor, whoever he might be, and asking the young men who had so nobly stood by him, to co-operate with the new secretary in labour and work. He admonished all the young men not to neglect the work and the services of the week, but to press on more determined than ever and God would give them the victory.

"Shall we meet beyond the river" and "God be with you till we meet again" were sung, after which a large number shook hands with Mr. Colville who leaves on Friday morning next to assume his new duties in Toronto, wishing him success and "A God bless you."

What Shall the Man eat?

Why! What can it be but suffering and sorrow, disease and death, if you neglect the symptoms of a disordered liver? Take Dr. Pierce's Golden Medical Discovery. It outsells all other remedies. Sold under condition that it must either benefit or cure the patient, or the money paid for it will be promptly returned. It cures all diseases arising from deranged liver, or from impure blood, as biliousness, liver complaint, all skin and scalp diseases, salt-rheum, tetter, scrofulous sores and swellings, fever-sores, hip-joint disease and kindred ailments.

An Edisonian Outing.

The Edison Amateur Athletic Club Entertains a Host of Guests at Chemong—Their First Annual Picnic a Great Success.

The first annual picnic of the Edison Amateur Athletic Club to Chemong Park, Saturday afternoon was the largest that has left Peterborough this year. About 400 people were aboard the special train which left the G.T.R. station at 1.30 and these together with those who drove out made an attendance of over 500. Arriving at the Park the pleasure proceeded to enjoy themselves right heartily. On the southern portion of the grounds a baseball match was played between the married and single men of the Works. The single men would have been victorious by a score of 3 to 2 had they stayed and finished the game, but the sounds of sweet music drifting over from the dancing pavilion proved too much for them, and soon there were none of them left, so the umpire awarded the game to the married men, 9 to 0. Under the beautiful shade of the trees in the middle of the grounds the 57th Band rendered an excellent programme which was greatly enjoyed by all.

Dancing was indulged in on the pavilion by young and old. The music which was supplied by Mr. J. Belcher's orchestra of 6 pieces was first class in every respect. At 8 o'clock sharp the boat steamed away from the park bringing back one of the best satisfied parties that ever left Peterborough for a day of delight and pleasure.

NOTES.

The big flag of the "Edison" Works flew from the mast head of the steamer "Maple Leaf," which took the excursion from the railway to the park.

"The most orderly picnic"—was the remark of every one present.

The committee were here, there, and everywhere looking after the party's interests and comfort, and they did their work well.

The park [illegible] was visited by scores and Mine Host Febart was untiring in his efforts to attend to all.

Is married life a failure? The Married Men's Base Ball Club say not.

Would it not be a good idea to have more band concerts in Chemong park?

Address and Presentation.

Mr. J. H. Ketcham Remembered by His Musical Pupils of the South Ward School.

On Saturday afternoon after the rehearsal of the cantata "Flora's Festival," which will be presented in the opera house on Tuesday evening next, June 28th. Mr. J. H. Ketcham, the conductor, was surprised and surrounded, and Miss Hilda Hodgson read the following address, while Miss May Armstrong made the accompanying presentation—a handsome silver and china dessert set.

Mr. J. H. Ketcham:

DEAR FRIEND AND TEACHER,—During the three years that you have been associated with us as musical instructor we have learned to love and respect you for your kindness, your gentility, and your ability as a teacher. The musical inspiration which you have given us cannot fail to call to our minds your genial countenance whenever we hear sounds of harmony; and we wish to give you a souvenir which will serve to keep us in your memory. We, therefore, ask your acceptance of this dessert set so that when you look upon it you may think of the pupils of the South Ward school. We assure you that your visits will be greatly missed, and we sincerely hope that you may long be spared to cultivate in others that divine talent of music, as you have cultivated it in us.

Signed on behalf of the pupils.
HILDA HODGSON,
MAY ARMSTRONG.

Peterborough, June 25th, 1892.

Mr. Ketcham though taken by surprise, made a very effective reply in the key of B grateful. He thanked them for their surprise, made as *affetuoso*; while his efforts had been of the "minor" manner their handsome recognition of his services was decidedly in the "major" mode. He hoped their "harmonic progression" through the chromatic scale of life would be marked by the fewest possible disagreeable "accidentals," and that when the grim "time" destroyer, death, stopped the metronome of life at the "double-bar," their *finale* would be peaceful and that their earthly songs would be transposed into the higher key of the heavenly choir.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. FARMING IN FOREIGN LANDS.

Notes and Comments of What Farmers are Doing the World Over.

There are 223 beet-sugar factories in European Russia.

A hop-picking machine has been invented in Australia.

New Zealand flax is being successfully grown on the Azores.

The cotton industry is attracting attention in Queensland.

One out of every seven land-owners in Great Britain is a woman.

In Kent, England, 30,000 people are engaged in hop-picking during the season.

In Germany, budding and grafting are taught in the national country schools.

Rust has done some damage to wheat in Tasmania, owing to wet weather.

Sixty American Merino sheep have recently been shipped, via London, to Sydney.

The export fruit trade of Jamaica increased from $250,000 in 1880 to $5,000,000 in 1890.

Tomato rot is successfully kept in check in India by the use of Bordeaux mixture.

Great Britain has 150,000 acres of orchard, an increase of 50,000 acres within 20 years.

In Manchooria, China, are large dog farms, the dogs being fed for the value of the skins.

In Mauritius there are over 250,000 Indians, most of whom are coolies working on the sugar estates.

Cape Colony possesses 1,500,000 head of cattle, 14,500,000 sheep, 5,200,000 goats, 300,000 horses, 65,000 mules and 150,000 ostriches.

Large and deep peat beds exist in the Falkland Islands. They are formed entirely of roots and stems of a species of crowberry.

The Victorian government proposes to adopt a system whereby all butter exported will bear a government brand on the packages.

Choice poultry is being imported into Natal, especially Light Brahmas, Indian and Pile game, Black Spanish and Silver Dorkings.

Exports of coal from New South Wales were valued at $6,596,455 in 1889, and at $4,935,865 in 1890. The decrease was due to the great strike.

A Ceylon tea grower has been investigating Southern California in regard to its adaptability for tea culture, and was favorably impressed.

In Newfoundland, the pine, spruce, birch, juniper, aspen, mountain ash and larch furnish plenty of timber for the lumber trade and for shipbuilding.

French makers of Gruyere cheese feel the competition from importations of the same grade of cheese manufactured in Canada and the United States.

The vineyards along the border between Victoria and New South Wales were badly frost-bitten, and the vintage of 1892 will be materially reduced.

The most important industries of Cape Colony are diamond and copper mining, wool growing and ostrich farming. Wool growing is the most important.

Malta is famous for its flowers, and its fauna is almost entirely European. The chief products are cotton, corn, oranges, melons, potatoes, figs and grapes.

Ceylon coffee used to bring the highest price in the London market, but a fungus ruined the coffee crops which are now superseded by tea plantations.

Agriculture occupies the attention of the bulk of the population in Cyprus, the chief products being grain, locust beans, sesame, cotton, olives, silk, fruit and wine.

Grass seed is a nuisance in parts of New South Wales. It is injurious to the mouths of horses and cattle, and has destroyed the first crop of lucern. The worse seed is that of the barley grass.

Impure blood is the cause of innumerable suffering. Hence one of the greatest benefactions to humanity was the discovery of Ayer's Sarsaparilla, which more than any other medicine, has saved America from becoming a nation of invalids.

The Best Known.

DEAR SIRS,—I can recommend Dr. Fowler's Extract of Wild Strawberry for summer complaint and diarrhœa. I have used it in my family for two years for children and adults with the greatest satisfaction.

GENTLEMEN,—I had a headache for a long time, and seeing Burdock Blood Bitters advertised, I got a bottle, and it not only relieved me at the time but I have not been sick since with headache and think I have seen the last of it. MRS. HICKS, Dunnville, Ont. dw

Birds vs. Insects.

In nature there is a general overruling law which is roughly stated in the common saying, "The weakest men go to the wall," the action of which is very self-evident to those who have given much attention to the study of birds and insects. It is only when man so modifies nature that the law does not have free action that the balance is destroyed, and evil results. Insects, as well as the birds, doubtless have their proper place to fill in the great scheme of creation, and, like many things else, when held within bounds are for the common good. "When the cat is away the mice will play." So when the birds are scarce the insects abound, sometimes to our discomfort, and even dismay. I do not wish here to make any plea for the protection of birds on the grounds of beauty of their form or coloring, or the sweetness of their songs, but upon the purely utilitarian basis of guardians of crops from the destructive workings of the various injurious insects. Some birds do not eat insects, but the list is small. Audubon has stated that a woodcock will eat its own weight of insects in a day. The common chipping sparrow destroys many a tent caterpillar moth. Birds have been constantly on the decrease, from the destruction of the forests and other more direct causes due to man, while, on the other hand, the insects have steadily increased. There seem to be an eternal hatred of birds born with some boys, which it is painful to see in its varied manifestations. The stoning of old birds, robbing their nests, and killing the young, is to be strongly condemned. Kindness to our feathered friends must come largely from home and school training. Parent and teacher can do much in this regard.—Dr. B. D. Halstead, in American Agriculturist.

An Economical Manger.

Horses that are bad about wasting their feed should have a manger arranged something like this one. With the manger boarded, as in Fig. 1, leaving just room enough for easy access to the feed, what grain is dropped the horse will find again. The upright boards should be nailed to the manger on its inner side. The guard will prevent waste. This consists of an 8 in. board nailed to the manger, as in Fig. 2 at A. It will catch anything that is thrown up under it, and feed dropped on it will roll back.

Wm. Renwick, M. D., M.R.C.S.E., Victoria, B.C., writes: "I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, have perfectly satisfied with its therapeutic efficacy. A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register*.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

"German Syrup"

Croup. We have selected two or three lines from letters freshly received from parents who have given German Syrup to their children in the emergencies of Croup. You will credit these, because they come from good, substantial people, happy in finding what so many families lack—a medicine containing no evil drug, which mother can administer with confidence to the little ones in their most critical hours, safe and sure that it will carry them through.

ED. L. WILLITS, of Alma, Neb. I give it to my children when troubled with Croup and never saw any preparation act like it. It is simply miraculous.

Mrs. JAS. W. KIRK, Daughters' College, Harrodsburg, Ky. I have depended upon it in attacks of Croup with my little daughter, and find it an invaluable remedy.

Fully one-half of our customers are mothers who use Boschee's German Syrup among their children. A medicine to be successful with the little folks must be a treatment for the sudden and terrible foes of childhood, wheezing cough, croup, diphtheria and the dangerous inflammations of delicate throats and lungs.

MURDERERS AT 12 YEARS OF AGE.

Two Boys Stand a Child on Its Head in the Mud, Where It Dies.

YORK, O., June 25.—Lenny James and a boy named Wooley of Milford Centre, each about 12 years of age, enticed 6-year-old George A. McDonald to a shallow pool and left him. He stuck there and died. He was found there later in the same position. The two boys were arrested and bound over for murder.

Will Be a Great Crop.

NEW YORK, June 25.—R. G. Dun & Co.'s weekly review of trade says: Another week has blessed the country with a great improvement in the growing crops. In wheat, so great a change of condition appears that men begin to question whether the yield this year will not probably approximate the unprecedented crop of 1891. For other grains and cotton the outlook is decidedly better, and there is reason now to hope for highly satisfactory results.

The Fireman's Body Recovered.

HILLHURST, Que., June 25.—The remains of the fireman of the wrecked passenger train, George Reid, were not recovered from the wreck until yesterday at 10 o'clock, three or four rods further down the stream than where the engine was lying. A large stone lay on top of him, and ties and other debris, floatwood, etc., were accumulated about his body, which was horribly mangled.

Bank Clerk's Body Found.

MONTREAL, June 25.—The body of Guy Simpson, the Canadian Bank of Commerce clerk of Montreal, who was drowned on Saturday last at Melbourne, has been found. It floated down the River St. Francis to Kingey, 10 miles below the place where the fatality occurred, and was picked up there to-day.

Chicago's New Lake Tunnel.

CHICAGO, June 25.—The great eight-foot water tunnel, extending four miles out under Lake Michigan at a depth of 30 feet, has been completed. It was begun over four years ago and has cost over $1,100,000. When connected with the waterworks pumps it will supply 130,000,000 gallons of water per day to the city, bringing the total available supply up to 300,000,000 gallons daily.

Shot His Eye Out.

ST. MARY'S, Ont., June 25.—Harvey Mowbray, the 16-year-old son of Squire Mowbray of Granton, with a comrade was on the G. T. R. bridge over the Thames River, and a couple of other boys were on the flats about 60 feet beneath amusing themselves shooting with a small rifle. A stray bullet struck the boy, destroying one of his eyes.

Attacked By a Ram.

FERGUS, Ont., June 25.—A little son of Mr. Robert Paddon of Arthur townline while playing along the road was attacked by a ram. The little fellow was knocked down and also attacked as he lay on the ground by the ram, and but for the appearance of a neighbor might have been killed. As it was his head was badly cut and his body severely bruised.

Mr. E. T. Bailey, Elkhorn, Man., writes: My daughter was sick for eleven months, she was as white as it was possible for any living person to be; was short of breath and had terrible pains and ringing noises in the head on the slightest exertion. Two boxes of Dr. Williams' Pink Pills thoroughly cured her. Unequalled for all diseases peculiar to females. All dealers, or by mail on receipt of 50 cents a box or six boxes for $2.50. Cure for A Consumption and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent. reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains.

Sheep Washing.

The old practice of washing sheep to clean out the accumulated dirt from their wool is going out of fashion. It was unhealthy alike for workman and for the sheep. The wool has always to be scoured after it goes from the farmer's hands; and the dirt taken out by washing on the sheep's back is the easiest got rid of in the scouring process. Where sheep take cold by being washed the quality of the wool is injured, as what is often cold is really a fever, making the skin heated and dry, and injuring whatever was from it.

How People Get Sick.

By eating too much and by eating too rapidly; by swallowing imperfectly masticated food; by gulping down too much liquid—especially cold fluids—at meal times; by drinking poisonous liquors containing alcohol; by keeping late hours at night; by sleeping late in the morning; by wearing clothing that is too tight; by wearing shoes that are too thin; by neglecting to wash the skin thoroughly and so to keep the pores in working order; by changing warm clothing worn in a warmed house for thin party costume in the evening; by compressing the stomach, and affecting a small waist; by keeping up a constant excitement; by borrowing trouble; by swallowing quack nostrums for every imaginary ill; by eating at irregular intervals; by living beyond one's means, and above every other thing, by a too careful watching for symptoms in one's own precious self.

Starch for Lawns.

Gum arabic starch for lawns is made as follows: Take two ounces of fine white gum arabic and pound it to a powder; next put it into a pitcher and pour on it a pint or more of boiling water, according to the degree of strength you require, and then, having covered it, let it stand all night. In the morning pour it carefully from the dregs into a clean bottle; cork and keep it for use. A tablespoonful of gum water stirred into a pint of starch that has been made in the usual manner will give to lawn (either white or printed) a look of newness to which nothing else can restore them after washing.

A Laundry Wrinkle.

If you wish your white clothes to look clear and pure white, always have ready a kettle of boiling water and scald them thoroughly before putting them in the last rinse water. Clothes if washed ever so clean will look dingy if soapy water is allowed to dry into them. Scalding removes the suds. Prints should be washed out a piece at a time in hot water, rinsed well, and hung (in a shady, breezy place) immediately upon the line. But few colors will bear washing in hot soapsuds.

GLADSTONE'S NEW IRISH HOME RULE MEASURE.

A Coventry Meeting Disorderly Beyond All Precedent—Chamberlain Called "Turncoat" and "Traitor"—Stanley Receives a Rough Reception from the Costermongers of North Lambeth.

LONDON, June 27.—In a letter sent to the Dublin Ulstermen's convention, Prof. Tyndall denounces the "evil genius of Gladstone" and blames the "arch-doctrinaire Morley for first planting the microbe of repeal in the brain of his venerable friend." Morley, the professor adds, was once a man of elevated mind; now he is degraded to the level of a professional politician.

Prof. Tyndall predicts that the first Loyalist blood shed in Ulster for the sake of Archbishop Walsh and Timothy Healy will rouse a feeling that will sweep Gladstone's Irish policy to perdition.

The total number of candidates who will stand in the elections is 1560. Nearly all the 670 seats in the House will be contested. A few Catholic candidates will stand in England. There will be only 10 Jewish candidates, of which number four are Liberals, four Conservatives and two Liberal-Unionists.

JOE'S WARM RECEPTION.

People Not So Quiet There As in Lady Godiva's Time.

LONDON, June 27.—Mr. Joseph Chamberlain, while addressing a meeting at Coventry, was received with cries of "Three cheers for Gladstone!"

He tried in vain to speak, for the Radicals, who had packed the back of the hall, drowned his voice with their hooting and jeering.

Several fights ensued, and the police had to be called in to restore order.

Mr. Chamberlain was then given a hearing for about five minutes. A statement to the effect that Gladstonians had no monopoly of Liberalism was answered with cries of "Turncoat!" and "Traitor!" and in an instant the meeting was again in an uproar.

Somebody threw a cabbage head. It did not reach the platform, but fell in the crowd just in front of the speaker.

After two hours' pandemonium Mr. Chamberlain left the platform, completely exhausted, and he was assisted, half fainting, to his carriage.

HOTTER THAN AFRICA.

Stanley Africanus Howled Down in Darkest North Lambeth.

LONDON, June 27.—Henry M. Stanley's first effort to capture the suffrages of the costermongers in North Lambeth was a failure.

When he was introduced there was a roar of laughter, mingled with yells. For the first ten minutes he was able to make himself heard, although he was interrupted constantly with coarse remarks.

For a short time Mr. Stanley maintained his complacency; then he became embarrassed and showed symptoms of losing his temper. He stopped talking and glared fiercely at the mob.

Mrs. Stanley burst into tears, twice rose to her feet and then sank into her seat.

Before Mr. Stanley could resume his speech his wife sprang to her feet and cried:

"When all of you and I are dead and forgotten the name of Stanley will live, revered and loved."

Her words were followed by a burst of laughter and cries of "Shame!"

IRISH HOME RULE.

Some of the Provisions of the New Gladstonian Measure.

LONDON, June 27.—The leading features of the Home Rule measure of 1886 are retained in Mr. Gladstone's new Home Rule Bill with the following exceptions: Clause 4, restricting the powers of the Irish Legislature, is enlarged by further defining the limitation of the powers of the legislature to interfere with the endowment of religion or to impose disability or confer privilege on account of religious belief. Further guarantees relating to denominational education are provided. Next, the constitution of the legislative body will be modified by raising the number of members of the first order in the upper house, who, as in the first bill, shall hold office for 10 years.

The much disputed clause 24, removing the Irish peers from the House of Lords and the Irish members from the House of Commons, disappears in the new bill, the representation of Ireland in the Imperial Parliament remaining the same as at present to meet the threatened active refusal or passive resistance of the Ulsterites to the Irish Parliament by the non-payment of taxes.

To Enforce Payment of Taxes.

Sub-section 4 of clause 19 of the bill of 1886 is to be extended so as to ensure employment of the police and military forces to enforce the payment of all taxes leviable by the Irish Parliament.

Another alteration relates to disputes arising between the Irish Legislature and the Imperial Parliament.

Apart from these modifications the measure of 1886 remains intact.

Churchill's Election Address.

LONDON, June 27.—Lord Randolph Churchill has issued an election address to his constituents. He says he still believes that it is impossible to put Home Rule Rule into a bill, and that if Mr Gladstone obtains even so great a majority he will be doomed to political impotence and sterility as long as he exhausts his energies in trying to solve what is insoluble. The Unionists, adds Lord Randolph, have a clearer record of work and action than any party he has known or read of in modern times.

Inoculation Experiments.

The Agricultural Department has been experimenting with the inoculation of swine as a preventative of cholera. The results show that inoculation is unsafe, causing the spread of the disease instead of preventing it. In Nebraska the losses from inoculation were 10 per cent., while the losses among uninoculated animals was only 4 per cent.

THE WESTERN LEAGUE MUST PAY UP.

The National League Gives It Until July 1 to Settle.

LOUISVILLE, Ky., June 27.—The recent meeting of the National Baseball League in New York was for the purpose of considering the condition of the Western League. The minor organization is in arrears for dues and it has been given until July 1 to pay. Unless it does so it will probably be forced out of existence.

Eleven Were Killed.

HARRISBURG, Pa., June 27.—The total number of victims by the wreck of the western express on the Pennsylvania Railroad Monday morning is 11. In addition, about 20 were more or less injured. The story of the accident is brief. The first section stopped within a few hundred yards of the Union Station, and was just starting when the second section, a heavy train, made up of Pullman sleepers and one express and baggage car combined, plunged into the handsome private car of Westinghouse and drove it forward, crushing the three day coaches ahead into kindling wood in the twinkling of an eye. Not a single member of the Westinghouse party was scratched. In the day coaches the awful carnage was taking place. Many passengers were half asleep, and were awakened by the horrible crashing and grinding of the timbers, the breaking of glass and the hissing of escaping steam, while others never knew the fate which overtook them.

H. S. Hayes, the telegraph operator at the Steelton tower, admitted before the coroner's inquest this afternoon that he was responsible for the wreck, having given Engineer Kelly the white signal to go on, without first having been notified that the block was clear. Hayes, who is a young man of 22, was arrested to-night on a charge of manslaughter.

Death Through Fireworks.

BUFFALO, June 27.—Frank Donohue opened his bank, took out what money he had saved and bought some fireworks. On the way home he set off a firecracker, and a spark dropped into his pocket, where the rest of them were. In less time than it takes to tell it the boy's clothing was a sheet of flame, and before any assistance arrived he was so frightfully burned that he died in an hour.

Mr. Blake Sets Sail.

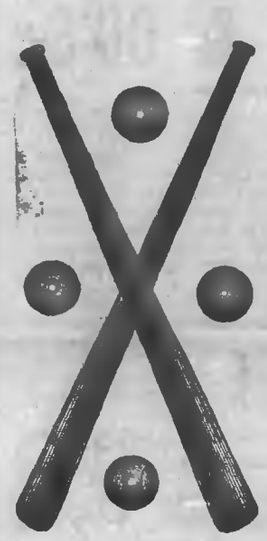
Be sure you find the right place and then you may be sure you will get the right goods at the right price. One thing you will not find in our store is old goods. Everything is made in our own factory, out by hand in the very newest style and made up equal to any custom work turned out in the Town of Peterborough. It is nothing new for us to hear a man say, this is the first time I ever bought a suit ready-made, but it will not be the last, as long as Grafton & Co. are in Peterborough.

WE HAVE THE NICE, NEAT, NEW STYLISH GOODS!

And are bound to do the trade. We did not rush into Peterborough without letting the people know from whence we came. We are an old established firm in Dundas, where the firm has been running for forty years and had the experience of years before some of the dealers of the present were in existence, or at least were just learning the first lesson in the English language necessary to start through this weary world. There are three branches of this firm—Dundas, Owen Sound and Peterborough. In each of these places

WE LEAD IN CLOTHING

And intend to keep the lead, by doing things on the square, up and up plan. This is the principle we work on. Come and see for yourselves. Don't be afraid to come and look at the goods, you will go away more than surprised to see such good goods for such little money.



HERE ARE A FEW PRICES:

See our 35c. and 50c. Overalls; cannot be bought wholesale for the money.

See our Men's Pants, 95c., $1.25, $1.50, $1.75, $2 and up; these we sell to other dealers at these prices

See our Men's Suits—You who have seen them need no price quotations, you who have not seen them come and be convinced; you will never regret it.

In Boys' and Youths' Clothing we take the lead—we always have and always will. Why not have the boys fitted out in first-class style when you can do it so cheaply.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 5,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6¼c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

WELL KNOWN IN CANADA

THE LONDON SLAUGHTERER OF WOMEN.

Positive Proof That Neill, the Prisoner, and Dr. Cream of London, Kingston, Hamilton and Montreal Are One and the Same Person—The Supposed Fiend's History.

MONTREAL, June 28.—Absolute proof has been discovered that Thomas Neal, now in London charged with poisoning Matilda Cleevy, is Dr. Thomas Neill Cream, a native of Quebec City, who was graduated from McGill College in Montreal and who was sentenced to a life term in state's prison for abortion.

Thomas Neill Cream, although he has lived the most of his life on the American continent, was born, so the registor of McGill College says, in Glasgow, Scotland, on May 27, 1850. While still a young lad his parents emigrated to Canada and settled in the ancient city of Quebec, where old Mr. Cream managed to accumulate a comfortable competency. Young Cream first worked in the ship-building trade as a carpenter. As he showed considerable natural ability his father decided on sending him to Montreal to study at McGill College for the profession of medicine. Cream went through his chosen course. It was in 1872 when Cream entered college. In 1876 he graduated and was a full-fledged M.D.

Cream at Kingston.

Cream's criminal career commenced immediately after leaving the university. Beginning the practice of medicine in Kingston, it was not long before whispers were in circulation regarding certain unprofessional practices that were strongly suspected on the part of the young M.D. Rumor was made a certainty when one morning the dead body of a young woman was found lying in a shed in the rear of Cream's office. The authorities took the matter up, and the coroner's post mortem examination proved beyond a doubt that the woman had perished from the effects of a criminal operation. Suspicion pointed strongly to Cream as the person who had performed the operation, but the evidence was not considered conclusive enough to warrant the arrest of the suspected physician. However, public feeling was so stirred up against Dr. Cream that he lost his entire practice and was compelled to leave Kingston.

He then took up his residence in Hamilton, Ont. Here again his illegal practices got him into trouble. Shortly after Cream's arrival in Hamilton another woman was found dead from malpractice, and this time the evidence pointed so directly towards Cream that he was arrested and put on trial for the murder of the woman. The testimony was insufficient to convict him, however, but Cream, disgusted with Canada, emigrated and made Chicago his home.

Sentenced For Life.

This was in the latter part of 1877. Cream was evidently a confirmed abortionist. The next time, however, he was captured at his work. A considerable sensation was caused in Chicago in 1878 by the death from malpractice of a Chicago lady. Cream was arrested, charged with the crime and in this instance the facts were brought directly home to him. The testimony of the maidservant, a negress, who saw the operation performed, convicted Cream and his career was brought to an end by his being sentenced to imprisonment for life in the Illinois Prison at Joliet.

Cream served 13 years of his sentence, when he received a pardon on account of his ill-health. When Cream entered the outer world once more he found himself the possessor of a comfortable fortune. During his imprisonment his father had died. A clause of his father's will, in which Dr. Cream was left a legacy, was as follows:

"I hereby bequeath to my son, Thomas Neill Cream, the sum of $16,000 in the stock of the Merchants' Bank of Canada for his own use should he ever regain his rights of citizenship."

He Leaves For England.

After leaving the prison Cream went to the Old Country, and it was then apparently that under the name of Thomas Neill he met Miss Sabittini, who is one of the most important witnesses in the inquest now being held in London into the death of Matilda Cleevy. In March last Cream again visited his old home in Quebec city, and came from there to Montreal, where he realized on his stock in the Marchants' Bank.

The identity of Thomas Neill, now under arrest in London for poisoning Matilda Cleevy, with Dr. Thomas Neill Cream, is conclusively proved by a series of letters now in possession of D. Battersby, general railroad and steamboat ticket agent, Montreal. Mr. Battersby has a number of letters signed by Thomas N. Cream, asking for rates from New York to Glasgow to Liverpool.

Returns For a Legacy.

The letters were signed Thomas N. Cream, M. D., Blanchard Hotel, Quebec City. It will be remembered that after Neill had made his arrangements for the wedding with Miss Sabittini in London he left her instructions to address all his letters: "Dr. Cream, care Blanchard's Hotel, Quebec.

Dr. Cream was at the Albion Hotel, Montreal, on March 19 last, and from there wrote again to Mr. Battersby stating that he had purchased a ticket on the steamship Britannic; that he expected a parcel in Montreal and asking Mr. Battersby to forward it to Liverpool by the steamship Labrador. When the parcel came Mrs. Battersby opened it. It contained a number of printed circulars, of which the following is a copy:

ELLEN DONWORTH'S DEATH.

To the guests of the Metropole Hotel:

LADIES AND GENTLEMEN,—I hereby notify you that the person who poisoned Ellen Donworth on the 13th day of last October is today in the employ of the Metropole Hotel and that your lives are in danger as long as you remain in this hotel. Yours respectfully, W. H. MURRAY.

London, April 18, 1892.

The blackmailing letters that Miss Sabittini wrote, she testified, were signed by "W. H. Murray."

Mr. Battersby forwarded the parcel of circulars to Cream and received a letter, signed Thomas N. Cream, acknowledging the receipt of the parcel and thanking Mr. Battersby. This would seem to connect Neal and Cream in an unmistakable manner. It is another coincidence, however, that Miss Rachael Cream, sister of Dr. Cream, sailed from Quebec for Liverpool on June 15 on the steamship Lake Superior. It is, therefore, evident that Miss Cream has been in communication with her brother and has crossed the Atlantic to render him what assistance she can.

DOMINION PARLIAMENT.

THE SUPPLEMENTARY ESTIMATES BROUGHT DOWN.

$100,000 Voted to the World's Fair and $10,000 for a Monument to Sir John Macdonald—Other Items of Interest to Ontarioans.

OTTAWA, June 28.—At the entrance door of the lobby of the House of Commons there was yesterday hung a card bearing the following legend: "Members will please leave the keys of their desks and wardrobes before leaving for home."

The request is somewhat vague and indefinite, as it makes no mention of where the keys are to be left; but the intention is good, and the hanging out of this notice is an infallible sign of the near approach of the close of the session. Indeed Sir John Thompson said in reply to a question in the House to-day that he expected that prorogation would take place about the end of next week, and the exact date generally fixed on is July 8. This will make the session nineteen weeks and two days, placing it well up amongst the long sessions.

OTTAWA, June 28.—The supplementary estimates for the year ending June 30, 1893, were laid on the table to-day. They amount to $2,237,237.91, and are divided as follows: Chargeable to capital, $719,231; chargeable to income, $1,401,026.91; chargeable to territorial accounts, $4530.

Among the items interesting to Toronto and Ontario are the following: Petrolea, public building, to complete, $7500; Orillia, public building, $7000; Peterboro, Custom House, $4000; Trenton, harbor dredging, $3000; Belleville, harbor, $3000; Toronto, harbor works, $73,000; Owen Sound, dredging, $15,000; Port Arthur, repairs to North pier, $8000; Goderich, harbor dredging, $18,000; Rainy River improvements, $2200; River Beaudet, clearing channel, $5000; Port Rowan, wharf, $6000; Midland, harbor dredging, $2500; Penetang, dredging, $2500; Port Arthur, dredging, $5000.

Amongst the votes of general interest are the following:

Salary for a chief clerk in the Department of the Interior, $2800; to reimburse six temporary clerks for pay forfeited during the time they served under arms with the militia during the Hull riots September last, $14; to pay the widow of the late Alexander Mackenzie the amount of his sessional indemnity, $1000; expenditure for stationery and leather trunks for new members and to pay extra clerks, etc., $6199; World's Columbian Exhibition, Chicago, $100,000; further amount required for drill pay of militia, $6000. Trent Valley Canal towards building and maintaining a swing bridge at Fenelon Falls, $40,000; Esquimalt graving dock, balance due contractors (Larkin, Connelly & Co.), $4827; monument to the late Sir John A. Macdonald, $10,000; mail service between Canada and Liverpool by Allan Line, fiscal year '92-'93, $126,533; expenses in connection with Behring Sea matter $60,000, also $1000 to meet expense in connection with collecting supplementary data respecting fur seals in the North Pacific Ocean and Behring Sea during year ended June 30, 1892, and $1000 for same purpose for year ending June 30, 1893; to pay expenses re inquiry made by Judge Kingsmill into Dr. Sproh's charges in connection with supplies for steamer Bayfield, Georgian Bay survey, $250; to refund amount received from sundry persons by the Department of the Interior for licenses to cut timber in disputed territory, $34,225; commission on the liquor traffic $5000; to provide for expense of survey of Bed Straits between Capes Tormentine and Traverse, $12,900 (this is our old friend the Prince Edward Island tunnel again); Government of the Northwest Territories, $250,600; under "Collection of Revenues, Customs," appears this item: To pay in full the claim of Messrs. Yates and Startford of Brantford, Ont., for refund of customs duty exacted from them on oak lumber imported for car building, which, by decision of the Exchequer Court, was ruled to be free of duty, under the provisions of the tariffs in force from 1879 to 1884, both inclusive, $14,978.03.

OTTAWA, June 28.—Good progress has been made at all three sittings of the House yesterday.

Sir John Thompson announced at the morning session that it was intended to sit on Saturday so as to get through concurrence.

Hon. Mr. Costigan said in reply to Mr. Featherston that instructions had been sent to Inspectors of Inland Revenue to have milk cans inspected.

The act to amend the Patent Act was read a third time, and the act extending the time for volunteers who served in 1885 to file their claims for land was read a second time and passed through committee.

The House then went into committee on the Criminal code, and passed a number of clauses up to 1 o'clock.

At the afternoon session Sir John Thompson said that the railway subsidies would be brought down to-day, and that they would not be large.

The whole evening has been taken up with supply, and the House will probably sit late.

DIXON THE WINNER.

The Nova Scotia Colored Boy Wins in the Fourteenth Round.

NEW YORK, June 28.—The fight for the featherweight championship of the world between George Dixon of Boston and "Fred" Johnson of England took place in the Coney Island Athletic Club last night. Both men were in good condition and weighed in at 117 pounds at 3 o'clock this afternoon. Of the two Dixon looked the better and was the favorite in the betting.

The colored man had the best of the battle from the start and in the 14th round knocked his antagonist clean over the ropes, winning the battle.

Dixon forced the fighting from the start, punished Johnston terribly in the first round, and it looked as if the latter would be knocked out, but the sounding of the gong saved him.

His Foot Cut Off.

CAMPBELLFORD, Ont., June 28.—Thomas Parry, one of Rathbun's clerks, had his foot taken off last evening at Fenelon Falls by a train.

BLOODY END OF A FEUD.

Rival Potrero Politicians in San Francisco Fight a Lively Duel.

SAN FRANCISCO, Cal., June 28.—A long standing feud, having its origin in local politics, between the Welch and McManus families of Potrero, this city, culminated at noon yesterday in an encounter, in which Jack Welch shot and seriously wounded Cornelius McManus, and was himself fatally stabbed in the abdomen by the latter. Both men are now in the receiving hospital at the point of death, and Frank McManus, who is a brother of Cornelius, and known as the "King of Potrero," is in the custody of the police.

The cause of the affair was the part that Welch took yesterday in securing a warrant for the arrest of Frank McManus upon a charge of forgery. McManus has since been looking for Welsh. The latter, accompanied by Michael Curran, formerly a police court bailiff, were entering their cart after leaving a saloon on Third-street, when the McManuses rushed upon them.

Accounts differ as to who struck the first blow, but it is stated that Welch tried to drive on when Cornelius McManus pulled him from the cart, at the same time plunging a pocket knife into his abdomen. Welch fell to the pavement and a crowd of McManus' followers commenced to kick him. Welch drew a pistol and fired a shot at Cornelius.

The report of the shot temporarily frightened the crowd and before Welch could discharge his weapon again Policeman Little put in an appearance and disarmed him. As soon as the weapon was out of Welch's clutch the McManus crowd closed in on him again and commenced beating and kicking him. He managed to break away from his assailants and took refuge in a saloon.

McManus was taken to the Receiving Hospital, where it was found that the ball had entered the left breast just below the heart. McManus was very weak and his condition critical. Welch was next brought in. His face was swollen and bleeding from numerous cuts, while his clothing from the waist down was saturated with blood. Dr. Somers pronounced Welch's wound fatal. There was a single stab in the abdomen on the left side, evidently made by a double-edged knife, with a blade three-quarters of an inch wide.

Frank McManus followed Welch to the Receiving Hospital and attempted to assault him, but was placed under arrest. McManus and Welch are keepers of rival hotels in Potrero, which is populated by iron moulders, stonecutters and employes of slaughter yards, and have also been rival political leaders in the district for some time past.

THE AMBITION OF THE AMEER.

He Tries to Coerce the Khans of the Hill Tribes.

SIMLA, June 28.—Matters look somewhat critical in Afghanistan. Some time ago the Ameer sent emissaries among independent tribes in the border land between India and Afghanistan, with the object of getting them to acknowledge him as suzerain. Three independent chiefships are known as the estate of Bajakara, and comprise the hill country between Kaffiristan and Swat. The Ameer's agents evidently had little success with these tribesmen and this was attributed to the influence of Amru Khan. The chief had been a prominent figure in border politics for the last ten years, and has risen to a practical leadership among the petty chiefs of Baju. The ameer has always regarded his rising power with jealousy, and recently he dispatched a force, said to consist of about 1500 regulars, the same number of tribal levies, and some mounted guns against him and the other khans. This was under the command of Gholam Hyder, the Ameer's Commander-in-chief. News has now been received that the Mahmud tribe, aided by the forces of the Khan of Jandol, attacked and defeated the Ameer's army. To make the situation worse the tribesmen have cut off Gholam Hyder's communication with Afghanistan. The Indian Government some time ago notified the Ameer that he should not extend his authority westward, but like all of his predecessors the Ameer has always hankered to extend his power beyond its admitted sphere, and his attempts to do so now threatens to result disastrously.

THE AUTHOR OF THE CHILIAN AFFAIR.

Senor Matta Dies of Apoplexy in His Carriage.

NEW YORK, June 28.—A Herald special from Valparaiso says: Senor Don Manuel Antonio Matta died in his coach while on the way to his home yesterday, of apoplexy. The entire press of Santiago, Valparaiso and Iqueque print eulogistic notices on Senor Matta's death. President Montt has decreed that he shall have a public funeral with full honors.

Senor Matta was the Minister of Foreign Affairs at the time of the attack on the sailors of the U. S. warship Baltimore in this city, and to the intemperate language used by him in a circular relating to the affair addressed to the Chilian representatives abroad was largely due the strained relations between Chili and the United States, which at one time looked as though they must result in hostilities.

It was only after he left President Montt's Cabinet, where he was regularly installed, that the negotiations were brought to a successful and peaceful termination. Senor Matta was very popular with the Radicals, and in the election following the revolution was elected to the senate.

Tested Electricity Unto Death.

NEW YORK, June 28.—A death certificate was filed Monday in the office of the Board of Health which is probably the strangest document of its kind ever known. It set forth, over the signature of Dr. M. A. Dale, that Arthur J. Yee of No. 2181 Eighth-avenue had died from testing electricity.

Yee, who was 27, and an electrician, came from England. For a year or more he had been making odd experiments on himself with electricity. His method was to use an instrument which he could insert between his teeth. Daily the instrument was placed in his mouth, and with the tip of his tongue attached he put on the battery. At length the electric strain so told on his system that it induced nervous apoplexy and finally death. So Dr. Dale certified. Yee literally tested electricity unto death.

Received Into the Church.

WINNIPEG, June 28.—Nezz Percee Sam, the Indian under sentence of death for killing the Medicine Man of his tribe, was baptized at Stoney Mountain Penitentiary Sunday and received into the church.

Gresham a Presidential Candidate.

CHICAGO, June 28.—Judge Gresham, Republican leader, is talked of as the candidate of the People's party for President, and it is said the Prohibitionists will also unite on Gresham.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

THE SOLID "STANDARD."

The attention of the insuring public is directed to the advertisement of the Standard Life Assurance Company, which appears in another column. The high place this reliable Company holds in the public confidence is shown by the annual report, which shows that the amount proposed for insurance in 1891 (3,199) proposals was the large sum, of $10,605,360, and the care taken in the selection of risks is evidenced by the act that the amount accepted was $8,462,320. The amount of claims adjusted during the year, inclusive of bonus additions, was $3 243,465, and the total amount of assurance in force was $109,913,000.73. This is an enormous sum, but it is amply protected by total assets of $38,443 43), and an annual revenue of $5,033,600. The improved terms and privileges of the Standard policy are well worthy of attention. The home as well as the local management of the Company in connection with the advantages pointed out, should beget a very high degree of confidence in the insuring public of Peterborough and vicinity.

THE Dominion Government pretend that their Gerrymander Bill is based on the principle of "equalizing" the population. How this is done is shown by the following table, which represents the relative population of the given constituencies when the bill is finally passed, unless the vigilance of the Liberal opposition, which has succeeded in having some of the most damnable features eliminated, succeeds in further modifications;

The Toronto *Telegram* says:—Party business adds length and expensiveness to the sessions of the Dominion Parliament. The time taken to discuss Leprairie post office jobs and the Gerrymander Act is worse than wasted. Sessions would be short and both the country and members would be money ahead if the powers of Parliament were never prostituted to the service of mere partisan ends. In resisting the gerrymander the Liberals are protecting themselves and serving the country. It costs money to do this, and the temptation to go in for an extra indemnity is strong. Yet it is the duty of the opposition to withstand temptation and to force the Conservatives who are gerrymandering the country for party advantage, to do the evil work at their own expense.

THE managing editor of the *Empire* must be devoting too much attention to the liquid interests of the Prohibition Commission—or he would not have allowed the expression "Loyal Woodstock" to appear in the pages of Monday's *Empire*. Why, Woodstock is overwhelmingly Grit.

W. H. COMSTOCK, Brockville.

DEAR SIR:—Am selling your "Dr. Morse's Indian Root Pills" in this locality. I have customers who come 20 miles for the sake of getting Morse's Pills. This speaks for itself as to their value. I use them in our family with "the most satisfactory results." My wife has been cured of sick headache by their use. We could not do without them.

Yours, etc.,

BOLTS FROM OUR CATAPULT

FOR THE CLOTHING TRADE.

Battering Down High Prices Wherever They Strike!

We Breach the Wall of the Clothing Trade, and Carry the Citadel!

THESE BE REASONS WHY GOUGH BROS. ARE ON TOP IN EVERY LINE THEY CARRY.

GOUGH BROS., with their Big Syndicate, are the Largest Retail Clothiers in Canada. They buy more, handle more, and sell more goods than any other dealers in the Province. Eight Big Stores and Eight Big Interests. Eight Magazines from which to fire goods over the Province. They carry twice the stock of all their competitors in any town where they do business. Isn't this a lever to force trade? You bet it is!

THEY OFFER THIS WEEK FOR THE YOUNG BOYS OF THE DISTRICT OVER **1,800 BOYS' SUITS!**

All Special Goods made for this year's trade. The style is perfect, the material the best, and the goods were made by one of Canada's Largest Clothing manufacturers, who knows how to make good goods. With all the merit these goods possess, they were bought for less than the goods cost. Buy these Boys' Suits if you need them. No matter what you see, no matter what you hear, don't buy until you see our stock, as we can and do discount any dealer's prices by 25 per cent. and make a living profit for ourselves.

Our trade is good every day. We make a special drive in Boys' Clothing, and it is for you to take the benefit. These are the reasons why we inaugurate our Grand Sale of Boys' Clothing.

Used-Up Business Men!

The Weather Does It.

"WHAT can a man do these days so as to keep up his strength and vitality? I feel all used up, and cannot get through with my work during the day; and, when night comes, I feel so weary and irritable that I cannot sleep."

This used up and distressed man was one of Montreal's prominent merchants; and the golden advice that was immediately given to him by his friend was, "Use Paine's Celery Compound."

There is no other agency or power that can so quickly take away that tired and used-up feeling, and make a man feel that life is real and earnest, and worth preserving. Medical science never achieved a greater triumph for mankind, than the composition of this invaluable preparation, Paine's Celery Compound."

During the excessively hot weather the business man, the banker and the professional man will maintain perfect and regular health and strength if this Compound is used twice a day. Its grand effects are spoken of everywhere by our best people, and all recommend it strongly.

Do not fail to keep a bottle of the Compound in your office if you wish to avoid the depressing effects of the weather.

The Way It Protects the Public Interests.

The following despatch from Boston is given at its face value. If the facts it asserts are facts, they furnish food for serious thought:—

BOSTON, June 23.—The Pilot of this city publishes a startling story of an alleged dicker for the possession of the intercolonial railway. That road, which has cost the people of Canada $50,000,000, is run at a loss of several hundreds of thousands annually.

Lately, it is said, the New York Central offered to lease the line, guarantee the Government that the company would meet any loss in working expenses, and, in the event of a profit, pay ten per cent. of this as rental. Afterwards the Central improved on this tender by agreeing to pay two and a half per cent. of the gross receipts in rent.

Here, however, is where the most extraordinary part of the story comes in. The Canadian Pacific heard of the deal and immediately set about to prevent its consummation. That road did not meet the Central's offer with hard cash, but "influence," and as a result it is said, the Government will hand the road over to the Canadian Pacific free, together with an annual subsidy of $200,000 a year for running it, although the American company offered to take the property, meet all expenses of operation, and pay two and a half per cent. of the gross receipts to the Federal treasury.

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE WORLD OF WOMEN.

MME. PATTI'S LUXURIOUS BILLIARD ROOM IN CRAIG-Y-NOS CASTLE.

Billiards in the Home—An Inexpensive Outfit for a Private Room—Growing Popularity of the Game—Madame Sardou—A New Use for Escorts.

Mme. Patti's billiard parlor in Craig-y-nos Castle is the most luxurious apartment of the kind in the world. The famous diva is an enthusiastic player, and as her husband, Nicolini, is also fond of the game, they have spared no expense in fitting up the room. The table, which was furnished by the Brunswick-Balke Collender Company, cost its fair owner $1,500.

It is of American antique oak, inlaid with mother of pearl. The most exquisite carvings adorn the legs and mouldings, and a peculiarly pleasing effect is produced by an artistic blending of South American fancy woods in the panels. The delicate tints of tulip, dagonet and amaranth harmonize with the darker shades of cocabola and mahogany form a superb background for four landscape medallions which adorn the sides.

As a matter of fact, home amusements have gained by the broader Christianity that characterizes our religious thought. Billiards was once considered a decidedly wicked game. Its tables were only found in hotels and saloons, and the clergyman

PATTI'S BILLIARD PARLOR.

who handled a cue would surely have disgraced his cloth. In fact, when the game of croquet was first introduced, the irreverent were accustomed to call it "Presbyterian billiards." The satire only emphasized the fact that church-going people admitted the innocent nature of the game itself, and only objected to its surroundings. Croquet may have been the means of introducing billiards to the home circle. At all events, public opinion has undergone a decided change on the subject. A billiard table is found in many a theological seminary, and the most eminent divines find relaxation in the click of the ivories.

The game is so well suited to the home that it is surprising that it did not become popular long ago. It requires just enough of physical exercise to balance the mental

A NEW BEGINNER.

effort. Unlike golf, the body, instead of wearying of one posture, is rested by the exercise afforded in walking around the table and handling the cue.

In fitting up a billiard room it is usual to match the furnishings and the table; but, of course, people of moderate means need not go to this expense. There is a wide margin between the billiard parlor of Mme. Patti and the modest outfit of an amateur who can only enjoy the game after business hours. An oak table of the best make, 4½ x 9 feet, with cue-rack, cues, balls, bridges, markers, and everything necessary for the game can be bought for $250. A veneered table will cost less money; and there are outfits manufactured by houses of less reputation, that will probably give quite as good satisfaction, for $150. Besides the table, a few chairs and the gas fixtures are the only furniture necessary for a home game of billiards; and with a small sideboard included, the outlay need not actually exceed $200. Instructions for setting up the table, and the rules of the game are always sent with an outfit.

A billiard room must be well lighted. The light, if possible, should come from above, through ample skylights, so as to bring the table within a general focus, and thus prevent any shadow being thrown from the balls or cushions. But unless one is building this can seldom be obtained. The next best thing is a corner room, which will afford two lights in the daytime.

The gaslight should be raised about three feet two inches from the bed of the table, and supplied with horizontal burners, so that no shadow is cast by the pipe. The distance of the light from the floor should be about 6 feet 1 inch. For a 5 x 10 foot table the cross-arms of the pendant should measure, from light to light, 28 inches. The long arms 56 inches. For a 4½ x 9 foot table, cross-arms 25 inches and long-arms 50 inches. For a 4 x 8 table, cross-arms 22 inches and long-arms 44 inches. A useful shade has been devised which throws a soft, even light on the table, and keeps the glare from the players' eyes. The floor, if carpeted at all, should be covered with some thick or soft material.

Pallor, languidness, and the appearance of ill-health being no longer fashionable among ladies, Ayer's Sarsaparilla is more largely resorted to as a tonic-alterative, nervine, stomachic, and builder up of the system generally. This is as it should be. Ayer's is the best.

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

TO-NIGHT, JUNE 28th.

Music for the Million

To-morrow's Examiner will contain an article upon a coming musical event which will be the finest thing in music ever presented in Peterborough. Be sure and read the article on "Magnificent Music for the Masses" in to-morrow's Examiner. A proposed grand free musical entertainment for the people.

New Fruit Depot.

Mr. C. E. Vandyke, of Toronto, representing the Niagara District Fruit Stock Company (Limited.) has opened an agency, 378 Water street. Fresh fruit is received every day, the facilities possessed by the company enabling them to pluck the fruit in the evening, and have it delivered fresh here the following morning. This is a great benefit. For warm weather the most wholesome food is fruit, and the fresher the better.

ADMISSION, 25c.; RESERVED SEATS 35c.; CHILDREN, 15c.

Splendid Strawberries.

The Examiner staff has to thank Mr. George D. Mitchell for the present of a fine sample of strawberries from his gardens on Aylmer street. They are of the Sharpless variety, very large, very sweet, and very juicy. Mr. Mitchell can find a ready market for any quantity delivered on the same terms. Though his bank account might not be much swollen by the transaction, he will accumulate large assets of gratitude from the printer who has seldom an opportunity to enjoy such luscious fruit except on gospel terms. Many thanks to Mr. Mitchell.

Should Be Investigated.

A valuable Jersey cow and a two year old heifer belonging to Mrs. Wm. Hamilton, Bethune street, which have been pasturing in a field on Park street near the railroad, have both died after being sick a short time. The bovines were valuable ones, and it is supposed they died from some contagious disease caught from the large number of cattle passing along the lines on the C. P. R. It is said that other cattle have also died from the same cause.

PLAN AT GREATREX'S DRUG STORE

A Juvenile Lacrosse Match.

An interesting game of lacrosse was played on the old circus grounds in the southern part of the town last evening between the Junior Shamrock lacrosse club and the Central Park team. Mr M. McDonough refereed the game. The Shamrocks succeeding in defeating their opponents again by 2 goals to 0. The first game was taken in about two minutes by B. Rickey, a clever stick handler. The second game was also captured by him after half an hour's brisk playing. It is probable that these two clubs will play another match on the Riverside Park on Tuesday night next. The Senior Shamrocks will play with the Norwood Lacrosse Team at Norwood on July 1st. An exciting game is expected.

Mr. G. W. Paxman leaves to-morrow morning for Deseronto, where he has accepted a good position.

Mr. P. DeGruchy, Vice Chief Ranger of the Toronto Court, Catholic Order of Foresters, is in town. He attended a meeting of St. Peter's C.O.F. last night.

Among those who successfully passed the examination for second-class certificates at the Toronto Normal School were Miss I. Noble and Miss E. Armstrong of this town.

Mrs. H. P. Gould and family, of Toronto, left this afternoon to take up their summer abode on 'Woodcest' Island. They will spend several weeks camping out at the lakes.

Capt. G. W. Mutton, Toronto, S. M. Saunders, Port Simpson and J. G. Macdonald, Toronto, left Peterborough last night for a two weeks' fishing expedition at Stony Lake,

Miss Dettie Cavanagh, niece of Mrs. W. J. Green, and Miss E. Walsh, leave to-morrow morning for Lethbridge, Calgary and Medicine Hat on an extended visit to relatives.

Messrs. W. A. Sanderson and Jas. Bain left this morning for a few days' fishing expedition to the lakes. Mr. Sanderson is having some repairs made to his fine summer cottage.

Mr. George A. Crowe, A.C., Phm.B., leaves to-morrow morning for Boston, where he has accepted a situation in one of the largest drug stores in that city. His many friends, while regretting his departure, will wish him all success in Boston.

Mr. Thos. Ball of Messrs. Scott, Ball & Co., proprietors of the Wingham Furniture Factory writes:" For over one year I was not free one day from headache. I tried every medicine I thought would give me relief but did not derive any benefit. I then procured a bottle of Northrop & Lyman's Vegetable Discovery, and began taking it according to directions when I soon found the headache leaving me, and I am now completely cured.

Dr. Goldsmith leaves to-day for Montreal where he will embark on board the steamer "Lake Superior" of the Beaver Line, for England. Dr. Goldsmith goes to London, where he will remain for months which will be spent in studies and clinical observations to fit him for the highest medical degree given in any country, that of member of the Royal College of Physicians, London. Dr. Goldsmith will be accompanied by his son, Ernest. His many friends will wish him a safe and happy return.

Fun, Frolic and Fresh Air.

Stony Lake Excursion, July 1st,

leaves G.T.R. station at 8.45 a.m. The points visited will be A.O.A. headquarters, Juniper Island, where all who wish may remain for the day, the boat continuing to cruise through the lake, calling at Burleigh Falls, Mount Julian and Bracebridge. **Return Tickets, 75c**; children, half price. Tea and hot water provided. The train service being limited, owing to the demand for cars on that day, necessitates the curtailing of the sale of tickets; those wishing to attend can procure same NOW at the Metropolitan Grocery, Rowe's dry goods store, Canada Loan and Saving Co's office, and Fairweather's hat store, or on morning of excursion at G. T. R. station. Come one, come all.

Dominion Day.

Flourishing Forestry.

At the regular meeting of St. Peter's Court Catholic Order of Foresters, No. 225, last night, there were sixteen propositions for membership. Tale speaks well for the flourishing condition of this court.

Bicyclists, Ahoy!

All wheelmen who think of attending the C. W. A. meet at Kingston on July 1st are informed that railway tickets are obtainable from Mr. Alex. Gibson, Clarke & Gibson, Hunter street. Return tickets, to wheelmen, only $1.15 cents—cheaper than grease for ball bearings.

A Pleasant Time.

Last evening the Young People's Society of Christian Endeavour, of the Murray street Baptist church, held their regular meeting at the house of Mr. Benj Matthews, Ashburnham. A large number were present. Mr. J. E. Peverly, president, presided. The topic was "Consecration," and was ably handled by a number of the members. Mrs. Matthews kindly treated the visitors to strawberries and cream after the meeting. A most enjoyable time was spent.

Flora's Festival To-night.

Every lover of flowers and children is reminded that the beautiful cantata, will be presented in the opera house to-night. The stage has been beautifully decorated for the occasion and will form a fitting back-ground for the 300 white-clad children who will furnish the delightful music. All who love children and flowers should be present, to encourage the children and their patient instructor Mr. Ketcham who in this case presents his last children's concert in town. Let there be a bumper house.

The Cathedral Picnic at St. Joseph's Hospital Grounds, Dominion Day.

A fine programme of sports and games; a first-class dancing platform; dinner at 12 and refreshments during the day; exciting return baseball match between Indian River and Lock Works' Nines. Admission, 15c.; dinner, 25c. 1d

Trio of Accidents.

James Hamilton, the 14 year old son of Mr. Peter Hamilton, fell off a lumber pile on Saturday and had his scalp severely cut.

A grandson of Mr. Meroe, Ashburnham, named Percy Bush, while splitting wood on Saturday afternoon, the axe became caught in a clothes line and was swerved to one side with the result that the youth sustained a severe gash on his foot.

An employee of the Rathbun Company whose name could not be learned, had his foot cut off by a mixed train yesterday. Mr. Berry left Peterborough this morning to take the unfortunate man to Campbellford.

News Nuggets.

gradually growing worse. Three years ago I got down so low that I could scarcely walk. I looked more like a corpse than a living being. I had no appetite and for five weeks I ate nothing but gruel. I was badly emaciated and had no more color than a marble statue. Hood's Sarsaparilla was recommended and I thought I would try it. Before I had finished the first bottle I noticed that I felt better, suffered less, the inflammation of the bladder had subsided, the color began to return to my face, and I began to feel hungry. After I had taken three bottles I could eat anything without hurting me. Why, I got so hungry that I had to eat 5 times a day. I have now fully recovered, thanks to

A Good Word for the Sparrow.

To the Editor of the Examiner:

DEAR SIR,—No one seems to have any thing but hard words to throw at the sparrow—the English sparrow—now naturalized and become Canadian. When a woman sees anybody or anything without friends, her sympathy is aroused, and therefore I wish to say a good word for the sparrow. I spend most of my leisure time in summer on my verandah. Inside, under the roof in a box-like space, formed by the cornice, two families of sparrows, one in each corner, have set up housekeeping, and at this date the second generation is about ready to leave home and shift for themselves. I notice that the father and mother sparrows, undeterred by my presence, come and go from dawn to dark bringing food to the nestlings; especially the mother bird for the father of the family, like most of the "lords of creation," does the "bossing" and brings about one worm to the mother's five. Like the lords of creation too he needs a great deal of rest and he spends considerable time "resting" on the bough of adjacent tree and, figuratively, taking a smoke. When I see a sparrow come in with a big fat grub in its beak which it crams down the gaping maw of its brood, I say to myself, "Ah there's the rascal that cut down my verbenas or cabbages or tomatoes." Each bird of four comes in hundreds of times a day, each time with a grub or worm or noxious insect in its strong little beak, and those who have not noticed as closely as I have had a chance to observe, would not believe how many of these pests (useful in food for the young sparrows) instead of feeding on our flower and vegetable plants. Shakespere tells us there are "sermons in stones and good in everything," and I say that there's a vast deal of good in the greatly abused sparrow. The good God made everything for a wise purpose, and if it were not for the sparrows and other birds our flower and vegetable gardens would, like Herod of old, be "eaten of worms and give up the ghost." I say, and say it reverently, God bless the sparrows and all the other birds. While watching the sparrows I noticed a robin pearing into the lawn, standing a moment on its head, and withdrawing it full with a grub at the end; and blackbirds are also active. Mothers should teach their children to be kind to the birdies, for though, like our own dear children, they are pests at times, yet they are worth their weight in gold in other respects. The laws, I am told, protect insectivorous birds, and we should all work with the authorities to help the birds in their crusade against the destructive grub and noxious insect. Thanking you for space, I remain,

Very sincerely,
BEATRICE.

The Sewerage Question.

To the Editor of the Examiner:

DEAR SIR,—I see in your report of the last meeting of the council my letter of the 18th inst. was called to the attention of Mr. Alan MacDougall, and submitted for the consideration of the council. Mr. MacDougall endorses my statement, viz:—That the plans and profiles presented are not working plans etc., but merely *franchise* papers, and are sufficient to submit to the people to vote on a money by-law; also, that other plans will have to be made by which to work. This means doing the work a second time, and I fully explained this same to several of last year's councillors when they ordered the levels to be taken. The consequence is that we have paid $570 for papers, estimates, etc, which are utterly useless, as they fail to show what is actually required.

I, for one (and I hope others will view this matter in the same light) do not think such *franchise bylaws* are advisable, and I feel certain that if Mr. MacDougall were a voter in our town, he would also think as I do. Take other instances, such as the Elinn bylaw and the market building bylaw and plans. These *franchise bylaws* have been stretched far beyond the elasticity of the people's purses, and in my humble opinion, necessitate new bylaws, to cover up the guess-work estimates, to make them legal. If we could but get a glimpse at these audited accounts we would then have figures by which to show to what extraordinary uses (?) tax payers' money had been put. Who made the contract with the auditors? Was it originally understood that one entire year was to be taken up in doing this work and making other franchise arrangements?

I again ask what is the use of creating an expense by submitting a by-law for sewerage with the present meagre information now before the council? I further most emphatically ask the taxpayers of this town to vote the by-law down, and I moreover feel certain that they will do so. Let us buy out the waterworks and start afresh on the sewerage enterprise. Sewerage works require water. Water means money in the hands of a private company, and the one enterprise will then wash the other.

Yours, etc.,
G. W. RANNEY,
Civil Engineer.

SMALL COMFORTS

Which the Wise Housekeeper Sees to at the Proper Time.

A good thing invented by a Connecticut man for destroying flies and mosquitoes in the house would be still more effective out of doors nights in the destruction of millers about the apiary and orchard, little pests which so industriously carry out their work of depositing eggs for the production later of myriads of profit eaters in orchard, vineyard and hive. The idea is a very simple one. A broad box like a soap or other grocer's box is partitioned near one end, leaving space enough to set a lamp, which must be a low-standing or hand lamp. A small pane of window glass is set in the partition and the entire large compartment made water tight by the use of putty and paint. When perfectly dry it is nearly filled with water and a film of kerosene oil poured on this. At dark the lamp is lighted in its little chamber and the light shines brightly through the window glass, water and oil, luring swarms of night insects to their certain doom. The lamp out of doors must have a rain-proof roof over it. Air, so it can burn clearly, must not be cut off. Fig. 1 is the compartment for the lamp in the picture; Fig. 2 for the water and oil.

A Neat Umbrella Stand.

The painted drain-pipe umbrella stand is being relegated to the same out-of-the-way corner as the Kensington-painted banner and plush-covered milking stool. I saw something in a hall, the other day, holding a lot of family umbrellas, which was decidedly odd and quite pretty. It was a square wooden frame neartly covered with fine straw matting of an old gold shade. The inside of the box was lined with zinc and had a movable pan inside which could be caught up by tin rings and emptied. Groups of tall velvety-headed cat-tails with a wealth of their sword-like leaves were painted on the matting and a tiny strip of lin crusta walton made a neat finish for the top.

A Pretty Screen.

This pretty little screen shows what can be done with one of the bamboo fire screens which are now so cheap. Cover the screen half way up with pretty bright silk or cretonne, sewed on a firm foundation of stiff canvas. Then on each side stitch a good-sized pocket edged with a frill, or silk cord if you prefer, finish around the bottom with a frill or cord and tie to the frame at each corner a big bow of ribbon, which will harmonize in color with the goods you have used. This is very handy for a paper rack or to stick magazines away in, or a bit of sewing, and I have seen them used, too, in a bedroom as a shoe receptacle.

To Save Time and Labor.

A useful article in painting window sashes: Get a piece of tin just the size of the pane of glass in your window. Have a handle on one side so you can take hold of it. Put it on the glass, and then you can draw the sashes with ease. If your paint gets on that you can wipe it off. It can be used longer on panes of glass by moving it.—Farm and Home.

What Stronger Proof

Is needed of the merit of Hood's Sarsaparilla than the hundreds of letters continually coming in telling of marvellous cures it has effected after all other remedies had failed? Truly, Hood's Sarsaparilla possesses peculiar curative power unknown to other medicines.

Hood's Pills cure Constipation by restoring the peristaltic action of the alimentary canal. They are the best family cathartic.

ENRICH the blood by the use of Milburn's Beef, Iron and Wine, which supplies the necessary blood building material. dw

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

Bows, Belts and Sashes.

The Felix bow is the favored bow of the summer. It takes time and practice, long, diligent practice, to tie it, but when it is done it's a success. It consists of five loops and two long ends which fall to the bottom of the skirt. Another ribbon is brought from the bow to the waist in front, forming a belt of soft folds. With the Felix bow two smaller butterfly bows are worn on the shoulder. The newest ribbon is the double laced moire satin, which comes in all shades. It is much used in trimming gowns.

There are belts of all varieties for spring and summer wear. The bodice belt shown in the cut is of silk ribbon with a handsome gold clasp; the tennis belt is made of striped

BELTS AND SASHES.

silk, red and black, blue and red, and blue and white, the clasps being filagree silver. The outing-skirt supporter has many virtues. It is a novelty, and when correctly fastened to the folds of a bell skirt, holds it just above the ground. With outing suits sashes are more in favor than belts. The Roman sash holds its own against all competitors. It comes in the most gorgeous colors and is wound about the waist in loose, graceful folds, the ends falling to the bottom of the skirt.

Impure blood is the cause of innumerable maladies. Hence one of the greatest benefactions to humanity was the discovery of Ayer's Sarsaparilla, which more than any other medicine, has saved America from becoming nation of invalids.

DELIRIUM TREMENS.—In this disorder of the brain which comes upon habitual drunkards there is a shaking of the limbs and the prominent disposition is one of anxiety and apprehension of injury or danger. There is an almost entire want of sleep, and even if repose be obtained it is interrupted by frightful dreams. Few cases of the Father Mathew Remedy will be sufficient to cure this terrible disease. 1d

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them, I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register*.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

"August Flower"

For two years I suffered terribly with stomach trouble, and was for all that time under treatment by a physician. He finally, after trying everything, said stomach was about worn out, and that I would have to cease eating solid food for a time at least. I was so weak that I could not work. Finally on the recommendation of a friend who had used your preparations with beneficial results, I procured a bottle of August Flower, and commenced using it. It seemed to do me good at once. I gained in strength and flesh rapidly; my appetite became good, and I suffered no bad effects from what I ate. I feel now like a new man, and consider that August Flower has entirely cured me of Dyspepsia in its worst form. JAMES E. DEDERICK, Saugerties, New York.

Almost every household has some member whose chief delight is to "make something," and for the benefit of that useful one of a household is presented four ideas below, which are easy of construction and useful when made.

A POSTAL CARD CASE.

A useful case for postal cards—handy things to have around—can be made by covering a stiff card, six by nine inches in size, with old red plush for the background.

Find a shallow box large enough to hold a package of postals. It should not be quite so long as the cards. Remove one end, cover with the plush and line with satin. With gold paint mark 'Postal Cards' on a bit of bolting cloth. Lay the box in position on the stiff background, and then fasten it by bands of narrow ribbon sewed through the card. Conceal the stitches by bows of the ribbon. Across the bottom is a fringe of knitting silk tied into rings, and through the rings a fancy pen or pencil may be slipped.

A TIN-LINED LUNCH BAG.

Just to what use it is possible to put a tomato can is illustrated in this little contrivance of a lunch bag. Be careful to select a tamato can that is round, even, and in perfect order; remove the top with a pair of pinchers so the edge will be smooth and not ragged, then empty the tomatoes into a dish, soak the label off the can, and scald it out. When the can is clean and dry, make a bag of gray linen with circular bottom, to fit the can. Draw the opening together at the top by means of brown chord drawstrings. Make the handles of double thickness of linen, and cover four button-molds with embroidered linen as ornaments to be fastened on the bag where the handles are sewed on the cover.

Before making up the bag embroider on one side a pretty design in washable brown silk, also the initial letter of your name, or of that of the name of the person who is to use it.

A CHILD'S TABLE-BIB.

Red-striped Turkish toweling of the best quality is the material selected for this pretty bib. It is a simple oblong in shape, with neck cut out, corners rounded off, and edges buttonholed with heavy red embroidery cotton. Before working the edge—to strengthen it—a double row of knitting-cotton is run around the outline, straight along the sides, and in scallops around the neck and at the ends of the stripes. A thick, twisted cord of the knitting-cotton, with a little red mixed in one strand, is sewed around the neck just inside the scallops, and the ends, left long enough to tie behind, are tipped with white tassels, brightened with red. A yard of toweling from the web would furnish material for a full set, and they need never be ironed. They are so thick and protective that they are very serviceable, and so attractive they are sure to please the little ones.

Mr. E. T. Bailey, Elkhorn, Man., writes: My daughter was sick for eleven months, she was as white as it was possible for any living person to be; was short of breath and had terrible pains and ringing noises in the head on the slightest exertion. Two boxes of Dr. Williams' Pink Pills thoroughly cured her. Unequalled for all diseases peculiar to females. All dealers, or by mail on receipt of 50 cents a box or six boxes for $2 50. Dr Williams Med. Co., Brockville, Ont., or Morristown, N.Y.

Large bottles 50 cents and $1. dw

A man's wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too! dw

Facts About Dyspepsia.

Wrong action of the stomach and liver occasions dyspepsia. Dyspepsia in turn gives rise to bad blood. Both these complaints are curable by B. B. B., which acts on the stomach, liver, bowels and blood, and tones and strengthens the entire system, thus positively curing dyspepsia, constipation, bad blood and similar troubles. dw

Across the Continent.

Wm. Renwick, M. D., M.R.C.S.E., Victoria, B.C., writes: "I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, been perfectly satisfied with its therapeutic efficacy. EXCELLENCE.

RHEUMATISM.—MR. WM. HOWES, 63 Red Lion St., High Holborn, W. C., London Eng., states he had rheumatism 20 years; suffered intensely from swelling of hands, feet and joints. He used St. Jacobs Oil with marvelous results. Before the second bottle was exhausted the pain left him. He is cured.

NEURALGIA.—MRS. JOHN McLEAN, Barrie Island, Ont., March 4, 1889, says: "I suffered severely with neuralgia for nine years and have been greatly benefited by the use of St. Jacobs Oil."

SCIATICA.—Grenada, Kans., U. S. A. Aug. 8, 1888. "I suffered eight years with sciatica; used five bottles of St. Jacobs Oil and was permanently cured." JACOB I. SMITH.

STRAIN.—MR. M. PRICE, 14 Tabernacle Square, E. C., London, Eng., says: "I strained my wrist and the severe pain yielded like magic to St. Jacobs Oil."

LAMEBACK.—MRS. J. RINGLAND, Kinonid St., Brockville, Ont., writes: "I was confined to bed by severe lumbago. A part of a bottle of St. Jacobs Oil enabled me to go about in a day."

The Triple Alliance Still Strong.

ROME, June 27.—Signor Brin, the Italian Foreign Minister, who visited Berlin with King Humbert, says his experience in Berlin has satisfied him of the sincerity of Germany's desire to accord Italy a complete and universal welcome.

The Reception of King Humbert left no doubt that the triple alliance responded to national sentiment in Germany.

Bismarck Speaks on the Reunion of Germany.

MUNICH, June 27.—Prince and Princess Bismarck were entertained at a luncheon yesterday by Count Holnstein. In replying to the Burgomaster's address of welcome, Prince Bismarck said the friendly welcome which he had received showed him that the people of Munich appreciated his labors. Even if some of his friends had not fully recognized his efforts, he was greatly gratified that all were aware that unity had been attained.

He considered it most fortunate that the reunion of Germany had not been completed after the events of 1866, as there would then have been less prospect of a lasting union. Germany would henceforth not be affected by a change in times or circumstances.

PARIS, June 27.—A Naval Department clerk and a non-commissioned officer have been arrested here on the charge of conveying documents containing official secrets to the Governments of Germany and Italy.

A Hurricane in North Germany.

BERLIN, June 27.—A hurricane throughout Northern Germany caused an immense amount of damage yesterday. Berlin especially suffered. Many fine trees in the city were destroyed and many accidents are reported. The shipping at Bremen and Hamburg suffered severely.

To Avenge Their Comrade's Death.

PARIS, June 27.—It is reported the Jewish officers in the French army intend to avenge the death of Capt. Mayer, who was killed by the Marquis de Mores, and that a series of duels arising from the affair are imminent.

The funeral of the unfortunate duellist has been fixed for Sunday next. It promises to be an imposing affair. It is feared the Jewish residents of the city and suburbs will engage in demonstrations on the occasion of the funeral.

The authorities apprehend trouble in the event of the Jews making any manifestation, and are accordingly taking all necessary precautions to prevent conflicts.

Gladstone and Scotch Home Rule.

LONDON, June 27.—The executive of the Scottish Home Rule Association is dissatisfied with the vagueness of Mr. Gladstone's replies to inquiries regarding the establishment of Home Rule for Scotland, and has written a letter to him, declaring that the association will be unable to support him in the approaching general elections.

English Missionaries Supply Arms to the Natives

BERLIN, June 27.—A despatch from Zanbar says agitation is likely to result from the rebellion in Usuagra. The English mission at Kilima-Njaro is supplying the Djaggus with arms and munitions. It is probable all the English missionaries will be expelled from the German Kilima-Njaro district.

Edinburgh's Son Visits Bismarck.

MUNICH, June 27.—Prince Alfred, eldest son of the Duke of Edinburgh, who is sojourning in this city, has exchanged visits with Prince Bismarck.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND
ELECTRIC BELT
And Attachments.

HEAD OFFICE—109 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the genuine current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SEXUAL DEBILITY, HEART DISEASE, NERVOUS DISORDERS, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, Nervousness, SEXUAL DISEASES and all diseases of the Nervous and Muscular Systems.

Remember that the Dorenwend Belt is the very latest invention in this line, and was invented by a competent electrician, and making the best in the world; we defy anyone to invent equal to the contrary.

Do not cheap this Belt with the hundreds cobblestones of leather and metal with which the country is being flooded. If you wish to experiment with cheap trifles, pay cheap, but if you want to procure a genuine Electric Belt get one that will be a benefit and a Permanent Cure.

PREMIER SALISBURY'S ELECTION MANIFESTO.

George Augustus Sala Mobbed in Hyde Park—Emperor William's Little Speech—Balfour Hooted in Sheffield and Forced to Abandon His Intention of [illegible] Speaking.

LONDON, June 28.—Lord Salisbury has issued an address to the electors of the Kingdom. The document, while reminding them that their votes will decide whether Parliament shall be empowered to grapple with important social questions or wasted upon the protracted Irish struggle, contends that the working classes are so powerful that no party is likely to disregard their unanimous wish.

The vital question of Ireland overtops all others. To Ulster the election is of terrible importance. Mistakes in other questions may be repaired, but here the crisis is supreme. A wrong decision may mean a bitter, protracted struggle, culminating in civil war, or even doom the loyalists to most dread subjection to their ancient and unchanging enemies.

The address implores the electors to pause before deciding to reverse the policy of centuries. "We do not indeed know," continues Lord Salisbury, "the details of the revolution proposed nor the precise designation of its appearance. Hollow and fragile securities will doubtless be offered to allay your fears and hide the wrong that is being done. They will serve to hinder the world from seeing the full cruelty of this abandonment, though they will certainly hinder nothing else."

A long and powerful arraignment of the Gladstone policy then follows, the address dwelling strongly upon the evidence of the Ulster conventions and concludes by praying the electors not to shatter the peace and order now reigning in Ireland resulting from a long period of steady government.

GERMAN GOLD FOR ITALY.

King Humbert Will Keep Up His Army With Cash Supplied by Germany.

BERLIN, June 28.—The interviews between Signor Brin, Italian Minister of Foreign Affairs, Chancellor von Caprivi and the Emperor resulted in a promise of German support for Italian finances on condition that the Italian army and navy be sustained at their present strength. King Humbert proposed a large reduction in the army, reported to be as much as fifty thousand men, pleading the absolute financial necessity for such a reduction.

The Emperor succeeded in persuading him against making any reduction mainly through pledging the assistance of the leading banks of Germany in an operation for the purchase of existing Italian bonds, and also if required the assistance of a syndicate to take a new Italian loan.

Helping the Italian Loans.

A German banking syndicate has long been silently but potently operating to distribute throughout Germany large amounts of the Italian loans. The operations have been fostered by secret promptings from the Foreign Office, which seems to regard the absorption of Italian bonds as a subsidy to a needy ally. The prospect of permanent peace as the strongest factor towards obtaining more money for Italy was referred to in the interviews.

In an interview that Signor Brin accorded to a number of journalists prior to his starting on his return to Rome yesterday he said that he could forsee nothing that was likely for a long time to disturb the pacific relations of the European Powers.

The Kaisers May Meet.

When asked whether it was true that the Czar had invited Emperor Francis Joseph to a conference at Skiernewice or Spala Signor Brin cautiously admitted that he had heard something concerning the subject, adding that the arrangements were still a matter of reserve. He hoped, however, that if a conference occurred between the Czar and the Emperor the best results would follow.

Signor Brin declined to say anything as to the financial position of Italy, except that the new Italian Ministry would be strengthened by the friendly attitude of the German Government. According to the Foreign Office here Italy will be financially strong if she gets time to arrange her affairs. The Emperor's resolution to maintain the credit of Italy for the sake of the triple alliance constitutes a leading element toward restoring financial order.

Bismarck's Triumphal March.

Bismarck's triumphal progress reached its climax to-night at a reception given in his honor at the Rathhaus at Munich. The Prince was never popular in Bavaria during his tenure in office, but since his fall, and especially since his opposition to the Emperor, his popularity has been greatly enhanced. The Prince Regent of Bavaria and all the royal family left Munich in order to avoid giving the Prince a reception, but before going the Regent directed the organisers of the fetes in the Prince's honor to spare nothing to make them successful.

At the banquet given at the Rathhaus all the guests brimmed over with enthusiasm. Prince Bismarck expressed his thanks for the reception given him. He hoped that peace would continue to be assured the empire by the existing alliances, a matter which was of special import in connection with the security of the Bavarian frontier. Every Imperial Government, he said, was in duty bound to promote an imperial policy in harmony with the national tradition.

The Prince here called for "Hauss" for the Regent of Bavaria. They were given with a good will by all present and the assemblage then joined in singing "Die Wacht am Rhein."

Sly Digs at Caprivi.

Some allusions in the speech plainly indicated Prince Bismarck's desire to convey the impression that the policy of Emperor William and Chancellor Von Caprivi was a failure and menaced the future of Bavaria, as it did that of other parts of the empire.

It is believed that the Regent of Bavaria will meet Prince Bismarck privately at Kissingen, where the ex-Chancellor is now going. The Regent is thoroughly en rapport with Prince Bismarck.

Alarming advices come from St. Petersburg, showing that that city is preparing for an outbreak of cholera. The Medical Department of the Ministry of the Interior has issued instructions giving special information as to the course to follow in case of an invasion of Asiatic cholera. The fullness and precision of the Government order is likely to strike the public with the sense that a great epidemic is impending.

Balfour's Reception at Sheffield.

SHEFFIELD, June 28.—Mr. Balfour spoke yesterday. Fifteen thousand were present at the meeting. At the beginning of his speech Balfour was continuously greeted with cheers and groans.

Finally he expressed regret for the deplorable accident that had occurred to Mr. Gladstone. This caused the uproar to increase, and finally the noise became so great that Balfour could not be heard.

The crowd made several attempts to rush upon the platform, and the police had the utmost difficulty in repulsing them, and the meeting terminated in the wildest disorder.

THE DE MORES-MAYER DUEL.

Minister De Freycinet Makes a Speech About It to the Deputies.

PARIS, June 28.—In the Chamber of Deputies M. Dreyfus, questioning M. de Freycinet, Minister of War, in reference to duels, asked if there were two kinds of swords used in the army.

M. de Freycinet, replying, expressed regret at the tragic result of the duel between the Marquis de Mores and Captain Mayer, and condemned the newspaper polemics which led to the fatal encounter. He urged the officers of the army to be calm in the presence of insults, which cannot in any way affect them. The Government, he declared, would see that the officers were respected. It would be a national crime to cause dissension among the officers. These remarks were greeted with loud applause.

The Chamber then adopted a resolution approving the declarations made by M. de Freycinet.

Cartooning with a Vengeance.

LONDON, June 28.—The Star says the Tories at Salisbury have issued a cartoon entitled "The Grand Old Man's Last Journey." It represents Mr. Gladstone, with his 83 years, bearing a palm in his left hand and his Home Rule Bill in his right being dragged down to hell by the devil. The cartoon has so shocked the electors, even those who are politically opposed to Mr. Gladstone, that most of the copies have been called in. High prices are offered for the remainder that are still in circulation.

Grafton & Co.

393 GEORGE ST.

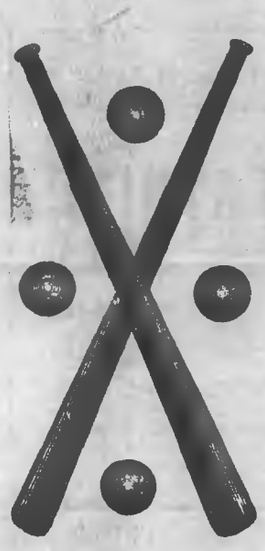
Be sure you find the right place and then you may be sure you will get the right goods at the right price. One thing you will not find in our store is old goods. Everything is made in our own factory, cut by hand in the very newest style and made up equal to any custom work turned out in the Town of Peterborough. It is nothing new for us to hear a man say, this is the first time I ever bought a suit ready-made, but it will not be the last, as long as Grafton & Co. are in Peterborough.

WE HAVE THE NICE, NEAT, NEW STYLISH GOODS!

And are bound to do the trade. We did not rush into Peterborough without letting the people know from whence we came. We are an old established firm in Dundas, where the firm has been running for forty years and had the experience of years before some of the dealers of the present were in existence, or at least were just learning the first lesson in the English language necessary to start through this weary world. There are three branches of this firm—Dundas, Owen Sound and Peterborough. In each of these places

WE LEAD IN CLOTHING

And intend to keep the lead, by doing things on the square, up and up plan. This is the principle we work on. Come and see for yourselves. Don't be afraid to come and look at the goods, you will go away more than surprised to see such good goods for such little money.



HERE ARE A FEW PRICES:

See our 35c. and 50c. Overalls; cannot be bought wholesale for the money.

See our Men's Pants, 95c., $1.25, $1,50, $175, $2 and up; these we sell to other dealers at these prices

See our Men's Suits—You who have seen them need no price quotations, you who have not seen them come and be convinced; you will never regret it.

In Boys' and Youths' Clothing we take the lead—we always have and always will. Why not have the boys fitted out in first-class style when you can do it so cheaply.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 85c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

WOULD YOU BUY
If the Price were Low?

Any man who do not own houses would become owners if they could do so at a moderate cost.

It is my business to build houses, the cost of which is within the reach of people in fair circumstances.

I have one house, well built, small lot, Aylmer street, between Townsend and Rink streets—$1,200. Look it up. Will have two on Parkhurst; work now going on.

ALLEGED POISONER NEILL

FURTHER CONCERNING HIS CANADIAN CAREER.

He Was Forced to Marry One of His Victims in Quebec—Arraigned in the London Police Court—The Testimony of a Police Decoy.

LONDON, June 29.—Thomas Neill was again brought up in Bow-street Police Court yesterday and was again remanded.

John Haynes became acquainted with Neill about a year ago, and, struck by his peculiarities, studied him closely. Neill talked to him about the poisoning of the Marsh and Shrivell girls.

Neill showed Haynes a notebook in which were entered, among other things, the initials of the women who had been poisoned, together with the dates of their deaths. There were initials which he said referred to Ellen Dodworth, Matilda Clover and the girls Marsh and Shrivell, and there were also the initials "L H," which Haynes said referred to a girl named Louisa Harvey.

Neill said that the Harvey girl had fallen dead on the street, between the Royal Music Hall and the London Pavilion, and that she was supposed to have died from natural causes, but was actually poisoned by the person whom the police mistook him for.

Violet Beverley was a former companion of Matilda Clover, and after the police became suspicious of Neill she played a bold part at their request. She continued to receive visits from Neill, but kept a close watch upon him to prevent him from poisoning her.

It is expected that a charge of murder will shortly be made against Neill.

DR. CREAM.

Further Concerning the Career of the Abortionist-Poisoner.

MONTREAL, June 29.—As the career of Thomas Neil, or Dr. Thomas Neil Cream, is becoming fully known, the more atrocious does it appear. It seems he started in his career of crime even before he graduated at McGill College in 1876. Cream was in the habit of making frequent trips to the Eastern Townships and during one of these excursions he became acquainted with the very pretty daughter of a prosperous hotelkeeper of Waterloo. Cream soon became intimate with the girl, whom he ruined under promise of marriage, and they lived together secretly some time. One day Cream told the hotelkeeper that he was going to London to finish his education. Late that night the most heartrending screams were heard from the bedroom of the young woman. Investigation proved that Cream had administered drugs to procure an abortion. They looked for Cream, but found he had gone. The father took the next train for Montreal, secured two policemen and captured Cream. Rural Dean Lindsay was induced to come to the village and in the hotel parlor the marriage took place. Cream stayed several days, professing much solicitude for his wife's condition. Then early one morning he was missing. He left a note saying he had gone to take a course of lectures at St. Thomas' Hospital. He mailed before he could be caught. The girl lingered through the winter, lost her speech and part of her senses. In the spring her speech returned, but her life went with the last days of June.

In June, 1877, Rural Dean Lindsay was in England and he heard, by accident, that Cream was about to marry a young lady, high in social life, rich and beautiful. Mr. Lindsay went to her and told her that he himself had married Cream to a Quebec girl who was still alive.

Not a Standard Bearer.

FRENCH LICK SPRINGS, Ind., June 29.—Judge Walter Q. Gresham will not be the standard-bearer of the People's party in the coming national campaign, having stated positively Tuesday that he will not accept on any account.

Prohibition Convention.

CINCINNATI, O., June 29.—Delegates to the Prohibition National Convention continue to swell the number already registered at the various hotels. There is a probability that Bidwell will be nominated on the first ballot and a remote possibility only that the contest between Bidwell and Demorest may attain such warmth as to make a new man advisable.

The Realization Stakes.

NEW YORK, June 29.—As the time for the decision of the Realization, the greatest and richest 3-year-old event of the year, approaches, interest in the race becomes more intense. The field of horses that will go to the post next Saturday will be one of the best class aggregation of 3-year-olds that ever faced a starter. Among them will be His Highness, Victory, Tammany, The Pepper, Charade and Patron, all heroes of many hard fought battles; colts whose brilliant achievements in the past give them every right to a trial for the big prize.

The estimated value of the event is $33,565, the second horse to receive $2000, and the third $1000 of the added money. It should be a great race, with the result in doubt until the wire is reached, although on paper His Highness looks to hold the field safe. The probable starters with their weights and jockeys are:

His Highness	122	Fitzpatrick
The Pepper	112	Sims
Victory	115	Taral
Tammany	119	Garrison
Charade	119	Bergen
Kennebec	112	Doggett
Patron	122	Hayward

For the Henley Regatta.

LONDON, June 29.—Henley prospects next week are none too bright. Some of the university colleges have had great difficulty in making up their crews, as have also the Thames and London clubs, but compensating for this the Dublin men are especially strong and are sending over two good crews to compete. Although the general election will be in full swing during the three days of the regatta it will probably have but little effect upon this great water carnival.

The Thistles Won.

FERGUS, June 29.—The first home game of lacrosse played here in the Northwest District came off Tuesday between the Shelburnes and Thistles of Fergus, resulting in four straights for the Thistles in 8, 14, 2 and 5 minutes respectively.

Results at Washington Park.

CHICAGO, June 29.—First race, 5½ furlongs—The Hero 1, Carmen 2, Lulu May 3. Time 2.12 3-4.

Second race, 6 furlongs—Content 1, Fred Houston 2, Eugenie 3. Time 1.28½.

Third race, 5 furlongs—Quiver 1, Shadow 2, Columbia 3. Time 1.15¾.

Fourth race, 9 furlongs—Highland 1, Low Weir 2. Two starters. Time 2.28½.

Fifth race, 3-4 mile, first heat—Big Three 1, Knott In It 2. Two starters. Time 1.31. Second heat—Big Three 1, Knott in It 2. Time 1.33.

DOMINION PARLIAMENT.

THE REDISTRIBUTION BILL PASSES THE HOUSE.

Various Amendments Were Proposed But All Were Voted Down—The Criminal Code Amendment Act Also Passes—Business of the Commons Practically Completed.

OTTAWA, June 29.—The fact that at the morning and afternoon session of the House the Redistribution Bill and the Criminal Code both passed through their final stages in committee, and were read a third time and passed, is the best possible evidence that a good day's work has been done, and it may now be considered that prorogation next week is placed beyond peradventure.

Sir John Thompson moved that the Redistribution Bill, after its passage, go into effect upon the dissolution of the present Parliament, which was carried.

On the second reading Sir Richard Cartwright moved his motion, which he had given notice of and which was to unite the two Grenvilles, Frontenac and Lennox, which would provide for the two additional members given to Ontario and that the other constituencies in the province be undisturbed.

Hiram Calvin, the new member for Frontenac and successor to the Hon. G. A. Kirkpatrick, protested against the amalgamation of the four counties. He accused Sir Richard of desiring to benefit his many business interests by uniting them.

The amendment of Sir Richard Cartwright was lost by 51 to 90.

The House divided on a motion of Mr. Yeo to stick to county lines in Prince Edward. It was lost by 54 to 87. Messrs Maclean of East York, Weldon and Dickey voted for the amendment.

After luncheon Mr. Bechard moved an amendment to the effect that the two parishes taken from Missisquoi and placed in St. Johns and Iberville be replaced in Missisquoi. Lost by a vote of 54 to 89 against. Messrs. Pope, Pelletier and Lepine voted with the minority.

Mr. Pelletier then moved an amendment to the effect that the Indian village of Caughnawaga be replaced in the county of Napierville and Laprairie, which was lost on division, and at 4 o'clock Mr. Speaker had the pleasure of announcing that the Redistribution Bill was passed.

The Criminal Code.

The clauses of the Criminal Code which had been reserved from time to time were then taken up.

Section 123 relating to the publication of false news was amended so as to read as follows: "Every one is guilty of an indictable offence, and liable to one year's imprisonment, who wilfully and knowingly publishes any false news or tale whereby injury or mischief is or is likely to be occasioned."

Section 130 was amended to include members of Parliament and of the Provincial Legislatures, and now reads as follows: "Every one is guilty of an indictable offence and liable to 14 years' imprisonment, who, holding any judicial office or being a member of Parliament or of a Legislature, corruptly accepts or obtains or agrees to accept or attempts to obtain for himself or any other person any money or valuable consideration, office, place or employment on account of anything already done or to be afterwards done or omitted by him in his judicial capacity or in his capacity as such member of Parliament or of the Legislature, or corruptly gives or offers to any such person or to any other person any such bribe as aforesaid on account of any such act or omission."

Clause 205, relating to lotteries, was amended so as to change the penalty for selling lottery tickets from 20 to 2 years' imprisonment or $2000 fine, and provision was made that any one buying a ticket shall be liable to a fine of $20. A new sub-clause was added exempting from the operation of the clause any company or association incorporated or authorized by the Parliament of Canada or any local Legislature to run a lottery.

The effect of these clauses if enforced will be to prohibit the sale of foreign lottery tickets and give a monopoly to those lotteries already authorized by the Province of Quebec.

Railway Subsidies.

The railway subsidies were brought down to-night. They are very long and amount altogether to over $5,000,000, but by far the greatest part are re-votes, and the new subsidies only amount to about $1,500,000.

OTTAWA, June 29.—The dull routine of the "strictly business" sessions of the morning and afternoon was broken last night by about three hours of the liveliest kind of a debate on the Caron charges, which was started by Sir Richard Cartwright on the motion to go into supply and continued by Sir John Thompson, Hon. Mr. Laurier and Hon. Mr. Ouimet. There was no amendment offered and no vote was taken. The matter was simply talked out and then the House got into supply and passed items until midnight, when it adjourned until Thursday.

Murray Defeated By Nearly Seven Hundred Majority.

OTTAWA, June 30.—The election in Pontiac County yesterday for the seat rendered vacant by the unseating of Thomas Murray (Liberal) resulted in the election of John Bryson (Conservative), the former member, over Murray, who was again a candidate, by 686 majority.

Murray's majority at the general election, when two Conservatives ran, was 110.

A Trip to Death.

WINDSOR, June 29.—Mrs. Luke Montreuil, aged 72, tripped over some wire netting on the street Tuesday, and received injuries which will probably result fatally.

INTERESTING ITEMS BY WIRE.

An Englishman named E. N. Smith jumped off Beachy Head, near Eastbourne, Sussex, and alighted on the rocks 600 feet below. He was smashed to fragments.

COMMERCIAL PROGRESS.

All the Colonies Represented—Lord Rantsford Welcomes the Delegates—What the Program Sets Forth.

LONDON, June 29.—The second Congress of the Chamber of Commerce of the British Empire opened at 10 o'clock in Merchant Tailors Hall, one of the richest corporations in Threadneedle-street. Sir John Lubbock, president of the London Chamber of Commerce, presided and, assisted by the committee, welcomed the delegates sent from every portion of the British Empire. The Right Hon. Sir Michael Hicks-Beach, President of the Board of Trade, is vice-president of the Congress.

Lord Brassey offered a resolution, which was adopted, declaring that in the opinion of this congress it is expedient that a practice' arrangement should, if possible, be devised to secure closer commercial union between the Mother Country and her colonies and dependencies.

Sir John Lubbock, in behalf of the London Chamber of Commerce, offered a resolution favoring a free trade union of Great Britain and her colonies.

Sir Charles Tupper moved as an amendment the resolution of the Montreal Chamber of Commerce, which was adopted by the Canadian delegates as a whole, in favor of slight differential duties.

Sir Charles' speech carried away the congress, all the Canadians being most enthusiastic in its support.

Sir Donald Smith seconded the amendment.

Mr. Wood of Hamilton made a speech in favor of free trade between Canada and Great Britain.

Many of the British delegates applauded Sir Charles Tupper's proposal, while others declared the increase in the price of food would be a fatal objection.

At the afternoon session J. X. Perrault of Montreal and P. H. Burton of Toronto strongly supported a preferential tariff.

Sir John Lubbock's motion was adopted.

The Program.

The program of the Congress includes:

Discussion of the commercial relations of the Mother Country with her colonies and possessions, with special regard to the renewal of European treaties and recent commercial legislation in the United States:

Board of conciliation for labor disputes;

The codification of the commercial law of the Empire;

Imperial regulation of trade-marks and the adoption throughout the Empire of the merchandise mark act;

Bills of lading reform, factory legislation throughout the Empire;

Commercial education, including scheme initiated by the London Chamber of Commerce;

Emigration and colonization;

The necessity of an Imperial system of decimal currency;

Weights and measures;

The International Monetary Union;

A system of Imperial penny postage;

Direct telegraphic communication throughout the Empire;

Indian taxation;

Light railways;

The abolition of light dues and treaties of commerce with native tribes and territorial delimitation.

This is a longer program by nine subjects than that discussed by the first Congress, which met on July 6 and 7, 1886, when 93 chambers of commerce and other commercial associations, home and colonial, were represented.

KILLED AT THE SUPPER TABLE.

Fellow Boarders Engage in a Quarrel Which Results in Murder.

TROY, N.Y., June 29.—William Wesson, 21 years old, was murdered last night while sitting at the supper table in his boarding-house in St. John-street, South Troy.

Thomas Jones, aged 66, a fellow boarder, is charged with the crime. Both worked at the wire mills. They were the only occupants of the room when Wesson was killed.

Jones had been drinking during the day and had not been at work. He and Wesson quarrelled, it is said, over a trivial matter, after which Jones left the room. He soon returned with a revolver which he had taken from his bedroom and, without further dispute, aimed it at Wesson and fired.

The bullet entered Wesson's brain, killing him instantly. Jones is now under arrest. Wesson came to this country from England last fall and has no relatives in the United States.

The prisoner is a native of Wales and has been in this country 27 years. The two men had quarrelled several times before when Jones had been drinking. On Saturday, it is said, the prisoner asked Wesson to fight a duel.

WORK OF FIREBUGS.

Incendiaries Burn Hay Bros.' Flour Mill at Listowel.

LISTOWEL, Ont., June 29.—Although since the attempt to burn May Bros.' flour mill 10 days ago extra precautions against incendiarism have been taken, the firebugs succeeded yesterday in their attempt, and both flour mill and elevator, together with 200,000 bushels of grain, were destroyed. The mill was fired in four different places.

The estimated loss on the mill is: Building and machinery $20,000, and insurance $12,000; on stock $18,000, and insurance $16,000.

Toronto Man Burned Out.

MONTREAL, June 29.—At 10 o'clock yesterday morning the residence of E. C. Mann of The Jewelers' Guide was completely gutted by fire. The loss is estimated at $300, a portion of the furniture being saved. The building itself was damaged to the extent of $1500.

Fashionable Ottawa Marriage.

OTTAWA, June 29.—A fashionable event of the summer was the marriage at Grace Church yesterday of Miss Annie White, daughter of late Hon. Thomas White, to Rev. W. H. Green of Whitewood, N.W.T. The ceremony was performed by Dean Carmichael of Montreal, assisted by Rev. Mr. Gorman. The groom was supported by Mr. Agar Adamson as best man, Messrs. W. E. Christie and W. C. Hodson of Montreal and E. F. Taylor of Ottawa acting as ushers. Miss Laura White was maid of honor and Misses Mabel Macrae, Minnie Barclay and Mabel Hodson of Montreal and Muriel Barrow and Jessie White of Ottawa were bridesmaids.

After the ceremony a reception was held at the residence of Mrs. Thomas White. The happy couple left by afternoon train for Montreal, whence they proceed to Whitewood by way of Chicago and St. Paul.

Escaped From the Constable.

HAMILTON, June 29.—Thomas Gray, wanted for assault, was being conveyed by Constable Littlehales from the jail to the Police Court yesterday, when he suddenly remarked, "Well, bye-bye, John, I don't think I shall go up to court with you today," and before the astonished officer could make any attempt to secure him he was off and is still at large.

(From Our Own Correspondent.)

The village and country surrounding never presented a more beautiful appearance, as the trees and vegetation are far advanced. Little or no sickness.

Some part of the burnt district of our village is being rebuilt, whilst others are talking up re-building.

There has been considerable grain marketed at Peterborough from this district during the June market.

The Rev. John Ewing, of Mount Pleasant was the recipient of an excellent covered buggy made specially by Messrs. Fitzgerald & Stanger of Peterborough. The Smith branch of his charge were the prime movers, and were joined by Omemee and Mount Pleasant. The best feelings and wishes were unanimous that evening.

The Presbyterian excursion promises to be a grand success to Port Perry on July 4th per steamer Crandella from Lindsay, fare from Bobs, Missing Link for round trip 65c. This offers a good chance for parties from Peterborough to visit this town and return same day, leaving three hours at Port Perry. Smith band will be in attendance.

The Days of Death are Approaching.

Cholera Infantum the Destroyer—How to Preserve the Dear Babies.

"THE hot weather is very fatal to infants. We now have our busy time with the little ones, and it is likely to continue till the end of August."

The above assertion was made a few days ago by one of our busiest physicians—a gentleman well known in Toronto. His remarks are truly suggestive, and should cause mothers to think seriously.

The hot weather, and the troubles that it brings, take off two-thirds of the unfortunate infants that are born in early summer. This loss of life is appalling and demands immediate attention.

Medical opinions agree that unhealthy and impoverished breast milk, stale cow's milk, and dangerous artificial foods are the causes of this excessive mortality. The ablest and best physicians are of opinion that Lactated Food is the only pure, wholesome and nutritious dieting that can be administered to the infant at present, when the mother is unable to furnish nature's food.

Lactated Food at this season means life and vigor for the babies of our country, while cholera infantum is raging around us and tearing away its numerous victims. It is noteworthy that in every family where Lactated Food is used not one infant has been stricken down by summer complaints.

Officials of public institutions where children are cared for have testified to the grand effects of Lactated Food during the heated term, and has assured us that it has saved many little lives.

The infants and little ones relish the food and thrive fast when fed on it. Bad temper, crossness and peevishness are banished and joy and happiness reign supreme.

Canada's Largest Man.

Leonard Whitton, of Brighton, brother of the cheese inspector, James Whitton, of Belleville, has continued to gain in flesh and is now classed as the biggest man in Canada. He weighs 469 pounds. His measurement is as follows: Around the shoulders, 5 feet 6 inches; chest, 5 feet 2 inches; hips, 6 feet 2 inches; neck, 1 foot 11 inches; arm at shoulder, 2 feet 2 inches; arm below elbow, 1 foot 5 inches; thigh, 3 feet 9 inches; calf, 2 feet. His head measurement around the temples is 23 inches. Mr. Whitton attends daily to his business and is quite nimble on foot. Ten years ago he did not weigh more than 150 pounds, and during the past few years he has increased in weight rapidly. He is comparatively young, under 40 years of age, and may yet add an extra fifty or seventy-five pounds to his enormous weight. —*Brighton Ensign.*

KEENE, ONT.

A Christian pastor, ever kind,
Beloved where'er he goes;
Gentle and courteous to all,
A Christ-like spirit shows.

Many grieve that it's the church rule
To change so as they do;
For pastors like him every way
Are far between and few.

My thoughts when first I him beheld,
Truth in his face did shine;
Within me whispering some thing said,
His look it is Divine.

A great loss kept from hearing him
All who's detained can say;
How open can the Book of Books
Like him its truths display.

Unto the church long be he spared
To be as he has been.
Faithfully leading forth the flock
Of God in pastures green.

Being called as was the seer of old,
God's word he doth apply,
Bringing souls dead in sin to life,
That in the valley lie.

Throughout the circuit when he leaves,
The anxious wish: to wot,
If one like Bro. Curts, or no,
Is next to be our lot.

(From Our Own Correspondent).

The Freemasons of this place held their annual excursion on the 24th inst. The steamer Beaver was chartered for the occasion. They report having spent a very pleasant and enjoyable time.

The members of the Keene Christian Endeavour Society held a social on Wednesday evening, the 22nd. They not only had a sociable evening but a very profitable and entertaining evening.

The Rev. Mr. Curts, the pastor of the Methodist church of this circuit, removes to Belleville this week, and the Rev. Mr. Howard takes possession of his pulpit on Sunday next.

The crops in this vicinity look excellent, but the farmers report the fall wheat to be rusting. We trust that it will not injure the crop.

Our annual union Sunday school picnic and excursion is to be held on the 6th of July. The steamer Beaver is chartered as usual for the occasion, and a pleasant time is anticipated. The steamer leaves the wharf at 9 a.m., and proceeds to Idyl Wild, where the picnic will be held.

In preparing the churn scald with boiling water, and immediately cool with cold water. If dry before using, treat first with cold water. When the temperature of the churn is reduced to that of the prepared cream it is ready for use. Decide the temperature of cream for churning according to that of the surrounding air. The following table may be safely adopted:

Temperature of air.	Temperature of cream.
66°	55°
64°	56°
62°	57°
60°	58°
58°	59°
55°	60°

To heat the cream place vessel containing it in hot water and stir continually so as to warm equally. Be very careful not to warm it too much, or the butter will be injured, and the water into which the vessel of cream is plunged should not be more than 100° F. At any time when the temperature of the air is above 55° take that of the cream over night, and if above 60° cool it by the best means at command. In a covered can it may be hung in the well, or it may be placed in a tub of cold water, or in a dry but cool cellar. It is better to reduce the temperature to a point too low for the purpose (for it can be easily warmed again) than to have it even a few degrees too warm when required for churning. If the cream is too thick for free churning it may be corrected by adding water, which, carefully mingled with it, will help in reducing the temperature, if that is necessary. Cream churns best when yielding 3 lbs. of butter to every gallon. The thermometer (without which dairy work cannot be properly carried on) should be of glass, as most easy to keep clean. It is well to have a good and reliable instrument of the ordinary type hanging in the dairy, to register the changes in the temperature of the air, and to serve as a standard for the glass instruments used with the cream. Having such, do nothing by guesswork; note the conditions affecting your work; do not judge by the season, but only by the temperature of the air.—Farm and Home.

A Tree Setter.

It is made of a good piece of 1x3 inch pine sawed into proportions indicated and hinged together. A notch 1 inch deep is cut in the end of the shorter piece. Strong pegs are driven through inch holes bored in the longer piece and extended 5 inches below. One peg is continued above the board 2 feet for a handle.

The land for the orchard is previously measured off and a small stake driven in each place where a tree is to be set. The notch of the setter is placed against the stake and the pegs pushed into the ground. Then the short end is raised up and the hole dug. The end is then let down and the tree placed in position in the notch and the planting completed. The trees can be set true to a line and will occupy the same position as the stake did.

About Corn-Planting.

The old system of planting corn in hill with rows each way is going out of fashion. In drills each stalk has better chance than when three, four or five are compacted within space of a few inches. Still if the ground is rough with stones or stumps, and especially if it is weedy, the hill method is preferable, as it gives opportunity for doing most of the work with the horse. It may be put down as a rule that unless the land is smooth enough to harrow, and thus kill the small weeds in the hill both before and after the corn is up, the drill system will not pay. After two or three thorough harrowings over the entire surface, a cultivator through the rows one way will clean out all weeds. The largest crops have been grown this way, the chief extra labor being in the cost of harvesting, and that mainly because there was more corn and stalks to be harvested.

A Cheese-Making Advantage.

A correspondent of Farm and Home says: A great advantage in cheese-making is that cheese is made from summer milk. All dairy men possessed of cheap pasture lands realize that summer milk doesn't cost as much as winter milk, and that a business which turns summer milk to profitable account without necessitating attention to winter milk is an advantage. In this work there is no call for all-the-year-round milk; the object is to get summer milk. In my own herd the cost of keeping a good cow for winter milk with food at market value is $50 to $55 a year. The same cow run for summer milk is kept for $10 to $15 less. This leaves quite a margin for difference in the year's income without interfering with the profit.

A Help to Beginners.

Many beginners in farming find it a great advantage to take contracts for growing certain kinds of seeds. These are always the varieties most easily grown, and the seed man can usually hire some one to grow them for him cheaper than he can grow them on his own more valuable grounds. It is thus that oats, barley, wheat, rye and potatoes are procured for the largest seedmen. They furnish the seed, and thus insure its freedom from mixing with other kinds. They also require that all the product shall be disposed of to them at something above the usual market price. Hence it is a paying operation for both parties, as bargains ought always to be.

Why Orchards Are Unproductive.

There is not much doubt that lack of available mineral food is the main reason why many orchards are unproductive and trees do not live as long as they did in the early settlement of the country. The roots have their limit. To compel them to bear fruit year after year without bringing extra food within their reach would be like tying a cow to a stake and leaving her, with the expectation that she would thrive. It is only a question of time for her to starve. The tree does not absolutely die. The winds come along and furnish carbon for leaves and a little yearly wood growth. For fruit there must be something more.

The Potato Tuber Moth.

The entomological section of the United States Agricultural Department reports a very dangerous insect enemy of the potato. It is known as the potato tuber moth, and has been exceedingly destructive in Australia. It first appeared in the country in California, last November. Efforts will be made to stamp it out by destroying potatoes infected with it, and if necessary suspending potato culture for a year or two when the moth has appeared.

EXTENSIVE CHANGES IN

THOMAS KELLY'S
DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

A Picnic Pull.

At a meeting of the C.M.B.A. held last night, Mr. Geo. Ball was appointed captain of a tug of war team representing the C. M. B.A. with instructions to issue a challenge, which is hereby done, to a team selected from the E.B.A. or the C.O.F. to compete in a tug of war contest at the picnic on the St. Joseph's Hospital grounds on Dominion Day. The stake to be a barrel of flour to be donated to the House of Providence. Great interest is being taken in the tug of war contest on *Dominion Day*, between the teams from the Edison Works and the Lock Works. The excitement is running high.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilson, Secretary of Committee.

Hot for Victoria Park.

Where will you go for Dominion Day? I will tell you the coolest, cheapest and best place will be to take a trip down the river to Victoria Park. This beautiful park has been fitted up with every convenience for picnic parties, with swings, tables, etc. The steamer Golden Eye will run two trips to the park—one in the morning leaving the wharf at 8 a.m., and one in the afternoon at 2 p.m. Those who cannot leave in the morning will be able to go in the afternoon, so as to suit everyone. Boat races and foot races at the park, and dancing on the scow. Valuable prizes given away to those holding steamboat tickets. Tickets to the park and return—adults 25c., children 15c. Canoes carried free. Those preferring to go on to Rice Lake can take the fast sailing steamer Daisy, which also leaves at 8 a.m. for Jubilee, Gore's Landing, Harwood, and Idyl Wild. Return tickets, 50c.

Prepare to Celebrate Dominion Day.

Let every true citizen of Peterborough, along with every loyal subject of our Dominion, celebrate right heartily our national holiday, July 1st. In order to do this properly and in a becoming manner, every man, every youth and every small boy should don a suit of Grafton & Co.'s tailor made clothing. Is there any reason why you should not prefer deal with a house that makes a specialty exclusively and devotes its entire time and attention to this specialty? We produce novel and original designs—not a dreary heaping up of tiresome looking goods, but a clean stock of the latest styles, manufactured by first-class cutters and tailors. Mothers! read our advertisement on the last page of the EXAMINER and note the attractions offered in boys suits. Man! do you no that the best custom tailor never gave you better fitting clothing than what we offer you, at half the price. Therefore, while you are patriotic and loyal, don't forget to be well dressed on Dominion Day especially wh n it can be done for so little money at

DUNCAN CAMERON & Co.

Died in the Hospital.

Eddie Brown (Faulkner), of Bridgenorth, died at the hospital yesterday afternoon about five o'clock from, it is thought, the effects resulting from a stone thrown by a companion, which hit him on the leg below the knee cap. The bruise which caused the diseased leg was sustained some three weeks ago. The youth who is ten or eleven years old was removed to the hospital last Friday and has suffered intense pain.

The Cathedral Picnic at St. Joseph's Hospital Grounds, Dominion Day.

A fine programme of sports and games; a first-class dancing platform; dinner at 12 and refreshments during the day; exciting return baseball match between Indian River and Lock Works' Nines. Admission, 15c.; dinner, 25c. 1d

An Afternoon Runaway.

Yesterday afternoon about five o'clock as Mr. Frank Graham, of the Persian Steam Laundry was proceeding down King street, as he turned on Bethune street, his horse became frightened at the engine of a passing freight train and ran away. The vehicle struck a post alongside the road and the axle was broken. The horse broke away and Mr. Graham hanging onto the lines too long was thrown out and sustained a severe gash on his head. He was unconscious from the heavy fall for some minutes. Dr. King was summoned and he soon revived. The horse was captured before further damage was done.

Mount Hebron Encampment.

At the regular meeting of Mount Hebron Encampment held on Tuesday evening, 28th inst, one candidate was admitted and duly instructed in the mysteries of the patriarchal degree. The officers for the ensuing term were elected and Patriarch Thos. Workmen was unanimously elected as representative to the Grand Encampment. The constitution and bylaws, as printed and bound at the EXAMINER office, were approved, the members expressing their satisfaction at the manner in which they were gotten up and commending the EXAMINER office for its promptness in getting them out on such short notice.

Last Night's Blaze.

An alarm of fire rang out at ten minutes past one o'clock this morning, and the firemen quickly responded. The scene of the blaze proved to be a small, one story roughcast house on the corner of Water and McDonel streets. The building is a ramshackle affair and unoccupied. The roof was burnt off before the fire was extinguished. Mr. Robert Duncan, carter, owned the structure, and his loss is slight. The alarm sounded very loudly last night owing to the opening which has been made in the top of the tower for raising the bell. The firemen complain of citizens jamming on the hose wagon after dark and would like the practice stopped.

Kingston Speaks at Last.

The Kingston *Whig* says:—"The secretary of the local lacrosse team sent the following letter to-day to F. Pakraham, secretary Peterborough lacrosse club: 'I notice by EXAMINER that your club will play Kingston at Belleville for a cup, trophy or some such prize, the value to be mutually agreed upon. If this is reliable please let us know, as we consider such an offer a dead snap. We will put up the cup or anything to make you.' C. L. Bain, jeweller, has offered to give a silver cup for competition between the two clubs." The letter has been received by the secretary of the Peterborough lacrosse club, and the challenge will be given due attention at once.

Pointers for Wide Awake People.

The month of June to the wholesale dry goods trade is a sort of "between season month," according to an authority on the dry goods business. It is just the time when a retail merchant can secure special bargains provided he keeps his eyes open. About this time every house has a few drives, odd lines of one thing and another which they would like to clear out at low prices provided the right man turns up. It is sufficient to know that Mr. J. J. Sheehy visited the market again quite recently. This morning we noticed several large packages of goods being opened up in front of his store. Mr. Sheehy is bound to keep up his reputation for nice fresh goods, and challenges any and all competitors to produce better value in Prints, Lace Curtains, Parasols, Black Cashmeres, and Cotton Shirtings than he will show for the next thirty days. He would respectfully call attention to his advertisement in the paper, and as usual adds *no trouble to show goods.* 1dlw

Cheap Groceries.

As I am giving up the grocery and baking business, I will sell my present stock at a sacrifice in order to make a speedy clearance, as I am leaving town in a few weeks. Mechanic's Bakery and Grocery, corner of Dalhousie and Rubidge streets. T. I. WILLIAMS.

—The Peterborough Bridge Works shipped a large swing bridge 75 feet long this morning for the canal at Bobaygeon.

—The C. P. R. is receiving from the Dickson Company 100 cars of ties for renewing the sleepers on the local division where needed.

—To-day is monthly, quarterly and half yearly pay day for the corporation. The town clerk was kept busy to-day issuing checks.

—The town council will meet in Committee of the Whole to-night to discuss the proposed purchasing of the water works system by the town.

—A special meeting of the I. A. of M. will be held in the Labor Hall on Simcoe street, Saturday evening. A large attendance is requested.

—A large number are leaving for the lakes daily. The morning and evening trains to Lakefield are packed with human freight anxious for an outing.

—There are 208 candidates writing on the entrance examination for High Schools and Collegiate Institutes in Belleville, 66 at Port Hope, and 166 at Peterborough.

—Capt. Johnston of the steamer Hero, reports that the strawberry crop in Prince Edwards county will not be as great as expected. A blight has fallen upon them.

—An election is to take place in Ketchison Ward in Belleville, owing to the recent resignation of Ald. Anderson, chairman of the Finance Committee and Ald. Skinner by reason of his removal from the city.

—Four troops of cavalry paraded through the city to-day. They are a fine looking lot of men and marched well. They were under command of Col. Bruiton and Col. Rogers. Col Bruiton, *of Cobourg, is the oldest colonel in Canada.—Belleville Ontario.*

—The members of the Bicycle Club can procure their badges for the meet at Kingston from Mr. A.H. Stratton at the Peterborough Bookstore, Mr. A. Gibson, at Clarke & Gibson's, or from the Secretary Mr. R. E. Layfield.

—The Canadian Electric Works closed down last night for the remainder of the week for stock taking in consequence of the recent amalgamation of the Thompson Houston Co. and the Edison General Electric Co. All the departments are closed except the offices.

—The St. Joseph's picnic committee are putting the grounds in first-class condition for their great outing on Dominion Day. New seats, refreshment booths and tables have been erected for the great event. A fine dancing pavilion will also afford amusement for a large number.

—About one o'clock this afternoon the toll house on the Toronto road, just west of the town, was struck by lightning and totally destroyed. Mr. and Mrs. Hill, the keeper and his wife were both badly stunned, but they succeeded in saving most of their furniture. No insurance on the building.—Port Hope *Guide.*

—The Kingston *Whig* says:—C. Martin received a telegram from Ottawa, Saturday night, asking the Princess streets to play them on Dominion Day. As they already hold an engagement at the Oddfellows' picnic, Long Island park, with the Peterboroughs, this was impossible. Ottawa offered $100.

—The following tenders have been received for the additions to St. Mary's school. Corkery & Gallagher $1730, James Bigue $1475, Wm. Fitzgerald $1450, Frende & McGregor $2287, H. Carveth $1750, R. Clinkedale $1650, John Burns $1825. The contract was awarded to Wm. Fitzgerald, his tender being the lowest.

—Mr. J. H. Burnham, secretary of the Board of Trade, has received an official notice from Mr. White of the G.T.R. for the information of merchants as follows: "All forest products on cars which are found to be loaded beyond their marked capacity will be charged with respect to the excess for transhipment for 1,000 lbs. or under from, between 2 000 and 3,000 pounds, 50c per car for each additional 1,000 lbs. or part thereof 25c per car.

—The Kingston *Whig* says:—Because of the resignation of R. J. Colville from the secretaryship of the Peterborough Y.M.C.A., the association there has asked the provincial association to relieve it of the convention in February next. This is a good chance for Kingston to have it again, and the convention would fit in nicely as a starter for the newly dedicated building. Look after it, Mr. Williams.

Personal.

Mr. D. La Roy, of the East Toronto Cricket Club was in town yesterday.

Mr. J. B. McWilliams and family left this morning on a tour around the lakes.

Dr. Davies, of Belleville, formerly organist of St. John's church, Peterborough, was in town to-day.

Mr. Thomas Blezard, M.PP. for East Peterborough, was in town to-day.—Belleville *Intelligencer.*

Mr. Chas. Barnham, who has been fishing for the past few days at Deer Bay, caught an enormous salmon weighing eighteen pounds.

Mr. John Hagerman, driver G.T.R. and Mrs. Hagerman, have gone on an extended visit to relatives in Michigan and other states. Mr. M. Maloney is taking Mr. Hagerman's place.

Messrs. Eig. Hartley, Herbert Snowdon and Victor Milburn have returned from a two weeks fishing expedition to Deer Bay. They report the water too high for successful catches.

Mr. Wm. Willard, porter at the Snowdon House, while driving to town yesterday afternoon, the harness got loose on the horses letting the tongue down and throwing him out. Mr. Willard had his right arm severely sprained.

Mrs. W. J. Green, her niece Miss Dottie Cavanagh and Miss Hattie Walsh left last evening for the west on a visit to Mrs. Green's sisters Mrs. Eig. Walton, at Medicine Hat, and Mrs. Cavanagh, at Lathbridge. They propose visiting the coast before returning in the fall.

Mr. David Boyle, Toronto, representing the Ontario Government, is in town in the interests of the Mineral Exhibit of Ontario at the World's Exposition. Mr. Boyle has secured samples of the many minerals that are found in the northern part of this county—iron, mica, lead and copper. Ontario is very rich in minerals, and it is to be hoped that the public will do everything in their power to place her unrivalled natural resources in this respect prominently before the world.

THE PROPOSED WATER-WORKS PURCHASE.

It is generally known that a special meeting of the town council, called by the mayor, will be held to-night to consider the advisability of the purchase by the town of the system of Waterworks. A condition of the street franchise granted to the Water Company in 1881, for the purposes of laying mains, etc., was the right of the town, secured by covenant duly executed by the company, to purchase the system any time after October 31st, 1892, the value of the works exclusive of any consideration for good will or monopoly if not otherwise agreed upon, to be settled by arbitration. The question to be considered by the town council to-night is an important one, and one which from the nature of the case cannot be decided off hand. If the desirability of the town purchasing the waterworks is conceded, there still remains the serious consideration of finances. The ratepayers will demand that the utmost care be taken to avoid financial responsibilities that will be embarrassing to the town and will tend to retard its progress. The debt of the town is now about $255,000. The proposed system of sewerage to which the town is to a large extent committed, and which is an urgent need, will demand between $150,000 and $200,000, and the purchase of the water works will involve an additional $150,000 or $200,000. Thus we would have an aggregate possible liability present and immediately prospective of considerably over half a million of dollars. The increase of the town's liability by the amounts estimated would mean an increase in the rate of taxation on account of interest, from about three mills to nine mills. Now the question is to consider whether in view of our present liabilities and in view of those which a sewerage system would entail, it would pay to increase the town's indebtedness for the sake of the town owning a system of waterworks. The system at present is operated by a company composed of shrewd business men, who give us an efficient service at reasonable rates. And experience does warrant the conclusion that corporation management of any work is more economical than that of a business corporation. Under all the circumstances, it is imperative that this question should receive the fullest possible discussion and consideration before any definite action is decided upon. It is wise for the council to discuss the subject, for by discussion only can all the facts that should influence a decision in the matter be arrived at. The question in a word is, will it pay the town to purchase the waterworks, or is it best to allow them to be managed as they are by a private corporation.

Miss Melville will sell the remainder of her children's muslin caps and bonnets at reduced prices. 424 George street. Stamping done.

Long and Terrible Illness from Blood Poisoning

Completely Cured by Hood's Sarsaparilla.

Mrs. Mary E. O'Fallon, a very intelligent lady of Piqua, Ohio, was poisoned while assisting physicians at an autopsy 5 years ago, and soon terrible ulcers broke out on her head, arms, tongue and throat. Her hair all came out. She weighed but 78 lbs., and saw no prospect of help. At last she began to take Hood's Sarsaparilla and at once improved; could soon get out of bed and walk. She says: "I became perfectly cured by

Magnificent Music for the Masses.

A Proposal to Bring Gilmores Celebrated Band to Peterborough.

Mr. T. Dunn, who has brought so many first class entertainments to Peterborough, some of which have brought far greater pleasure to the public than profit to the impresario, is in correspondence with the agent of Gilmore's famous band of 126 performers, the finest and most perfect musical organization in the world. This is true whether it be regarded in the light of the completeness of its organization, the excellence of its equipment, the variety of its instruments, the perfection of its training, the merit of its programmes, or the artistic nature of its performances. The company is making a grand tour of America this season. They travel in a special train of ten cars, where the entire company of 126 musicians will live day and night throughout the entire tour. They will visit only the larger cities and towns, and if the proposal outlined below is carried out, Peterborough will be the only place in Canada outside Toronto and Montreal that will be favoured with a visit from the great Gilmore's Band. To secure such a visit it is necessary to raise a fund of $1,000, the cost of producing a concert by this organization.

THE PLAN OF PROCEDURE.

The proposition in reference to this matter in its broad and liberal features is one which must commend itself to the public with great force, inasmuch as it will permit every class of the community to enjoy a fine concert such as never has been given and in all probability will never be again given in Peterborough.

A subscription list will be circulated and contributions subscribed or collected for any amount from 25 cents to $25 on condition that the concert shall be free to the public. It is not intended to confine the contributions to Peterborough alone. Similar lists will be circulated in the towns surrounding Peterborough and easily accessible by rail, such as Belleville, Cobourg, Campbellford, and other places on the line of the G. J. R., Port Hope, Lindsay, Lakefield, etc., etc. There is no doubt that the guarantee fund of $1,000 can easily be raised. On the date of the great concert excursions will be organized at very low rates, and it is anticipated that there will be no difficulty in securing the presence of five or six thousand persons from outside places. The magnificent musical event will be free to all, the subscribed fund paying all expenses, and the public of this and the surrounding towns will have the pleasure of hearing a concert which will be an event in their lives. If the affair is rightly handled, and in conformity with the spirit of enterprise and loyalty to the town which characterizes the citizens of Peterborough, there is no doubt that it can be not only successfully but triumphantly carried out. Apart from the musical delight to be derived, the event will be a direct benefit to the town. The presence of a large number of visitors must be a source of profit, for they must be entertained and conveyed to the place of the concert, which will be one of the parks, for no building in town can contain half the multitude Gilmore's band concert will gather.

A suitable platform will be erected provided with a canopy to throw the sound forward so that acres of delighted humanity can hear the most delicate as well as the grandest musical effects.

It is to be hoped that the music loving as well as goahead citizens of Peterborough will enter heartily into the promotion of this enterprise which will not only overflow the town with citizens of our sister towns, but will provide magnificent music for the masses free of charge. It is a scheme that should be vigorously carried out.

Flora's Festival.

A Delightful Musical Entertainment—Very Successfully Presented—Mr. Ketcham Makes His Valedictory Concert a Decided Success—A Beautiful Spectacle and Excellent Music.

There was a fair audience assembled in Bradburn's opera house last night on the occasion of the presentation of the cantata "Flora's Festival" by three hundred school children under the direction of Mr. S. H. Ketcham. But the attendance was far short of the merits of the presentation. Those who through indifference failed to attend, will find their regret in direct ratio to the delight of their friends who were present.

The stage was a sight to delight the eye and gladden the heart. The stage was specially arranged. Sloping tiers of seats rose from the footlights to the flies, and thereon was a snowy slope of white clad children, dotted with flowers, for each child carried a bright bouquet of flowers. The wings were similarly filled, and the effect was surprisingly beautiful, which was greatly heightened when at the wave of the conductor's wand, the company of little fairies rose to their feet and poured forth the music of the opening chorus, "Hail, Smiling Morn." "Flora," Miss Clara Clarke, flower crowned and seated in her rosy bower, with her attendants, Misses Lizzie Ketcham and Lolo Pettitt. Her solo "Hail Holy Light," was sung in a voice of charming purity and sweetness. Then the cantata progresses and leads up to the crowning of the queen, Miss Nina Pettitt, who enters in regal *tenue* with her train and attendants, and ascending the stage took her place upon her flowery throne. Her attendants were Misses Hilda Hodgson, Annie Belleghem, May Armstrong, Clara Belleghem, Ollie English and Hazel McNeil, Masters Willie McNeil and Fred Sawers filling the office of high marshall.

The cantata is full of bright sprightly music consisting of solos, duets, quartets and choruses. And it was charmingly sung. The choruses especially showed evidence of careful and capable training. There was great steadiness, briskness of attack, delicate shading and altogether charming result. Every chorus was sung with spirit and telling effect. The little soloists also took their parts well and some really distinguished themselves. Miss Maggie Pritchard received enthusiastic applause for her solo number. The soloists were Misses Clara Clark, Lolo Pettit, Ethel Tully, Pearl Hamilton, Mamie McNeil, Nellie Hall, Pearl Lundy, Maud Lundy, May Armstrong, Maggie English, Aggie VanEvery, Mary Goldsmith, Jessie Budden, Margie Pritchard, Florence Hall, Maud West, Grace Brooks, Lily Foot, Annie Belleghem, Mrs. Clyde Green took the "Storm Spirit" solo very effectively.

The pretty and piquante semi-chorus of zephyrs was sung by Birdie Dawson, Ethel Tully, Aggie Van Every, Pearl Lundy, Maud Lundy, Maud West, Jessie Melrose, Pearl Hamilton, Mamie McNeil, Florence Brooks, Lily Miller, Ada McBain.

The boy soloists were Masters Percy Earl, Charles Seymour, Chester Laing, Frank Turner, Walter Brooks.

The finale chorus, was delightfully sung and formed a fitting conclusion to a most charming musical entertainment. This was followed by the singing of "Rule Britannia" sung with grand spirit and effect, and "God Save the Queen."

Mr. John Armstrong, organist of St. Luke's, Ashburnham, played the accompaniments in a most effective manner.

At the conclusion Mr. Ketcham, the conductor, returned thanks for the liberal patronage extended him, and intimated that this was the last of this kind of concerts he would present to the public. He submitted that the manner in which the music was given was an evidence of the benefits of the three years he has spent as teacher of music in the public schools. The present cantata had been only six months in rehearsal, and anybody acquainted with music must know that such results could not be accomplished in that time unless the pupils had a fair knowledge of music.

The audience will bear witness that the concert of last night was a proof that the teaching of music in the public schools was a great benefit, and that Mr. Ketcham has accomplished a great deal in laying a sound foundation of vocal music during his three years as teacher. The public has also to thank him for the several splendid musical entertainments he has presented within the past three years. They have always been successful in every sense. They have been very largely attended, given great pleasure, and as musical entertainments have been of very gratifying result. Mr. Ketcham's retirement from the position of music teacher in the public schools is a matter for regret. He has given very effective service and many who are prevented from taking private lessons have obtained a pretty thorough grounding in the rudements of music. It will be a long time before a successor to Mr. Ketcham will be appointed who will so satisfactorily fill the position.

Prepared to Desert

Peterborough To-morrow Evening to the 57th Battalion—The Turn out Last Night a Creditable One.

The 57th Battalion had their final march out last night before their trip to Kingston, and the annual inspection. The turnout was was a creditable one, the men never presenting a better appearance.

The whole battalion strength was 275. The line of march was down Murray to Water, up Water to London, to George, to Charlotte to Aylmer, to Hunter to George again, to McDonel and back to the Central Park, where the boys practiced creditably a battalion drill. The pioneer corps, seven in number, under Sergt. J. Motheral, made their first appearance and created a good impression as they ably headed the procession.

All the members of this corps except one are members of the Peterborough fire brigade also. The ambulance corps under Sergt. W. F. Harris brought up the rear of the procession. They were 11 strong and added much to the military finish of the battalion. The following orders were read before the men were dismissed.

Headquarters, Peterborough, June 28th, 1892.

Orders by Lieut. Col. J. Z. Rogers, commanding the 57th Battalion of Infantry, Peterborough Rangers.

No. 1 The officer commanding has been pleased to make the following promotions: "F" Company, to be corporal, Pte. F. W. Bates, vice Cimon resigned.

No. 2. A corporal's certificate has been granted to Corporal Wm McClelland, "A" Company.

No. 3. The battalion with band and bugle and drum corps, ambulance and pioneer corps will parade on Thursday evening in review order.

No. 4. Every non-commissioned officer and man must provide himself with soap, towels, blacking, brushes and pipeclay which will be carried in haversack.

No. 5 2nd Lieut. C. L. Benedict, 80th Battalion is attached to the battalion for drill and posted to "B" Company.

No. 6 Extract from general orders.

To be 2nd Lieutenant (prov). Jos. Mills, vice L. M. Heyes promoted.

2nd Lieut Mills to be taken on the strength from this date and posted to "F" company.

Lieut.-Col. J. Z. Rogers addressed a few words to the men strongly advising them to turn out promptly at the hour appointed—seven o'clock, on Thursday night, as every man would have to be lined up at that time. They were to present a clean appearance and preserve a proper demeanour. The battalion had to be entrained at 8 o'clock sharp, and therefore all must be on hand. The battalion will leave sharply at 8 o'clock to-morrow night. The special coaches will be attached to the local as far as Havelock, where the battalion cars will be separated, and they will be run as a special through to Kingston, reaching that place at 12 30 o'clock, where tents will be pitched and blankets provided for them. Capt. Longford, quartermaster, and a squad of a dozen men, left to-day at noon for Kingston to make all the preliminary arrangements. The band presented a fine appearance last night with their new helmets. The bugle and drum band was 16 strong, and the battalion band 28. Their music was finely rendered.

The Plan of Sewerage.

PETERBOROUGH, JUNE 29th, 1892.

To the Editor of the Examiner:

DEAR SIR,—Having read in your valuable paper at least four communications from two competent men, I am reminded that "A prophet is not without honour but in his own country." However, their subject is all importance, and they are quite able to handle it with the consent of the ratepayers, which can only be obtained when they are inspired by confidence—the key to which is a plain, practical plan, and a just assessment. Though a Liberal of the Liberals, I am an ardent admirer of useful home productions. Why seek foreign aid? Let all assessable property be assessed at full value for general purposes: water, trunk sewer, bonuses, etc. Local sewers, where required immediately, and other improvements when demanded, by a majority of the responsible residents at their own expense. How can a municipality prosper when the bone and sinew are assessed at full value or more, the surrounding community enjoying all the privileges at about not over one third that rate? Being forced to know well there is no system of assessment here, I do wish some one more able would lay the subject before the council, who have power and could rectify the serious error by putting a head on this department, thereby placing the source of revenue on a firm basis. Then will Peterborough become what I desire it to be, the most flourishing corporation in fair Ontario.

Yours Sincerely,
HUGH SPEARS, M.D.

North Monaghan Nuptials.

Wedding of Mr. J. J. Elliott and Miss Carrie Barnard.

Last night Balsam Grove, the residence of Mr. Jos. Barnard, Smith, was for the second time within a year the scene of an interesting wedding. In the presence of about 50 guests, Rev. Jos. H. Locke, preformed the solemn ceremony that united in marriage J. J. Elliott second son of the late James Elliott, Smith, and Carrie, daughter of Mr. Jos. Barnard, of North Monaghan. The bride who was beautifully attired, was assisted by Miss Elliott sister of the groom as bridesmaid, while Mr. Barnard brother of the bride, performed the duties of best man. After the ceremony the newly wed received the cordial congratulations of their friends, and the elaborate wedding breakfast spread under a large marquee placed upon the lawn, was partaken of by the assembled guests. During a part of the evening the High Park Brass Band was present and contributed greatly to the enjoyment of the occasion by rendering several beautiful selections. The popularity of the bride and bridegroom was shown by the large number of elegant wedding presents that were received. The occasion throughout was very successful and auspicious, and the hearty congratulations received by all the parties concerned was a happy augury of a happy wedded life for Mr. and Mrs. Elliott, who repair at once to their future residence, the McEwen farm, on the third concession of Smith, which was purchased and made ready in anticipation of the happy event recorded above. Mr. and Mrs. Elliott's many friends unite in wishing them every possible happiness and prosperity.

One of the most curious applications of photography is in the production of portraits of human heads and bodies in unnatural combinations, such as a very large head upon a diminutive body, or a head mounted

upon a cart, or a thousand and one similar monstrosities like to those in the accompanying illustrations. There are two ways at least by which these pictures can be made. By inserting the head through a canvas screen upon which the phenomenal portion of the picture is painted, the whole affair may be photographed by a single exposure. This is an old idea that has been used for many years in the production of grotesque photographs.

BLACK BACKGROUND TRICKS.

A more recent method is the use of a black background to cut off certain portions of the objects before the camera, the picture being produced by two or more exposures. For example, the picture of the child having an enlarged human head in a wagon was made in two exposures by the use of a black background. First the child and cast were photographed in front of a house, the open door of which formed a black background and made no impression on the plate. Then the camera was moved forward a short distance and the head was photographed in proper position upon the same plate. A sheet of black cardboard was placed in front of the lens to form a screen, a suitable aperture permitting only the head to be thrown upon the plate by the lens.

As the black background throws no image upon a sensitive plate, this process of photography permits an endless variety of

[Reproduction of a photograph obtained by the utilization of a black background.]

curious combinations, to produce which a number of exposures can be made upon a single plate if proper caution be exercised in manipulation.

New Adaptations of Graphite.

Until a comparatively recent date the use of graphite has been confined to the production of lead pencils, the manufacture of crucibles, and to various preparations for stone polishing, etc. Of late, however, its other qualities and adaptations have been made apparent, and utilized, opening up to the mineral entirely new and extensive fields of usefulness, prominent being its consumption as a lubricant. For the bearings of heavy machinery it makes a superior lubricant to oil, being clean, leaving no dripping grease, and one proper application lasting as long as the bearings themselves. When the discovery was first made that graphite possessed the property in question, some difficulty was experienced to keep it, as a lubricant, in place—it being, as originally employed, mixed with oil and applied to smooth surfaced bearings, but, though serving the purpose well for a while, the substance would creep out and escape, requiring constant renewal. This is obviated by the use of grooved bushings, the grooves being filled with a seventy-five per cent. graphite composition, the box requiring no refilling, and the bearings needing no new application until the box is worn out. For some time past graphite has also been made into a paint for smoke-stacks, boilers, and other metal surface.

Peat in Brickmaking.

A report in the Journal of the Society of Industry gives a comprehensive review of the present industrial uses of peat, from which it appears that peat dust is proving an excellent ingredient in the manufacture of light porous bricks, being mixed with the clay previously to baking, and the bricks made in this manner are said to be much sought after in certain branches of architecture. Again, for some time past the peat bogs of northern Germany and Sweden have been worked by joint stock associations, with a view to obtaining the elastic fibre, which, when free from dust, is used for weaving into carpets and other textile fabrics; considerable capital is invested in these undertakings in Oldenberg and Sweden. The paper industry, too, in the manufacture of peat cellulose, has shown a strong inclination for this tender and pliant fibre. The increasing use of peat chemically is shown in the manufacture of charcoal, peat coke, peat gas, etc., a valuable industrial product being thus developed from one of the cheapest of raw materials. Other articles of commercial value might be named derived from this source—boghead naptha, tar, solar oil, acetic acid, etc.

Impure blood is the cause of innumerable maladies. Hence one of the greatest benefactions to humanity was the discovery of Ayer's Sarsaparilla, which more than any other medicine, has saved America from becoming nation of invalids.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument Is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN

AND

EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

"German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.

Caught in a Shaft and Torn to Pieces.

TORONTO, June 28.—David H. Bogga, the senior partner of Bogga Bros.' coal and wood firm, Brockton, was yesterday killed in a horrible manner in his own engine house. A belt was loose, and Boggs entered the house for the purpose of adjusting it. The man who was working outside at the circular saw noticed a slackening in the speed and heard something striking against the wall. He accordingly looked in. To his horror he saw Mr. Boggs' body caught in the machinery and twisted violently about by the shaft of the fly wheel. The head was fractured in many places, the scalp was horribly cut and torn and the features were beaten flat. Both feet had been torn off a little above the ankles. He was quite dead.

Toronto Grain Markets.

TORONTO, June 28.—Receipts of grain on the street market yesterday was represented by one load of wheat at 80c. Hay was in light supply at $11 to $13 for timothy and $8 to $10. for clover. Straw sold at $8 to $10. Dressed hogs are quoted at $6.25 to $6.75 per cwt.

The only offering on call board to-day was one car of mixed wheat at 32 1-2c, without bids.

Ex-Lieutenant-Governor McLelan's Widow Marries.

HALIFAX, N.S., June 28.—A quiet wedding took place yesterday at 5 o'clock at Truro, N S., the contracting parties being Henry Tupper and Mrs McLelan, widow of the late Hon. A. W. McLelan, ex-Governor of Nova Scotia. The ceremony was performed by Rev. John Robbins.

Facts About Dyspepsia.

Wrong action of the stomach and liver occasions dyspepsia. Dyspepsia in turn gives rise to bad blood. Both these complaints are curable by B. B. B., which acts on the stomach, liver, bowels and blood, and tones and strengthens the entire system, thus positively curing dyspepsia, constipation, bad blood and similar troubles. dw

Across the Continent.

Wm. Renwick, M. D., M.R.C.S.E., Victoria, B.C., writes: "I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, been perfectly satisfied with its therapeutic efficacy. INTENSE SUFFERING!

Mr. William Buchanan, 24 years engineer in the Cunard Steamship Company's service, 8 St. John's Road, Kirkdale, Liverpool, Eng., writes: "I suffered two years of agony from an affection in the head which six physicians pronounced incurable.

They were divided in opinion as to whether it was acute neuralgia of the head or rheumatic affection of the brain, but all agreed that I could never recover. In my paroxysms of pain it needed two and sometimes three men to hold me down in bed. When at death's door,

ST. JACOBS OIL

was applied to my head. It acted like magic. It saved my life. I am well and hearty, and have had no return of the trouble."

"ALL RIGHT! ST. JACOBS OIL DID IT."

A FREE TRIP TO PARIS

And a Valuable and Handsome Prize will be Given Free to Everyone.

The publishers of THE LADIES' PICTORIAL WEEKLY will give a first-class cabin passage to Paris, France, and return, with all expenses for a six weeks' sojourn in that city (or its equivalent in cash, not to exceed $400) to the person sending them the largest number of words of not less than four letters each constructed from letters contained in the three words LADIES' PICTORIAL WEEKLY. To the person sending next to the largest list will be given an ELEGANT UPRIGHT PIANO (valued at $300). To the person sending the third largest list will be given TWO HUNDRED DOLLARS. To the person sending the fourth largest list will be given a PONY, CART and HARNESS complete (valued at $150). To the person sending the fifth largest list FIFTY DOLLARS in cash. A committee consisting of five teachers from the public schools of Toronto will be invited to be present and assist the judges in the award of prizes. ADDITIONAL PRIZES to be awarded in order of merit, three Ladies' Gold Watches, three Ladies' Coin Silver Watches, two French Music Boxes, two complete China Dinner Sets (consisting of over 60 pieces each), three Silk Dress Patterns and one French Mantel Clock.

A HANDSOME PRIZE OF VALUE will be given to EVERY PERSON who sends in one hundred words or over in this *our last Prize Word Competition.*

RULES.—1. Lists are to contain English and Anglicised words ONLY of not less than four letters each. 2. No letter can be used in the construction of any word more times than it appears in LADIES' PICTORIAL WEEKLY. 3. Words having more than one meaning, but spelled the same, can be used but once. 4. Names of places and persons are barred. 5. Words will be allowed in either singular or plural, but not in both numbers, and in one tense only. 6. Prefixes and suffixes are not allowed by themselves, but can be used in the construction of a complete word. 7. The main part ONLY of Worcester's or Webster's Dictionaries may be used as the governing authority. Each list must contain name of person sending same, with full postoffice address and number of words contained therein, and be accompanied by fifty cents for a two months' trial subscription to THE LADIES' PICTORIAL WEEKLY, Canada's high-class illustrated newspaper for ladies. The subscription price of fifty cents must accompany list of words. Do not send in separate enclosure. If two or more tie on the largest list, the one bearing the earliest postmark will receive the first prize, and the other the second prize. The complete number of words intended for the competition must be forwarded at one time. No alterations or additions to the list can be made after it has been sent to us. On account of the extra work involved in these competitions it is impossible for the publishers to enter into personal correspondence concerning the competition or rules thereof. All lists must be mailed on or before September 1st, 1892. The object of offering these liberal prizes is to introduce our popular and finely illustrated journal into new homes, and every prize-winner must subscribe for a year before their prize is forwarded. There will be no charge made for boxing and packing prizes. Present subscribers can enter this competition only by enclosing fifty cents for a two months' trial subscription, which will be sent to any address desired. Prizes awarded in the United States will be forwarded free of customs duty. The publishers desire to announce to the public that this will *positively be their last word competition.* Prizes will be awarded September 10, 1892, and names and addresses of winners will be published in our publication. Address, LADIES' PICTORIAL COMPANY, TORONTO, CANADA.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent, reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains

FASHIONABLE SHADES.

A Clever Woman's Digest of Some Things Affected by In Mode.

There seems to be a craze for shades of yellow just now, especially for evening wear. The truth is, says Katharine Grant, the New York fashion writer and critic, women are just learning how almost universally becoming the color is. There used to be an erroneous impression that to the sallow it was very trying, while, on the contrary, the truth is it apparently clears the complexion. The particular shade worn should, of course, be studied with reference to the skin, but I have never yet seen a woman who could not wear some variation of this hue and look well in it. The dull, rich orange should be selected by brunettes, while the blonde or red-haired woman should match her hair as nearly as possible if she wants to be a delight to the artistic eye. A pale daffodil seems to be most in vogue here. I saw a case full of the dainty belongings dear to women in an importer's the other day, all in this delicate shade, and I assure you it seemed like "sunshine in a shady place." A great gauze fan with sticks of carven gold might have been carried effectively by some yellow-haired beauty. There were scarfs resembling in size the "long shawls" our grandmothers used to wear, of filmy fabric, shot here and there with gold thread and probably destined to glitter with bewildering effect on the shoulders of some fortunate belle on a Newport piazza this summer.

And those daffodil-hued silk stockings, rich in open-work of new and elaborate design! Every woman who looked at them sighed longingly and turned from them to the slender slippers set coquettishly and temptingly by them, matching as only French things ever do match, with their indescribable rosettes of chiffon, and the Parisian maker's name on the inside, with the captivating, ankle-twisting heels and the fairy soles that remind one of the story of that most fashionable shoemaker in Paris, to whom a patron returned with a pair of shoes with a heel off and a hole in the sole after one wearing.

"Madame!" thundered the great man reproachfully, with the shoe in his hand, "Madame! what do you expect? You have actually been walking in them!"

Somebody said quaintly that all these dainty things of pale gold must have been meant for the daughter of King Midas and, beside their suitability in color, I am afraid only that auriferous lady's father could afford to buy them!

Several Hundred Lives May Have Been Sacrificed—Cut in Two by a Steamer.

NEW YORK, June 28.—It is well-nigh a certainty that the upturned hull of a ship sighted floating several hundred miles to the eastward of Sandy Hook by the Dutch steamship Ocean was the wreck of the Fred B. Taylor, hailing from Yarmouth, N.S. Indications point to the occurrence of a terrible disaster, in all probability a collision, in which the Taylor was run down and cut in two by an ocean steamer. The catastrophe must have been attended with a frightful loss of life, including not only the sailing vessel's crew, but also the steamship's passengers and sailors.

The steamship is believed to have been the Vega, which left Lisbon on June 5. She carried a crew of 50, and when she passed the rock at Gibraltar had 316 passengers on board, all immigrants, most of whom were Italians. She is now nearly a week overdue.

Captain Borup Recalled.

WASHINGTON, June 28.—Capt. Borup, United States military attache at Paris, who was accused by the self-confessed spy, M. Grenier, as being concerned with him in the sale of plans of French coast defences to Italy and Germany, has been relieved from further duty by President Harrison.

Whittier Will Write the Ode.

AMESBURY, Mass., June 28.—It is now a settled fact that the poet Whittier will write the opening ode for the World's Fair at Chicago.

Away! away! There is danger here!
A terrible phantom is heading near;
With no human look, with no human breath
He stands beside thee—the haunter—Death."

If there is one disease more than another that comes like the unbidden guest at a banquet it is Catarrh. Insidiously it steals upon you, "with no human breath" it gradually, like the ocean, winds its coils about you and crushes you. But there is a medicine, called Dr. Sage's Catarrh Remedy, that can tear you away from the monster, and turn the scythe's point of the reaper. The makers of this wonderful remedy offer in good faith, a standing reward of $500 for an incurable case of catarrh in the head.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

126 Lexington Ave.,
New York City, Sept. 19, 1891.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1892.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.

J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 30th, 1891.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 16th, 1891.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.

SUICIDE AT MOUNT FOREST.

Bertha Reid Kills Herself With a Dose of Insect Powder.

MT. FOREST, June 29.—Bertha Reid, aged 18, employed as a servant at Whyte's hotel, committed suicide Tuesday by taking a dose of insect poison which had been placed on a shelf in a closet.

Mr. Whyte was awakened by moans proceeding from her room, and on opening the door found her in great agony. Medical aid was summoned, but she died a short time afterwards.

She was an orphan from one of the homes and had been with Mr. Whyte four years.

I.O.G.T.

Reports Presented by the Chief Templar and Secretary—Decrease in Membership.

GUELPH, June 29.—At the 39th annual session of the Grand Lodge of Canada, I.O.G.T., yesterday the report of Chief Templar John L. Robertson was presented, showing a decrease in the membership, due (1) to the increase in per capita tax from 10c to 12c; (2) the depression in business, and (3) the organization of lodges in localities where there was not sufficient support or material to work.

The report of Grand Secretary Thomas Lawless gives the present membership of the order 10,088. This is a net loss in membership within the year of 1747.

Tragic Death of a Miner in British Columbia From Lightning.

VICTORIA, B.C., June 29.—Word has reached here from the Slocan country of the tragic death of a miner. On Monday last two prospectors, Billy Tonkins and S. J. Tabor, started for Martin Fry's claims.

At 2 p.m. Tabor staggered into camp. His hair was singed close on both sides of his head, his whiskers were burned off and a smell of burnt hair and flesh filled the hut. His shoulders were found to be badly burned, his forearm was burned even worse, while in the middle of his stomach was a patch as big as a cheese plate burned brown. The fronts of both thighs were burned and the end was torn off his boots, while his clothes were rent by the lightning. In half an hour a gang of ten men were racing up the Breakneck side of the ridge, only to come down two hours later with some old coats fastened between two pine poles and the limp dead body of Tonkins wrapped in them. They found him under a little pine high up amongst the white boulders, rolled over on his side, struck apparently on the left side of the head, his body burnt and his clothes rent by the lightning.

Some idea of the power of the lightning may be gathered from the fact that some specimens of mineral which had fallen from the dead man's hands when he was struck were partly melted by electricity.

POISONED BY ICE CREAM.

Asbury Park Cottagers and Hotel Guests Kept the Doctors Busy For Many Hours.

NEW YORK, June 29.—Much more serious than was at first supposed has the case of ice cream poisoning at Asbury Park, N.J., proved to be. One hundred and ten persons are now known to have suffered from the effects of the poison, and several cases, though not fatal, have given the physicians plenty to do.

Great excitement has been felt in the town, as the ice cream was distributed among many houses, some even being sent to neighboring towns, and the final results are not known yet. Those who have been the sufferers are nearly all summer cottagers and hotel guests.

It was at first thought that the cream, which came from Frederick Kurrus, at West Asbury Park, had been tampered with, but last night it was said that the poisonous substance in the cream was the result of the uncleanness of the cans in which the milk and cream were stored.

The worst case of poisoning was that of Mrs. Patterson. When the physicians reached her the action of her heart had almost ceased. It took fully three hours to revive her.

Dr. Williamson, who is physician to the Health Board of the village, will make a report on the matter, which will be investigated and samples of the cream analyzed. It is a curious fact that at several of the hotels where the same ice cream was eaten no ill effects were observed. In fact, from one house came an order for more.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City.

TORONTO, June 29.—The receipts of grain on the street yesterday were represented by 200 bushels of wheat at 80c for fall and 75c for spring, and 300 bushels of oats at 32c to 34c. Hay was in fair supply, 40 loads selling at $11 to $14 for timothy and $9 to $10 for clover. Straw sold at $8 to $10. Dressed hogs sold at $6 to $6.25 per cwt.

Business was very dull on call board yesterday. The only offering was a car of oats on track at 32½c. Flour is quiet at $3.60 to $3.70 for straight roller.

Horse Breeders' Association.

OTTAWA, June 29.—At a meeting of the Immigration Committee Tuesday morning a resolution was passed asking the Government to aid a Horse Breeders' and Sales Association to be started in Canada. This was done in response to numerous delegations to the Government from the association in question.

SHOT DEAD IN THE DOCK.

A Startling Tragedy Before a New York Justices' Eyes.

NEW YORK, June 29.—Max Clerget, a French boy, aged 18, was arraigned before Judge Martine Tuesday on a charge of committing an outrageous assault on Sarah Devens, aged 15.

"Are you guilty, Clerget?" asked the clerk.

"Yes, guilty."

The words had no sooner left his lips than John Devens, the brother of the girl, leaned forward and shot Clerget through the heart and he fell dead in the dock.

Devens was seized by the officers and locked up.

Bled to Death From a Pinhole.

LOUISVILLE, June 29.—From a hole no larger than a pin point James Muller bled to death yesterday. He had been ill for several months. Dr. Moody ascribed his death to the fact that his blood had lost its coagulative power and had become of the quality of milk. The corpuscles had recently become white. Yesterday morning one of the smallest vessels under the tongue was broken, the point where the blood came from being so small that no danger was apprehended. All efforts, however, to stop the flow proved futile. Every remedy was resorted to, but to no avail, and in less than an hour Mr. Muller had bled to death.

A TORONTO SENSATION.

She Lost Her Husband's Heart, Which Was Captured by Another Woman.

LONDON, June 29.—The Divorce Court yesterday granted, on the wife's petition, a divorce to Mrs. Strange from Dr. F. W. Strange, who formerly practised in London, but who now resides in Toronto.

According to Mrs. Strange's statement she was married in 1868, and six months after her marriage she accompanied her husband to Toronto. They lived happily together until they met Mr. and Mrs. Mathieson, who became patients of Dr. Strange. Mathieson died, and afterwards Dr. Strange left his wife and lived with Mrs. Mathieson. He told his wife that Mrs. Mathieson had what she had lost—his heart.

Dr. Strange made no defence.

STANLEY'S LATEST BREAK.

He Introduces his Wife at a Meeting as a Descendant of Oliver Cromwell.

LONDON, June 29.—Mr. Henry M. Stanley, who is the Unionist candidate for the House of Commons in the northern division of Lambeth, attended a meeting in that division Tuesday and addressed the electors from a cart. Mr. Stanley was accompanied by his wife.

Referring to the eight-hour movement he said that if he had only worked eight hours a day he would never have been ahead of the Germans in Africa, and would never have added 200,000 square miles of land to British territory.

Mr. Stanley was about to descend from the cart after finishing his speech when he stopped and said: "I had forgotten my duty. Gentlemen, let me introduce my dearly beloved wife, late Miss Dorothy Tennant. She is the descendant of the greatest Liberal the country ever knew—Oliver Cromwell."

This introduction brought forth cheers from the audience.

Suicide of the Countess Linsingen.

BERLIN, June 29.—The body of the Countess Augusta Linsingen, who disappeared from her home in Hanover a few days ago, has been found in the River Leine near that city. It is not doubted that the Countess committed suicide.

EARTHQUAKE SHOCKS IN MEXICO.

They Cause Great Disaster and Seriously Injure Several Persons.

GUADALAJARA, June 29.—The people of this city and surrounding country have been in a state of terror for the past two days on account of repeated shocks of earthquakes, which have been the most serious ever felt here.

The first shock occurred on Friday night and lasted 13 seconds, the vibration running from southwest to northeast. The glass in windows were broken and plastering in many buildings was cracked. Hundreds of people took refuge in the streets.

At daylight Saturday morning a second shock occurred, causing great disaster. No less than 100 buildings were completely wrecked. Several persons were seriously injured, but none killed.

Since then several shocks have been felt. The Colina volcano, south of here, is in active eruption.

Fatal Result of a Fencing Bout.

TORONTO, June 29.—Alexander Sproatt of Milton, a pupil at the Upper Canada College, died last night from a clot of blood in the brain, the result of a foil thrust received on Saturday while fencing with his cousin, another pupil.

BABY'S FACE WAS RAW

Distressing Itching Skin Disease Cured in One Month by the Cuticura Remedies.

When our boy was six weeks old he had a rash on his cheek. It spread on both cheeks and chin. His face was raw. I doctored with various remedies, but it got no better. My mother advised me to try the CUTICURA REMEDIES. I used them faithfully, and in one week the boy looked better. In one month he was cured, and now he is three years old and no signs of it returning. The child was so bad I had to tie him in a pillow-case, and pin his hands down so that he could not scratch his face. I cannot speak too highly of the CUTICURA REMEDIES. I recommend CUTICURA whenever I can. I would be pleased to see any one and talk to them of the good it has done my boy.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 85c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

WOULD YOU BUY
If the Price were Low?

Most men who do not own houses would become owners if they could do so at a moderate cost.

It is my business to build houses, the cost of which is within the reach of people in fair circumstances.

I have one house, well built, good location, Aylmer sheets, between Townsend and Black streets—$1,300. Look it up. Will have two on Dalhousie; work now going on.

AN ATROCIOUS CAREER.

DR. CREAM WILL PROBABLY SWING FOR HIS CRIMES.

A Scotland Yard Detective Comes To America to Hunt Up His Career—An Attempt to Swindle An Insurance Company—His Crimes In Chicago.

MONTREAL, June 30.—Many incidents of the Canadian career of Neil or Cream, the London poisoner, are coming out. A gentleman in Montreal, a well-known physician, remembers Cream perfectly. This doctor was at the St. Thomas Hospital in London in the winter of 1877, together with a number of other Canadian physicians, and Cream was studying at the hospital at the time.

"Cream was always a thorough blackguard and cad," remarked this physician. "His habits and conversation were of the lowest order. He was a hard, steady drinker, but was apparently capable of holding a great quantity of liquor for I never saw him intoxicated.

"Cream at one time in London robbed a woman, a street walker, of her purse, containing £3, and then boasted of it to his friends. Cream was never seen in company with a respectable woman and was always an exceedingly fast liver." The description given by this physician of Cream tallies exactly with the published description of Neill, the London poisoner.

Swindling Insurance Companies.

Cream, while a student at McGill College, made a bold attempt to swindle a leading insurance company of this city. At the time he was boarding in the house of Miss Jane Porter, 106 Mansfield-street, and now of Toronto. On April 18, 1876, a fire broke out in Cream's bedroom. It started in a drawer of a bureau and he was insured in the company referred to for $1000. To the astonishment of the company he claimed damages amounting to $975.40. He valued his clothing at $461.40, pictures and books at $293 and surgical instruments at $219. The insurance company suspected Cream of incendiarism, but they were unable to prove it. The matter was finally left to arbitration and three medical men awarded Cream $350 and a check was given Cream for the amount.

Saved the Skeleton.

Cream was also something of a practical joker. When the fire occurred in his room he dressed a skeleton in a suit of his clothes and laid it on his bed. The firemen, thinking it was a dead man, carried the dressed skeleton out.

A Scotland Yard Detective After Cream.

NEW YORK, June 30.—Inspector Frederick Jarvis of the Scotland Yard Secret Service has been in New York since Saturday last.

Thomas Neill, the alleged poisoner of several London girls, is receiving the attention of Inspector Jarvis. Neill is also charged with blackmailing the son of W. H. Smith, the late English statesman, and the inspector expects to secure a formidable array of evidence here against the prisoner.

Dr. Cream's Chicago Career.

CHICAGO, June 30.—Dr. Cream, alias Thomas Neill, came to Chicago in 1877 and opened an office in West Madison-street.

In 1880 Cream and a female confederate, Hattie Mack, were indicted for criminal practice. The Mack woman confessed, but Cream got a separate trial and was acquitted.

He was indicted in Nov., 1880, for sending improper postal cards through the mails. He gave bond on this charge and jumped his bail.

In Feb., 1881, Cream made the acquaintance of Mrs. Stott, the wife of Daniel Stott, a station agent for the Northwestern Railroad at Garden Prairie. Stott was 61 years old, his wife 33.

Stott died suddenly. An investigation was held and Dr. Cream and Mrs. Stott were arrested for murder.

He was convicted and sent to Joliet for life.

Mrs. Stott swore that Cream's scheme was to have her give him a power of attorney and then sue Buck & Rayner for $10,000 for putting up improper medicine.

Mrs. Stott admitted her improper relations with Cream, but denied complicity in the poisoning. She was allowed to go free.

In 1891 Gov. Fifer commuted Cream's sentence to 17 years, which, with good behavior in prison, gave him his liberty that year.

He went to Canada and thence to England.

CANNON FROM COLUMBUS' SHIP.

They Are of Ancient Pattern and Will Be Exhibited at the World's Fair.

CHICAGO, Ill., June 30.—Two of the identical cannon which were at one time mounted on board Christopher Columbus' flagship were received at the Fort Wayne depot yesterday. The cannon are of the ancient and clumsy pattern of guns turned out in the fifteenth century. Nothing but the body of the guns remains, the woodwork having rotted away centuries ago.

The guns are almost worn to pieces, and are not much more than huge chunks of rust. One of the naval officers who was detailed for work in connection with the Columbian Exposition found the relics at one of the West Indian Islands.

Tradition and substantial proof showed that the cannon had been used in a fort erected by Columbus' son, and that they were brought from Spain with the Columbus fleet.

The Government prizes the cannon as the best exhibits yet secured.

A Canadian Bigamist.

ROCHESTER, N.Y., June 30.—Howard W. Stevens, who, although of youthful years, has already taken unto himself one more wife than the law allows, was sentenced in the Sessions yesterday. When he was arraigned the second woman he married was in the court room and wept bitterly. To the charge of bigamy he pleaded guilty and was sentenced to the Elmira Reformatory. Stevens is a Canadian and married his first wife in Toronto.

Life With the Snorer Not Worth Living

COLUMBUS, O., June 30.—As her answer to her husband's petition for divorce, which was based upon her refusal to live with him, Mrs Barbara Turner filed in court here to-day an affidavit declaring that he snored so loud that life with him was absolutely unbearable.

Advance in Coal.

NEW YORK, June 30.—The sales agents of the anthracite coal companies met yesterday and advanced the price of coal to eastern points as follows: Broken coal 15 cents a ton, stove 30 cents, egg 35 cents, chestnut 35 cents. This practically means an advance to consumers of 50 cents a ton.

UNCLE SAM RETALIATES.

NOW IT IS PROPOSED TO STRIKE CANADA.

Provisions of the Bill Introduced in the Senate Yesterday—Tolls to be Collected At the "Soo" Canal—Canada Said to Have Offered Certain Concessions.

WASHINGTON, D.C., June 30.—Senator Davis reported to the Senate from the Committee on Foreign Relations with a favorable recommendation the bill to provide for retaliation against Canada. It is entitled, "A bill to secure certain reciprocal advantages to citizens, ports and vessels of the United States." The bill provides that after Aug. 1, 1892, whenever and so often as the President shall be satisfied that the passage through any canal or lock connected with the navigation of the St. Lawrence River, the great lakes or the waterways connecting the same of any vessels of the United States or of cargoes or passengers in transit to any port of the United States is made difficult or unjust or burdensome, by the imposition of tolls or otherwise, which, in view of the free passage through the St. Mary's Falls Canal now permitted to vessels of all nations, he shall deem to be reciprocally unjust and unreasonable, he shall have the power, and it shall be his duty, to suspend by proclamation to that effect, for such time and to such extent, "including absolute prohibition," as he shall deem just, the right of free passage through the St. Mary's Falls Canal so far as it relates to vessels owned by the subjects of the Government so discriminating against the citizens, ports or vessels of the United States or to any cargoes, portions of cargoes or passengers in transit to the ports of the Government making such discrimination, whether carried in vessels of the United States or of other nations. In such cases, except in the event of absolute prohibition, and during such suspensions tolls are to be levied and paid as follows: All freight not to exceed $2 per ton, on passengers not to exceed $5 each, as shall from time to time be determined by the President,

Canada's Concession.

OTTAWA, June 30.—It is reported that the last communication forwarded to Washington by the Dominion Government in reference to the canal tolls question offers to allow a refund of tolls upon all grain passing down the St. Lawrence, including that transhipped at Ogdensburg. This concession has hitherto been refused.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City.

TORONTO, June 30.—Receipts of grain on the street yesterday were represented by two loads of wheat at 80c for fall and 75c for spring, 400 bushels of oats at 31c to 33c and one load of barley at 41½c. Hay was in good supply at $11 to $13 for timothy and $8 to $10 for clover. Straw sold at $9 to $10. Dressed hogs sold at $6 per cwt.

On call board business was quiet, no transactions being reported. No. 1 Manitoba hard wheat at North Bay was wanted at $1 and was offered at $1.05 to arrive. No. 2 hard offered at 90c and No. 3 hard offered at 83c, with 81½c bid.

Took Rough on Rats.

TORONTO, June 30.—Mrs. Harriet Nicholls, wife of Joseph Nicholls, 6 Ramsay's-lane, committed suicide yesterday morning by taking "rough on rats." She leaves behind her three small children.

On the kitchen table was found a letter, in Mrs. Nicholls' handwriting, in which she stated that some neighbors were talking ill of her. She bid good-bye to her husband and told him to take care of the children.

I.O.G.T. Officers.

GUELPH, June 30.—The Grand Lodge I.O.G.T. to-day elected these officers:

F. S. Spence, Toronto, G.C.T.
F. S. Morrison, Hamilton, G. Couns.
Rachel Storr, Ottawa, G. Vice Templar.
Mrs. W. L. Scott, Toronto, Superintendent of Junior Templars.
Thomas Lawless, Toronto, G. Secretary.
Frank Metcalf, Blyth, G. Treasurer.
W. J. Turnbull, Paris, E. Lloyd, Toronto, Auditors.

The Committee on Bylaws presented their first report. The first amendment proposed a scheme for a life membership by the payment of sums from $20 to $2, according to the years the member has been in the order, one-fourth of the amount going to Grand Lodge in lieu of capita tax, the lodge receiving the balance. The amendment was carried almost unanimously.

Bad Mishap to a Doctor.

LONDON, Ont., June 30.—Dr. Murray of Bryanston was going to the stables for his rig yesterday when the cork of a bottle of nitric acid, which he carried in his top coat pocket, came out and the deadly liquid flew up on his face, burning it frightfully. The acid penetrated into his left eye, blinding the optic, it is feared, permanently. He will be disfigured for life.

Canada's Military Cadets.

KINGSTON, Ont., June 30.—Fourteen cadets were graduated at the Royal Military College yesterday. Sergeant Vercoe of Toronto was gold medallist. Sergeant-Major Fraser of Kingston secured the sword of honor and Battalion-Sergeant-Major Dumble of Port Hope received the Lord Stanley Prize. Messrs. Dumble, De Bary, Duffus and Clinch have accepted commissions in the Imperial army.

Cut in Twain by a Coal Car.

WINDSOR, Ont., June 30.—Joseph Cote, employed at the Michigan Central coal sheds, was run over by a coal car last night and cut completely in two. Cote was 55 years old, and leaves a wife and four children, the latter all married.

INTERESTING ITEMS BY WIRE.

The Premier of Queensland has received a letter threatening him with death unless the Elections Bill is withdrawn from Parliament. It is rumored a plot to murder prominent members of the Assembly has been discovered.

Mrs. Anne Margaret Montagu, who is serving a term of imprisonment for causing the death of her daughter, has given birth to a son in prison.

In Disak, Turkestan, 130 of the inhabitants have died of cholera in four days. The epidemic is more virulent at Kaakka, in the trans-Caspian territory. Several hundred cases are reported in European Russia. The inhabitants and troops stationed in the towns along the frontier are panic-stricken. The wealthier classes are seeking safety in flight. A St. Petersburg correspondent says it is reported that cholera has appeared at Saratoff, on the Volga. If the report is true it is almost certain that it will ravage the famine-stricken provinces.

WANT MORE PAY.

The Ottawa Members Think That They Should Receive More Indemnity.

OTTAWA, June 30.—Some 60 or 70 Members of Parliament waited on the Premier yesterday and urged that the question of a permanent increase of the sessional indemnity to $1500 should be considered. It was pointed out that the cost of living in Ottawa had materially increased since 1872 when the indemnity was fixed and that the sessions, which then averaged ten or twelve weeks, now run for four or five months.

Sir John Abbott said that a permanent increase of the cost of legislation by $150,000 was a very serious matter, but the Government would consider the question and try to meet the views of the members as far as possible.

The talk about the lobbies to-night is that a sort of compromise be effected and the indemnity placed at $1250.

One member suggested that it be fixed at $100 or $125 per month, to be paid monthly all the year round, whether the House was in session or not, but subject to deduction for absence from Ottawa during the meeting of Parliament. This suggestion seemed to meet with favor.

OTTAWA, June 29.—Commercial Bulletin No. 4 relating to eggs, poultry, canned goods and dried and evaporated fruits has been issued by the Finance Department. From it it appears that the export of eggs to Great Britain is rapidly increasing and that there is an almost unlimited market there for Canadian eggs. The most important point brought out by the bulletin is that the McKinley Tariff has not had the effect of reducing the price of eggs in Canada. A comparison of the average price paid for eggs to the farmers of Eastern Ontario for the seven months from April to October, both inclusive, for the last three years shows that in 1889 the average price was twelve and one seventh cents per dozen, in 1890 it was twelve and two-sevenths and in 1891 it was twelve and four-sevenths. Thus since the McKinley Bill came into power the average price of eggs in Canada has increased nearly half a cent a dozen.

DIED IN ENGLAND.

British Columbia's Premier Dies in London, Eng., While On a Visit.

VICTORIA, B.C., June 30.—Hon. John Robson, Premier of British Columbia, died in London, Eng., at 6 p.m. yesterday.

The dead Premier was in poor health when he left Victoria for London on business connected with Crofter colonization scheme. He was taken ill in London a few days ago and his weakness, aggravated by a slight accident, hastened dissolution.

Hon. John Robson was a son of the late John Robson of Sarnia, Ont. He was born at Perth, Ont., March 14, 1824, and in April, 1854, married Susan, fourth daughter of the late Capt. John Longworth of Goderich. He emigrated to British Columbia early in 1859 and established and edited The British Columbian. He was mayor of New Westminster in 1866 and Government paymaster of the C.P.R. in British Columbia from 1875 to 1879, when the position was abolished. He sat for New Westminster district in the Legislative Council from 1866 to 1870 and for Nanaimo from 1871 to 1874. He became Provincial Secretary and Minister of Mines in 1878 and continued in that office until 1887. He became Premier the following year. Premier Robson left for London a few years ago in connection with the Crofter immigration scheme.

The Well-Known Hamiltonian Passes Away at the Age of 31.

HAMILTON, June 30.—Thomas H. Stinson, who contested Hamilton against Hon. J. M. Gibson at the last general election for the Local Legislature and again at the bye-election in February, 1891, died last evening.

Mr. Stinson has been in poor health for several years. Uræmic poisoning, the result of Bright's disease, is assigned as the cause of his untimely taking off.

The deceased was one of the most popular young men in Hamilton. He was born here on Dec. 16, 1860, and was the only son of the late John Stinson, who was also born in this city. The family came to Canada from County Monaghan, Ireland, in 1823, and ever since has been identified closely with the material progress of the city.

The deceased leaves a widow and three children, the eldest 7 years of age. Mrs. Stinson is away from home traveling for her health in care of her brother. She is so far from well that she has not been informed yet of the death of her mother, which took place a week ago, and will not be told of the loss of her husband until her progress toward recovery enables her to bear the news.

Over the Bank.

BRANTFORD, June 30.—While a bus containing 18 ladies inside and four or five gentlemen on top was returning from a garden party one mile south of here last night the rig upset over the bank on the river road. The bus was smashed to pieces. Those most seriously injured are: Miss Irwin, head and face bruised; Miss Ryerson, head and back bruised; W. Donovan, badly crushed; J. Burtch, ankle badly bruised; T. James, badly shaken and bruised; Mrs. Adams, badly bruised, and Miss Forman of Toronto badly bruised.

Many Killed in This Wreck.

LITTLE ROCK, Ark., June 30.—The southbound passenger train on the Cotton Belt road met in a head end collision this morning with a freight train at Altheimer, 40 miles from here. Engineer McNeil of the passenger train was instantly killed and Engineer Norris of the freight and both of the firemen were fatally injured.

Of the passengers Mrs. J. Lester of Helena, Ark., S. B. Morrowe of Tucker, Ark., Mrs. W. Morris and daughter of Helena, Ark., were killed.

Stabbed By a Tramp.

CALEDONIA, Ont., June 30.—Hugh Atchison, a tramp, called at the house of George Grinyear and demanded money or food. He was very abusive, and when Grinyear attempted to eject him the tramp drew a large knife and stabbed him in the right side, the blade striking the last rib and glancing downwards. The tramp was arrested.

The Balfour Case.

HAMILTON, June 30.—James Balfour and Mrs. Balfour, the parties to the alimony suit of Balfour v. Balfour, were examined before C. Livingston, special examiner. Mrs. Balfour on oath admitted the charges of adultery with the stable boy.

Mr. Balfour will advertise for a divorce in a few days.

London Grocer Dead.

LONDON, Ont., June 30.—John Scandrett, a prominent wholesale and retail grocer of this city, died at his residence about 8 yesterday morning. Heart disease was the cause.

The Band and the Public

To the Editor of the Examiner:

SIR,—On Friday, the 15th of July, a band concert will be given in the drill shed in aid of the fund for the purchase of new instruments. This concert will be held under the patronage of the leading people of the town, and a united and determined effort is to be made to raise enough money to go a long way towards the $1000 required for new instruments. These instruments will, of course belong to the town, and it behooves every lover of good music, and every frequenter of the park, to buy tickets and encourage the scheme. The bandmaster says that these instruments are very badly needed. A few of the thousands of people that enjoy the weekly *free concerts* in the gardens can without difficulty raise a large sum by paying the ten cent admission fee at the door. Twenty-five cent tickets to be called band-aid tickets will be issued also for the many who will be unable to attend but wish to contribute. Let every one help on the movement of public feeling in this matter by a friendly word, and especially should those who go the park, lend every assistance in their power.

Yours, etc.,
MUSIC.

[The spirit of the above letter commends itself to the practical attention of every citizen. The public is under a deep debt of gratitude to the band, and the band will be happy to sign a receipt in full if they receive the necessary assistance to enable them to procure new instruments. Those now in use have not only been badly worn in the public interest but they are not of a style nor quality equal to those with which first-class bands are equipped. We must keep up to the times, and keep the band equipped with instruments equal at least to those used by first class bands. To appeal to civic selfishness—every cent contributed by a citizen is directly for his own benefit, for new instruments will be used to give pleasure to him and his family. A citizen buys a pianoforte for his daughter for the pleasure he will derive, not from its personal use, but by the performance of his daughter. On the same principle the band should be assisted. We are sure the public appreciate the band and its capital music, and if the appeals for assistance come with sufficient directness, there will, no doubt, be a liberal response.—ED. EXAMINER.]

Cold Springs, Otonabee.

(From Our Own Correspondent.)

On Monday evening, June 27th, Mr. R. J. Colville, Secretary of the Peterborough Y. M.C.A., was present at the meeting of the Cold Springs Y. P. S.C. E., and gave a very earnest, interesting and helpful address on missionary work, and also on address on temperance work. Those who were absent missed a very enjoyable and profitable evening. Mr. Colville has, on many occasions, lent valuable assistance to those engaged in Christian work in this neighbourhood, and will be followed to his future labours in Toronto by the good wishes and prayers of his many friends in Cold Springs. The collection taken up will be devoted to County C.E. Union work.

20 Miles to Procure Medicine.

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

Young's Point.

From Our Own Correspondent.

The first annual excursion of the patrons of Industry of the township of Ennismore, was run from Bridgenorth to Young's Point on Friday the 24th, by the steamer Mary Ellen. The excursion was largely attended and under the able management of the committee, Messrs. P. F. Flood, W. J. Carrol, and Jas. Scollard it was evidently quite a success. The popular minstrel troupe of Ennismore accompanied the party and at night gave a concert in Mr. Jas. Kearney's hall to a large audience. Conspicuous among the members of the troupe were Messrs. J. F. Sullivan, and J. K. and P. S. Galvin, whose songs and violin and banjo solos were well appreciated by the audience. The excursion party left on Saturday morning after having spent an enjoyable and a pleasant time. We were pleased to notice that everything passed off very quietly and orderly.

The boats have started now to run regular trips to make connections with the trains at Lakefield, which are also running on a new time table.

Hygienic Water.

A new domestic beverage which is becoming daily more and more popular.—Water as often met with is very unhealthy. But even when good, too much should not be taken, as there is danger of colic, which makes one regret not having been more abstemious. However it is necessary to drink at times, and when the weather is very warm, the more one drinks the more one wants to drink, without being able to quench thirst. We give here a beverage easily made, and which costs next to nothing, one which quenches the thirst without producing any unpleasant results; on the contrary it makes a very healthy drink, and one which will save you much in the way of doctor's bills.

To every 3 or 4 pints of cold water, steep for a short while before drinking, a teaspoonful of the indigenous Bitters. These Bitters (if the Genuine, and not an imitation) contain roots of a warming nature, which render the water harmless.

A 25cts. packet of the Indigenous Bitters will thus give you several hundred drinks, agreeable to the taste, and much more healthful than pure water as instead of injuring, they stimulate the appetite, regulate the bowels, and strengthen the stomach, especially when used regularly. 1d

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE AMERICAN DOCTORS

(20 Years practice in Europe and America.)

A staff of eminent American Physicians and Surgeons have opened an office for medical and surgical attendance, at No. 2365 St Catharine Street, Montreal. They give free services to all who call upon them before August 1st, 1892, and frankly tell you if your case is curable or not. All incurable cases are rejected. Special attention is paid to every case. Invalids living outside of Montreal should address their letters to Mr. JOHN MURRAY, Manager, and inclose two 3 cent Stamps for a system blank and question sheets.

A Story in Every Face.

I love old faces; they are always true, writes Gerard S. Lee in an article entitled "As it is Seen in Our Faces" in the June Ladies' Home Journal. The old man's face is his autobiography; it is his life in miniature. A face is the scenery of the soul, the camera of our thoughts: although we have not really seen a face until our hearts have followed the whole repertoire of its expressions, yet each man's habitual face, as a fair general expression of himself, is as if a composite had been taken, and the soul had had a thousand sittings, each negative differing in its way, but all combined resulting in this one. Why should a man be ashamed of his wrinkles? It is being ashamed not of what he seems, but of what he is. Wrinkles in a man's face are a kind of orthography, nature's handwriting, the shorthand of features, in which the main ideas of a man's life are set down without his knowing it, and in spite of himself, and in the very midst of his denials. It is a language without a grammar, and only the vaguest sort of a lexicon, but every man can read it. It is German to the German, and Indian to the Indian; the universal language of the globe, the instinctive Volapuk of mankind!

THE NEW BLAZER.

It is an Important Part of the Summer Girl's Outfit—What It is Like.

The summer girl promises to add the charm of infinite variety to her other attractions this year. The shirt and blazer theme has been interpreted in many forms without losing anything of its original chic or comfort. The new blazer may be distinguished from that of last year by a tailor-made precision none the less jaunty though a little less negligé in effect. It is longer than that of last season, has notched lapels, a great profusion of pockets, put in, to the great delight of the summer girl, exactly like those in her big brother's sack coat. This blazer is also straight on the front edges, instead of sloping back like a cutaway coat. To be really elegant it should be made of rough cloth, tweed, serge, or flannel, but lined with the finest silk.

Beneath the blazer the smart girl wears a double-breasted waistcoat of white pique cross barred with lines of color, and closed with pearl buttons over a starched shirt of colored percale, with a stiff collar and cuffs. The silk shirt and its more plebeian canvas copy has been by no means discarded and will supplant the waistcoat for summer wear.

But the blazer has a rival in the Eton coat, which frequently figures in the outing gown and has this to commend it to favor, that it shows off a fine figure to better advantage than the more loose and sloppy blazer. The Eton jacket necessitates a tailor and that tailor must be an artist. It reaches just to the waist line at the back and covers it in front. It has a graceful roll and notched lapel of a jacket, and is lined with silk. It is particularly effective worn with the gay Russian blouses that the ladies are making of strips of bright silk embroidery in cross stitch in black. The little ends of each strip extend below the waist about four inches, and are finished up like tabs. When not worn over the Russian blouse the little jacket is usually seen with a full waist of silk belted very deeply with a girdle or laced Swiss belt. It is not effective over a full waist or blouse less deeply girdled, for as the jacket swings out, if the fulness of the waist is not carefully laced in, the effect of an unduly large waist is produced.

The skirts of both coats are very much gored, lined throughout, and though many of them touch the ground they are more sensible as well as serviceable if made to clear.

Is an Elopement Ever Excusable?

I should hesitate to say that an elopement is never excusable, writes Mrs. Lyman Abbott in her valuable department "Just Among Ourselves" in the June Ladies' Home Journal, but it is very rare indeed that the evils resulting from not marrying would approach in consequence those resulting from a marriage entered into under circumstances which made an elopement seem necessary. I believe in early marriages, but I also believe that every influence should be placed about that sacred institution to keep it pure and holy; that none should enter into it "lightly or unadvisedly." And it would be usually safer to postpone a marriage until objections could be overcome, rather than to run the risks attending an elopement. It is a great temptation to a bad man if a woman is willing to enter into a secret marriage, and an elopement partakes of that secrecy. I certainly do not consider this an idle question, but one which calls for much thought.

Pallor, languidness, and the appearance of ill-health being no longer fashionable among ladies, Ayer's Sarsaparilla is more largely resorted to as a tonic-alterative, nervine, stimulant, and builder up of the system generally. This is as it should be. Ayer's is the best.

Ashburnham School Board.

A special meeting of the Ashburnham school board was held Tuesday night. There present were Chairman Peck and Messrs. Adams, Glover, Sheridan, and Russel. It was decided to engage a fifth teacher owing to the increased attendance of the school, and also to engage a successor to Miss Clark, whose resignation was accepted at the last meeting of the board. The matter of appointing the new teachers was deferred until the next meeting of the Board. A committee consisting of Messrs. Adams and Glover were appointed to make accommodation for the seating and the necessary repairs to the new room, which will be fitted up in the old school buildings adjoining, and where pupils of the first book with the newly added teacher will be placed. A committee consisting of Messrs. Sheridan, Adams and Russel were appointed to make all necessary repairs on the school buildings. Two small accounts were passed and the board adjourned to meet on July 19th.

What Shall the Harvest be?

Why! What can it be but suffering and sorrow, disease and death, if you neglect the symptoms of a disordered liver? Take Dr. Pierce's Golden Medical Discovery. It outsells all other remedies. Sold under condition that it must either benefit or cure the patient, or the money paid for it will be promptly returned. It cures all diseases arising from deranged liver, or from impure blood, as biliousness, liver complaint, all skin and scalp diseases, salt-rheum, tetter, scrofulous sores and swellings, fever-sores, hip-joint disease and kindred ailments.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Owing to increase in the circulation of the DAILY EXAMINER it is necessary that it should be sent to press at an earlier hour than heretofore so that it can be delivered to subscribers at a reasonable time. In order to assist in securing this result, it will hereafter be required that "copy" of changes for contract advertisements be handed in the evening of the day preceding that on which the advertisements are to appear, otherwise we cannot guarantee that they appear on the day they are received. Some changes of advertisements are full of matter and often require several hours' work of the printer. It is not to be expected that the routine of work should be subject to such an interruption, when a few hours earlier delivery of copy would ensure better set advertisements and no delay of issue.

What Company will Win the Prize?

There is a friendly rivalry going on between the various companies of the 57th Battalion for the prize given by the officers for the best drilled and equipped company of the battalion. The award will be made on the result of the annual inspection at Kingston on Saturday morning. Lt.-Col. Montizambert, assisted by the staff of the 57th Battalion, will be the judges. It is expected that each company will present its best appearance and make an energetic effort to capture the trophy.

Weather Prognostications

Mr. Thomas Telford reports that the maximum temperature of his self-registering thermometer was 47° yesterday morning, indicating frost in certain localities. He says that the tips of several lettuce leaves in the gardens in his locality were touched by frost on Tuesday night, although in all likelihood the frost was more prevalent and sharper in other localities. A fog was plainly visible on Tuesday night in the south-western part of the town, which at this season of the year is indicative of frost. Frost at this season of the year comes easier at 45° and 47°, than in the fall at 30° 32°. Tuesday evening was a very cold one for this season of the year. A storm is brewing, and will soon come unless the wind changes.

Prepare to Celebrate Dominion Day.

Let every true citizen of Peterborough, along with every loyal subject of our Dominion, celebrate right heartily our national holiday, July 1st. In order to do this properly and in a becoming manner, every man, every youth and every small boy should don a suit of Grafton & Co.'s tailor made clothing. Is there any reason why you should not prefer to deal with a house that makes a specialty of clothing and devotes its entire time and attention to this specialty? We produce novel and original designs—not a dreary heaping up of tiresome looking goods, but a clean stock of the latest styles, manufactured by first-class cutters and tailors. Mothers! read our advertisement on the last page of the EXAMINER and note the attractions offered in boys suits. Men! do you know that the best custom tailor never gave you better fitting clothing than what we offer you, at half the price. Therefore, while you are patriotic and loyal, don't forget to be well dressed on Dominion Day especially when it can be done for so little money at

A Source of Attraction

Mr. W. B Greatrex has in front of his drug store on Hunter street the latest curiosity and novelty. It is known as Kirk's "Shandon Bell." It is a handsomely cast article in the shape of a bell, and is manufactured by the Automatic Perfume Company, Chicago. By dropping a cent in a small aperature and pulling back a lever, the valve inside is opened, and a fine stream of perfume is squirted through the small hole at the end of the clapper inside the bell. The article supposed to secure the benefit of the perfume is a handkerchief. Thus for a cent you get a scent.

A Cadet Corps of Boys.

The cadet corps of boys which was to have been formed by Sergt. Major Randle on Monday afternoon last was not formed owing to the small attendance present, caused undoubtedly on account of the rain. The Sergt. Major will form a corps on Monday afternoon next at 2 o'clock at the Central School grounds. Those boys who cannot be present will please register their names. The idea of forming such a corps of boys, aside from the numerous benefits and practical advantages to be derived from it, is a popular one and should receive the hearty support of all the boys.

Christian Endeavourers.

A meeting of the executive of the local union of Christian Endeavourers was held at the Y.M.C.A. rooms last evening, Mr. R. J. Colville presiding. Owing to his removal from Peterborough it was necessary to elect a President for the Peterborough County Union and also the local union of Christian Endeavour, both of which offices Mr. Colville has filled with signal ability and energy. Mr. A. J. Johnston was elected President of the county union and Mr. Albert Hamilton, formerly Vice-President of the local union, was elected President. Mr. Lewis Croly was elected Vice-President. A public meeting of the local union of Christian Endeavour will be held on July 18th in St. Andrew's Presbyterian church, when Mr. Colville, the delegate from Peterborough county and town to the great international Y. P. S. C. E. convention which meets in New York city on July 7th, will give an address on the great convention and its work.

A Big Day of Enjoyment

A splendid programme of sports and games will be presented, including a double tug of war contest between the Edison Works' and the Lock Works' teams, and between the C.M.B.A. team and the E.B.A. or C. O. F. teams for a barrel of flour for the House of Providence.

News Nuggets.

—The Finance Committee met last night and passed a number of accounts.

—There was no police court this morning. All is quiet in country and town alike.

—All the trains passing through on the lines to-day are carrying fine weather signals.

—The Gun club will have a shoot at Riverside Park to-morrow afternoon at two o'clock.

—About a dozen horsemen left at seven o'clock this morning to attend the Toronto races.

—The militia camp at Belleville was inspected yesterday, but rain prevented a review.

—A special meeting of the I.A. of M. will be held in the Labour Hall, Simcoe street, on Saturday night.

—A large number of citizens will accompany the 57th battalion to Kingston this evening at 8 o'clock.

—The senior Shamrock Lacrosse Club leaves to-morrow at eleven o'clock to play the Norwood Lacrosse team.

—Apples promise to be a plentiful crop, but from present appearances pears and plums will show a light yield.

—A large number of citizens will go Belleville to-morrow morning to attend the great Foresters' demonstration in that city.

—The junior Ellison baseball club and the Collegiate Institute baseball club are playing a match on the P.A.A.A. grounds this afternoon.

—The Lindsay Collegiate Institute Baseball Team will play the Peterborough Collegiate Baseball Club on the P.A.A.A. grounds on Saturday afternoon.

—The EXAMINER has to thank Mr. Geo. J. Burly, Grand Marshall, who is attending the Grand Lodge of Good Templars, for a copy of the report of the Grand Chief Templar.

—E. W. Bark and Fred Smith, members of the Campbellford bicycle club, wheeled to Bellaville on Sunday morning last, and returned in the afternoon. They made the trip there in three hours and five minutes.

—The council will hold a regular meeting on Monday night to discuss the proposed purchase of the waterworks by the town. It is expected that the sewerage by-law will also be prepared for submission to the ratepayers.

—The law respecting the use of tobacco by minors comes into force to-morrow, 1st of July. It simply means that dealers are not allowed to sell, and no person can legally give, the weed to boys under the age of eighteen.

—Messrs. Hall & Hayes, solicitors, have been instructed to take the necessary legal steps to incorporate the Catholic Mutual Benefical Association and the Catholic Order of Foresters and to confer upon them insurance powers.

Our National Day.

The Twenty-fifth Anniversary of Confederation and How it Will be Celebrated in Peterborough.

The following events will take place to-morrow, Dominion Day. The twenty-fifth anniversary of confederation, Canada's quarto centennial, will be celebrated in a true and loyal manner by Peterborough and her citizens. The number of attractions are large and varied and all may spend the day with pleasure and profit, as the list of celebrations is long and diversified enough to please all parties and all inclinations. Following are the events of the day.

St. John's church annual Sunday school excursion to Chemong Park. Trains leave G.T.R. depot at 8 30 and 10 o'clock, connecting with steamer "Maple Leaf" for the Park.

2. Great excursion to Victoria Park by steamer Golden Eye, leaving at 8 a. m. and 2 p.m., running two trips. Steamer Daisy leaves wharf at 8 o'clock a.m. for Jubilee Point, Gore's Landing, Harwood and Idyl Wild.

3. Great Cathedral picnic on St. Joseph's hospital grounds all day long. Dancing, tugs of war, sports and games of all kinds in the afternoon.

4. Stony Lake excursion, under the auspices of the library committee of the Charlotte street Methodist church. Train leaves G.T.R. depot at 8 45 a.m., connecting with boat at Lakefield for trip round the lakes. An hour at Burleigh for dinner.

5. The 57th Battalion of Infantry, Peterborough Rangers, will be entrained for Kingston on C.P.R. local at 8 o'clock this evening. It is necessary that every man should be ready to line up at the drill shed at seven o'clock sharp. The battalion with bugle and drum corps, battalion band, and the ambulance and pioneer corps will parade to the C.P.R. station in review order. It is expected that Kingston will be reached shortly after 12 o'clock, when the battalion will be marched to the drill shed, where tents will be already pitched and blankets ready for the visiting warriors to rest for the night. If it is raining the large skating rink adjoining the drill shed will be used for sleeping purposes. To morrow morning at 10 the 57th and 14th battalions will hold a grand military parade, after which the 14th will be inspected by Lt.-Col. Montizambert. The 57th will be inspected on Saturday morning. The men will have ample time and opportunity to witness all the great bicycle events of the day. Kingston has made great preparations for entertaining the visitors and the 57th is sure to be treated hospitably and to have a good time and delightful outing. The return home will be made on Saturday night, leaving Kingston about midnight and reaching Peterborough at an early hour on Sunday morning. It is understood that ample accommodation has been provided for the men who will travel in first class coaches. The battalion cars will be attached to the local as far as Havelock whence they will be run through as a special to the Limestone City.

6. The Cricket club go to Toronto to-morrow to play East Toronto a match

7. The Shamrock Lacrosse club will play the Norwood Lacrosse club at Norwood in the afternoon.

8 The members of the Gun club will have a shoot at Riverside Park to-morrow afternoon at two o'clock.

Simply Awful

Worst Case of Scrofula the Doctors Ever Saw

Completely Cured by HOOD'S SARSAPARILLA.

"When I was 4 or 5 years old I had a scrofulous sore on the middle finger of my left hand, which got so bad that the doctors cut the finger off, and later took off more than half my hand. Then the sore broke out on my arm, came out on my neck and face on both sides, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the

Worst Case of Scrofula

they ever saw. It was simply awful! Five years ago I began to take Hood's Sarsaparilla. Gradually I found that the sores were beginning to heal. I kept on till I had taken ten bottles, **ten dollars!** Just think of what a return I got for that investment! A thousand per cent? Yes, many thousand. For the past 4 years I have had no sores. I

OUR SILVER WEDDING.

To-morrow is the silver wedding anniversary of the marriage of the several provinces of Confederation auspiciously celebrated on July 1st, 1867, Rev. John Ball performing the ceremony, and in view of the success of the union, in spite of little squabbles originated by some members of the family, we can congratulate ourselves heartily. God save the Dominion and give all loyal Canadians a happy holiday to-morrow in celebration of our silver wedding.

A MATTER THAT SHOULD BE CONSIDERED.

In view of the activity of the town authorities in promoting the establishment of new manufacturing industries in Peterborough, it is a pertinent inquiry if something should not be done to retain those which have been actively in operation in our midst for years. It is certainly timely to ask why thousands of sawlogs that should be cut into lumber here are passing down the river to be cut outside the town. Why should we seek to bring new industries here when an establishment in our midst, in perfect working order, is kept in enforced idleness, and as large a sum as $20,000 in wages is allowed to be unpaid? We are informed that logs representing a cut of ten million feet of lumber, are piling by the town and are being cut at Harwood, while men anxious for employment are standing idle in the market place, and the town is losing the benefit of the expenditure of the wages that would be paid out in cutting these logs if the work were done in Peterborough.

The public would like to know why the Dickson Company do not make arrangements to cut their logs here. Their interests are here, and the question of employing 75 to 100 men during the summer should receive due consideration. It is unnecessary to point out what great benefit this would be to the working classes of the town, and, through the expenditure of their wages, to the community generally. The company, from the magnitude of their interests, inseparably connected with those of the town, have a duty to the town as well as to themselves. The local authorities and the Board of Trade would be consulting the public interests by giving some attention to this matter. The working man, who has his all in Peterborough, is entitled to know why his interests are not being considered. Why leave home to get employment when it should be at his door?

THE WATERWORKS QUESTION

The members of the town council met in committee of the whole to talk over the question of the town acquiring the waterworks system last night. It is generally understood that a majority of the members are in favour of so doing. We are inclined to the belief that unless stronger reasons are given for such a course than have yet been shown, the ratepayers will be content to let well enough alone. Would it not be wise to see the sewerage system successfully grappled with and in good working order before entering into an arbitration which will result in the addition of $150,000 or more to our indebtedness. The EXAMINER is not opposed to the principle of the town taking over the waterworks, but it seems to us that a judicious cautiousness should be exercised in a matter involving so large an expenditure of money. "Hasten gently" is a wise as well as safe maxim, and should be heeded at the present time. Our councillors have their hands quite full at present with an enterprise which will require all their ability to bring to a successful issue. Let us see what kind of a system of sewerage we are going to have. We can then talk waterworks to better purpose. We have an excellent and well managed system of waterworks—the indispensable complement of a proper sewerage system. A deal with the Waterworks Company is open any time after the 31st of next October. It does not seem to be in the interest of the town to distract the ratepayers' attention from the sewerage system which we have not, and by embarrassing them with a scheme for the purchase of the waterworks which we have, and do not need to purchase, for we enjoy all the advantages under the good administration which corporation management does not by any means necessarily secure.

Music in the Schools.

To the Editor of the Examiner:

DEAR SIR,—Permit me to express my hearty concurrence in the complimentary remarks embodied in your report of Mr. Ketcham's "Flora's Festival." Newspaper reports of local musical performances are generally unduly laudatory in their character, but in the present instance I feel that your remarks are fully justified. The performance of of Mr. Ketcham's pupils on Tuesday evening was one of the most meritorious of its kind ever given in the town and the highest praise is due to Mr. Ketcham for what he has accomplished.

The erratic and irrepressible nature of the average boy or girl of the period is an awkward element to control and few have the slightest idea of the difficulty involved in an effort to reduce to order and harmony the motley crew, comprising the junior fraternity of a public school. It is one of the severest tests of patience that has been invented and the man or woman who can make a success of the undertaking deserves to be regarded as a veritable power in the community.

This eminently successful entertainment, being given at a time when the whole town is agitated over the late decision of the Board of Education to dispense with the services of a music instructor, is very opportune, as it affords the very best evidence of the value of the instruction to be derived from such services. The "three R's" are no longer considered a sufficient basis of education, even for the humblest class, whilst in nearly every civilized country in the world, music and calisthenics are considered almost as necessary as classics and science in a thorough course of education, and in this age nothing short of thoroughness in education ought to be considered sufficient in any community. Nor is Canada behind the rest of the world in this matter. There is hardly an educational establishment in the Dominion, having any just claim to such designation, in which these exercises are not made a part of the educational course. To eliminate them from the Peterborough educational course will be to incur the risk of our town being regarded by neighbouring communities as Shakespere would regard "the man that hath not music in his soul." But if, in an unfortunate moment of injudicious economy on the part of our board of school trustees, our town is made to appear "fit for treason," it is very gratifying to me to learn, from the numerous enquiries I have made, that the services of our music instructor have been heartily appreciated, and that sincere regret is generally felt at the prospect of losing him. I do not for a moment doubt the sincerity of our school trustees. I believe that any resolution that they may adopt will be in accordance with their judgment of what is best for the general good. But their judgment must not run counter to generally accepted theories. The element they would eliminate has been recommended by the highest authorities in this and older countries.

As I understand the intention of the trustees, they will give preference to applicants for positions as teachers who possess talent to give musical instruction. This dual position cannot be filled with justice to either branch.

As a ratepayer and parent I feel that I have a direct interest in this matter and although, by my vote, I entrust the instruction of my children to the judgment of others, I feel myself at liberty to call in question any action their part which I consider prejudicial to the general interest. The act in question is decidedly retrogressive in its character and is therefore to be regretted.

Dominion Day Celebration at Port Hope.

This year's programme for the celebration of Dominion Day in Port Hope is the best ever presented by that town. It comprises athletic sports, grand horse races, lacrosse and baseball matches and other sports during the day. In the evening there will be an exhibition by the kings of the air, Messrs. Campau and Ambrose, and a magnificent display of fireworks, balloon ascensions, etc. All to take place in the beautiful town park, overlooking Lake Ontario. We would strongly advise our readers to make their arrangements to spend Dominion Day in Port Hope. The programme there is always fully carried out. Any information desired can be obtained by writing L. H. Wilcox, Secretary of Committee.

Farm For Sale!

THE Executors of the late Thomas Hetherington offer for sale that well-known property, in the Township of Smith, in the County of Peterborough, composed of Lot No. 23 in the 11th Concession of the said township, containing two hundred acres of land more or less. This farm is free from bad weeds, is well fenced and in a good state of cultivation. It is well adapted for stock and grain, and is situated one mile from Young's Point, fronting on Katchawanaka Lake. Steamboats passing daily during the summer, touch at the farm. On the premises are erected the following buildings all in first-class repair:—

Dwelling house, one and-a-half stories high, 32x28 extension kitchen, 12x17 with cellars under both, and hard and soft water convenient to the house. There are surrounding the dwelling about one-and-a-half acres of grounds and orchard, stocked with apples, cherry, pear and plum trees, grapes, gooseberries, currants, etc., all bearing.

The outbuildings consist of a frame barn, 32x60 basement used for cow byre, and stabling for two horses at end of upper storey; a frame barn 30x55 with extension 12x26; a log barn 28x26, sheep house attached 25x14; driving shed 15x17; implement house 10x12; swamp kitchen and wood house 11x28; piggery and poultry house, one-and-a-half storeys with stone basement 20x12.

Intending purchasers can have full information as to price and terms of sale, which will be fair, on application to any of the undersigned executors, namely:—Mrs. Mary Hetherington, on the premises; Lawrence G. Steele, Lakefield; William Lennon, Township of Douro; or to

Stormy Day Work.

In sections where old rail fences are only a temptation and not a hindrance to stock, some system by which they can be made good at slight expense will be welcome. If a quantity of frames be made like the engraving the fence may be straightened, laying the rails ends one on top of another between the uprights, and the material will be sufficient usually to more than fence the whole line. One will also reap the advantage of being able to clear up the weeds and brush along the old fence row and crop the land more closely. A slab or plank 3½ft. long, averaging 2x6 in., will do for the bottom piece, strips 2x3 in. for the uprights and others, 1x3 or 4 for the side braces. Waste strips that may be bought by the cord for almost nothing, frequently will serve admirably, and may be sawed or nailed together in the barn or shop when storms prevent outdoor labors. The uprights and braces are nailed to the bottom piece and to each other 1 ft. from the top of the uprights, a space of not over 5 in. being left between uprights. No fence is better for sheep. Unless the nails are clinched, wire nails should not be used, as they draw out so easily, enduring but little strain and rendering the fence weak. Light poles can be laid up between these braces if desired instead of rails.

The Composition of Urine.

The composition of the urine of cows depends upon the character of the feed and the amount of water consumed. The urine of cows contains about three-fifths of the nitrogen contained in the feed and about four-fifths of the potash. Cows' urine contains but traces of phosphoric acid if any. The average composition of 100 parts, according to chemical analyses, is as follows: Nitrogen 1 per cent., potash 2.2 per cent. and a slight trace of phosphoric acid. The average annual amount of urine voided by cattle is 8,000 lbs. and horses 3,000 lbs. To feed a liberal portion of the coarse feed with the grain feed is a well-indorsed practice, as it assists materially in a successful digestion of the grain feed. The good effect of urine as a manure is largely due to the fact that it contains all constituents of plant food in a soluble form and that potash and nitrogen are quite frequently, in an exceptional degree, wanting in the soil under cultivation.—Dr. C. A. Goessmann, Director of Massachusetts Exp. Station.

A Know Nothing Scare.

The "scare" last year on account of the supposed poisonous covering of grapes with copper, due to the use of the Bordeaux mixture, has received attention among scientists. Two samples of grapes which were condemned as unsafe, were analyzed at the Hatch experiment station. One of the samples contained only the two one-thousandth of one per cent. of copper, requiring the eating of nearly 2,000 pounds of grapes, stems and all, to produce injurious effects, while the other sample showed no poison at all.

How to Prevent a Mare from Kicking.

To prevent a mare from kicking buckle a strap around her ankles. To the strap attach a rather light chain, say 10 to 12 inches long. This will not mutilate the animal, but when she kicks will give her an educational stinging that will spoil her fun. This device was never known to fail.

A Plant for Hanging Baskets.

Orthonna crassifolia is a very interesting plant for a hanging basket or pot. It may be called a good all around plant, useful indoors and out. It is easily grown in a light, sandy soil, and needs but little water when dormant. Its bright yellow flowers are very pretty, and are produced abundantly. Its odd habit and succulent leaves are particularly attractive. It is readily propagated, even by its succulent leaves.—Orchard and Garden.

Spicy Testimonial

In behalf of Hood's Sarsaparilla is strictly true and will bear the closest investigation. No matter where it may be from, it is as reliable and worthy your confidence as if it came from your most respected neighbor. Have you ever tried the excellent medicine?

For a general family cathartic we confidently recommend **Hood's Pills.** They should be in every home medicine chest.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dodd's Kidney Pills are guaranteed to cure the worst cases. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2.50. Write for book called Kidney Talk.

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver pills. The result will be a pleasant surprise. They give positive relief. dw

DIARRHŒA IN CALVES.

A Timely Article Upon Its Cause and Treatment.

Many inquiries come at this season of the year asking how to cure diarrhœa in young calves. Too often this effect is produced by neglect to scald the milk pail in which the calves are fed. In early calf life, though the calf has four compartment-stomachs, yet the fourth, or true stomach, has nearly all the digestive function to perform. The digestive apparatus of young animals is highly organized with nerves and blood vessels, and is, in consequence, easily deranged. Moreover, the stomach and bowels sympathize with the skin. Over feeding, fast feeding, sour and decomposing milk, left from last feeding in the pail, sudden chill from exposure from rain, wind and wet ground, all may induce diarrhœa in young calves. Even Jersey calves suffer from too much and too rich milk. It is best to give calves their mothers' milk. Any sudden change may produce baneful results. All newly born calves should be suckled by the mother for two or three days, as the first milk contains the natural physic designed for the removal of the meconium, or black, sticky accumulations in the bowels of newly-born calves. If not thus removed, it excites irritation of the delicate mucous membrane of the bowels. Weak calves, and calves of delicate and feeble mothers, or those having diarrhœa or consumption, are most subject to diarrhœa. If the calf's breath smells sour, the stomach secretes too much acid. Half a teaspoonful of bicarbonate of soda will correct the state of the organ when given in the milk at feeding time. A tablespoonful of infusion of gentian is a grateful tonic to the calf's stomach. The infusion is made by boiling half an ounce of bruised gentian root in a pint of water for 15 minutes. Keep the calf loose; in a dry, sunny stall nurse the young thing, and when necessary give calcined magnesia one-half ounce, powdered opium one or two grains, powdered rhubarb one dram once or twice. Boil the milk and feed slowly by putting clean stones in the feed pail. Lime water, a lump of lime put into a bottle filled with water, is easily made, for lime is only very sparingly dissolved in water. If the diarrhœa be troublesome, a teaspoonful of laudanum in the milk will restrain it. A calf should be kept growing throughout its calfhood, summer and winter. This brings a vigorous constitution to long life-service of the cow for the dairy, for family or for breeding purposes. We must lay the foundation for usefulness in animals when young. Most of our best cows owe their excellence to care and judicious feeding from birth up to maturity, and the same care is equally beneficial through life. This is equally true of all of our useful domestic animals.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or another, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cts. per box. Dr. L. A. Smith & Co., Toronto.

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of *Ayer's Pills*. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register*.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

"August Flower"

I had been troubled five months with Dyspepsia. The doctors told me it was chronic. I had a fullness after eating and a heavy load in the pit of my stomach. I suffered frequently from a Water Brash of clear matter. Sometimes a deathly Sickness at the Stomach would overtake me. Then again I would have the terrible pains of Wind Colic. At such times I would try to belch and could not. I was working then for Thomas McHenry, Druggist, Cor. Irwin and Western Ave., Allegheny City, Pa., in whose employ I had been for seven years. Finally I used August Flower, and after using just one bottle for two weeks, was entirely relieved of all the trouble. I can now eat things I dared not touch before. I would like to refer you to Mr. M. Henry, for whom I worked, who knows all about my condition, and from whom I bought the medicine. I live with my wife and family at 39 James St., Allegheny City, Pa. Signed, JOHN D. COX.

A USEFUL DARNING BOOK.

For the covers take two pieces of cardboard six inches long by four inches in width, and cover on both sides with grey linen. Join them at the back by two small brown ribbon bows. Inside of one cover sew two straps of the brown ribbon, and slip under them four skeins of darning cotton—black, white, blue and red. On the opposite side place two leaves of white flannel containing darning needles. Decorate the cover with some appropriate motto done in sepia—as for example, this:

"If you would preserve your soles,
Be very sure to mend the holes."

Or this is equally suitable:

"Let all the holes be neatly mended
Before the week is fully ended."

A Cheap European Tour.

Two self-reliant young women of Philadelphia have demonstrated the possibility of a European tour for people of moderate means by travelling for three months on the Continent, "doing" fifty places and several countries for the modest sum of $350. This includes every expense from the time they left their native city until they returned to it. They travelled without luggage, except the light and strong linen bags which each carried without inconvenience in her hand. The travelling dress consisted of a union suit of wool, a divided skirt gathered into elastic bands below the knee, broad-soled, spring-heeled shoes, a dress of genuine Scotch cheviot, with a shirt of silk and another of wool for comfort in extremes of heat and cold, a heavy reefer coat and a felt hat.

An Expert Coin Handler.

One of the most expert money handlers in the Treasury Department at Washington is a woman, who has the remarkable record of counting 85,000 coins in a single day. So delicate and sensitive is her sense of touch that even when counting at this tremendous rate she detects a false coin with unerring instinct. The coins are spread upon a glass topped desk and counted four at a time, one under each finger tip, and so familiar have the trained fingers become with the weight of the true coin and the amount of its resistance upon the desk that a bit of spurious money is detected by each finger with equal exactness.

Dairy Education.

What is education? Does it consist simply in attending a school, a course of lectures, a college, or a university? Not at all. These are but the means to attain the end. The end is the drawing out, or leading out, of dormant powers already possessed. The means are frequently used without, acquiring of the end. Not all who attend a college, or attend lectures, or read books, acquire an education, for the reason that they do not digest and assimilate the food placed before them.

When we feed a horse, a sheep, a pig, or a cow, we do so for a purpose. In the case of the first, that we may obtain work from him, and in the others to obtain respectively wool or mutton, pork, milk or beef. So in education there should be some purpose in view, and that purpose should be to improve and better the condition of mankind, thus making life more enjoyable.

In the particular line of which we are treating the object should be to produce more dairy goods of better quality at less cost than heretofore, and to demonstrate that there is pleasure and profit in a well conducted dairy. Will education do this? The answer may be found in the fact that in every calling the more intelligence that is applied the more successful it is likely to be, other things being equal. The most successful dairies at the present time are those which are conducted by thinking men and women—those who apply all the knowledge within their power to the practical part of their work. Not only in dairy education, but in all educational work, among those who must earn their daily bread, the demand is for something practical—something that will help to acquire the necessaries, and possibly some of the luxuries of life. The chief end in acquiring dairy education should be to apply the principles of dairying to practical every-day work, and thereby make profit; and at the same time there will be a pleasure about it which cannot be attained otherwise.—Prof. Dean, O. A.C., Guelph.

Mr. E. T. Bailey, Elkhorn, Man., writes: My daughter was sick for eleven months, she was as white as it was possible for any living person to be; was short of breath and had terrible pains and ringing noises in the head on the slightest exertion. Two boxes of Dr. Williams' Pink Pills thoroughly cured her. Unequalled for all diseases peculiar to females. All dealers, or by mail on receipt of 50 cents a box or six boxes for $2 50. Facts About Dyspepsia.

Wrong action of the stomach and liver occasions dyspepsia. Dyspepsia in turn gives rise to bad blood. Both these complaints are curable by B. B. B., which acts on the stomach, liver, bowels and blood, and tones and strengthens the entire system, thus positively curing dyspepsia, constipation, bad blood and similar troubles. dw

Across the Continent.

Wm. Renwick, M. D., M.R.C.S.E., Victoria, B.C., writes: "I have used Miller's Emulsion of Cod Liver Oil in cases of indigent patients with the most gratifying results. It does not upset the stomach, is easily assimilated and possesses undoubted power in rebuilding weakened constitutions, where the ordinary form of administering Cod Liver Oil is not admissable. For the future, whenever I have occasion to prescribe any preparation of Cod Liver Oil, I will give Miller's Emulsion the preference, been perfectly satisfied with its therapeutic efficacy. RHEUMATISM.—COL. DAVID WYLIE, Brockville, Ont., says: "I suffered intensely with rheumatism in my ankles. Could not stand; rubbed them with St. Jacobs Oil. In the morning I walked without pain."

NEURALGIA.—MR. JAMES BONNER, 158 Yonge St., Toronto, Ont., writes: "St. Jacobs Oil is the only remedy that relieved me of neuralgia, and it effectually cured me."

BACKACHE.—"I can highly recommend St. Jacobs Oil as being the best medicine in existence; it promptly cured me of severe lumbago." G. N. BOYER, Carillon, Quebec.

SPRAINS.—"My mother received a very severe sprain and bruise by falling down stairs. St. Jacobs Oil cured her in a couple of days." R. BURNAND, 124 Tecumseth St., Toronto, Ont.

BRUISES.—MR. AITCHISON, Hamilton, Ont., Fire Department, says he met with a serious accident and his back and shoulders were terribly bruised, but by the use of St. Jacobs Oil he was completely restored.

A FREE TRIP TO PARIS

And a Valuable and Handsome Prize will be Given Free to Everyone.

The publishers of THE LADIES' PICTORIAL WEEKLY will give a first-class cabin passage to Paris, France, and return, with all expenses for a six weeks' sojourn in that city (or its equivalent in cash, not to exceed $400) to the person sending them the largest number of words of not less than four letters, constructed from letters contained in the three words LADIES' PICTORIAL WEEKLY. To the person sending next to the largest list will be given an ELEGANT UPRIGHT PIANO (valued at $300). To the person sending the third largest list will be given TWO HUNDRED DOLLARS. To the person sending the fourth largest list will be given a PONY, CART and HARNESS complete (valued at $150). To the person sending the fifth largest list FIFTY DOLLARS in cash. A committee consisting of five teachers from the public schools of Toronto will be invited to be present and assist the judges in the award of prizes. ADDITIONAL PRIZES to be awarded in order of merit, three Ladies' Gold Watches, three Ladies' Coin Silver Watches, two French Music Boxes, two complete China Dinner Sets (consisting of over 60 pieces each), three Silk Dress Patterns and one French Mantel Clock.

A HANDSOME PRIZE OF VALUE will be given to EVERY PERSON who sends in one hundred words or over in this *over last Prize Word Competition.*

RULES.—1. Lists are to contain English and Anglicised words ONLY of not less than four letters each. 2. No letter can be used in the construction of any word more times than it appears in LADIES' PICTORIAL WEEKLY. 3. Words having more than one meaning, but spelled the same, can be used but once. 4. Names of places and persons are barred. 5. Words will be allowed in either singular or plural, but not in both numbers, and in one tense only. 6. Prefixes and suffixes are not allowed by themselves, but can be used in the construction of a complete word. 7. The main part ONLY of Worcester's or Webster's Dictionaries may be used as the governing authority. Each list must contain name of person sending same, with full postoffice address and number of words contained therein, and be accompanied by fifty cents for a two months' trial subscription to THE LADIES' PICTORIAL WEEKLY, Canada's high-class illustrated newspaper for ladies. The subscription price of fifty cents must accompany list of words. Do not send in separate enclosure. If two or more tie on the largest list, the one bearing the earliest postmark will receive the first prize, and the other the second prize. The complete number of words intended for the competition must be forwarded at one time. No alterations or additions to the list can be made after it has been sent to us. On account of the extra work involved in these competitions it is impossible for the publishers to enter into personal correspondence concerning the competition or rules thereof. All lists must be mailed on or before September 1st, 1892. The object of offering these liberal prizes is to introduce our popular and finely illustrated journal into new homes, and every prize-winner must subscribe for a year before their prize is forwarded. There will be no charge made for boxing and packing prizes. Present subscribers can enter this competition only by enclosing fifty cents for a two months' trial subscription, which will be sent to any address desired. Prizes awarded in the United States will be forwarded free of customs duty. The publishers desire to announce to the public that this will *positively be their last word competition.* Prizes will be awarded September 10, 1892, and names and addresses of winners will be published in our publication. Address, LADIES' PICTORIAL COMPANY, TORONTO, CANADA.

An Adamless Eden.

Women are wonderful folk! They have roused up to the fact that, as there are not nearly enough men to marry them all, some of the sex must take part in the struggle for life, and the energy with which they set about beginning is worthy of all praise. A late development is a firm of lady tea merchants. Very thorough in the firm in its feminine sentiment. It consists primarily of seven ladies, who have purchased a tea estate in Ceylon. They themselves import direct from their own tea gardens. They have lady packers, lady blenders, lady agents and a lady secretary. Ladies manage the gardens in Ceylon.—From Chicago Herald's London Letter.

To Improve the Light of a Lamp.

The light given by a coal oil lamp can be greatly improved by soaking the wick in vinegar before using it, and even by reviving an old wick by the same process. Of course the vinegar must be dried off before the wick is used, or it will be difficult to get a light at all, but with this simple precaution a great improvement in the light can be secured. A small lump of camphor dropped in the oil reservoir has the same effect, but camphor has a tendency toward making the lamp smoke, while vinegar has a contrary tendency, and is hence more desirable in every way.—Globe-Democrat.

Brave Russian Women.

Several young Russian women students at the medical school in Moscow have volunteered their services as nurses to the typhoid-stricken people in the province of Samara. The heroic young nurses were threatened with expulsion from the college to prevent their carrying out the hazardous sacrifice, but in spite of the opposition of their instructors they have gone into the fever district, where the people welcomed them with gratitude.

Adlai, "The Just."

BLOOMINGTON, Ill., June 29.—Gen. Stevenson, Democratic candidate for the Vice-Presidency of the United States, gets his first name, Adlai, from the Bible. If you will turn to I. Chronicles, XXVII., 29, you will find something about Adlai. The word means "The Just."

It is an unusual name, and the Stevenson and Ewing families have had a monopoly of it for several generations.

Stole a $3000 Diamond Pin.

MONTREAL, June 29.—A diamond pin worth $3000 was stolen from the Sherbrooke-street residence of President Van Horne of the C.P.R. a few days ago. Detectives found the pin in the house of a decorator named Lemioge, who had been employed at Van Horne's house. Lemioge was allowed to leave the country on the request of Mrs. Van Horne.

A Skeleton of a Sea Cow.

PORT TOWNSEND, Wash., June 29.—The special treasury agents, just returned from the Russian seal islands on the Siberian coast, have brought back a perfect skeleton of a sea cow, an animal extinct 160 years. The only other specimen is owned by the Czar. The skeleton is 30 feet long and 20 high and was purchased for $150.

LONDON, June 29.—The Royal Gazette yesterday publishes the Queen's proclamation dissolving Parliament and summoning the new Parliament to meet on Thursday, Aug. 4. The writs are being issued accordingly.

The Queen's speech proroguing Parliament says: The time has arrived when it is expedient that the electoral body of the country be consulted by the assemblage of a new Parliament. I have therefore summoned you for prorogation at an earlier period than usual.

"I am glad to record that my friendly relations with foreign powers remain unaltered.

"Treaties have been duly ratified referring the differences with the United States with respect to the Behring Sea to arbitration."

Referring to the bills passed at the session just ended, the speech says that the arrangements that Parliament has made enabling workingmen to purchase agricultural holdings will increase the class of cultivating owners, which is of great importance to the state.

The application to Ireland of the educational measures recently adopted in Great Britain will confer great benefits upon the people of that country.

The speech concludes: "In closing this Parliament, which has been unusually laborious, and also highly fruitful in beneficent legislation, I thank you for the assiduous performance of your momentous duties during the past six years, and heartily commend you to the favor of Almighty God."

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only perfect Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has no unpleasant battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASES, HEART DISEASES, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not clean this Belt with the harsh compositions of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, pay YOUR MONEY. If you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 8,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

Are a BLOOD BUILDER and NERVE TONIC.

They supply in condensed form ALL the substances needed to enrich the Blood and to rebuild the Nerves, thus making them a certain and speedy cure for all diseases arising from impoverished blood, and shattered nerves, such as paralysis, spinal disease, rheumatism, sciatica, loss of memory, erysipelas, palpitation of the heart, neuralgia, chlorosis or green sickness, that tired feeling that affects so many, etc. They have a specific action on the sexual system of both men and women, restoring lost vigor.

WEAK MEN

(young and old), suffering from mental worry, overwork, insomnia, excesses, or self-abuse, should take these PILLS. They will restore lost energies, both physical and mental.

SUFFERING WOMEN

afflicted with the weaknesses peculiar to their sex, such as suppression of the periods, bearing down pains, weak back, ulcerations, etc., will find these pills an unfailing cure.

PALE AND SALLOW GIRLS

should take these Pills. They enrich the blood, restore health's roses to the cheeks and correct all irregularities.

BEWARE OF IMITATIONS. These Pills are sold by all dealers only in boxes bearing our trade mark or will be sent by mail, post paid, on receipt of price—50 cents a box or 6 for $2.50.

SATURDAY, JULY 2, 1892

THE *Orange Sentinel* is exceedingly angry, says the *Globe*, that the plan of Home Rule recently laid before the McCarthyites by Mr. Gladstone shou'd have been subsequently submitted to Archbishop Walsh, of Dublin. "We ask all lovers of civil and religious liberty," it cries, "if they would support a government that would submit a bill of such vital importance to the Protestants of Ireland to a Roman archbishop for approval before making it the law of the land." Mr. Gladstone's measure will undoubtedly be of the highest importance to the Protestant minority in Ireland, but the Roman Catholic majority is also profoundly interested, and it was perhaps only fair that a Roman Catholic of Mgr. Walsh's position should have been consulted. The Confederation Act of 1867 was submitted in the rough to the Roman Catholic hierarchy of Quebec by Macdonald and Cartier, and when the latter went to London with the other delegates to lick the measure into final shape he produced a lot of amendments suggested by the hierarchy and threatened, if they were not adopted, to return to Canada and break up the negotiations. Yet the French Roman Catholics are only a minority in this country. But because Cartier and Macdonald were Tories the *Sentinel* has never, so far as we know, condemned their action.

Death in the Milk Can!

It is extremely dangerous to feed young infants during the intense heat of summer with a poor quality of cow's milk. In this respect, city mothers are more to blame than the mothers of country districts.

The city milkman is on his rounds for hours; his milk-cans are continually exposed to the burning sun, and his milk (always sufficiently watered) is so warmed, that it quickly becomes sour and unfit for nourishment.

Imagine a weak and frail baby being fed on such a diet; it is almost certain death. This stale and sour milk is, without doubt, the direct cause of a vast proportion of the infantile mortality of all large cities during the hot weather.

Mothers, you are responsible for your infant's safety and life. With the light you now possess, see that summer diseases, such as cholera infantum, dysentery and diarrhoea, do not lay hold of your babe. You may preserve it by feeding it on health-giving Lactated Food which contains all the best constituents of pure and healthy breast milk.

Lactated Food will bring back life to your infant if it is physically weak and run-down; it will cause the little one to rest and sleep well; it will cause it to grow strong and vigorous; it will make it bright and happy.

Trust no longer in cow's milk as a health-giver and strengthener; and have a care how you feed baby with the common prepared foods now so abundant; they have a tendency to produce irritation, and few little stomachs can endure them; indeed, many of them produce inflammation, and dangerously affect the digestive organs.

One trial of Lactated Food will convince you of its many excellencies and great worth. When it is used, you will find baby thriving and progressing beyond our most sanguine expectations. Go at once to your druggist and purchase a tin; you will find that it is just what the baby loves to take.

Canadian Railways.

The railway estimates for 1891 were brought down on Thursday last. There were 14,009 miles of railway in operation, an increase in the year of 753. The total paid capital is $810 647,000. Of Dominion, Provincial and municipal loans and bonuses promised to railways completed and under construction there is a total of $192,470,000. The Dominion contributed $146 000 000, Ontario Government $8,000,000, and Quebec Government $14 000 000. Ontario municipalities $10,000,000, Quebec municipalities $4,000,000. The land grants to railways completed or under construction amount to 56 00.0000 acres. The C.P.R. Co. has realized $22 189,000 from the sale of 10,000,000 acres. There were thirteen passengers killed during the year, 65, employees, and 118 others, a total of 196 killed.

A NOVEL WAIST.

Called the Housemaid, and Made of Gingham Without a Lining.

The "Housemaid" waist is a favorite choice for gingham, chambrey, and batiste dresses. It is gathered at the neck and at the waist line, and is made up without a lining, which adds much to its possibilities for comfort and to the probability of its laundering satisfactorily. The pointed belt, cuffs, and collar are of open Swiss embroidery, and the skirt has four tucks, a row of scalloped embroidery laid in between each tuck, so that only the wrought edges are visible. If the gingham is in fine stripes of color the skirt should be bias and cut in the "bell" order. If plain material is used it is made up in the usual way, with a gored back, but gathered instead or fitted with darts in front. Other simple gingham gowns have yoke waists, with belts and ruffles of embroidery, while for more dressy affairs the mode is stolen from the small boys' fashion book, and a square-cornered loose jacket of gingham, reaching not quite to the waist line, is worn over fine white waists, gathered to fall over and conceal the belt. The cuffs of these waists turn back over the gingham sleeves, and the skirts of the dresses are trimmed with ruffles of embroidery.

A Point for You.

In view of what Hood's Sarsaparilla has done for others, is it not reasonable to suppose that it will be of benefit to you? For Scrofula, Salt Rheum and all other diseases of the blood, for dyspepsia, Indigestion, Sick Headache, Loss of Appetite, That Tired Feeling, Catarrh, Malaria, Rheumatism, Hood's Sarsaparilla is an unequalled remedy.

Hood's Pills cure Sick Headache.

Cure for A Constipation and Headache

Dr. Silas Lane, while in the Rocky Mountains, discovered a root that, when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family Medicine. It will cure sick-headache in one night. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50 cents package.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or another, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cts. per box. Dr. L. A. Smith & Co., Toronto.

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE AMERICAN DOCTORS

(20 Years practice in Europe and America.)

THEIR SERVICES ARE FREE.

A staff of eminent American Physicians and Surgeons have opened an office for medical and surgical attendance, at No. 2202 St Catherine Street, Montreal. They give free services to all who call upon them before August 1st, 1892, and frankly tell you if your case is curable or not. All incurable cases are rejected. Special attention is paid to every case. Invalids living outside of Montreal should address their letters to Mr. JOHN MURRAY, Manager, and inclose two 3 cent Stamps for symptom blank and question sheets.

E. ADAMS, ESQ.

A FORMER MEMBER OF THE VERMONT LEGISLATURE.

He is now an Officer of the United States' Government and Resides in Montreal.

HE SPEAKS FOR THE BENEFIT OF CANADIAN MEN AND WOMEN.

HE TELLS CANADIANS OF THE GREAT AGENT THAT GAVE HIM NEW LIFE AND STRENGTH —HE STRONGLY ADVOCATES THE USE OF PAINE'S CELERY COMPOUND—HE NOBLY DOES HIS PART TOWARDS IMPLANTING HOPE AND COURAGE IN EVERY SUFFERER'S HEART.

The American Government have a staff of very efficient and gentlemanly officers in Montreal—men who are in every way qualified by education and social position to reflect credit on the administration to whom they owe their appointments.

Amongst the American officials located in Montreal, we wish at this time to speak particularly of one who is popular and well-known, and who has become a great favourite with the travelling public; we refer to Mr. E. Adams, Deputy Collector and Inspector of United States' Customs.

Mr. Adams is a native of Vermont, and is in every respect a true representative of the Green Mountain State, that has given to the Union so many distinguished warriors and statesmen.

Mr. Adams is a Vermonter who has done good service as a politician. He represented his native town and district for four years at the seat of government in Montpelier; and afterwards occupied the important position of Sergeant-at-Arms in the State Legislature. His reputation for honesty and attention to public matters induced the Federal Government to place Mr. Adams in his present important position, where he is esteemed by all classes of the Canadian people.

Mr. Adams, amid all the turmoils of politics, and while in the performance of the duties of office, was for years a sufferer from neuralgia. When he came to Montreal to attend to his work in the Customs' Department, he suffered terribly at times from this intolerable malady. Later on, owing to the pressing work and cares of his office, he suffered from insomnia (sleeplessness), and became physically weak and run down.

Mr. Adams was not utterly discouraged, though he met with many failures in trying to regain health and rid himself of life destroying troubles. He fortunately heard of a remedy which had given new life to thousands in Canada. He heard his friends speaking of Canada's mighty agent, Paine's Celery Compound, and was astonished when he read of the almost miraculous cures it had effected.

He wisely decided to try the wonderful remedy, and test its efficacy. He did not try in vain; the first bottle acted like magic, he felt that providence had led him to the fountain of healing that he so often wished to drink from.

Paine's Celery Compound in a short time banished every trouble, and perfectly restored Mr. Adams to health and strength.

We believe that we only voice Mr. Adams' opinion, when we assert, that no other remedy known to mankind could have produced such grand results. Scores of Mr. Adams' friends in Montreal know of the marvellous cure, and are ready to vouch for every statement that he makes.

It is with very great pleasure that we give to the public Mr. Adams' testimonial; we feel certain that it will be the means of influencing thousands of sufferers who are in doubt, or who have been looking in vain for an honest agent to renew life.

Mr. Adams says:—

"It gives me very great pleasure to add my testimony to the thousands of testimonials you have already received in favor of Paine's Celery Compound.

"For several years I was troubled with neuralgia, and suffered very much from it; Paine's Celery Compound has entirely banished this affliction. I was also sleepless, weak and run down, and in these serious troubles, your Compound has proved a valuable friend.

"I can assert with confidence, that I have never used any remedy that has so thoroughly built me up in every way.

"I have great pleasure in recommending it to all who may have need of an honest and efficacious remedy, as I feel certain Paine's Celery Compound will accomplish all it claims to do."

Yours very truly,
E. ADAMS,
Deputy Collector and Inspector United States' Customs.

The Ulster Minority and the Elections.

The Roman Catholics in Ulster are going the right way about answering the cry of the Belfast delegates that Home Rule would be Rome Rule. The Nationalist conventions of Donegal, Fermanagh and Monaghan have selected three Protestant candidates. The Nationalist convention of Cavan, the most Catholic county in Ulster, has done more. One member from the county is a Protestant; the other, a Roman Catholic, became a Parnellite. The Nationalists have decided to replace him by Mr. Samuel Young, a Protestant from Belfast. County Longford, the two divisions of which are to be contested by Mr. Edward Blake, a Protestant, and "Tim" Healy, a Catholic, is in Leinster; but the Roman Catholics form 90 per cent. of the population.

Away! away! There is danger here!
A terrible phantom is bending near;
With no human look, with no human breath
He stands beside thee—the haunter—Death!"

If there is one disease more than another that comes like the unbidden guest at a banquet it is Catarrh. Insidiously it steals upon you, "with no human breath" it gradually, like the octopus, winds its coils about you and crushes you. But there is a medicine, called Dr. Sage's Catarrh Remedy, that can tear you away from the monster, and turn the scythe's point of the reaper. The makers of this wonderful remedy offer in good faith, a standing reward of $500 for an incurable case of catarrh in the head.

EXTENSIVE CHANGES IN
THOMAS KELLY'S
DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

The Stoney Lake Copper Mine.

On Thursday morning Dr. Selwyn, superintendent of the Dominion Geological Survey department, Ottawa, arrived in town, and in company with Mr. J. B. McWilliams visited the latter's copper mine at the head of Stony Lake. Dr. Selwyn thinks the specimens even at the surface exceedingly rich and thinks that active work in the development of the mine should be begun at once. His advice will in all probability be taken and work begun at an early date. Dr. Selwyn is a geologist of forty-seven years experience, and his opinion as to the return of this mine is of a very gratifying character.

The experience of the manufacturers of the "Myrtle Navy" tobacco is a valuable lesson in political economy. Previous to commencing that brand, the tobacco made of the finest Virginia leaf, was always sold at fancy prices and put up in some fancy style of manufacture. It was thought that only the rich would buy such tobacco, and at the old prices none but the rich could buy it. The makers of the "Myrtle Navy" resolved to strip the manufacture of the tobacco of all its fancy costs and put their profit at so low a rate that no competitor could possibly undersell them with the same quality of article. From the very first, until now, their rate of profit has been a uniform percentage upon the cost. It is their enormous sales which make their low rate of profit a satisfactory one in the aggregate, and also gives them their firm hold upon the market. Their success is an excellent lesson for manufacturers to study over.

OUR NATIONAL HOLIDAY.

How It was Celebrated at Home and Abroad.

Exodus of Citizens—Outings and Excursions—Off with the Soldier Boys—Outside Sports.

The town was very quiet yesterday. Everybody who was not in Ashburnham had gone fishing or otherwise. A large number followed the departing warriors to Kingston. A carload visited Port Hope and the rest went their various ways out of town—to St. Joseph's picnic, driving, boating, walking and otherwise. There was beautiful weather. Below is a running record of the several events.

The Crowning Cathedral Picnic.

The fourth annual St. Joseph's picnic in connection with St. Peter's Cathedral held yesterday on the beautiful hospital grounds was the most successful of the series both in point of attendance and in the financial aspect, the chief aim. There were present at least 2,500 persons, including a large contingent for Lindsay numbering about 300. Visitors were present from the surrounding country in large numbers. The clergy were well represented—from primate to an acolyte. There were present His Lordship Bishop O'Connor, Vicar General Laurent, Lindsay; Rev. Father Antoine, of the Ottawa University; Rev Father Lynch, Port Hope; Rev Father Conway, Norwood; Rev. Father Keilty, Eastmere; Rev. Father Brotherton, Victoria Road; Rev. Father Rudkins, Rector of the Cathedral, Rev. Father Scollard, Rev. Father Donnelan, Rev. Father Scanlan, Rev. Father Collins, Peterborough. The day was especially auspicious, bright and cool, till about four o'clock, when a slight dash of the diurnal downfall of rain disorganized the programme but only sufficient to make the preceding and succeeding beauty of the weather appreciated. The beautiful grounds were admirably prepared for the occasion. Five long tables were spread in the grounds under the rich foliage of the trees, representing different sections of the parish—Otonabee, Ashburnham, No. 1 ward, No. 2 ward and Nos 3 and 4 wards, which found a syndicate for the occasion. The tables were beautifully decorated with a profusion of flowers, and at dinner time furnished excellent repasts for thousands, and they seemed also liberally patronized at tea time. The five tables might have typified the "five barley loaves and two fishes," but there the similitude ends for so liberal was the patronage of the public that the consequent gratifying depletion of the larder, would hardly have sufficed to furnish the twelve baskets of fragments. This department was a very gratifying success as well as all the other departments. Those pillars of the church who sat at the receipt of tribute counted at the close of the day $500, and the refreshment booths, the shooting gallery, Mr. Patrick Bagley's interesting and ingenious figures of scenes in Jerusalem, with the model of the Church of Knock of apparitional fame, his novel pic nic twelve-pins, and the dancing platform were also well patronized, the latter particularly appealing to the young. Mr. Butcher's orchestra furnished inspiriting dancing music, and Mr. Sid. Martin, master of ceremonies, had his lungs capacity tested to the fullest by the continuous relays of dancers that kept the floor warm with the rythmic beat of their feet. The damsels whose winning ways tempted the unwary to hazard winning fortune's smiles, also met with very general favour.

THE SPORTS AND GAMES.

These attracted great attention and were admirably conducted by Messrs. H. LeBrun, Geo. Giroux, and M. Giroux. As a general rule the honors fell to the country cousins. The first event the baseball match, was a veritable Waterloo to the town ball tossers, the Indian River lads literally wiping them out by a score of 17 to a flukey little 1, while the tug of war team representing muscle brawn and muscle literally walked away with the town tuggers. The baseball match was played early in the day and the following fragmentary copy of the score is all the record that was kept:

The prize was a ham which Mr. Meehan generously donated to St. Joseph's Hospital.

The festivities were continued after nightfall, four electric lights brilliantly lighting up the grounds. A large number remained and others came, and a very pleasant evening was spent, and successfully, too, everything being well disposed of. The party left the grounds early, and thus closed the most successful St. Joseph's picnic yet held, a credit to excellent management by all the parties concerned.

Down the River.

Quite a large number took in the pleasant trip afforded by the steamers Daisy and Golden Eye, the former running to Jubilee Point and other places on Rice Lake, while the latter ran two trips to Victoria Park. The Golden-Eye seemed to be the most favoured, partly on account of the presents given by the Commodore, as well as on account of the shortness of the trip. As the boat steamed down the beautiful river, those who were making the trip for the first time were heard to exclaim: "What beautiful scenery!" "Why, I never knew it was so pretty down the river!" and like remarks.

It had been announced that a regatta and other sports would take place at the park, but owing to the drive of logs at present going down the river having arrived opposite that place, it was found impossible to hold the boat races, and just as the other sports were about to be commenced, a heavy rain storm nipped them in the bud. However, the passengers spent a pleasant time in dancing, singing, etc., and all were unanimous in praising Commodore Calcutt and the gentlemanly Purser of the boat for the pains taken by them to make the trip enjoyable, as well as for the total absence of any rough element. On the return trip the prizes were given the holders of lucky tickets, and all seemed pleased at the fair way in which the distribution took place. We understand it is the intention of the Commodore to give excursions on the popular afternoon excursions, which take place to the park every Saturday.

St. John's Sunday School Excursion.

The excursion of St. John's Sunday School to Chemong Park was a grand success in every way—both attendance and enjoyment. The larger number took the early train, and altogether there were about 500 excursionists at the park, where the day was spent most enjoyably. All the pleasures had a delightfully jolly experience at the park, and those who returned by the early train had, on the whole, the best of it, for it was nearly 11 o'clock, owing to some railway delay, before the last train came in. The following is a list of the winners in the sports and contests:

Hundred yards race (boys 15 and under)—1st W. Roberts, 2nd G. White,

50 yards race (boys 12 and under)—1st W. Armstrong, 2nd H. Dunsford.

50 yards race (boys 9 and under)—1st E. Graham, 2nd D. Brandrette.

Girls' race (15 and under)—1st Maud Byers, 2nd L. Eastwood.

Girls' race (12 and under)—1st M. Buller, 2nd V. Bell.

Girls' race (8 and under)—1st M. Seymour, 2nd M. Buchanan.

Infant class race—1st B. Jones, 2nd L. Lochour.

Married men's race (100 yards)—1st H. Wills, 2nd W. Brandrette.

Unmarried men's race (100 yards)—1st G. Ducasy, 2nd H. Patterson.

Married ladies race (50 yards)—1st no entries, 2nd Mrs. Clarke, Mrs. Wills.

Unmarried ladies race (50 yards)—1st Lizzie White, 2nd Sarah Cranstock, M. Drury.

Three legged race (boys 15 and under)—1st Armstrong and Galley, 2nd Ringer and Roberts.

Boot Race (boys 15 and under)—1st Dunsford, 2nd Davidson.

All-fours race (boys)—1st Lynn, 2nd W. Ralph.

Canoe race (boys over 15)—1st W. Brandrette.

Canoe race double (boys under 15)—1st Cuxton and Melrose.

Man having largest family on grounds—1st Dawson and Lochour (equal).

Fat boys race (special)—Gilbert Harris.

"Lo" on the Diamond.

On the field at Hiawatha,
Hiawatha by the lake-side,
On the day we call Dominion,
Dusky braves from Chemong water
Played with Hiawatha's tossers,
Played the noble game of baseball—
And upon the stick of notches
Held by one the larger tally.
When Dominion Day was older,
In the hours beyond the noon tide,
Chemong tossers flushed with victory,
Tackled on the diamond Alnwick,
And they knocked them out completely
As Fitz Immens knocked out Maher,
Scoring runs two short of twenty
Unto Alnwick's little dozen,
Thus, the baseball tourney ended,
And Chemong was double victor.
Then the welkin rang with war whoops
From the throats of Chemong tossers,
Victors twice, twice undefeated—
On the dusk Chemong baseballists,
Nice can find no place to roost on.

A Grand Stony Lake Outing.

The excursion to Stony Lake yesterday under the auspices of the Library Committee of the Charlotte street Methodist church, was a great success. About 300 passengers went up by the train to Lakefield, where the number was largely added to, and embarking on the Golden City, steamed straight to Burleigh, which was reached at 2 o'clock. After a rest and dinner the party re-embarked and enjoyed a cruise over the lakes. The sale of refreshments on board the steamer—ice cream, confectionery, etc., was a gratifying source of fiscal strength. The party arrived home safely at 9 o'clock all delighted with the day's enjoyment, to which the excellent management of the committee, the courtesy of the steamer people and the beauty of the day and the route all contributed.

Outside Sports.

The Peterborough Shamrock lacrosse club was beaten yesterday at Norwood by a score of five games to 1.

Our cricketers had hard luck at Toronto yesterday being defeated by East Toronto by 141 runs. The boys feel blue over their ill success, though their defeat of yesterday hardly serves to wipe out the score of drubbings the East Torontos has received from the home team in past years.

The local baseball nine was defeated at Kingston yesterday by a score of 2 to 7 against them. The Peterborough battery and baseman did good work, but the outfield was "not in it."

Obituary.

Very general regret will be felt at the intelligence of the death of Mrs. Chowen relict of the late Richard Chowen, Sr., which took place at the residence of her son Samuel, of Courtright, Lambton county, whither she had gone on a visit. The cause of death was hemorrhage of the lungs. Mrs. Chowen was of English birth. She came to Canada about 40 years ago and has resided in Smith for 35 years. The deceased lady was very highly esteemed in all the relations of life. The funeral takes place from the residence of her son Mr. Richard Chowen, 781 Water street, on Sunday afternoon at 3 o'clock.

For the Good of Others

Rev. Mr. Williams Heartily Endorses Hood's Sarsaparilla.

We are pleased to present this from Rev. A. A. Williams, of the Silsbee street Christian Church, Lynn, Mass.:

"I see no reason why a clergyman, more than a layman, who knows whereof he speaks, should hesitate to approve an

Article of Merit

and worth, from which he or his family have been signally benefited, and whose commendation may serve to extend those benefits to others by increasing their confidence. My wife has for many years been a sufferer from severe

Nervous Headache

for which she found little help. She has tried many things that promised well but performed little. Last fall a friend gave her a bottle of Hood's Sarsaparilla. It seems surprising what simply one bottle could and did do for her. The attacks of headache decreased in number and were less violent in their intensity, while her general health has been improved. Her appetite has also been better. From our experience with

Hood's Sarsaparilla

I have no hesitation in endorsing its merits."

RANGERS AT KINGSTON

Given a Loyal Reception by the Fourteenth.

The City Alive With Visitors—Soldiers, Bicyclists and Visitors—The 57th Having a Good Time—They are the admiration of the Admired—Inspection Day To-day—The City in its Holiday Garb.

Special to the Examiner by our War Correspondent

KINGSTON, July 1st, 1892

The 57th Battalion of Infantry, Peterborough Rangers are in Kingston safe and sound.

The city is in its gayest holiday attire, flags and evergreens strewn along the streets the public buildings and the parks in an endless profusion. The Limestone City never saw a greater congregation of soldiers bicyclists and visitors. The Peterborough boys are enjoying themselves thoroughly and are having a splendid time. The trip down was a delightful one and no tediousness, delay or accidents occuring to mar its pleasure. Peterborough was left at 9 30 o'clock, thousands being at the station to see the soldier boys off A special was placed on the line for the battalion. It was in charge of Mr. W. T. Dockrill, travelling passenger agent for the C P.R., and under his efficient management every thing passed off without a hitch, and the visiting warriors succeeded in reaching Kingston a few minutes after two o'clock Friday morning. Nine coaches were attached to two engines and the train bowled along at the rate of thirty miles an hour. The baggage car was stacked with bicycles, while the riders of the steel steeds occupied the first coach. The companies followed in their alphabetical order, "A" occupying the next car, "B" the next and so, while the officers, as brave officers should do, brought up the rear. The coaches placed by the C P. R. officials at the battalion's disposal were first class in every particular and many were the commendations of the staff and officers on the excellent traveling facilities furnished. At Harrowsmith

A PLEASANT SURPRISE

awaited the officers of the 57th, when Capt. Langford, quartermaster, accompanied by Major Shannon, Dr. Garrat, jr. surgeon; Captains Dupuis and Hoye and Lieut. Kirkpatrick boarded the train. Three cheers rang out from the officers of the 57th, which were returned with great vehemence. At the station, upon arrival at the Limestone City, the visiting corps were met, although it was a late hour, by the 14th Prince of Wales Own Rifle band and a large number of citizens. Owing to the incessant downpouring of rain on Thursday, which continued until 3 o'clock in the afternoon, the grounds were too wet for the men to camp out and the quartermaster and his squad of assistants were unable to pitch the tents. The men consequently were marched across to the city building opposite the Kingston and Pembroke railway station where they encamped for the night in the City and Ontario Halls. The officers and staff were quartered at the Hotel Frontenac. The men did not reap much benefit from their sleep, a few noisy individuals keeping the excitement and noise up till broad daylight in the morning. Following are the battalion orders:

HEADQUARTERS,
Peterborough, 30th June.

Orders by Lieut.-Col. J. Z. Rogers, commanding the 57th Battalion of Infantry, Peterborough Rangers:

No. 1. The order of entraining will be as follows: The brass band, bugle and drum corps and pioneers will occupy the first car, the companies will follow in succession under the direction of an officer who will be detailed for the purpose.

No. 2 Arms will be laid on the floors of the cars, care being taken not to scratch the sides of the car.

No. 3. Each company will mount guard on the doors of the car which it occupies, and will relieve the sentinels every hour until Kingston is reached. The sentries will not allow any but the officers to pass from car to car.

No. 4. Officers will remain with their companies until after passing Ashburnham.

No. 5. On arrival at Kingston each company will form facing the train and parade in fours and will march on markers when the advance is sounded.

No. 6. During the continuance of the camp a guard of one sergeant, one corporal and twelve men will be mounted. The hour of duty will be as follows:—

From arrival in camp till 8 a.m. on Friday morning "B" Company.

From 8 a.m. to 3 p.m. Friday "C" Company.

From 3 p.m. to 10 p.m. Friday "D" Company.

From 10 p.m. to 8 a.m. Saturday "E" Company.

From 8 a.m. to 3 p.m. Saturday "F" Company.

From 3 p.m. to departure "A" Company.

No. 7. The officer commanding each company and the senior subaltern thereof will act as captain and subaltern of the day during the respective hours of duty of their companies.

No 8. On arrival in camp the orderly sergeant of each company with a fatigue party of four men will parade at the quartermaster's tent for the issue of blankets.

No. 9 The battalion will parade tomorrow morning July 1st, at 9 o'clock for drill and muster. Companies will parade at 7.30 o'clock and be marched to their billets for breakfast.

THE BREAKFAST PARADE.

At 8 o'clock the men were aroused and marched off in companies to the respective hotels at which they are billited, the officers and staff breakfasted at the Frontenac and the band at the City hotel. At ten o'clock the men paraded in front of the city hall and headed by the battalion band and the bugle and drum corps marched to the drill shed and camp ground on the corner of University Avenue and Union street, in the rear of Queen's University buildings and grounds. As the 57 h marched along to the music of inspiriting airs, with firm martial tread and soldierly carriage the boys "did themselves proud." The line of march was fringed with hundreds upon hundreds of people. Warm words of praise were uttered on all sides, while ringing applause running all along the line like a *feu de joie*, testified to the popular appreciation of the exceedingly creditable bearing and appearance of the Rangers. The camping ground occupies a fine grassy site and is well adapted in all respects for a bivouac, being spacious, level and convenient to the drill shed of the 14 h battalion.

The Rangers were met at the drill shed by the Princess of Wales' Own, which was inspected this morning by Lieut.-Col. Montizambert, commander of the detachment of "B" Battery, Quebec. After the inspection the battalion marched through the principal streets to Barriefield Commons where a grand military review took place. Both battalions acquitted themselves splendidly, performing all the movements and evolutions with precision and promptness. The column of march was headed by an artillery attachment of "A" Battery with two guns. Then followed the pioneer corps of the 57th, seven strong, under the command of Pioneer Sergt. Metheral; the Battalion Band under the leadership of Bandmaster F. W. Miller, 30 strong, and the bugle and drum band 16 strong. Following are the names of battalion staff, the officers and number of men in each company:—

Staff—Lieut.-Col. J. Z R gers commanding, Sr. Major Bell, Jr. Major Edwards, Surgeon Dr. Halliday, Capt. Donaldson, Adjutant; Capt. Langford, Quartermaster.

"A" Co.—Capt. Mason, Lieut. Tebb, 40 strong.

"B" Co.—Lieut. Sobefield in command, Lieut. Benedict, (attached) 36 strong.

"C" Co.—Capt. Hill, Lieut. Stevenson, 30 strong.

"D" Co.—Capt. Hill, Lieut. Hayes, 29 strong.

"E" Co.—Capt. Miller, Lieut. Bennett, (attached) 34 strong.

"F" Co.—Capt. Brennan, Lieut. Mills, 27 strong.

Total battalion strength 308. The ambulance corps under the command of Ambulance Sergt. Harris was 11 strong.

The 14 h Battalion was commanded as follows They were 300 strong:—

Staff:—Lieut. Col. H. C. Smith, sergeant at arms, House of Commons, commanding; Sr. Major Shannon, Jr. Major Skinner, Major Galloway, Adjutant; Sr. Surgeon, Dr. Henderson; Jr. Surgeons, Drs. Herald, Dr. Garrett; Quartermaster, Major Spragge; Paymaster, Capt. Strange.

"A" Co. Capt. Dupuis, Lieut. Richardson.

"B" Co.—Capt. McKelvey, Lieut. Jack.

"C" Co.—Capt Joyner, Lieut Kirkpatrick.

"D" Co.—Capt. Hova.

"E" Co.—Capt. Kent, Lieut Walkem.

"F" Co.—Capt. Carruthers, Lieut. Millam.

NOTES OF THE DAY.

The 57th Battalion will be inspected tomorrow at 9 o'clock on the drill shed commons by Lieut.-Col. Montizambert.

The staff and officers of the 57th will be entertained at a banquet in the Hotel Frontenac to night by the 14th officers and staff.

The men will be taken for a sail down the river to see the fair famed Thousand Islands to-morrow afternoon.

There are hundreds of bicyclists in the city from Toronto, Ottawa, Hamilton, St. Thomas, Peterborough and other places. The great street parade of wheelmen this afternoon was the grandest sight ever seen in Kingston. The Peterborough Bicycle Club held their own in appearance and riding. They were 58 strong and under the following officers: President, R B Rogers; Vice-Pres., A. Gibson; Capt. W. C. P. Heathcotte; 1st Lieut, F. J. Might; 2nd Lieut., J. E Dolan; Standard Bearer, W. Bradburn; Bugler, Percy Roper. The annual races of the tenth annual meet of the Canadian Wheelmen's Association are being carried out this afternoon. Thousands are present and the number of entries is large.

RICOCHET SHOTS.

The streets are in a fine condition for marching. They day is glorious.

The tents were pitched on the camp grounds this afternoon by the indefatigable Quartermaster Langford and his men. The men and officers will camp out to night.

The Peterborough boys are enjoying themselves hugely this afternoon. A large number are witnessing the bicycle races while others have gone to Long Island Park to attend the great Oddfellows picnic where the Peterborough Baseball club and the Princess street nine are playing a game of baseball.

The Kingston Lacrosse club defeated the Young Canadians of Toronto quite easily this morning, securing 5 goals to their opponents 1.

The Kingston Cricket club and the Montreal Cricket club are playing a match this afternoon.

The 57th Battalion will leave Kingston for home at eleven o'clock on Saturday night and will reach Peterborough about five o'clock Sunday morning. In the meantime all are thoroughly enjoying themselves.

FRAGRANT PERFUMES AND WASHES.

Some Delightful Compounds Within the Reach of Every Housewife.

All the sweet odors distilled by dainty women in the olden days, the fragrance of lavender and rue, the aromatic infusions of clove pinks and verbena leaves, do service on my lady's toilet table of to-day.

Provence roses and jasmine, lavender flowers and rose petals, with sprigs of rosemary, form a delightful adjunct to the summer bath, and here is the formula for preparing them copied from the faded script in recipe books that were old before the girl who studies them now was born. To a pint of pure vinegar add half an ounce of lavender flowers or jasmine, the same quantity of red rose petals, the juice of a lemon, and a few sprigs of rosemary. Infuse for a few days in an earthen jar; then stand the jar in a kettle of warm water for a day and filter the contents through chemists' paper. Add sprigs of thyme or rue, a handful of clover blossoms if you like their odor, and sprinkle a few drops in the hand basin or a tablespoonful in the bath.

An ounce of clove pink petals infused in three-quarters of a pint of pure alcohol with a few verbena leaves is a refreshing odor for the bath.

Then there are the cosmetics of the kitchen garden to which our grandmothers pinned their faith before the evil days of the complexion specialist and the dermatologist. Sweet cream from pure milk, infinitely more soothing than any of the bottle compounds so widely advertised, is the basis for most of these emollients. The juice of ripe strawberries dropped into thick sweet cream is a gentle cooling remedy for sunburn.

Cucumber juice or melon juice squeezed into cream and always prepared in an earthen dish with a wooden spoon or earthen pestle is a fatal enemy to sunburn and all its wicked works. A handful of parsley thrown into boiling water is also a good antidote for sunburn, and some famous beauties of old used to swear by the good effects of a raw potato cut in halves and rubbed on the face at night.

Then there is the rose jar. Every woman intends to fill her own rose jar, but somehow never finds a recipe until the season is over.

Remember that rose petals gathered in the early morning, before the sun has absorbed their due and with it half their sweetness, are more fragrant than those gathered in the heat of the day. Toss the leaves lightly in layers, with salt between, in a large covered glass dish, adding fresh petals every morning until you have a sufficient quantity. After they have stood ten days, shaking them well each morning, they will be ready for the spices. Two ounces of [illegible] slightly crushed; two ounces of stick cinnamon, broken coarsely, should be placed in the bottom of an air-tight fruit jar, the rose leaves on top, and the whole left without opening for six weeks. Then mix together one ounce each of ground cloves, allspice, cinnamon, mace, and orris root, two ounces of lavender flowers, and place in alternate layers with the roses, over which you pour one-quarter of a pint of good cologne, and you will have a breath of June fragrance in your room for years.

When the clover blossoms dry, put the sweet pompons in paper bags and hang them in your closets and wardrobes if you would do as the neat old Prues and Patiences of the old days would teach you. Scatter sprigs of thyme and rosemary and lavender in the drawer of linen, and put rose leaves in the lingerie and stationery. The lavender water so highly esteemed, is made by putting a little lavender essence in good cognac. There is a certain charm and individuality about the sweet odors thus prepared by the woman who uses them, that that the perfumer's art does not supply.

"I would like to sound the praise of Hood's Sarsaparilla over the entire universe," writes Mrs. Loegenacker, of Union Deposit, Penn.

There are more cases of sickness and death from diseased kidneys than from all other diseases combined. It is your own fault if you allow your kidneys to remain in an unhealthy condition when the cure is at hand. Dood's Kidney Pills are guaranteed to cure the worst cases. It costs but little to give them a trial. They are for sale by all druggists and dealers or by mail on receipt of 50 cts. or 6 boxes for $2 50. Write for book called Kidney Talk.

Dr. Lee's New Instrument.

Dr. Elmer Lee, of Chicago, has recently designed an instrument for removing fluids from the lung cavity and cleansing the cavity which he claims will do away with the painful and dangerous features of the operation as is now performed. The idea of this instrument occurred to the Doctor in the treatment of Mr. W. B. Whiting, of the Whiting Paper Company of this city, who was taken suddenly ill in the Chicago Club of that city three months ago. Mr. Whiting was at first treated for stone in the gall bladder, but complications of the kidneys, pleurisy, septic pneumonia, and finally blood poisoning set in. His case was declared hopeless by a number of physicians. Dr. Lee, however, refused to give him up, and by cutting out one of the patient's ribs and washing out the lung cavity where the blood poisoning originated saved his life. Mr. Whiting is now convalescent. Dr. Lee was not satisfied with the tedious operation of cutting out the rib, which leaves a cavity in the chest, and he invented a method of treatment for such cases which he tried on Wednesday last in the operating room at Bellevue Hospital before a number of prominent physicians, all of whom pronounced it a success. The operation consists in piercing the lung cavity with a sharp three-sided instrument, which carries into the cavity a tube. The piercing instrument is then removed, leaving the tube in the opening thus formed. This tube is attached to a small and ingenious reversible pump, which can be clamped to a chair or table, designed by Dr. Lee, by means of which the noxious fluids are pumped from the cavity and a medicated solution pumped in, cleaning the cavity. The pump is about four inches long, V-shaped, and of steel, with a rubber suction tube. This treatment obviates the necessity of cutting out a rib to get at the cavity, and is much more thorough than the old operation. The tube is left in the cavity, and the operation of cleansing repeated until the lung heals, when the tube is withdrawn. Dr. Lee will sail for Europe in a few days to introduce his method of treatment there. He is delighted by the cordial treatment which he has received from the physicians in this city.—New York Sun.

Large Brass Tubes.

What are supposed to be the largest and heaviest tube of brass ever made in this country have been turned out at the American Tube Works, Boston. The largest is nine feet long, 49-16 diameter, seven-eighths inch thick, weighing about 316 pounds. The tubes are for use in place of bells, for what are called tubular chimes.—New York Sun.

Pallor, languidness, and the appearance of ill-health being no longer fashionable among ladies, Ayer's Sarsaparilla is more largely resorted to as a tonic-alterative, nervine, stomachic, and builder up of the system generally. This is as it should be. Ayer's is the best.

A Sensible Man

would use Kemp's Balsam for the throat and lungs. It is curing more cases of coughs, colds, asthma, bronchitis, croup and all throat and lung troubles than any other medicine. The proprietor has authorized any druggist to give you a sample bottle free to convince you of the merits of this great remedy. Large bottles 50c. and $1. dw

A Friend

Wishes to speak through the *Register* of the beneficial results he has received from a regular use of Ayer's Pills. He says: "I was feeling sick and tired and my stomach seemed all out of order. I tried a number of remedies, but none seemed to give me relief until I was induced to try the old reliable Ayer's Pills. I have taken only one box, but I feel like a new man. I think they are the most pleasant and easy to take of anything I ever used, being so finely sugar-coated that even a child will take them. I urge upon all who are

In Need

of a laxative to try Ayer's Pills."—Boothbay (Me.) *Register*.

"Between the ages of five and fifteen, I was troubled with a kind of salt-rheum, or eruption, chiefly confined to the legs, and especially to the bend of the knee above the calf. Here, running sores formed which would scab over, but would break immediately on moving the leg. My mother tried everything she could think of, but all was without avail. Although a child, I read in the papers about the beneficial effects of Ayer's Pills, and persuaded my mother to let me try them. With no great faith in the result, she procured

Ayer's Pills

and I began to use them, and soon noticed an improvement. Encouraged by this, I kept on till I took two boxes, when the sores disappeared and have never troubled me since."—H. Chipman, Real Estate Agent, Roanoke, Va.

"I suffered for years from stomach and kidney troubles, causing very severe pains in various parts of the body. None of the remedies I tried afforded me any relief until I began taking Ayer's Pills, and was cured."—Wm. Goddard, Notary Public, Five Lakes, Mich.

"German Syrup"

A Throat and Lung Specialty.

Those who have not used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearing strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.

CHAMBER OF COMMERCE.

Sir Charles Tupper's Proposal Beaten—How Canadian Delegates Voted.

LONDON, June 30.—The Congress of Chambers of Commerce of the Empire debated nearly all day on Sir Charles Tupper's amendment in favor of slight differential duties to Sir John Lubbock's motion in favor of a free trade union of Great Britain and the colonies.

Sir Thomas Farrar ridiculed the proposal of the Canadian High Commissioner. He contended that Canadian trade was infinitesimal compared with the trade that would be lost to England by the adoption of Sir Charles Tupper's suggestions.

"Should Great Britain," asked Sir Thomas, "forego fifty millions of American trade in order to secure problematical eleven millions from Canada? Conceive of England's position, if the United States should conclude to offer free trade on the condition of being accorded the same terms as Canada, and England should be compelled by a prior obligation to Canada to reject the offer?"

William McArthur, president of the Liverpool Chamber of Commerce, strongly opposed it. He declared that Tupper's proposals meant taxation of the British producer for the benefit of the colonies.

Sir John Lubbock urged that Canada should use the McKinley tariff, as it was a great chance for the Dominion to throw open her ports and invite the nations of the world to trade with her, which would give her such progress as she had never witnessed before.

Messrs. Plews and Ellis of Toronto and J. X. Perrault of Montreal supported Sir Charles Tupper's amendment.

Thomas Ballantyne, M.L.A., of Woodstock, Ontario, denied that Canada was unanimous for protection, as many of the residents of the Dominion were in favor of free trade.

The congress allowed Sir Charles Tupper to alter his amendment in the sense of limiting the duties proposed to be imposed to five per cent.

A vote was called for, and on a show of hands being demanded the amendment was declared to be lost, 78 voting against and 34 for it.

Cheers greeted the result.

Erastus Wiman and two other Canadian delegates voted against Sir Charles' amendment, all the other Canadians voting in its favor.

Sir Charles Tupper, at the instance of J. X. Perrault, protested against the vote as invalid, as he claimed that each Chamber of Commerce only, and not each delegate, was entitled to one vote. He will claim that the vote be re-taken to-morrow.

A Man Killed by Hogs.

STANLEY AND HIS WIFE ROUGHLY TREATED.

LONDON, June 30.—Henry M. Stanley and Mrs Stanley tried last evening to address Lambert electors in Hawkins' Hall. The crowd was uproarious from beginning to end and but little said by each of the speakers was heard.

Numerous interruptions were stopped by the police. After Stanley had been hooted down his wife tried to speak, but the crowd became a hooting and fighting mob. Stanley succeeded in leading his wife outside, but both received blows.

The mob broke from the doors of the hall with a rush and swooped down on Mr. Stanley's carriage. He had barely got Mrs. Stanley inside when they were upon him.

The mob wrenched off one door of the carriage, but before they could do more the driver got his horses into a gallop and was beyond their reach.

Mrs. Stanley was badly frightened. She screamed several times during the mob's attack upon the carriage.

Having Lots of Fun With Stanley.

LONDON, June 30.—In Henry M. Stanley's election headquarters is an exhibit of his wife's sketches of street Arabs. The Liberals have issued a parody on the sketches, in which a girl, with the features of Mrs. Stanley, is represented with a tattered shawl, holding a baby with the features of Henry M. Stanley, and the legend: "Carrying him in."

Gladstone Off for Midlothian.

LONDON, June 30.—Mr. Gladstone left for Midlothian yesterday. As the train stopped at the various stations along the line the crowds that had assembled cheered him heartily. At several stations, notably Warrington, Wigan and Preston, addresses were presented to him which he acknowledged in brief speeches.

An enormous and highly enthusiastic crowd awaited the arrival of Mr. Gladstone at Edinburgh, and when the train bearing the statesman arrived at that place Mr. Gladstone received an ovation.

Asked to Sustain Gladstone.

LONDON, June 30.—The Parnellite Committee of Great Britain, while regretting Gladstone's reticence, has issued a formal address advising Irish electors to support Gladstonian candidates on the ground that Gladstone will then have no excuse to withhold the details of his Home Rule scheme. It is stated the Executive Committee of the Parnellites in Dublin will issue a similar address.

O'Brien Is Satisfied

DUBLIN, June 30.—William O'Brien, addressing a political meeting at Cork yesterday, said that Mr. Gladstone had obtained the full confidence of the McCarthyites, and they now knew that Mr. Gladstone's Home Rule bill from the Nationalists' point of view would be as good and in some respects better than the bill Parnell had accepted in 1886.

A BALLOON BURSTS.

Terrible Accident in the Crystal Palace Grounds, London.

LONDON, June 30.—A terrible accident occurred at the Crystal Palace yesterday. One of the attractions in the palace grounds was a balloon ascension. This afternoon it ascended with four occupants and after reaching a height of 100 feet it burst.

Captain Dale, one of the occupants, struck the ground with terrific force and was instantly killed.

The other three passengers were terribly injured and it is not believed they will live.

Quite a crowd was watching the ascent when the accident occurred.

The annual fete of the Sunday school choirs of London was being held in the Crystal Palace and 5000 children were present. The accident was witnessed by the wife and daughter of Captain Dale. The captain was accompanied in the balloon by his son, aged 16 years, who was so severely injured that he will die.

THE RECENT PLOT TO KILL PRINCE FERDINAND.

Confession of the Men Arrested on Suspicion—Spread of the Cholera in Russia—Murderers of Servant Girls Sentenced—An Afghan Massacre.

SOFIA, July 2.—The prisoners, Milaroff and Popoff, arrested on suspicion of being engaged in a plot to murder Prince Ferdinand of Bulgaria, have confessed that they were guilty, and have put the Bulgarian authorities into possession of the details of the scheme, which appears to have been of Russian origin. It is said that the prisoners were induced to confess by torture, Milaroff having been deprived of food for three days and flogged at the usual meal time.

The Bulgarian Premier, M. Stambuloff, is said to be satisfied that the Russian Government is carrying on a secret war of assassination against Bulgaria.

THEY MUST DIE.

Fritz Erbe and Rosalie Buntrock Convicted of Murder.

BERLIN, July 2.—Rosalie Buntrock and her lover, Fritz Erbe, were tried at Magdeburg to-day for the murder of two girls named Kasten and Klage. The mode of operation of the murders was similar to that of the notorious Schneiders of Vienna.

Rosalie Buntrock, who wore some of the apparel and jewelry of the victims when arrested, made a confession, in which she described how the murders were committed.

The girl Kasten was lured to the forest of Neuhaldensleben, where Erbe strangled her and severed her head from her body, and he and Rosalie then stripped and buried the corpse.

In the second case Rosalie gagged the girl Klage while Erbe cut her throat.

Erbe tried to prove an alibi, but both he and Rosalie were found guilty. Sentence was deferred.

Scarlet Fever Raging in London.

LONDON, July 2.—Fever epidemic in London is growing more serious. Yesterday reports of fresh cases of fever were received from all the districts. Scarlet fever was the chief disease reported. There are to-day in six of the public hospitals 2430 patients suffering with scarlet fever. Most of the patients are children.

Cholera's Ravages.

ST. PETERSBURG, July 2.—The number of victims in cholera-stricken Baku is steadily increasing. On Monday 55 fresh cases of the disease were reported at that place, and on the same day 57 deaths occurred. A quarantine has been established at Ouzanada for the purpose of preventing contagion through the transportation of Asiatic merchandise. Travelers are forbidden to pass between the Caucasus and Trans-Caspian provinces. The Austrian Lloyds has suspended its steamship services between Batoum and Trebizoud.

The French Cholera Scare.

PARIS, July 2.—The newspapers announce that a number of cases of cholera in the outskirts of this city is increasing.

The director of public aid admits that the disease has existed in the vicinity of Paris for the last three months but insists that it has appeared in only a mild form. He says that the presence of the malady is due to the people drinking water taken from the Seine without having the liquid boiled before being used.

He declares that no true case of Indis cholera has yet been reported.

Massacre of Hazaras.

SIMLA, July 2.—Advices received here show that while two Afghan regiments of infantry and one of cavalry, with six guns, which had been summoned to Cabul by the Ameer, were en route to Cabul they attacked the Hazara tribe. The troops destroyed the fort of the Hazaras and massacred many of them.

Charged With Forging Bills of Lading.

LONDON, July 2.—C. A. Beyts and C. C. Grant, merchants, were arraigned in the Guildhall Friday on the charge of forging bills of lading with intent to defraud the Chartered Mercantile Bank of India. Bail in the sum of £100,000 was offered, but it was refused and the prisoners were remanded.

Canada's Oldest Church Burned.

HALIFAX, N.S., July 2.—Early yesterday the old Baptist church at Windsor was destroyed by fire. This church was the oldest in the Dominion. It was built in 1788. Burial ground and church were consecrated in 1826 and funeral services of upwards of 5000 people have been read within the old church's walls. For more than half a century it was the university church of King's College. Fine mural tablets are gone with the church.

Killed on His Way to School.

BADEN, Ont., July 2.—John Arnold, aged 12 years, son of Philip Arnold, was run over by a railway car on the way to school. The boy had been watching the locomotive, which was moving on the main line, and had his back turned to the cars running on the side track, which knocked him down, the wheels passing over his body.

Wealthy Farmer Charged With Theft.

BRAMPTON, July 2.—James Montgomery a farmer worth $8000 living near Streetsville, has been committed for trial for the theft of goods from the G.T.R. warehouse.

Johnson Wants Another Fight With Dixon.

NEW YORK, July 2.—Since the Dixon-Johnson contest at Coney Island, which resulted so unfortunately for the latter, some of the champion's friends have declared that the colored lad could beat the Englishman even at 122 pounds. If they are willing to back their belief the opportunity is open for them.

Mr. Ridgeway Griffith called at The Press office last night and left a deposit of $100 to bind a match between Dixon and Johnson at 123 pounds. He will back the Englishman to the tune of $2500, the men to fight within six weeks of date and five weeks of signing articles. If Dixon's manager desires to match his man against the Englishman he can do so by covering the forfeit posted. If the money is not covered by the end of the week it will be withdrawn.

Clinton Defeats Goderich.

GODERICH, Ont., July 2.—The third lacrosse match in the western district was played here yesterday between Clinton and Goderich, and resulted in 4 games to 1 in favor of Clinton.

D. A. C. at Tilsonburg.

TILSONBURG, July 2.—Bob Leadley's D. A. C. team played two games yesterday with the Blues. The Blues won in the morning 13-5, scoring 12 in the 8th. In the afternoon D. A. C. won 11-4.

BABY'S FACE WAS RAW

Distressing Itching Skin Disease Cured in One Month by the Cuticura Remedies.

When our boy was six weeks old he had a rash on his cheek. It spread on both cheeks and chin. His face was raw. I doctored with various remedies, but it got no better. My mother advised me to try the CUTICURA REMEDIES. I used them faithfully, and in one week the boy looked better. In one month he was cured, and now he is three years old and no signs of it returning. The child was so bad I had to tie him in a pillow-case, and pin his hands down so that he could not scratch his face. I cannot speak too highly of the CUTICURA REMEDIES. I recommend CUTICURA whenever I can. I would be pleased to see any one and talk to them of the good it has done my boy.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

WOULD YOU BUY
If the Price were Low?

Most men who do not own houses would become owners if they could do so at a moderate cost.

It is my business to build houses, the cost of which is within the reach of people in fair circumstances.

I have one house, well built, good location, Aylmer sheets, between Townsend and Rink streets—$2,450. Look it up. Will have two on Dalhousie; work now going on.

DOMINION PARLIAMENT.

THREE SESSIONS OF THE HOUSE ON SATURDAY.

The Business Practically Concluded and Prorogation Looked for on Thursday or Friday—No Revision of the Voters' List This Year—The Senate and the Redistribution Bill.

OTTAWA, July 4.—The net result of Saturday's three sittings of the House has been a clearance of the order paper, which practically leaves only three important matters undisposed of. These are the railway subsidy, resolutions, the bill re adjusting the judges' salaries and Mr. Gordon's Chinese Bill, which the Government has adopted. The first of these will be taken up to-day and will probably be disposed of before adjournment to-night. The second, it is rumored, may be dropped, but that will not be known until Sir John Thompson takes his place in the House again to-night after taking his family to St. Andrew's for the summer. As for the third, it will most likely come up on Tuesday, and should not take up much time, as it is understood that the Government will adopt Mr. Gordon's idea of either abolishing the system of return certificates or placing such safeguards around them as will prevent the use of bogus certificates which have been presented in very large numbers of late.

From this it would appear that prorogation will probably take place not later than Thursday or Friday.

In the House Saturday morning nothing was done except express concurrence in the work of the Committee of the Whole on the estimates. In the absence of Sir John Thompson, Hon. Mr. Foster led the House. The only items which were disagreed with were those providing for the payment of salaries to the Government emigration officers, who since the passing of the estimates by the committee have, with the exception of those at Halifax and St. John, been discharged.

The afternoon session was mostly taken up by concurrence. After the remainder of the main estimates and the whole of the supplementary had been disposed of Hon. Mr. Patterson's bill providing that there shall not be a revision of the voters' lists this year and legalizing some lists received after Dec. 31 passed through committee and stands for third reading to-morrow.

Hon. Mr. Haggart then got his bill amending the Railway Act through committee, and the third reading was set for Tuesday, when there will be a discussion on Mr. Maclean's two-cent-a-mile amendment.

When the House was in committee on the general inspection act, Hon. Mr. Costigan moved an amendment that cheese be added to the list of articles to be inspected. He explained that the amendment was made at the unanimous request of the cheese makers. It was proposed to fix standards for cheese and draw up regulations for its inspection. He had been desirous of meeting the views of those who asked that barrels in which apples were packed should be inspected, but as that would involve an amendment to another act it could not be carried out this session.

The Government, he said, had decided upon one important change in the regulations fixing the wheat standards. There had been much complaint about the standards fixed last year and it had been decided that the samples upon which standards had been based be collected by the Government, to whom then the responsibility would attach. The bill passed committee and was reported.

At the evening session Hon Mr. Foster moved the House into committee on a resolution to raise by the issue of debentures the sum of $230,000 to be advanced to the Harbor Commissioners of St. John, N.B., for the purpose of improving the harbor. He spoke of the importance of St. John as a shipping port and intimated that the improvements would cost about one million dollars, but the trade of the port was sufficient to guarantee the payment of the interest.

The resolution was adopted.

When Mr. Foster was making his announcement yesterday morning about the Spanish treaty Mr. Forbes wanted to know whether imports into the Spanish West Indies from Canada would be received on equally favorable terms with similar imports from the United States and was informed that Canadian products would be admitted under the minimum Spanish tariff.

Dr. Landerkin will enquire of the Government to-day whether the attention of the ministers has been called to a letter from the Hon. Mr. Dewdney to a man named Green which appeared in The Regina Leader on Jan. 12 last with editorial comments thereon. The comments refer to the Regina town site scandal.

Printing of the Daily Debates.

OTTAWA, July 4.—At a meeting of the Debates Committee it was decided to reduce the first issue of the daily debates from 17,500 to 300 or 350 and to send out to the press revised copies of the issue instead of the sheets as first printed. The 300 or 350, as the case may be, will suffice to supply the members and the press gallery. At the end of the session those newspapers which received daily copies of The Hansard will get a title page and index.

JUMPED TO HIS DEATH.

James Robinson Was Out of Work and Committed Suicide.

TORONTO, July 4.—The Don has added another to its list of victims—this time a voluntary one. On Saturday night about 10 o'clock William Kimball, a letter carrier, saw a man spring from the Queen-street bridge. He gave the alarm and a crowd assembled and searched for the body, and succeeded in bringing the body to the surface.

The deceased proved to be James Robinson, a carpenter living at 8 Brant-place. He leaves a wife, who is ill, and two children. He had been out of work for some time, and had been drinking rather heavily.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City.

TORONTO, July 4.—Receipts of grain on the street Saturday were represented by 100 bushels of wheat at 80c for fall and 75c for spring, 200 bushels of oats at 32c and one load of peas at 61c. Hay was in good supply at $11 to $13 for timothy and $9 to $10 for clover. Straw sold at $9 to $10. Dressed hogs sold at $6.25 per cwt.

THE BRITISH ELECTIONS.

A Large Number of Members Elected by Acclamation.

LONDON, July 4.—The uncontested elections were continued Saturday. The following candidates were returned:

Name.	Politics.	Constituency.
George Dixon	Unionist	Edgbaston
Sir M. Hicks-Beach	Conservative	West Bristol
Sir E. Watkin	Unionist	Hythe
Sir W Houldsworth	Con.	Northwest Manchester
Sir A. Borthwick	Con.	South Kensington
Sir J. D. Weston	Liberal	East Bristol
H. H. Fowler	Liberal	E. Wolverhampton
J. A. Pioton	Liberal	Leicester
Charles P. Villiers	Unionist	S. Wolverhampton
Sir J. Whitehead	Liberal	Leicester
J. Heaniker Heaton	Conservative	Canterbury
Sir John Lubbock	Unionist	London University
Francis T. Barry	Conservative	Windsor
A. W. Peel	Unionist	Warwick

The total of the elections thus far held shows the return of 11 Liberal-Unionists and 4 Liberals.

When the Polling Will Begin.

The first elections in which there will be contests will occur to-day. Elections on that day will include polling in only one London district. Forty-eight elections will be held in the provincial districts. Tuesday will be the test day. On that day elections will be held in 16 of the London districts and in about 40 of the provincial towns. On the following two days elections will be held in most of the boroughs. The results of these elections will virtually disclose the position of the parties in Great Britain.

The polling in Ireland will open at Belfast on Wednesday. The date of the election in Cork city is fixed for July 8. This is the constituency formerly represented by Mr. Parnell, who was succeeded by Mr. Martin Flavin. The polling in Ireland will extend from July 6 to July 16.

Though the House of Commons consists of 670 members, there are only 643 constituencies, as a number of constituencies, boroughs and universities return two members each.

The allocation of members is shown below:—

	Constituencies.	Members.
London	58	59
English boroughs	147	167
English counties	234	234
English universities	3	5
Welsh boroughs	10	11
Welsh counties	19	19
Scotch boroughs	30	31
Scotch counties	30	30
Scotch universities	2	2
Irish boroughs	15	16
Irish counties	85	85
Irish universities	1	2
Totals	643	670

Mr. Gladstone's Letter.

Gladstone has written an important letter to the miners of Nottingham urging them to support Mr. Broadhurst for re-election. He takes occasion to declare that he hopes the miners will sacrifice their eight-hour contention for the sake of helping to secure justice for Ireland. It has long been known as a characteristic of the English workingmen, he says, that they are willing to sacrifice their own views and apparent interests for the sake of a weightier cause. During the American War, the people of Lancashire cheerfully endured the cotton famine, because they hated slavery and because America was the home of labor. He adds that he cannot now believe that the miners, owing to their supposed interests, will elect the representative of a party which intends to perpetuate the shameful evils from which Ireland suffers.

A sudden opposition has arisen in the City of London District. Ald. Ritchie, brother of the Rt.-Hon. C. F. Ritchie, President of the Local Government Board, has insisted on standing as an Independent Conservative, supporting the taxation of ground rents.

Stones and Shillalahs.

In a political riot at Waterford many persons were wounded, including David Sheehy, anti-Parnellite, who sat for South Galway.

A number of dock laborers at Southampton became involved in an election fight and one of the participants was stabbed to death.

J. H. Lewis, who is contesting the Flint District in Wales in the Liberal interest, was assaulted while addressing a meeting Saturday. He was forced to flee from the platform and take refuge in a hotel.

Parnellites, armed with sticks and stones, attacked Tim Healy's meeting at Dundalk Sunday and were not driven off until many persons had been wounded.

Rioting which broke out at O'Brien's meeting at Limerick Saturday night was continued until midnight. The two factions pelted each other with stones and many were injured on both sides.

Mr. Johnson, a Parnellite candidate, addressed a meeting of 5000 in Newry Sunday. While he was speaking a crowd of McCarthyites interfered and a number of fierce fights ensued, sticks and stones being freely used and several persons being wounded. The fighting ended in the repulse of the McCarthyites.

Mr. Goschen's Opinion.

LONDON, July 4.—Mr. Goschen, Chancellor of the Exchequer, while speaking Saturday was asked whether Mr. Gladstone had got the consent of Messrs. Dillon, McCarthy and Healy to his declarations that the rejection of the Home Rule Bill by the House of Lords would not involve a fresh appeal to the country, as Parliament would then proceed with other business.

Mr. Goschen said that such a course was impossible; that the defeat of the Home Rule Bill must mean the dissolution of Parliament and the putting of the question straight to the people, without accessory programs comprising the issue. The opinion of Mr. Goschen is the opinion of every prominent politician on each side excepting Mr. Gladstone, and it is likely that events will force him to concur with them.

Religious Feuds in Zanzibar.

PARIS, July 4.—The Temps publishes a dispatch from Zanzibar saying: "Another letter from Bishop Hirth is now en route to Germany in which the Bishop makes fresh charges against Captain Bugard and Williams, accusing them of renewing the attacks on the Catholics, burning their mission, declining to treat with Catholic chiefs and trying to enlist the support of King Mwanga."

Boat Upset.

BURK'S FALLS, Ont., July 4.—J. C. Ashdown, a well-known farmer residing three or four miles down the river, attempted to cross the river in a sort of sheet iron boat, which had presumably been used in connection with sap boiling, and was nailed at both sides to parallel pieces of wood, but forming a dangerous craft. The boat capsized and went down, taking its occupant with it.

A COLUMN OF CANADIAN.

FRIGHTFUL BOATING ACCIDENT OPPOSITE MONTREAL.

Six Members of a Canoe Party Drowned—Four Outcanoes Seriously Moulded by a Boiler Explosion in Manitoba—Suicide by Drowning in Toronto.

MONTREAL, July 4.—There was a frightful boating accident on the St. Lawrence in sight of this city Saturday by which six lives were lost.

Seventeen members of the Grand Trunk Boating Club rowed over during the afternoon from their boat house to St. Helen's Island in a long war canoe, 30 feet in length, which has been frequently used by members of the club.

The boat reached the island in safety and the young men spent several hours on the island enjoying themselves.

Shortly after 6 o'clock, while it was still light, they started out to row back to the boathouse. They had to make their way against a very strong current and when opposite St. Lambert's the fragile canoe got caught by the current and was capsized.

Some people who witnessed the upsetting of the boat from St. Lambert's went to their rescue, but only succeeded in saving 11 of the men.

The six young men who were drowned are:

THOMAS O'BRIEN, aged 23.
HOWARD RANSON, aged 22.
ERNEST LEE, aged 20.
EDWIN SLEEP, aged 20.
J. MULLIGAN, aged 23.
UNKNOWN MAN.

All the young men lived with their families at Point St. Charles.

The bodies of the drowned have not yet been recovered.

Two other young men who went out boating Sunday morning at Nun's Island, near the site of yesterday's accident, were upset and drowned. Their boat was found floating on the river. Their names were not reported to the police.

TERRIBLE BOILER EXPLOSION.

Four Men Frightfully Scalded, One of Whom Will Die.

WINNIPEG, July 4.—A terrible boiler explosion occurred on Saturday on the farm of Fred Lewis, south of Morden, near the boundary line, by which four men were terribly scalded, one of whom will die. The men were engaged threshing at the time of the explosion, all close to the boiler. The victims:

ROBERT BOTHRELL, terribly scalded, two limbs broken; will die.

THOMAS CAMPBELL, burned about head, face and body; injuries very serious.

NEWTON LEWIS, severely scalded and struck in abdomen by piece of iron.

JOHN DRUMM, scalded.

All the victims hail from different parts of Ontario. The cause of the explosion is a mystery, but it is supposed to have been occasioned from carelessness.

LOSS OF THE STANDARD.

Four Canadians Meet a Watery Grave in British Columbia.

VICTORIA, B.C., July 4.—The steamer Standard of the Standard Canning Company went down in a tide rip between Cape Mudge and Seymour Narrows on Friday last at 5 p.m.

The Standard left Nanaimo on Friday morning after coaling with just enough ballast to trim ship comfortably. At 6.30 the same evening when about 500 yards off Cape Mudge the tide rip struck the steamer and she sheered. The seas beat in the side of the engine room and flooded the vessel, sinking her in about 10 seconds.

The accident was witnessed from the shore, and the Indians succeeded in rescuing Engineer William Murray in an exhausted condition. The other members of the crew perished. They were James H. Carroll, captain; a deck-hand known as Charlie; William Murray, chief engineer; Henry Wright, fireman, and a Chinese cook.

Henry Wright, the fireman, had only been here a year. He came from Toronto and was 25 years old.

Drowned in a Cistern.

CHATHAM, Ont., July 4.—One of the most painful events in the annals of Chatham is the melancholy death of Col. Salter M. Jarvis, who was Saturday night found drowned in a cistern in the basement of his residence. Recently he has suffered from a severe illness and it is supposed that while examining the cistern, as was his wont, he was overcome by a weakness and fell through a trap door as he was preparing to descend into the tank. The body had evidently been in the water some hours before being discovered.

The deceased gentleman was well known in this community, in which he was a deservedly esteemed and popular citizen. He was a retired Lieut.-Col. of the Queen's Own Regiment, Toronto, a barrister by profession, a member and lay delegate of Holy Trinity Church and a Conservative in politics.

A Cobourg Merchant Dead.

COBOURG, Ont., July 4.—Peter McCallum, jr., died here shortly before 7 p.m. Saturday. The deceased was the eldest son of Peter McCallum, who came out to this country from Scotland and settled in Cobourg many years ago. The old gentleman is living and his name is still connected with the firm of P. McCallam & Sons, but the deceased son for a number of years has had the management of the business. The firm has long held a prominent position in commercial life as one of the best established and most prosperous in the retail dry goods trade of Ontario. His death vacates a seat in the Municipal Council Board of the town which he held for many years.

Accident to a Toronto Man.

BUFFALO, July 4.—August McKay of Toronto came near being killed last evening. He alighted from a trolley car at the corner of Niagara and Pennsylvania-streets and walked in front of another going in the opposite direction. He was knocked down and sustained a scalp wound, as well as being quite severely shaken up. The Fitch ambulance was called and he was taken to the hospital. McKay is visiting here with his brother in Lakeview-avenue.

The Late Judge McCrae.

SAULT STE. MARIE, Ont., July 4.—The funeral of the late Judge McCrae took place Saturday. The funeral services were conducted by Rev. Mr. Willmot, Methodist minister, assisted by Rev. Mr. Duncan, Presbyterian. The Bishop of Algoma was present.

Judge McCrae was upwards of 21 years judge of the district.

NASAL BALM

Music in the Schools.

To the Editor of the Examiner:

DEAR SIR,—I have been following with considerable interest the communications which have appeared from time to time in your paper on this subject. The matter has been presented in different aspects by parents and trustees. Permit me to offer a few remarks from a teacher's standpoint. A practical experience of some years in England and Canada emboldens me to hope that I may obtain a fair hearing.

The beneficial power of music no one will deny. I have seen a room full of weary little "infants," fatigued with the effort to acquire the very rudiments of education, brighten into smiling activity when "singing time" came. Or a large class of working girls, whose night school was the only chance of adding to their scanty store of knowledge, stop their coarse joking and rough play, subdued into quiet emotion, or prepared for earnest effort, by the pathos of a sweetly sung school song. Music and gymnastics have each held an important place in educational theories from the times of the ancient Greek and Roman to those of Pestalozzi and the modern kindergarten. We, as a community, must not be behind our age. The only question is: How to secure the best results.

It has been suggested that the ordinary teacher should undertake the task. In this, as in everything that requires concerted action, uniformity of training *must* be adopted. It is a well known fact that a passage of music may be rendered in as many different ways as a passage from literature. You will scarcely find any two readers who will interpret a selection in the same way, and yet each may be equally correct. Although this is perfectly permissible for solo-singing, it cannot, I think, apply to that taught in our public schools, which is chiefly of a choral character.

Now take any graded school. Either each teacher must do the best he can (supposing he has had a musical education) in his room, according to his individual taste and discretion, or, one must be selected to undertake the whole.

If the former alternative be adopted, all hope of uniform training, and consequently, concerted singing is destroyed. If the latter, other work must, of necessity, suffer unless the time be chosen after the ordinary school hours. In this case only the more enthusiastic of the scholars, a very small proportion, will remain.

I fully endorse the views of your former correspondent and think it would be a great pity for the Peterborough schools to take a retrograde movement in these matters. Professionally I was delighted to see a notice to the effect that the Peterborough boys were to be formed into a cadet corps for drill, etc. I consider such men as Mr. Ketcham and Sergeant-Major Rundle public benefactors, and wish that their philanthropic efforts could be exercised on behalf of the Ashburnham school boys.

Ashburnham school is increasing considerably and becoming an important factor in the educational well-being of the county. Our trustees have always proved themselves generous providers, and I hope there is a golden future in store when they will supply us with, not only a competent musical instructor, but a piano and a gymnasium. Till then our efforts will be small and insignificant, but valuable, if only as showing signs of life.

How Mr. W. D. Weeks of Geneva, N. Y. was cured of the severest form of dyspepsia? He says everything he seemed like pouring melted lead into his stomach. Hood's Sarsaparilla effected a perfect cure. Full particulars will be sent if you write C. I. Hood & Co., Lowell, Mass.

The highest praise has been won by Hood's Pills for their easy, yet efficient action.

A Pleasant Herb Drink.

The best cure we know of for constipation and headache is the pleasant herb drink called Lane's Family Medicine. It is said to be Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water onto the dried roots and herbs. It is remarkably efficacious in all blood disorders, and is now the sovereign remedy for ladies in clearing up the complexion. Druggists sell the packages at 50c and $1 dw

Summer Complaint and Diarrhœa.

I can recommend Dr. Fowler's Extract of Wild Strawberry for summer complaint and diarrhœa, as I have used it in my family, both for children and adults, with the best results.

We do not know of any preparation that has caught the public favor in so short a time as Dodd's Kidney Pills, but when we consider that three-fourths of the Canadian people are afflicted with kidney troubles in some form or another, and that Dodd's Pills are a quick and permanent cure for all these troubles, the large and increasing demand can scarcely be wondered at. Sold by all dealers or by mail on receipt of price, 50 cts. per box. Dr. L. A. Smith & Co., Toronto.

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE AMERICAN DOCTORS

(20 Years practice in Europe and America.)

THEIR SERVICES ARE FREE.

A staff of eminent American Physicians and Surgeons have opened an office for medical and surgical attendance, at No. 2202 St Catharine Street, Montreal. They give free services to all who call upon them before August 1st, 1892, and frankly tell you if your case is curable or not. All incurable cases are rejected. Special attention is paid to every case. Invalids living outside of Montreal should address their letters to Mr. JOHN MURRAY, Manager, and inclose from 2 cent Stamps for symptom blank and question sheets.

Are You a Mother?

If you are, this will Interest you.

Just a word to mothers who are obliged to feed baby artificially. There is nothing more neglected than the "feeding bottle," and a large measure of baby's happiness depends upon it. The "feeding bottle" and "teats" should be attended to with the most scrupulous attention. After feeding baby, the bottle should be put in ice cold water, to which should be added a teaspoonful of good baking soda to each pint of water. The "teats" should also be placed in this same solution in order to prevent them becoming sour.

Food should never be put into an unwashed "feeding bottle," and food should not be allowed to remain in the bottle after feeding and fed again to the child. If these matters are neglected, the infant's stomach, by being subjected to stale and sour food, becomes deranged, and the child's whole system is disordered from a mere act of inattention and carelessness.

If you feed baby with that healthy and life-giving Lactated Food, now so universally recommended by the medical faculty in Canada, the ordinary infant will not require it oftener than every two hours when awake; the quantity should not exceed three ounces, or an ordinary nursing bottle half full. As the child increases in age the quantity can be increased. A three months' child will thrive well on four, or at the most, five meals a day, and the quantity given should be six to eight ounces.

Babies fed regularly on Lactated Food as indicated above will be strong, healthy and vigorous. They will sleep well and soundly and will pass safely through the excessively hot weather. We strongly advise mothers to try the celebrated Lactated Food. Already it has become a household word from the Atlantic to the Pacific, and thousands of little lives have been saved by its use.

Springville.

From Our Own Correspondent.

Our city merchants report business as booming in every line. Farmers wives are hawking their eggs by the hundred dozen to the stores, no doubt owing to finding our merchants more honest and enterprising.

Pic nics are all the rage just now. On Saturday last about three-fourths of a score drove down to the flourishing town of Bowdby situated at the head of Rice Lake where they procured skiffs and pulled the cars far across the lake to Sandy Point Island. The day was all that could be desired for boating, Trawling and still fishing was the chief amusement engaged in by all, which afforded much pleasure to the party. The safety of the party was assured with Councillor Hunter's liberality of counselling them in the peculiar art of managing the No-ju-mon over the tossing waves. All returned to their farms at a rather late hour with glowing accounts of the day's outing, and numerous adventures and big fish stories, entertaining the hope of returning at some future time.

A Little Rush.—The cordial and friendly relations heretofore existing between the Royal Templars of Springville and High Park Temple of the same brand, have for some unknown reason to outsiders, been strained, possibly from the numerous weddings that have had their origin in the latter council. Although this courting may be a proper commendable for the sedate Springville Templars to gaze upon, yet they should not exhibit such an unfriendly feeling towards their sister temple for harbouring the monster. You know, ——, and your associate templars, that parents at times approve of this courting, and ministers of all denominations delight in having the pleasure of officiating in the consummation of the ideal hopes of the participants. Now, Springville council, I would advise you to come down off your dignified pedestal of coldness, and treat your sister council—I don't mean to the inebriate drink, but to something that we can all partake of—and have a reunion of, well—if not of hearts, of sympathies—in the several senses mentioned.

Crops are looking excellent in this district; fall wheat is almost too heavy, a few weeks dry warm weather would assure the farmer of a heavy yield. Hay is below the average owing to the dry cold spring.

Mr. H. Southorp, Port Hope's popular fancy seed grain merchant, is in this locality inspecting his crop of peas. Mr. Southorp is well pleased with the appearance of the crop which promises with the blessing of an all-wise Providence, a large return.

The brazen audacity of the citizens of Peterborough in trying to run their sewerage and dead dogs and cats into the river is the current topic with our inhabitants just now. As they have implicit confidence in our active councillors in the matter they don't apparently lose much sleep over it.

In old times it seemed to be thought that a medicine must be nauseating to be effective. Now, all this is changed. Ayers Sarsaparilla, one of the most powerful alteratives, is agreeable to most palates, the flavor being by no means medicinal.

A New Departure.

THE FATHER MATHEW REMEDY.

Is a certain and speedy cure for Intemperance, and destroys all appetite for alcoholic liquors.

It is at the same time a febrifuge, a tonic, and an alterative. As a febrifuge, it drives away the internal fever which consumes the intemperate and gives him a craving for liquor; as a tonic, it restores to a healthy condition his stomach and his liver, which are almost always out of order, and builds up his nervous system; as an alterative, it makes a new man of him. 1d

Young's Point.

(From Our Own Correspondent).

The fishing season is now approaching its maximum, and lovers of the pastime are flocking in large numbers to enjoy the sport with line and bait, in the calm and placid waters of the lakes, the favourite haunts of the finny tribe. Those who are acquainted with the locality where the fish resort are often fortunate in hooking in a large number, but a large proportion, after a long and patient pull must turn away in disappointment hoping to retrieve themselves the next time.

Our schools closed on Thursday, June 30th, for the holidays. The last was made the occasion for a programme of dialogues, songs, etc, by the school children and a pleasant afternoon was spent.

Haying has begun with the farming community, and all seem satisfied as regards the crop of this year.

No Other Sarsaparilla has the merit by which Hood's Sarsaparilla has won such a firm hold upon the confidence of the people.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a Sweeping Clearance Sale of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. The Splendid Values which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. Prices will be a Secondary Matter! The Goods Must Go! There will be Bargains for Everybody!

Come and buy now, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent, reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains

A Deserving Pulpit Reference

To the Late George Hilliard, ex-M.P.

At the morning service in the George street Methodist church, the pastor, Rev. J. H. Locke, preached an earnest and thoughtful sermon on the subject of "Eternal Life," or "Life in Heaven." He spoke on uninterrupted peace, growth and harmony, and said these were only attained above. Everything was marred here below, but all was perfect there. During the course of his remarks he referred in feeling terms to the death of the late George Hilliard, ex-M. P., who was for many years prominently identified with the George street Methodist church. He spoke of Mr. Hilliard as an earnest and active man in the church and in all its works. He had filled the positions of trustee, steward and other offices most efficiently. The deceased was a most liberal giver to all the various funds of the church, and took special interest in welcoming strangers to her doors. In George street church his form would be missed with regret, and his service and worth in the church would long be remembered. The speaker also made mention of Mr. Hilliard as a public man, and spoke of the great interest he had always shown in questions of morality and public virtue. Rev. Mr. Locke closed his address by a eulogistic reference to the upright, honest and manly life of the deceased member of the church.

St. Paul's Church, Lakefield.

Blessing of the New R. C. Church at Lakefield—Dedicated to the Worship of God in the Name of St. Paul—The Ceremony, the Mass and the Sermon—His Lordship's Remarks.

On Sunday, July 3rd, the solemnity of the festival of St. Peter and St. Paul, the new Roman Catholic church at Lakefield was formally blessed according to the rites of the church by his Lordship Bishop O'Connor. The church, now as to its present ownership, is a neat little structure centrally situated in the village on a side street, near the river. It has had a varied history before becoming anchored in the bosom of the church. It was built by the Bible Christian denomination and at the time of the union of the Methodist bodies passed into their possession. It has been successively occupied by several organizations, and has at last found its highest function in being set apart exclusively for the worship of Almighty God. It is a very neat edifice inside and has been nicely fitted up for its present and future use.

At the hour fixed for the solemnity, the church, in spite of the downpour of rain, was well filled, the congregation including several from Young's Point and Peterborough.

The Blessing of the Church.

At 10.30 the ceremony of blessing the edifice began.

According to the rubric the Bishop, accompanied by his assistants, Rev. Father Kelly, Rev. Father Donnelan, and the acolytes, recited prayers in front of the church, and then proceeded around the exterior of the church, sprinkling the walls with holy water, the clergy reciting the 50th Psalm. He then returns to the front of the church and recited other prayers. A procession is then formed, and proceeds inside the church while the Litany of the Saints is being sung, and to the altar, and the Bishop solemnly asks God to purify and bless the church dedicated to God in the name of St. Paul; then the Bishop accompanied by the clergy, makes the circuit of the interior, sprinkling the walls with holy water, the clergy at the same time reciting the 119th, 120th and 121st Psalms, the ceremony being concluded by the Bishop asking that God's mercy may rest upon all those who invoke His holy name in this house.

Mass was then celebrated by Rev. Father Kealy, assisted by Rev. Father Donnelaniere, and Messrs. M. and John O'Brien, pupils of St. Michael's College. At the conclusion of the mass

The Bishop Preached the Sermon,

taking as the text of his discourse St. Matthew, chap. xxi, v. 13—"My house shall be called the house of prayer." He began by pointing out the great blessing involved in the opening of this church where the people might meet in prayer and supplication and draw down the blessings of heaven. He was glad that this building had been available, is had been blessed and here they might meet and offer up sacrifice in accordance with Christ's command, who gave his apostles authority to preach so that all might hear the gospel and also gave them authority to establish his church on a firm and solid foundation—his mystical body and the ground and pillar of truth, and he had promised to remain with the church forever. Christ gave his church as a teaching church, that those who would, might listen to the teaching of his disciples and their duly accredited successors. Had Christ not done this there would have been many who would not have recognized his church. Even the Jews refused to acknowledge Christ, and He knew that the church would meet with similar opposition and He was careful to point out where the true church was to be found—the Catholic church unchanging and founded upon the apostles. He congratulated the people upon having this church where they might worship and pray. They could and should pray at home, but home prayers would lack the fervour and concentration of thought which would result from assembling together in obedience to Christ's injunction. Religion had not only the power to make men honest and just in their dealings towards their fellow men, but it had a higher power; it brought us into close relation with God. The first great command was to love the Lord with all our hearts. We must first direct our thoughts to God, to whom we owe all things, God, who commands us to worship Him. We were all under the curse of the fall—the loss of heaven, but Christ had redeemed us and had a claim upon us, but before we could claim redemption we must be made children of God, Reception into the church was not made without remission of sin. The reception into the church by baptism was a solemn treaty by which the sinner renounce sin, and the water of baptism was a type of the application by the Holy Spirit of the redeeming Blood of Christ. Our obligations towards God were in proportion to what he had done for us. We must love Him with our whole heart—not by mere emotional feeling, but by observing His law and avoiding sin. We must devote all our energies to His service—make it our first duty to avoid sin and perform the duties of religion—which were prayer and sacrifice—to keep the Sabbath day holy by coming to worship, and joining with the priest in prayer and sacrifice. The duties of the week engrossed us, but if we sought first the kingdom of God, all things would be added. The world was full of temptations, and the means of grace offered by the church was the best defence against them. We must add works to faith—intellectual faith would not save. Many professed Christ with their lips and crucified Him by their lives. We were created for a higher purpose than to toil and get wealth, we had heaven to gain and we could only do this on condition of loving God and doing his will. The preacher enjoined his hearers to love God and their neighbors as themselves—love men as brethren, even though they differed from them in politics and religion. How happy the world would be if the second precept of loving our neighbors, the equal to the first, of loving God, were observed. Then they should try to follow the two great commands of God into which the ten commands are condensed. If they needed help in this struggle they should come to church and worship and join in the sacrifice of the mass—come to confession and gain the blessing of pardon, which God had given his ministers power to bestow upon the penitent. The bishop closed his impressive sermon by praying that God would help the people to observe the means of grace this church provided and thus gain help to keep his commands and that house would indeed be a house of prayer and the fountain of blessing.

The bishop then announced the future services. Mass would be celebrated every second Sunday, beginning with the present, at 9 o'clock. The bishop heartily thanked the members of the committee of the Methodist body, from whom the church building was purchased, and especially Mr. Hall, the chairman, for the liberal manner in which the business had been conducted. The cost of the building was $800, to which was added $100 for fittings and improvements, and he had no doubt the liberality of the congregation would clear this obligation. He announced that the name of the church would be St. Paul's.

After a liberal offertory, the bishop thanked the congregation for their generous donations, and reiterated his thanks to the choir and all that had helped in any way in the acquisition and blessing of the new church. The Young's Point choir was present and during the ceremony and mass rendered appropriate music in a very effective manner.

The episcopal benediction closed the solemn and interesting ceremonies that gives the Roman Catholics of Lakefield a beautiful little church to worship in.

Chemong Park must be Protected.

To the Editor of the Examiner:

Dear Sir,—We had a splendid day of enjoyment at Chemong yesterday, there was only one thing to mar the enjoyment and that was the profane and blasphemous language, used by a man of the vicinity, who has on several occasions come out to the grounds in an intoxicated condition, where he uses the most horrible language, unfit for anybody, especially ladies and children to hear. I hope the authorities will take notice in the matter. We, in the vicinity, are anxious to make the park a place of attraction in addition to its natural beauty that the public can visit with pleasure and enjoyment. Yours etc.,

RANGERS RETURN HOME.

Their Third Annual Outing was a Delightful One.

The 57th Pass Inspection Creditably—"A" Company Wins the Proffered Prize—The Officers and Men Royally Entertained—All Pleased and Delighted with the Two Days' Outing—Notes of the Day—Rocochet Shots.

The 57th Battalion of Infantry, Peterborough Rangers, the crack regiment of our town whether at home or abroad, returned at seven o'clock yesterday morning from the Limestone City, where they had spent two days of pleasure and delight. On arrival at the C. P. R. station here, the men disembarked and were formed up on George street, when, preceded by the bugle and brass bands, they were marched to the drill shed on Murray street, where they were dismissed by their captains with words of praise for their conduct, their drill and their appearance. Lieut.-Col. Rogers also addressed a few words to the battalion, expressive of the pleasure it gave him to witness their conduct cleanliness and drill. They had behaved themselves well on inspection and had won the highest encomiums from Col. Montizambert, the inspecting officer. The

INSPECTION OF THE 57TH

took place on Saturday morning before Col. Montizambert, commander of "B" battery, Quebec, inspecting officer, with Capt. Hudon of "A" battery as orderly officer. The men were lined up in front of the city hall at nine o'clock, and headed by their bands marched through the principal streets to the drill shed of the 14th battalion, their bright tunics and brass accoutrements looking fine as they glinted in the sunlight. Inside the drill shed the 57th assembled and were mustered by Capt. Strange, district paymaster, supervised by Col. Montizambert, inspecting officer. When this important work had been done, the men, headed by the bands were marched out to the drill shed common, under the command of Major Bell. The men formed in column, when the inspecting officer inspected carefully the arms and clothing of each company, finding everything neat, clean and tidy. Col. Montizambert then exercised the companies in manual and firing exercises, company formation, etc., all receiving praiseworthy comment.

Col. Montizambert then called on the following officers to give detail movements, the battalion having formed up in quarter column: Lieut.-Col. Rogers, deployment; Major Bell, column formation; after which a column of route was formed. The battalion having creditably and honorably gone through the trying ordeals of an inspection, was marched back to the city hall shortly after one o'clock, where the men were dismissed for the day. Afterwards the officers were examined in the various questions laid down in general orders, and found thoroughly competent. Col. Montizambert also examined the books of the battalion, lauding the neat manner in which they were kept, especially the service rolls. This ended the yearly inspection of the Peterborough Rangers.

This was by far the most rigid examination and inspection the battalion were ever subjected to. As an evidence of its critical nature, Col. Montizambert, for the first time probably, individually questioned the duly qualified company officers as to their work and qualifications. That the officers and men alike so creditably passed such a severe inspection, is the strongest possible evidence of thorough efficiency equipment and organization of the Peterborough Rangers.

"A" COMPANY GETS THE PRIZE.

The prize donated by the staff and officers of the battalion was won by "A" Company. The inspecting officer when requested to decide, expressed it as being very hard to discriminate between the various companies, all performing their evolutions so creditably and their uniforms being so clean. Being asked for a definite opinion, however, he said that owing to "A" Company having the largest number of men on parade, and performing the evolutions, as he thought, a little more steadily, they should receive the award. In the evening, when the award was made known to "A" Company their joy and enthusiasm knew no bounds. The men formed in company, cheering, shouting and bearing brooms and banners aloft. On the way home they had the iron horse which pulled the train bedecked with brooms, and in the march up to the drill shed, also, were brooms, brooms, and nothing but brooms. Capt. H. F. Mason and Lieut. T. Tobb were very warmly congratulated by the officers of the 14th and 57th, and many were the complimentary remarks made.

The hospitable treatment which officers and men alike of the 57th received in Kingston, both at the hands of the 14th and the citizens generally, needs no newspaper commendations. If the treatment received was commensurate with the kind remarks made by all, it is sufficient to use the proverbial expression which was on the lips of every one:

"WE COULD NOT HAVE BEEN USED WHITER."

All the ranks of the 57th were royally entertained by the corresponding ranks of the 14th, staff officers, non-coms, band and privates all receiving marked attentions and evidences of good will and usage.

THE NON-COMMISSIONED OFFICERS' SUPPER

was a great success and expressed in a tangible way how the sergeants of the 14th welcomed their brother non-coms of the 57th on their return visit to Kingston. The appropriate spread took place at the Union Hotel on Ontario street, Friday evening. The dining rooms and tables were ornamented prettily with flags, flowers and bunting. The following sergeants of the 57th Battalion attended:—Color Sergeants R. T. Hounsell, W. J. Lloyd, Geo. Dixton, A Harvey, T. Dixton, Quartermaster Sergeant Robinson, Orderly Room Clerk E W. Elcome, Bugle Sergeant W. L. Sharpe (late of the Royal School of Infantry, Toronto), Sergeants H. Hounsell, C. Rabey, F. Meharry, W. Green, J. Metheral, A. Gaskins, B Layfield, R. Petrie and T. Connal. Sergt-Major Baker of the 14th occupied the chair, and in few well chosen words welcomed the guests of evening, referring in appreciative terms to the 14th's visit to Peterborough on May 24th. The customary toasts, songs and recitations were indulged in and a most exhilirating time spent, when at one o'clock all dispersed sorry to part, but hoping to meet again.

THE "AT HOME" ON THE "MAUD"

was another of those pleasant features which will serve to make indelible in the minds of the 57th staff and officers their visit to the Kingston corps. The 57th band was on board and as their sweet strains floated out upon the water in the evening air with the staunch vessel and her happy company cruising among the fairy-like islands, while happy dancers with light feet tripped the upper decks, which made trip one of joy, delight and pleasure, for the officers of both battalions and two hundred of the Kingstonian friends who were present by special invitation.

OTHER ATTRACTIONS GALORE.

These were the garden party at Lt.-Col. Smith's handsome residence, the officers' dinner at the Frontenac on Saturday evening, and the sail of the men on board the staunch steamer "Hero" among the far famed Thousand Islands on Saturday afternoon.

The garden party at Lt.-Col. Smith's palatial residence and handsome grounds on King street west, was a great success. It was tendered by Lt.-Col. Smith, commander of the 14th Battalion, and the officers, to the officers of the 57th. This interesting society event took place in the afternoon from 4 to 7 o'clock, and was in addition to the military dignitaries attended by the elite of Kingston. The time was spent joyfully in promenading and social intercourse. Choice refreshments were served and the 57th battalion band discoursed enchanting music.

THE THOUSAND ISLAND SAIL

On Saturday afternoon four hundred of the non-commissioned officers and men of the 57th and 14th Battalions enjoyed a magnificent sail down the picturesque St. Lawrence among the paradisical Thousand Islands. The steamer Hero, Captain Johnston in command, took the party down the American channel, moving in and out among the islands studding the river in pretty array, and cruising until seven o'clock. Needless to relate the outing was thoroughly appreciated, many of the men never having seen the Thousand Island Park, of which they had heard so much but knew so little.

THE OFFICERS' DINNER

at the Hotel Frontenac before departure on Saturday evening was another of those gratifying events which will serve to render the visit memorable. The exquisite spread provided by mine host Mr. E. H. Dannam, was a brilliant one. The tables were set in the form of a horse shoe, and tastefully decorated with flowers. After ample damage had been wrought on the enticing menu the tables were cleared, and then began "The Feast of Reason and the Flow of Soul." Lt.-Col. H. C. Smith presided while stationed on his right was Col. Montizambert, inspecting officer, and on his left were Lt.-Col. Rogers and Major Bell, of the 57th. Major Shannon, of the 14th, filled acceptably the vice-chair. "The Queen" was proposed by Lt.-Col. Smith and "God Save the Queen" rang out hearty and loyal. "Lt.-Col. Rogers and the officers of the 57th" was then proposed by the chairman, and the genial colonel of the Peterborough Rangers responded in felicitous terms. Major Bell proposed the health of "Lt.-Col. Smith and officers of the 14th." Col. Smith gracefully acknowledged the compliment in eulogistic terms. Surgeon Dr. Henderson also said a few words. Lt.-Col. Smith proposed the health of the inspecting officer, Col. Montizambert, commander of "B" Battery, Quebec, and that gentleman replied appreciatively to the toast. Other speeches were delivered and songs sung until eleven o'clock when the happy throng dispersed.

PENCILLINGS OF THE TRIP.

The C. P. R. transport service gave the very best satisfaction. Lt.-Col. Rogers expressed himself pleased with the service.

The members of the 57th band desire to thank Mr. Wm. McRae, liveryman, for his marked kindness and attention towards them. The band were well entertained by the members of the 14th band in their band rooms in the old barracks.

The staff and officers of the 57th were quartered at the Frontenac hotel, "A" Co. at the Queen's, "B" Co. at the Grimason, "C" Co. at the Windsor, "D" Co. at the Collendar "E" Co. at the Russell, "F" Co. at the Anglo-American, band at the "City," and bugle and drum band, ambulance and pioneer corps at the Terrapin hotel. The men thought their different billets to be first class and speak in high terms of their treatment.

The expenses of the trip were heavy, costing about $1,500. $500 were paid to the C. P.R. for transport and Quartermaster Langford expended $700 for billets and other expenses in Kingston.

The battalion having finished the season's drill, the companies will be dismissed for a couple of months at least. Company drill will likely be resumed in the fall.

About twenty of the men who were unable to remain over inspection, received passes and returned home on Friday night. Lieut. Stevenson, Major Edwards and Surgeon Halliday also returned owing to engagements.

The non-coms of the 57th were entertained by their brother officers of the 14th in a hospitable manner at their mess rooms on Princess street.

The officers of the 57th entertained the officers of the 14th to a nice lunch on Saturday at the Frontenac.

Lieuts Tobb and Mills ably bore the colours of the 57th aloft in the various marches.

The 57th created a good impression in Kingston. Many expressions of praise were given in regard to the gentlemanly way in which the boys conducted themselves. They had an enjoyable time without resorting to rowdyism or making heathens of themselves.

The Peterborough bicyclists and the members of the baseball club also had a good time. On Saturday afternoon the steamer boat St. Lawrence, Captain Estle in command, took the visiting bicyclists, some 600 in number, down the river, going down on the Canadian side among the islands to Alexandria Bay and returning on the American side, calling at Clayton. The trip was given by the Kingston Bicycle Club to the visiting wheelmen and their friends, who enjoyed the voyage very much.

A fine lunch was served in the Ontario Hall by the 14th Battalion to the visiting warriors on their arrival. The men encamped both nights in the Ontario and City Halls, bunking on the floor with blankets as bedding. A vote was taken as to whether they would rather do this or camp out, and the popular voice was that they were better off in the hall, the grounds being damp.

No accidents were reported, and Surgeon Halliday enjoyed a holiday. One or two men sustained slight bruises in a fall, and another had his leg slightly injured. The general health of the men was good.

The Kingston *Whig* says: The 57th batt. is composed of a fine lot of young men, rosy and bright in face, neat in uniform and steady in the ranks. They were very gentlemanly on the streets and altogether their decorum such as any organization would be proud of. They contrasted well with the awe all style of some of our other visitors. The officers of the 57th are well trained in military movements and they sat like old veterans on their prancing steeds. Major Bell and Adjt. Dennistoun were most conspicuous in their attentions to the men. This is a feature one always likes to see. Usually the men are not recognized by their superior officers when on a jaunt.

In the march past at the great military review on Barriefield commons, the *Whig* mentions "B" and "F" Co. as being the steadiest.

The third annual outing of the battalion was the finest trip of all. Col. Rogers, Adjt. Dennistoun and all the other officers and men expressed themselves at highly pleased. They voted it as the best yet held.

many hundreds of characters, and Mr. Harris, who has studied them closely, believes that he has hit upon a clue to their meaning. In the same locality he has dug up a number of arrowheads, one of which is made of abalone shell, and the characters engraved upon it are similiar to those painted on the rocks. Many believe that the Indian hieroglyphics furnish interesting traces of a pre-historic race in California.—San Francisco Chronicle.

HOW TO GROW BRAINS.

Discovery of an Australian Doctor and Some of His Experiments.

If the theory of Dr. Kerby Hopper, the Australian doctor, that brains can be made to grow and strongly developed trait of character can be modified by the application of electricity is correct, says the Philadelphia Item, a wonderful and new field is opened up to the efforts of the scientist. Dr. Hopper, it would seem, has treated a number of cases in which he has applied his system of electricity to moderate or develop various bumps or celebral nodules whose presence or deficiency is believed by him to be responsible for many human weaknesses as well as criminal proclivities.

Out of 106 cases we are told the doctor has succeeded in every instance but one, and the patient in this case was an aborigine of New Zealand, who was found upon examination, to have no brains at all. Of course, in such a case as this, the doctor might be excused for his failure to develop nodules. In another case, about which the doctor does not say much, he experimented for some time with a young person described as "Ethel—aged 17," whose cerebral nodule took the shape of an inordinate passion for the stage and a certain young actor thereon.

After a series of experiments lasting over several months, from which we may be permitted to remark that it is surprising the unfortunate young lady came out with any brains at all, her parents were assured that she was entirely cured: that her love for the stage had been entirly destroyed; that she laughed to utter scorn the idea of marrying a poor actor for love. It will doubtless cause a thrill of joy to the romantically inclined to learn that Ethel's perverse nodule impelled her to rise from her bed on the first night she came back home, squeeze herself through a scullery window and run off incontinently with her love to a minister, by whom they were immediately married.

It was wrong, of course, for the giddy young person to set thus at defiance the laws of science, but perhaps she was not to blame for it. Love nodules, in whatever brain they are situated, or whatever clime fostered, do not seem to yield readily to the cold laws of reason or science. It is not known whether Dr. Hopper has concluded to try more issues with love sick maidens or not, but prudence should suggest to him the advisability of directing his efforts in other directions. Love nodules have baffled before greater men than he, and greater powers than even that of electro-magnetism. Love has a magnetism of its own, compared to which the doctor's article is as a painted fire to the reality.

A soft, fair skin is the result of pure blood and a healthy liver, to secure which, Ayer's Sarsaparilla is the Superior Medicine. Ladies who rely upon cosmetics to beautify their complexions, should make a note of this, bearing in mind that they can't improve upon nature.

DR. TANNER TANNED.

A Wild Fight at a Political Meeting at Tuam.

DUBLIN, July 2.—Dr. Tanner, protected by one hundred policemen, attempted to address a political meeting at Tuam to-day. The Parnellites seized the speaker's platform before the Tannerites arrived and when the latter reached the place of meeting they found the enemy in full possession. Dr. Tanner made determined efforts to get upon the platform, but each time he was knocked down. Finally the platform was pulled down and Dr. Tanner was caught beneath it.

This was the signal for a free fight, and the fun waxed fast and furious until the police took a hand in. The officers made no political distinction, but hit with their batons everyone within reach. The shopkeepers, fearing trouble, had closed their shops, and this was doubtless a wise precaution, for the fighting was continued on the street. The situation became so dangerous that the police were compelled to charge the mob with drawn swords. This had the desired effect. The fighting was stopped and the mob finally dispersed. During the melee a thief in the crowd relieved Dr. Tanner of a £5 note, a gold chain and a valuable jewel.

Another Toronto Drowning.

TORONTO, July 2.—Dominion Day had its fatality. A lad of 17, named Frederick Prosser, residing at 1287 Queen-street west, was with a party at the Humber, and about 6 p.m. was separated from his friends by the old stone mill. He, apparently, tried to spring from the shore into a small boat and missed his footing, fell into the water and was drowned.

Twins 90 Years Old.

KENNETT SQUARE, Pa., June 20.—The Stackhouse twins, the oldest in the United Sates, will, if they live until July 29, celebrate their 90th birthday anniversary. They are sisters and natives of New Garden township. They now reside in York County. This venerable pair live together and are still maidens.

A Prominent Doctor Accused of Murder!

A gentleman recently made a startling accusation in the hearing of the writer. Said he, "I firmly believe that Dr. ——, intentionally or unintentionally, killed my wife. He pronounced her complaint—Consumption—incurable. She accepted the verdict, and—died. Yet since then I have heard of at least a dozen cases, quite as far advanced as hers, that have been cured by Dr. Pierce's Golden Medical Discovery. Her life might have been saved, for Consumption is *not* incurable." Of course it is not. The "Discovery" will remove every trace of it, if taken in time and used faithfully. Consumption is a disease of the blood—a scrofulous affection—and the "Discovery" strikes at the root of the evil. For all cases of weak lungs, spitting of blood, severe lingering coughs and kindred ailments, it is a sovereign remedy. s

Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. we are able to offer advantages to the public which are impossible to the ordinary dealer.

Our instruments have an established reputation for excellence of TONE, TOUCH, WORKMANSHIP, and DURABILITY, and

Every Instrument is Fully Warranted for Seven Years.

Chief among our instruments which have received preferences from the best musical artists, stand

—THE—

HEINTZMAN AND EVANS PIANOS.

These instruments have been before the Canadian public for a number of years, and the great praise bestowed upon them by musical experts, along with the continued increase of sales year by year, testify to their high excellence.

The aim of the manufacturers of these two favorite Pianos has persistently been to produce the best instruments at a moderate price. They are of solid build, warranted for durability, of handsome appearance and good finish; pleasant touch and quick repetition. TONE: rich, full, bright and resonant. Beautifully singing and sympathetic in quality. The prices are moderate, and within the reach of the majority of purchasers.

We are exclusive agents in Peterborough for the celebrated

"August Flower"

Biliousness, Constipation, Stomach Pains.

"I have been afflicted with biliousness and constipation for fifteen years; first one and then another preparation was suggested to me and tried but to no purpose. At last a friend recommended August Flower. I took it according to directions and its effects were wonderful, relieving me of those disagreeable stomach pains which I had been troubled with so long. Words cannot describe the admiration in which I hold your August Flower—it has given me a new lease of life, which before was a burden. Such a medicine is a benefaction to humanity, and its good qualities and wonderful merits should be made known to everyone suffering with dyspepsia or biliousness

THE KNIFE IN POLITICS.

The Knife Replaces the Shillalah in Irish Politics.

DUBLIN, July 2.—During a street row in Cork last night, rising from the burning in effigy of Timothy Healy and William O'Brien, a Parnellite was stabbed.

An anti-Parnellite meeting held in Ballina, County Mayo, to-day was provocative of much ill-feeling among the anti-Parnellites. Among the speakers who were to attend the meeting were John Dillon and Daniel Pilly. When they appeared on the street on their way to the meeting they were pelted with rotten eggs, cabbages and stones. The Parnellites seized the horses attached to the anti-Parnellites' wagon and took them away from the pelting, and the Parnellites, to drag the wagon to the place of meeting. A fight between the members of rival factions occurred along the route. The police finally interfered and restored semblance of order.

A meeting of Drogheda Guardians that was held to-day resulted in a prolonged stand-up fight with fists between the Parnellites and anti-Parnellites.

Gladstone in Edinburgh.

EDINBURGH, July 2.—Mr. Gladstone addressed an enormous audience yesterday. If the land leaguers, he said, were as Lord Salisbury had asserted, foes of law and order, why did Lord Salisbury accept their support in 1885 and persuade Mr. Parnell that the Conservative policy could be reconciled with the Parnellite policy. The first duty of the Liberal Parliament would be the introduction of the Home Rule bill. In regard to the provisions of the bill he referred to his declarations of 1886, none of which he had reached. The object of the bill was to give Ireland full and effective control of her own local affairs under certain conditions including the supremacy of the British Parliament, a fair adjustment of pecuniary burdens, special care of minorities and equal treatment of England and Scotland. In obedience to the voice of the country another condition imposed would be in the retention of Irish members at Westminster, but the details of the retention whether or not the members should be allowed to vote on all questions, and whether there should be one or two sets of Irish members were matters that must be approached in a practical spirit after the establishment of the Liberal Government.

"It is a pity," Mr. Gladstone said, "that that the educated, titled and wealthy classes have approached this question in such an implacable spirit, while the poor Irish show the utmost willingness to make every concession; but in all great controversies in the last 50 years the leisure classes have always been wrong." The Irish Local Government Bill, he added, was a wanton insult to Irishmen.

Superintendent Pittman Resigns.

DETROIT, Mich., July 2.—James E. Pittman, superintendent of Detroit police force, has tendered his resignation and police commissioners have accepted same, to take effect July 13. Mr. Pittman has been at head of force for over 15 years.

CANAL TOLLS.

Another Message From President Harrison in Which He Says the U.S. Position is Strengthened.

WASHINGTON, July 2.—President Harrison sent a message to the Senate yesterday transmitting a communication of the 24th inst. from Mr. Herbert, the acting representative of the British Government at Washington.

The President says: The position taken by this Government, as expressed in my previous communication to the Senate that the canal tolls and regulations of which complaint has been made, are in violation of our treaty with Great Britain is not shaken but rather confirmed. There can be no doubt that a serious discrimination against our citizens and our commerce exists, and quite as little doubt that this discrimination is not an incident but the purpose of the Canadian regulations. It has not seemed to me that this was a case in which we could yield to the suggestion of further concessions on the part of the United States with a view to securing treaty rights for which a consideration has already been given.

THE BEST FAMILY PILL IN USE

Keep the Works in good order.

NORMAN, ONT., January 13, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

THE BRITISH ELECTIONS.

LORD RANDOLPH CHURCHILL ELECTED BY ACCLAMATION.

Over Fifty Constituencies in Which There Will be no Contests—An Interesting Election Budget From Over the Ocean—The Most Bitter Fight in Britain's History.

LONDON, July 2.—The first election under the new writs for a member of Queen Victoria's thirteenth Parliament was held yesterday at South Paddington. Lord Randolph Churchill (Con.), the former incumbent of the seat, was returned without opposition. He was also returned unopposed in 1886.

There are 35 constituencies in which the Unionist candidates will meet with no opposition. The Liberals will elect their candidates in 22 districts without opposition.

Britain has never seen a general election which will be so hotly contested as the one now proceeding. Party spirit is so embittered that open conflicts in the streets are prevented only by the restraints of the judicious system now existing for the control of election procedure. Political feeling boils over at all the meetings, especially when they are held in rooms. The candidates are howled down, rowdyism is rampant and the assemblages are broken up. Many of the candidates find it necessary to adopt the plan of making tours of their districts in wagonets and speaking to their audiences in the open air, where they generally get a hearing. These often impromptu gatherings largely occur in the districts in London inhabited by workingmen where organized bands of ballies are bribed to incite the riot.

Enormous sums of money are being spent by both Conservatives and Liberals in hidden ways so as to evade the Bribery Act. The Liberals charged the Conservatives with running paid Socialist and Labor candidates to break the Liberal vote. As a matter of fact the list of both Socialist and Labor candidates who are standing for election has become thinned during the week. To-night's list presents 33 labor candidates, of whom only 14 are likely to be elected, making the labor vote at the next parliament of about the same value as it was in the last.

The Socialists are nowhere. Several pose as labor men, but pure Socialism has absolutely vanished.

The British Non-Conformists have issued a manifesto as a counter blast to the Ulster movement. The declaration is a vigorous defence of Mr. Gladstone, but hardly one in a hundred of the British Non-Conformist ministers signed it.

The Speaker's Forecast.

The Speaker's estimate of the Irish electoral results is: Anti-Parnellites 75, Unionists 20, Parnellites 8. The Unionists say they are certain to have 28 seats and the Parnellites predict the return of 24 of their candidates.

Timothy Healy offers 15 to 1 that the Parnellites will get only five seats.

Lord Rosebery's speech approving Lord Salisbury's foreign policy has so angered the Radicals that they are already wire-pulling to place Lord Ripon in the Foreign Office. French papers concur in the opinion that Lord Rosebery has dispelled the illusion that Mr. Gladstone's accession to power would mean the evacuation of Egypt.

Apropos of Mr. Gladstone's foreign policy Mr. Arnold Foster has originated an electoral boomerang in saying: "There is not a quarter of the globe where Great Britain has an enemy in which Mr. Gladstone has not a friend."

Mrs. Richard Chamberlain, who has taken the stump for her husband, has acquired distinction by her intrepidity in facing rowdy opponents. An effective orator she has won the admiration of the Liberals by facing and quelling uproarous Islington. She persisted in being heard, overcame her opponents and made them friends.

The Town Carpenter Killed.

WHITBY, Ont., July 2.—James Thomas, a town carpenter, was walking along the track with a pitcher in his hand Wednesday night, and had just passed the switch when a freight train came along at a pretty good rate and was run off on the siding. Thomas did not see the train was coming down upon him until too late to save himself. He was knocked down and one of his arms cut off at the shoulder. He died yesterday at noon.

A Missing Master.

MITCHELL, Ont., July 2.—High School Teacher Smith is missing and many creditors mourn.

A Great Female Medicine.

The functional irregularities peculiar to the weaker sex, are invariably corrected without pain or inconvenience, by the use of Dr. Morse's Indian Root Pills. They are the safest and surest medicine for all the diseases incidental to females of all ages, and the more especially so in this climate. Ladies who wish to enjoy health, should always have these Pills. No one who ever uses them once will allow herself to be without them. Dr. Morse's Indian Root Pills are sold by all medicine dealers.

A Liberal Trumpet.

Scores of men and women who have always suffered their prejudices to bind them to the merits of Burdock Blood Bitters now use and praise this wonderful blood purifier as the best remedy known for dyspepsia, constipation and all blood diseases. dw

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND

ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENCY of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and combines the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy some, but if you want to procure a genuine Electric Belt, and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eodw

THE LOST INMAN LINER.

How the City of Chicago's Passengers Were Disembarked and Landed—Not a Life Was Lost.

LIVERPOOL, July 4.—All the City of Chicago's passengers have arrived here. The crew are still aboard the vessel. The weather has become threatening and the position of the ship is very critical. The steamer did not strike on Barrel Rock as was at first supposed. Before she had rounded the Old Head of Kinsale she ran on the mainland. Soundings had been taken, which showed plenty of water, and the steamer was going at nearly full speed. It is thought by those acquainted with the coast that the prevailing winds had caused a current with a set in-shore, and that the steamer, unknown to her officers, was making leeway.

The City of Chester will take the City of Chicago's place in the service.

When she struck she forced herself into a large opening in a beetling cliff that stands 200 feet above the sea. The shock was something fearful, and many of the persons on board were thrown completely off their feet. The bows were torn out and the fore compartment was soon full of water.

When it was found that the steamer could not get off by backing and that she was badly damaged the engines were kept going ahead to keep her on the rock, as it was thought she might slide off into deep water as the tide rose.

The coast guards were promptly at the scene of the wreck. They brought their rocket apparatus with them, and the breeches buoy was rigged, but, as it afterwards turned out, there was no occasion to use it. They then lowered the rope ladders over the cliff.

The 200 passengers got ashore after a trying and exciting ordeal. Though there was not the slightest trace of a panic, it was a strange and blood-stirring experience for the women and children, and to-day all of them are surprised at the feats they accomplished. Some of the women who climbed the swaying ladders hanging over the cliff declare they have no idea how they did it. Some of the passengers did not land under the cliff. The boats were rowed along until they found a better landing-place.

The passengers concur in praising the care given them by the sailors of the City of Chicago, especially during the thrilling moments when women and children were helped in the dead of night and in an impenetrable darkness up the rope ladders. The sailors laughed and joked with the ladies and children until they imparted some of their good spirit to them, and then would prevail on them to try the climbing, telling them that it was as easy as going upstairs. Then when a lady or child would start a sailor would spring up the ladder ahead of them while another would follow close behind, holding them securely. If the climbers showed the least sign of weakness the sailors would encourage them with cheering words and helpful hands. Thus the perilous ascent was made until the summit was reached.

The Guion steamer Alaska from New York for Liverpool, on her arrival here at 1 p.m. to-day, reported that as she was passing the stranded City of Chicago the latter's captain signalled that it was unsafe for the crew to remain longer aboard. The Inmans have despatched a tender to the rescue.

The Inman line has not been very fortunate of late. Only two years ago the big twin-screw City of Paris broke down off the Irish coast and was laid up for nearly a year for repairs. It cost as much to put a new starboard engine into the City of Paris and make the other necessary repairs as it would to build an ordinary-sized steamship.

Every mariner is familiar with the Old Head of Kinsale, where the City of Chicago met disaster. It juts out five miles from Roche's Point and about ten miles oceanward from Queenstown. It is considered the most treacherous point along the Irish coast. It takes its name from Kinsale, a seaport town of Ireland, 13 miles by rail southwest of Cork.

It is situated on the estuary of the Bandon River. Kinsale has a population of 8000, chiefly fishermen.

The People's Party Candidate.

OMAHA, Neb., July 4.—Amid the booming of cannon, the waving of flags and under the inspiration of patriotic oratory the National People's Party will celebrate the national holiday of the republic today by nominating an independent candidate for president of the United States.

Gov. Penneyer of Oregon is much discussed by the free silver men and the Pacific Coast delegates are caucussing on the advisability of supporting him solidly. U.S. Senator Stewart of Nevada and Gen. A. J. Warner of Ohio are also prominently mentioned by the silver men and John F. Willets of Kansas, national lecturer of the Alliance, and Paul Vandervort of Nebraska are also suggested by their friends. There is every probability that at least a dozen candidates will be balloted in to-morrow's convention.

Second Place on the Prohibition Ticket.

CINCINNATI, July 4.—In the Prohibition Convention, Dr. Crapfill of Texas got 416 votes, nine more than enough to win the nomination of Vice-President.

A Fatal Trial Trip.

LOGANSPORT, Ind., July 4.—A wreck occurred on the Wabash one mile east of Keller's station at 12 p.m. Saturday which resulted in the complete destruction of the locomotive and the death of five men who were riding on it.

The men were testing one of the new heavy locomotives recently purchased by the company. The wreck was caused by the washing out of a four foot stone culvert. The killed are: Trainmaster C. F. Wilcox, Superintendent of Bridges Harry Donlap, Foreman of Bridge Carpenters Charles Helm, Engineer Shovey and Fireman Marest. The bodies have all been recovered.

Typhus Epidemic.

LONDON, July 4.—The Vienna correspondent of The Times says: "Reports from the Russian frontier indicate a recurrence of typhus fever in Banara. There were 3300 cases at Novuzensk at the beginning of June, 550 of which proved fatal owing to the scarcity of doctors."

Burglars at Newmarket.

NEWMARKET, Ont., July 4.—Saturday evening unknown parties broke into the G.T.R. station, wrecking the locks of every room, but only secured 4 cents from the till. They then forced the doors of the freight sheds adjoining and regaled themselves with liquor, some cases of which were stored there.

An Old-Time Circus Man Dead.

CHICAGO, July 4.—Dee. Thayer, who was a clown under Dan Rice in the circus ring and who drove stage coaches in Indiana, is dead. He was born in New York in 1830.

The Writ for Marquette.

OTTAWA, Ont., July 4.—The writ for a new election in Marquette, Man., has been issued. Nomination on the 15th, polling on the 22nd inst.

To Murder Prince Ferdinand.

SOFIA, July 4.—The trial by court martial of 16 persons, including M. Karavaloff, formerly Bulgarian Premier, M. Elforden, a former Bulgarian Primer also, and M. Moloff, a former Cabinet Minister, was commenced here Saturday. The prisoners are accused of complicity in the murder of M. Belicheff, Minister of Finance. A prisoner named Svetoslav declared during the proceedings that the ambition of his life was to overthrow Prince Ferdinand, the ruler of Bulgaria.

He said that an Odessa delegate of a Slav benevolent society had furnished funds to those engaged in the plot. A prisoner named Popoff confessed that he and three others had taken an oath to kill Prince Ferdinand, and had solemnly sworn to sacrifice their lives, if necessary, in carrying out their plans. The prisoner also confessed that the conspirators had obtained money and revolvers from St. Petersburg. He admitted that he once lay in wait to kill Prince Ferdinand, intending to shoot him with a revolver, but that at the critical moment his nerve failed him. Other prisoners gave evidence of the implication of Russian officers in the conspiracy.

It was also shown that Milaroff, one of the conspirators, had procured bombs and poisoned pills from Zankoff and others, and had also organized bands of brigands to operate in Bulgaria.

To Rescue Ravachol.

PARIS, July 4.—A meeting of Anarchists has adopted a resolution to blow up the Mont Brisson and rescue Ravachol.

"Billy" Buckley Insane.

NEW YORK, July 4.—"Billy" Buckley, the minstrel, is known all over the country, and his friends were shocked to learn yesterday that he had become insane. He is now with friends, who are taking the best care of him until he can be placed in an asylum.

NEW GOODS
Constantly arriving at
TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 3,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

Fourteen Lives Known to Be Lost—A Curious Elopement—A Toronto Man's Death From Drink and Exposure—Many Items From Ontario Towns.

YARMOUTH, N.S., July 5.—A sad shipwreck, involving a loss of 14 lives, occurred off Yarmouth Harbor Monday night. At 9 o'clock this morning a great quantity of deals drifted ashore north of Chebogue Point and then a damaged lifeboat with 13 exhausted sailors washed ashore in the surf and the men were helped to the houses and cared for. They proved to be Captain Henry Hughes, his first mate and eleven of the crew of the Liverpool iron ship, Peter Stuart, bound from St. John for Liverpool with deals. The second mate and 13 others, including the captain's wife and child, were drowned. The Stuart was towed as far as Briar Island Saturday and the captain, after getting within 10 miles of the lurcher buoy, ran 50 miles to west and then headed down the bay, although he thought he had made allowance to carry him far off land and ledges. They brought up at 8 o'clock Sunday evening on some rock off Chebogue Point, supposed to be Gannet Rock ledge. The ship broke up and all boats but the lifeboat were smashed in cutting away the lifeboat and she capsized. The captain's wife and child were never seen again. Some of the crew, who were thrown on the floating deals from the broken-up vessel, managed to right the boat and found the captain still alive underneath. All who could be seen were picked up and the boat stood by till daylight, when the first mate and some of the others were picked up. With 18 out of the 27 lives the boat started away from the scene of the wreck, not a vestige of the vessel remaining. The boat had been damaged, and filling was again capsized, but they got her righted and steered towards land. Four more had, however, been lost and before they got to land it was found that the dead body of a man named Alexander Troop was washing about in the almost submerged boat and the corpse was pushed off. This body drifted ashore and so far has been the only one recovered. The captain, mate and several of the crew were badly bruised and the sailmaker had his leg broken.

The vessel was loaded by Alexander Gibson and the cargo was probably insured. The vessel was uninsured. She was owned by Thomas Stevens & Son, London.

Found Dead in a Cellar.

TORONTO, July 5.—About 10 o'clock yesterday morning a tinsmith employed on an unfinished house at 568 Bathurst-street found the body of a man lying on the floor of the cellar.

The body was taken to the Morgue, where it remained unidentified until 11.30 last night, when John Morrison of 440 Adelaide-street west recognized it as the body of his brother, William Morrison.

The deceased was a painter and lived at Toronto Junction. He was about 50 years of age and unmarried. He came from Ireland 35 years ago. His brother said he had been working steadily until a week or two ago, when he started drinking. His clothes were soaking and it is evident that his death was the result of drinking and exposure.

Husband and Wife Drowned.

LENNOXVILLE, Que., July 5.—A man named Perrier and his wife were driving along the road when they came to a turn where the river had overflowed on the road. Perrier attempted to drive through the flooded portion of the road, but missed it and drove into the river. His wife threw the baby, which she had in her arms, to the bank, where its clothes caught in a barbed wire fence, and it was rescued a few minutes later by people who had seen the accident. Neither of the bodies has been recovered.

His Life For A Squirrel.

LETHBRIDGE, N.W.T., July 5.—Noah Shurtliff was told by his wife that there was a gopher in the well and she asked him to take it out. He took a pail and started out, intending on his return to bring back a pail of water with him. His wife retired shortly after, and on waking up about 3.30 and finding her husband absent she got up and went out to the well, when she found the pail on the ground and the well all caved in. She immediately raised an alarm and the neighbors came around in a short time and succeeded in getting the body out, but life was extinct. There were several cuts about the head of the deceased, caused most likely by the stones of the casing striking the victim as the well caved in.

TORONTO GRAIN MARKETS.

Business Transacted and Prices of Grain in the Queen City.

TORONTO, July 5.—There was no grain received on the street yesterday. Hay was in light supply at $11 to $13.25 for timothy and $9 to $10 for clover. Straw sold at $9 to $10.

On call board No. 1 hard wheat was wanted at $1.01 and No. 2 hard at 93c, all rail North Bay, without offerings. No. 3 hard, North Bay, offered at 84½, with 80c bid. Cars by sample offered at 70, 86, 92 and 93c, without bids. White oats offered outside, west, at 30c, with 29½c bid.

THE PEOPLE'S CHOICE.

The People's Party Nominate a Presidential Candidate at Omaha.

OMAHA, Neb., July 5.—General James B. Weaver of Iowa was nominated for the Presidency on the first ballot by the People's Party convention yesterday.

The candidates before the convention were Weaver of Iowa, U.S. Senator Kyle of South Dakota, Fields of Virginia and Page of Virginia.

Shot His Wife.

SHARON, Ont., July 5.—A man named Robinson, who purchased a 32-calibre self-cocking revolver from a Toronto visitor a week since, was showing it to a friend with a view to induce him to purchase, when it accidentally went off, the ball lodging in Mrs. Robinson's side. Two doctors have not yet been able to find the ball and the woman is in a precarious condition.

Buried Under the Gable.

GUELPH, Ont., July 5.—Mr. Taylor of Speedside and George Lillie of Guelph were injured by the collapsing of the gable of a stone school house, which they were completing at Guelph. Lillie was completely buried by the debris with the exception of one arm and Taylor had three ribs broken.

DOMINION PARLIAMENT.

THE HOUSE MAY NOT GET THROUGH THIS WEEK.

The Redistribution Bill May Occupy Too Long in the Senate to Allow the Commons to Adjourn Before Next Week—Capital Gossip.

OTTAWA, July 5.—The railway subsidy resolutions were in consideration all day and the whole evening, and although the matters discussed have undoubtedly been of importance to the localities interested, there has not been much from the standpoint of the press gallery worthy of comment. Indeed, the afternoon session of the Senate was rather more interesting than that of the Commons, as both the Criminal Code and the Redistribution Bill were introduced there, and what was said by the Premier on the former bill gave some slight indication as to what may be expected about prorogation.

On the bill being read a first time and second reading fixed for to-day, Hon. Mr. Scott made quite a long speech in favor of postponing the consideration of the bill until next year. He claimed that it was full of incongruities and would require much more time to examine than could be devoted to it at this stage of the session.

Sir John Abbott said that there was no wish or desire on the part of the Government to rush the bill through in too great a hurry. Ample time would be given to every Senator to consider and examine the bill, but he thought that in justice to the Commons and to the joint committee which considered the bill that an effort ought to be made to get the bill through this session. It was possible in five or six days to dispose of the measure, but if at the end of that time it was found impossible to do so then steps may be taken to adopt a plan, which used to obtain, by which the bill can be taken up next year where it is left this year.

The Redistribution Bill was then introduced and read the first time.

After what was said by Sir John Abbott in the Senate this afternoon about the criminal code taking five or six days there, the chances of prorogation this week do not seem so good as they were, but there is still a very general hope that another Sunday will not find Parliament still sitting.

In the House yesterday Dr. Landerkin endeavored to ask whether the Government had their attention called to a letter from the Minister of the Interior to Mr. Green, his groom, which was published in The Regina Leader, together with editorial comments thereon. The gist of the editorials was that Hon. Mr. Dewdney had conspired with Green to get squatters to take up land for him, and that Green had been coerced into lying for the benefit of the Minister.

The Speaker ruled the question out of order as it reflected upon the character of a member, which is especially provided against by the rule respecting the asking of questions by members.

Flood Sufferers.

Hon. David Mills asked the Minister of Finance whether the Government could not assist the people who have been flooded out by the rising of the Sydenham River.

Mr. Foster said the Government could not agree to make a custom of assisting those injured by flood or fire.

London Voters' Lists.

Respecting the resolution regarding the annual suspension of the bill regarding the revision of the voters' list for this year, Mr. Armstrong moved that the lists for London be revised this year. Sir John Thompson objected to making an exception in favor of one municipality. The mere fact that some one was dissatisfied with the state of the voters' lists in London was no reason that a revision should be made. The contingency of a bye election occurring was very remote indeed.

Hon. David Mills and Mr. McMullen also spoke in favor of the amendment, and upon a division being had the amendment was defeated by 63 to 30.

Railway Subsidies.

The House then went into committee on the railway resolutions.

The resolution subsidizing the Lake Erie and Detroit River Company's 58 miles to the extent of $224,000 was allowed to stand.

A long discussion was had on the vote of $240,000 for the Renfrew and Parry Sound line which is intended to give a short line between Montreal and the Georgian Bay.

Mr. Laurier contended that the company was controlled by the C. P. R., and asked why the Government had chosen to endeavor to hoodwink the House.

Mr. Haggart said that the Government was aware that the C. P. R. was interested in the company, but did not think that fact was any particular reason why the bonus should not be granted. The item was carried.

The whole of the afternoon session was taken up in committee on the railway subsidies, a large number of items being passed.

Toronto at the Capital.

OTTAWA, July 5.—City Solicitor Biggar and City Surveyor Sankey of Toronto yesterday interviewed the Minister of Militia regarding the transfer to the city of a portion of the Garrison Common for exhibition purposes. The Toronto men desired that, if at any time the land should not be used exclusively for exhibition purposes, the city might make other disposition of it, but to this Mr. Bowell objected.

The City Surveyor waited upon the Minister of Public Works and exhibited plans of the proposed King-street railway bridge and the approaches thereto, concerning which Mr. Ouimet was not fully informed. Mr. Nicol Kingsmill, on behalf of the railways, explained the matter from their point of views.

Died On Her Doorstep.

TEESWATER, Ont., July 5.—Mrs. Fulford, relict of the late Ira Fulford, returned from a visit to relatives in Wingham by the late train Saturday night, and was met by her brother, N. W. Johnston, and accompanied part of the way home. She seemed to be perfectly well when they parted, but it was not more than 10 minutes afterwards when she was found in a dying state at her own door by her brother-in-law, Mr. Jesse Fulford. She only lived a few minutes.

Poet Shelley's Memorial.

LONDON, July 5.—The Shelley Centenary Committee of Horsham has decided that the county celebration of the centenary shall take the form of a library and museum to be established in that town. A public meeting is to be held on August 4 and a memorial tablet will be placed in Horsham parish church.

THE BRITISH ELECTIONS.

RETURNS THUS FAR INDICATE LIBERAL GAINS.

The First Day of the Great Electoral Battle in England Favorable to the Liberals, Who Make a Net Gain of Eight Seats—Two Conservatives and One Unionist Gain.

LONDON, July 5.—Although the desultory firing on the skirmish line of uncontested seats has been in progress for some days, the great electoral battle in England only fairly began yesterday, when 64 boroughs held elections—two being Scotch and three London, the rest provincial English. Up to to-night 33 uncontested elections had taken place, the result being the return of 25 Conservatives and Unionists and 8 Liberals. The members returned by acclamation yesterday were:

Name.	Politics.	Constituency.
Sir J. Mowbray	Con.	Oxford University
J. G. Talbot	Con.	Oxford University
T. Burt	Lib.	Morpeth
Hon. W. F. Smith	Con.	Strand
Rt. Hon. G. J. Goschen	Lib.-Un.	St. George's, Hanover-square
Sir E. Harland	Con.	N. Belfast
G. W. Wolff	Con.	E. Belfast
W. Johnston	Con.	S. Belfast
A. Baldwin	Con.	W. Worcestershire
H. E. Broad	Lib.	Derbyshire, S. E. Div.
David Randell	Lib.	Glamorganshire, L. Gower Div.
Marquis of Granby	Con.	Leicestershire, S. Melton Div.
J. A. Campbell	Con.	Aberdeen Univ.
W. Rathbon	Lib.	Caernarvonshire N. Arvon Div.
Sir Chas. Pearson	Con.	Edinburgh Univ.
Rt. Hon. S. J. Goschen	Con.	Cambridge Univ.
R. Claverhouse-Jebb	Con.	Cambridge Univ.
G. H. Finch	Con.	Cumberland Univ.

Of the 64 borough elections yesterday 38 were Tory and two Unionist, but in only eight cases did their majorities six years ago exceed 1000 and in 19 they were under 500.

The elections were eminently representative of the whole list of borough contests, of which there are 231 in England alone. All parts of the kingdom were tested by the votes of such towns as Bradford, Cambridge, Chatham, Carlisle, Coventry, Derby, Durham, Exeter, Gloucester, Hastings, Lincoln, Northampton, Nottingham, Preston, Reading, Stafford, Stockport, Winchester, Worcester and York.

The Liberals expected to win ten of the seats contested yesterday, and thought they had chances of securing 14 others. The result shows that they gained 11, while the Conservatives gained two and the Liberal-Unionists one. The net gain for the Liberals yesterday is, therefore, eight seats. Total results, including uncontested, to date:

Conservatives	49	56
Liberal-Unionists	7	
Liberals		39

Among the members elected were Sir Henry Stafford Northcote (Conservative) for Exeter, who increased his majority by nearly 300. In Ashton-under-Lyne J. E. Addison, Q.C. (Conservative), elected by the casting vote of the mayor in 1886, was returned yesterday by 135 majority.

Over a third of London's 60 divisions will vote to-day, when it will be possible still more exactly to estimate the probable result. Still it must be remembered that Gladstone says his chief reliance is on the county divisions, which poll much later; that is to say, chiefly during the following week and the next. Remote Orkney and the Shetlands do not vote until July 26.

Mementoes of Byron.

LONDON, July 5.—At the sale of the collection of the late Mr. R. F. Cooke a number of very interesting relics of Lord Byron brought good prices. A brace of pocket pistols, inlaid with silver, brought £52; a small silver inkstand, £28; a circular hand-glass, in gilt frame, £22 (all these were marked "B," with a coronet); an ivory cup inscribed, "To my dear son, George Gordon Byron, 1795," £10 10s.; a circular snuff box, inscribed, "Jno. Wingfield to G.G.B., Harrow, 1803," £6 6s.; a curious silver pipe, formerly Napoleon Bonaparte's and marked with the imperial crown and "N," £13 13s; a small red leather picnic case, £30 10s; a gold ring, with intaglio portrait of Lord Byron and engraved "G. G. B. to R. B. H.," £4 11s; a curious leather tobacco box, formerly belonging to Robert Burns and marked "R. B., Kilmarnock, 1780," a very plain little relic, brought no less than £28, and was bought by Mr. B. F. Stevens, doubtless for America; an ivory and torteise shell tea caddy, with a small water color miniature of Lady Byron when a child, her initials on the handle, £3 8s; Lord Byron's sword, with initial and coronet engraved on the handle, £55; his fowling piece, £5 5s; his double-barreled pistol, inscribed "J. B. to G. G. B.," £26, and a miniature of Lord Byron's mother, £27.

The Profits of Monte Carlo.

NICE, July 5.—Important changes were made at the last meeting of the stockholders of the Societe des Bains de Mer, the euphonious name used by the owners of the gambling tables of Monte Carlo. It is reported that the net gains of last year reached the enormous sum of 25,000,000 francs, 2,500,000 more than in 1890. A dividend of 225 francs was declared upon each bond of the par value of 500 francs. The bonds Monday are quoted at 2300 francs. The directors also decided to add 100,000 francs to the pension fund for the 1100 officials connected in various ways with the bank.

Sensational Suicide at Paris.

PARIS, July 5.—A great sensation has been caused by the suicide of Maurice Leowey, a diamond merchant, supposed to have been wealthy. It appears that for a long time past Leowey has been in need of money and he misappropriated three millions of francs to tide over his troubles. The defalcation was in danger of being discovered, when he concluded to end all and shot himself to death.

Regulating Sunday Work in Berlin.

BERLIN, July 5.—The law regulating work on Sunday was enforced yesterday, for the first time. Employes were permitted to work five hours only, when they were stopped at once by automatic machines.

Will Prove a Costly Joke.

WINDSOR, Ont., July 5.—Constable Hughson of Amherstburg a few days ago arrested a young man near Harrow on a warrant he had received by post, charging assault upon a young lady. It was subsequently learned the blank warrant had been stolen from Justice Smart of Kingsville and the justice's name forged to it. The authorities are on the track of the culprit.

GRAND COMPLIMENTARY CONCERT.

A grand complimentary concert will be tendered the 57th Battalion Band on Friday evening, July 15th, the proceeds to go to the fund for the purchase of new instruments. Some of our most prominent citizens are interesting themselves in the success of the concert, and it is the duty of the public generally to cooperate and give the band boys a bumper house on the occasion. They should remember that they will, by attending the concert, be contributing but an infinitesimal fraction of the value of the enjoyment they have derived from the free concerts so liberally given by the band for years past. And not only that, but the object of the concert to provide funds to assist in purchasing new instruments is directly in the public interest. Equipped as the band is now, with worn and imperfect instruments, it furnishes excellent music, and it is unquestionable that with new, improved and perfect instruments their performances will be correspondingly bettered. Even now our band takes a front rank amongst other bands. The officers and the battalion learned how appreciate it, when contrasted with other bands on their recent Dominion Day jaunt. How greatly superior they will be then to other organizations when equipped with new and modern instruments. Considerations of loyalty to the town and solicitude for its credit and considerations of the increased enjoyment of the public from future band concerts, should result in an immense patronage of and attendance at the complimentary concert of July 15th.

The Montreal Conservatives Protest.

A circular has been distributed among the Senators signed by Mr. J. H. Jacobs, hon. secretary of the John A. Macdonald club of Montreal, appealing to the Senate to protect the rights of the English-speaking minority of the metropolis and district by securing the amendment of the Redistribution Bill, so as to assure the English-speaking people of Montreal that share of representation to which they were entitled. They present figures to show that Montreal City and Hochelaga at present represent an average population of 40,000 each, while two English-speaking members represent 36,000 each. Under the new bill seven French-speaking members will each represent an average of 28,500, while each of the two English-speaking members will represent 43,600. The petitioners ask that the English-speaking race should be assured one or two additional members given to the city under the bill, especially as even then the French-speaking population will have a sure representation in six out of the nine constituencies on the Island of Montreal.

Prepare for Summer Diseases.

If you have Cramps, if you have Colic, if you have Diarrhœa, or if you have any summer complaint,—and you are more likely to suffer in that way before the soft-crab season is over,—buy a bottle of PERRY DAVIS' PAIN KILLER, and secure instantaneous relief after one or two doses. In treating severe attacks of Cholera, bathe the bowels with the PAIN KILLER. Twenty drops of Mr. Davis' wonderful medicine will cure a child of the worst case of Colic. A bottle of the PAIN KILLER can be bought at any reputable drug-store. Price 25c., Big New Bottle.

Very Important.

"Indigenous Bitters" really contain nothing dangerous or hurtful, no metallic salt or mineral medicine, in fact nothing which could injure the constitution, by a too long use or excessive dose. It is a purely vegetable preparation, so that too strong a dose though it may not more powerfully than that given in the direction, yet no matter how large the quantity which may be taken no dangerous results will follow. 1d

To Obtain Cellulose.

A patented process for obtaining cellulose and oxalic acid from the vegetable fibers contained in wood, which is the invention of M. Liefchutz, consists in reacting on wood with dilute nitric acid, in the presence of sulphuric acid, separating the intermediate product from the acid liquor, which contains in solution the oxalic acid formed, and subjecting the intermediate product to a further treatment to remove the remaining incrusting matters from the cellulose. As to the acid liquor, it is set aside and subsequently treated in a process for recovering the oxalic acid. The oxalic acid dissolved in the weak nitric acid can be obtained direct in the crystalline form, by repeatedly using the separated acid liquors for the treatment of fresh wood.—Bull. Fab. Papier.

THE FORCE OF HABIT.

WE have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had lost sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

THE AMERICAN DOCTORS

(29 Years practice in Europe and America.)

A staff of eminent American Physicians and Surgeons have opened an office for medical and surgical attendance, at No. 24[illegible] Ontario Street, Montreal. They give free services to all who call upon them before August 1st, 1892, and carefully tell you if your case is curable or not. All successful cases are vouched. Special attention is paid to every case. Invalids living outside of Montreal should address their letters to Mr. JOHN MURPHY, Manager, and inclose two 3 cent Stamps for symptom blank and question sheets.

In your issue of Aug. 29, 1891, we notice an article on boa constrictors in which mention is made of the pythons of this region. Thinking that some additional facts might be of interest, we submit the following:

Pythons are abundant in the Philippines, the species being identical with that found in Borneo. During our stay of eighteen months in these islands we have heard many accounts of the enormous size attained by these snakes, and recently have obtained three fine specimens. The smallest of these measured 19 feet 11½ inches in length and 18 inches in greatest circumference. It had evidently been without food for some time and was in an emaciated condition, but was still a heavy load for two men. The next in size measured 22 feet six inches in length and 24 inches in greatest circumference. The head was six inches wide at the angle of the jaws and the mouth opened 13 inches without any of the stretching of the skin or displacement of the bones of which it is capable. The third specimen measured 22 feet and eight inches in length and 22 inches in greatest circumference. The gape was the same as in the second specimen. In each case the stomach was entirely empty, and one familiar with such animals can easily form an idea of the enormous increase in size that would take place if gorged with food.

Above the length of nineteen or twenty feet these snakes increase greatly in bulk for every foot in length, so that a snake nineteen feet long looks small beside one twenty-two feet long. It is difficult to estimate the weight of an animal of this kind, and we had no means of determining it accurately. A quarter of it was a heavy lift for a strong man, and it was all that two men could do to drag it a few feet along the ground, one man being unable to do so. The second specimen displayed its enormous strength by snapping in two by a steady pull one of its fastenings—a rattan between one-half and three-quarters of an inch in diameter. The snake being securely fastened by rattans around the neck, two men a boy who attempted to hold it by the tail were powerless to do so.

From the log in which the third specimen was caught eighty-nine eggs were taken. They were white and nearly round, about the size of an ordinary baseball, and

A PHILIPPINE PYTHON.
(Skin 22 feet 6 inches long, 2 feet circumference.)

were covered with a soft leathery shell or skin. They adhered to each other, forming a large mass, which had to be literally torn apart to separate them. So far as observed all were fertile, each specimen examined containing a living embryo about four inches in length. When discovered the snake was coiled upon its eggs, apparently incubating. Upon being removed from the log the eggs dried up rapidly. As the temperature in the log was noticeably above that of the atmosphere, it is probable that the close coils of the snake prevented evaporation.

A snake of this size could bring down a medium-sized buffalo, and could crush out the life of a man in a fraction of a minute; and we have no hesitation in expressing the opinion that it could swallow him. We know of the case of a snake of about this size swallowing a full-grown buck with antlers, a male deer of this species being larger around the belly than is a man around the shoulders.

If the stories told here about large snakes can be believed, the specimens described are small indeed in comparison with really large snakes, but we find that such snakes decrease greatly in size when brought in contact with the deadly foot rule. An intelligent half-caste recently told us that his brother-in-law had killed, measured, and skinned a snake forty-four feet long. We did not wish to question the man's veracity, but heartily sympathized with the remark of a Spanish gentleman, that forty-four feet were a great many feet.

We inclose a photograph of the skin of the second specimen. The tail does not show distinctly, as it is not intended. The stick held by the man behind is just five feet long, and is held parallel to the skin and near to it.

The specimens described will be shipped to the Minnesota Academy of Natural Sciences at Minneapolis.

The Great Female Medicine.

The functional irregularities peculiar to the weaker sex, are invariably corrected without pain or inconvenience, by the use of Dr. Morse's Indian Root Pills. They are the safest and surest medicine for all the diseases incidental to females of all ages, and the more especially so in this climate. Ladies who wish to enjoy health, should always have these Pills. No one who ever uses them once will allow herself to be without them. Dr. Morse's Indian Root Pills are sold by all medicine dealers.

Some Men Should Never Marry.

There is something peculiarly sorrowful to me in the way in which the children of some households slip quietly out of sight when they hear their father's footsteps outside the door. The children must "settle down" then, for father "can't bear noise," and disorder "worries" him. Oh, it does, does it? It makes him nervous to hear the baby cry or the children laugh, does it? He likes to have the house perfectly still, does he? Well, then, what under the sun did he ever marry for? Why didn't he remain in that state of single blessedness peculiarly appropriate to men whom children "worry?" There are so many nice, quiet, delightful boarding-houses in which the laugh of a child is never heard, because children are "not allowed" there.—The Household.

In old times it seemed to be thought that a medicine must be nauseating to be effective. Now, all this is changed. Ayers Sarsaparilla, one of the most powerful alteratives, is agreeable to most palates, the flavor being by no means medicinal.

A Sure Reliance.

GENTLEMEN.—We have a family of seven children and have relied on Dr. Fowler's Extract of Wild Strawberry for the past ten years in all cases of diarrhœa and summer complaints. It never fails us and has saved many doctor's bills.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing.

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent. reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains

Rutidge street Grocery Re-opened.

The many friends of Mr. D. Sullivan, of No. 293 Rubidge street, whose grocery store was damaged by fire about two months ago, will be pleased to learn that he has re-opened again in the same premises. The store has been thoroughly overhauled and remodelled, new fittings and fixtures introduced, and a large and varied stock of fresh groceries laid in. The improvements throughout are a credit to Mr. Sullivan's energy and enterprise. Though advanced in years, Mr. Sullivan is still full of life, and ready to do business on the same principles that have won him patronage, confidence and respect in past years.

Moved by Mr. Throop, seconded by Mr. Craig, that the sum of $2 00 be refunded to Mr. Wand for money paid on taxes.

Moved by Mr. Wand, seconded by Mr. Craig, that no sidewalk be laid from the corner of Lake and Maria streets to the corner of Mark street, on the north side of the road.—Carried.

Moved by Mr. Throop, seconded by Mr. Adams, that Mr. Hopkins' offer to build a sidewalk from Concession street to Brown street on Smith street, for the sum of $150 on the north side, be accepted, side of the road to be properly graded, and the walk to be not less than three feet wide, built of two-inch pine or cedar block with proper guard rails where required, the work to be done to the satisfaction of the Street and Bridge Committee and Street Inspector.—Carried.

The council then adjourned.

Echoes From the Outing.

What the Kingston Press Say of the Visit of the Rangers—Other Notes and Jottings.

The ambulance corps were disappointed at having nothing to claim their services. The general health of the men was good, and they were not afforded an opportunity to unlimber their stretchers.

A large number visited the Provincial Penitentiary, the Rockwood Insane Asylum, the Royal Military College, the Tete De Pont barracks, Fort Henry and other places, and were kindly shown through the various institutions, great attention being given the visitors.

The Kingston *Whig* says:—The visiting sergeants were well entertained by their brethren of the "green" during their stay in this city. The mess rooms were open at all hours for their use. On Saturday evening Sergt. T. Connel, of "D" company, Peterborough Rangers, read an address to Sergt.-Major R. D. Baker, in which was expressed the wish that he would convey to his sergeants the great esteem and admiration the 57th batt. sergeants had for them on account of the manner in which they, the visiting non-commissioned officers had been entertained. This address was followed by cheers for the 14th batt sergeants, the 57th batt. non-com's and "the Princess of Wales, the patroness of the 14th batt." The company then sang "Auld Lang Syne" and closed with three cheers for the Queen.

The soldiers had a blow-out on Saturday night. They bombarded the city with horns, tin pans and shouts, marching about the streets waving palms and generally trying to show the citizens that there was fire in them when they woke up. They were given full swing, and went off at midnight shouting praises of Kingston and its good natured people.—*Whig*.

A guard of 15 men and one N. C. O. was mounted at the city hall each day during the stay of the visiting regiment. The competition for the prize given by the officers of the 57th batt. for the best drilled company was very close, and will probably lie between companies 'A' and 'B,' although 'D' company was also very good. It will probably not be decided who is the winner until after the next parade in Peterborough.

All the Rangers on cool consideration, retain their first enthusiastic impressions of the unbounded hospitality of the Kingstonians—soldiers, civilians and—ladies. The duty roster of the battalion will doubtless show a smaller number of bachelors on its pages before Christmas comes. It's just what might be expected—Kingston has a way of being extremely hospitable—in fact it keeps a good many persons rather longer than they really desire to stay.

OUR CIVIC STATESMEN

Transact Considerable Business at the Council Last Night.

The Auditors Receive Attention—The Charity Committee's Hearts too Large—A Market Building to be Erected for the Lessee—The Sewerage By laws not Passed Owing to the Chairman's Absence—Other Matters and Communications Come up.

A regular meeting of the town council was held last night in the council chamber. There were present His Worship Mayor Kendry, and Councillors Best, Winch, Kelly, Young, Bradburn, Dawson, Ferguson, McIlwain, Dennistoun and Mathers. The minutes of the previous meeting were read and approved.

COMMUNICATIONS

The following communications were presented:

From John H. Glass and others requesting that the open drain on Aylmer street from the point where it crosses the road between Dublin and London streets to the crossing at London street be cribbed and covered in a similar manner to the other portions of the drain—Referred to Street and Bridge Committee.

From W. H. Moore, on behalf of the residents on the corner of George and Hunter streets, complaining of the nuisance of the carters stand in that locality. Received and referred to Licenses Committee.

From Mrs. Wm. Noble applying for assistance for maintenance, having been help less and deprived of her sight for the past thirteen years—Charity Committee.

From Hall and Hayes, solicitors, on behalf of the Edison General Electric Co. stating that the company would be satisfied if the town proceeded at once to place the sixteen inch sewer from their works to the river called for by the agreement, and that if a general system of sewerage is put in by the town that they will allow this sewer to be used as part of this system if satisfactory in regard to certain particulars—Referred to Sewerage Committee.

From Robert Larmour asking that his taxes be remitted again this year as in years past.

Mr. Dawson opposed the motion, as he thought the estate should pay the taxes on the property.

Moved by Mr. Kelly, seconded by Mr. Winch, that Mr. Larmour's taxes be remitted.—Carried.

From W. Henderson, superintendent of Peterborough Water Company, stating that during the present quarter one new hydrant had been placed in position.—Received.

From J. G. Macklin, assistant-engineer of the G.T.R., acknowledging receipt of a copy of a resolution passed by the council having reference to the grading and planking of the railway at Bonaccord street, and stating that he would have the matter looked into.—Received.

From Mr. A. White, of the G. T. R., stating that he had received a letter from the town solicitor relative to the siding on Bethune street, for the purpose of affording facilities for an oil trade in the town which was formerly transacted in the city of Toronto. The G. T. R. were anxious for an official ratification of the authority for the maintenance of the siding in question, in order that the business connected therewith may not be disturbed. Mr. White in his communication asked when it would be convenient to see the council upon the subject in order that any details may be arranged in the joint interests of the town and the G. T. R., and asking the council to come to Toronto to see him.

This communication was received. The Mayor said they would have to come here, as the town did not propose going to Toronto to transact their business.

From all the police constables, asking that the council grant the usual two weeks' absence for summer holidays.—Referred to the Committee on Appointments and Supervision of Police.

Mr. Dawson said he had no objection to the police taking their holidays, provided they all did not take them at once, and a special constable was not provided to take their place at the town's expense.

Mr. J. G. Macklin, assistant engineer of the Midland Division of the G. T. R., wrote in regard to the railway gates as follows:—The General Manager of this Company in reference to your communication about placing protection gates at certain crossings and at certain streets crossed by the G.T.R. Railway of the town of Peterborough, desires to know if the town is prepared to execute the agreement submitted to the council in October 1890, which agreement was based upon the conversation had between the Mayor and council and the Company's General Manager in the year above named.

The Mayor explained that the Company agreed to keep a man on until 9 o'clock at night. Then if a man was put on after that on special occasions it was to be at the town's expense. The matter was referred to the Street and Bridge Committee to report.

THE AUDITORS' REPORT.

From W. H. Beddon and F. E. Bell, auditors of the town, stating the work was being done as fast as possible and that the police court accounts, town commissioners' accounts, and assessment rolls were yet to be gone into, together with the preparation of statements of expenditure of town treasurer, Nicholls Hospital, and Board of Education, and that no definite date for the presentation of the reports could yet be given.

This communication, so indefinite and unsatisfactory, as councillor said, called forth twenty minutes spirited discussion from them. Messrs. Young, Dennistoun, Bradburn, Ferguson, Dawson, Best, Kelly and others taking part. The auditors were severely scored for their negligence in the way they were doing the work, having, according to the town clerk's statement, worked only one day at the books since the last meeting of the council. The consensus of opinion was that the auditors knew the amount of work they were undertaking when they asked for the position, and that the salary they were receiving for it, at which they were bitterly complaining, was enough. They were to have the work completed within a month, and it had already extended over a period of five or six months and would, according to their report, take some months yet to complete the work at the slow way in which they were working at the books. Some of the councillors were in favour, if the council had the power, of discharging the auditors forthwith and not paying them a cent. Finally Mr. Dennistoun moved the following resolution, which was seconded by Mr. Young and carried unanimously: That if the report of the auditors be not filed within one month from this date, the auditors be discharged and a new bylaw introduced for the appointment of others, and that the clerk serve each of the auditors with a copy of this resolution.

From Alex. McDonnel, asking for a crossing to his house, 131 George street—Referred to Street and Bridge Committee.

From W. J. Hall, stating certain grounds why the council has no right to claim taxes from him on income—Referred to Finance Committee.

From Michael Bolton asking that the Monaghan drain in front of his place be cribbed—Referred to Street and Bridge Committee.

From E Pearce, county clerk, enclosing the following resolution passed by the county council. "Your committee recommend that the county engineer be instructed to make all necessary repairs to the Locks Bridge in conjunction with the town of Peterborough—Referred to Street and Bridge Committee.

From Robert Pope, street inspector, asking for a two weeks vacation—Granted.

From A. E Thompson and others, asking that a sum of money be granted to reduce the steep grade of the hill on Benson avenue, opposite and above Mr. Wm. Hall's—Referred to Street and Bridge Committee.

From P. J. McNamara and other residents of Ward No. 1, asking that the fence between Park street and the C.P.R. be moved and that a hole in front of his residence be filled up—Referred to Street and Bridge Committee.

With regard to the offer of the Edison Syndicate for the construction of a street railway, provided certain privileges are granted them, and the time for the completion of the road extended until July 1st, 1893, your committee recommend that the Edison Syndicate be notified that the council considers it not advisable to tie up the franchise for so long a period, but that they are prepared to consider any other proposition that may be submitted.

With reference to the application of the assessors of Ward Nos. 1 and 2, for an increase of salary for extra services, your committee would recommend that their request be not granted.

All of which is respectfully submitted.

R. MAX DENNISTOUN,
Chairman.

Mr. DENNISTOUN said that the assessors agreed to do the work for a fixed sum and if it turned out more than they thought it would be, they understanding the amount of work should not be paid an increase. In the same way with the auditors—if their work turned out more than they thought, their salary should not be increased. If the auditors' was increased, it would only be fair to increase the assessors, but when they had not increased the assessor's salary, they should not the auditor's. He believed in treating all parties the same, and treating them fairly.

The report was adopted.

REPORT OF CHARITY COMMITTEE.

To His Worship the Mayor and Town Council:

GENTLEMEN,—Your Charity Committee beg leave to report that the amount of relief disbursed in the town of Peterborough during the months of March, April, May and June, amounts to the sum of $700.74, divided as follows:

Ward No. 1, $196 65.
" No. 2, $372 21.
" No. 3, $87.75.
" No. 3 $143 73.

The names of persons receiving relief and amounts received, appear in statements annexed to report.

All of which is respectfully submitted.

H. C. WINCH,
Chairman.

Messrs. DAWSON and DENNISTOUN thought that the amounts given to charity were enormous. $372 expended in one ward was enormous. The report for the past four months was greater than in January and February.

COUNCILLOR DENNISTOUN read the report of an expenditure of $12 to one family in Ward No. 3, most of which was expended in laundries. The Charity Committee should be more careful.

Mr. YOUNG said they exercised their best judgment in the matter and did all they could to inquire into the worthiness of those receiving charity.

Mr. DAWSON said his accounts had been kept down to the lowest notch for the four months, amounting to $72 only. He had been careful in the matter. He thought that the names of those receiving charity should be published. It was no disgrace or slight on those receiving charity to have their names published in the papers.

Mr. WINCH said he had been very careful in dispensing charity, and had made it a business to find out whether those receiving it were in need or not.

The MAYOR said that in future he hoped the Charity Committee would report to the council once a month. The amount was extravagant—the largest he had ever known. He was sorry to see it, and the council would have to use more judgment. When one ward got as much as all the others there was a mistake wrong. He hoped the report would hereafter come up in detail and once a month.

Mr YOUNG thought that after the remarks the Mayor had made a committee should be formed to examine the books of Ward No. 2 and see where any family could be receiving charity who were not worthy of it. He thought it was only fair to do this and and any who was not worthy, he was too glad to have their names struck off those receiving charity. If they expected him to run around as an office boy to inquire into each individual case, he was simply not "in it." He did his best and exercised the most possible care and judgment.

Moved by Mr. WINCH, seconded by Mr. Young, that the report be adopted.—Carried.

Mr. Dennistoun moved, seconded by Mr. Ferguson, that the account of Messrs. G. D. Mitchell & Son for $12 and also an account of Messrs. Foot & McWhinnie for boots (charity), $3, be paid.—Carried.

NO. 2 WARD ASSESSMENT.

On motion of Messrs. Kelly and Bradburn, Dr. H. Spears was heard. He said that his appeal against the inequality of the assessment rolls of Ward No. 2 for 1892 and the incompleteness of the assessor's returns had been referred to a committee but that committee had not seen fit to investigate the matter in hand or deal with it any way at all. The books were very incorrect and words could not express his opinion in regard to the matter. The council had no idea of the state of existing affairs. He was assessed on George street for one flat for $2300, and at the same rate George street from Charlotte to Brock would be assessed for $1,000,000 or quarter of the town's whole assessment. He was assessed on his residence for $1700 while a neighbor whose house was larger than his was assessed for only $900. George street was assessed for more than its value while the other portions of the town only about one-third. He had referred the matter of his own private assessment to the judge and could stand it if the town could.

MARKET COMMITTEE'S REPORT.

Mr. Winch made a report of the market committee referred back. The building on the market to be put up for which he had shown plans would cost from $400 to $500 and would give accommodation for years to come. It would give room to farmers and afford good accommodation all around. On motion Mr. Green, market leases was heard. He said that he sent in an application to have something done to the market scales. He would like to have better facilities for weighing and the scales needed better protection. What the committee suggested as regards office accommodation for himself he, would like carried out. He was trying to boom the market and make it better for the whole town. He thought that from the increased revenue in market tolls the council should give the matter more than a passing consideration. Something should be done to protect the scales.

Moved by Mr. Best, seconded by Mr. Winch, that the report of the market committee be adopted and referred to the committee with power to act.

The MAYOR thought that something should be done but the amount to erect the building was excessive. He would like to see a cheaper building put up. They had no guarantee that the committee would not exceed the amount mentioned. Nearly all the work done by the council in the past had overrun the estimate.

Moved by Mr. Best, seconded by Mr. Kelly, that the report of the Market Committee with reference to the market improvements be adopted, and that the committee have power to act, the cost not to exceed $475, the committee to ask for tenders for same.

Mr. Best withdrew his former motion and amended it thus.

Mr. DENNISTOUN said the council had started with good intentions for economy, but nothing had come before them during the year which had been refused. He did not pretend to say that the building in question was not needed, but the council was granting everything asked of them. The rate would be increased enormously this year the expenditure had run up so high. He would not move that the report be not granted, but would call for the yeas and nays on the motion. He said that when tenders were awarded at the next meeting for the cribbing of the Edison sewer, the amount would be greater than many had thought.

Mr. KELLY thought the council should give the company so much, and get out of the Edison sewer business altogether. It was constantly cropping up, and was a great nuisance and expense.

The division on Mr. Best's motion was then taken:

YEAS.—Messrs. Best, Winch, Kelly, Young, Bradburn, Dawson, Ferguson, Mathers—8.

NAYS.—Messrs. McIlwain and Dennistoun—2

OTHER MATTERS COME UP.

Mr. DAWSON said that he would report to the next meeting of the council regarding the purchase of an ambulance by the town. He had seen one or two carriage makers on the matter.

Mr. P. McNamara was heard in reference to the removal of a fence, which was a nuisance, between Park street and the C.P.R.

Moved by Mr. Dawson, seconded by Mr. Winch, that the matter be referred to the Street and Bridge Committee with power to act.—Carried.

SUGGESTIONS AND INQUIRIES.

Mr. DAWSON said that the council owned a large tract of land on the corner of Park and Sherbrooke street. He would like to see it sold in order to reimburse some of the expenditure. He would like to hear the opinion of the council on the matter. The land was of no use to the corporation.

Mr. DAWSON asked if Ashburnham had paid her indebtedness to the town.

Mr. DENNISTOUN said they had paid $350, and would pay the remainder shortly.

BY LAW SESSION.

Mr. DENNISTOUN suggested that in the absence of Mr. Cahill, chairman of the sewerage committee, who had given the matter his attention and experience and that in a matter requiring so much thoughtfulness and carefulness and having such importance attached to it, he would move that the bylaw be read a first time in the council and that the council should go into a committee of the whole on the second reading of the by-law, after which the committee should rise, the bylaw to be considered clause by clause on its second reading at a special meeting of the council to be held a week hence. This was agreed.

Mr. DENNISTOUN then introduced the following bylaws which were introduced together.

Bylaw No. —, entitled a bylaw to raise the sum of $—— for the construction of an outfall sewer for the town of Peterborough.

Bylaw No. —, entitled a sewerage bylaw for the town of Peterborough.

Mr. DENNISTOUN said that the bylaw to provide an outfall sewer for the town was the only one of the two to be submitted to the people. He thought that the sum of money required for the construction of the outfall sewer would not be more than $25,000, which was ample for all purposes. He thought the blank should be filled in with that amount. The other bylaw to provide for a system of sewerage by a frontage tax was to be submitted to the council only.

Council then adjourned at 11 o'clock.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

AN INTERESTING EXPERIMENT

Which Determined the Amount of Work Done in Plowing an Acre.

In the latter part of September, 1891, an experiment was undertaken, as a part of the work of the students in Agricultural Physics in the University of Wisconsin, to ascertain the amount of work done by a team in plowing an acre of ground. The two essential factors which were to be determined were: 1, the draft, and 2, the width of the furrow. The latter is easily found by direct measurement, but the former and more important is determined with somewhat more difficulty. The instrument which we used to determine the draft was the Osterheldt & Eickemeyer dynamometer. Its essential parts are two strong springs, whose resistance when stretched certain distances has been computed, and an index is so connected with the springs that their stretching causes it to move and mark, on a scale, the force in pounds which produced the motion. This instrument is fixed as the connecting link between the double trees and bridle of the plow. The whole pull which the horses exert is thus communicated to the springs. In connection with the instrument is a tape measure one hundred feet long. At the start this is wound up, its end being joined to a cord or small chain which is fastened to a stake behind the plow. This tape runs out as the plow moves, causing the reel, in which it is coiled, to revolve. This reel is so connected with the registering part of the instrument, as to cause it to work only while the tape is running out, viz., while the plow moves one hundred feet. The average draft for one hundred feet is thus registered by the index. Hoof pressure is omitted.

The draft was determined, in the manner stated above, for several consecutive trials of one hundred feet each, on two different pieces of ground, corn stubble and clover sod. From the figures thus obtained, the average draft was found to be 365.25 pounds for the corn stubble and 535.7 pounds for the clover sod. The average width of the furrow on each field was 14¾ inches. The average depth for the corn stubble was 5.37 inches, and for the clover sod 4.87 inches. With these data we can now calculate the amount of work required to plow one acre of either of the fields mentioned.

First, taking the corn stubble, we find that if we consider our acre a strip of ground eighty rods long and two rods wide, that, to plow the acre, it will take twenty-seven furrows 14¾ inches wide and eighty rods or 1,320 feet long. To turn these furrows, the three horses must travel 1,320x27, or 35,640 feet, and the average draft being 365.25 pounds they must do 35,640x365.25 or 13,017,510 foot-pounds of work. In the same way, with the average draft of 535.7 pounds, we find that the amount of work done in plowing an acre of clover sod is 19,092,348 foot-pounds. Thus it took 6,074,838 foot-pounds more work to plow one acre of corn stubble, although the corn-stubble furrow is one-half inch deeper than the clover-sod furrow. It requires a certain number of foot-pounds of work to plow an acre in one of these fields, no matter how rapidly or slowly the work is performed. But suppose that the rate is such (and this was practically the case) that two acres are plowed in one day of ten hours, or one acre in five hours; then, if we divide the whole number of foot-pounds of work done in plowing the acre by the time it takes, expressed in seconds, we will have the actual amount of work which the team does per second. Computing these results, we find that in plowing the corn stubble, the team does 723.2 foot-pounds of work per second and 1,060.7 foot-pounds per second in plowing the clover sod. Each horse, in the first case, does 361.6 foot-pounds per second, in the second, 530.35 foot-pounds per second; 550 foot-pounds per second is considered to be the maximum amount of work which the average horses can do, and is called a horse-power. Reducing the foot-pounds to horse-power units, they are found to be .66 and .96 of a horse-power respectively. Thus we see that in both cases the work which the horses do is not above that which they are theoretically able to bear on a firm roadway, yet in plowing these mellow fields it was found to be very hard work for two horses, and three were finally put on the plow.—A. M. Ten Eyck, in American Agriculturist.

A soft, fair skin is the result of pure blood and a healthy liver, to secure which, Ayer's Sarsaparilla is the Superior Medicine. Ladies who rely upon cosmetics to beautify their complexions, should make a note of this, bearing in mind that they can't improve upon nature.

SIRS:—I think your valuable medicine cannot be surpassed, according to the benefit I received from it. After suffering from headache and loss of appetite for nearly four years, I tried B B. dw MISS MINNIE BROWN, London Ont.

A Successful Breeder's Method.

I make sure of plenty of early pullets of some good setting strain that begins setting in September. They will want to set about March. My favorite cross is a White Wyandot cockerel with light Brahma hens. This cross gives me very large cockerels and medium-sized pullets. The pullets will lay at six months and want to set about March. The cockerels by December and January will fill out and dress 10 to 12 lbs. if carefully fattened. For such birds dry picked I find no trouble in getting 25c. per lb. wholesale, while mice 4 to 5-lb. Western stock sells at 13c., and larger breed of same size brings no more if not retailed among acquaintances.

From Aug. 15 to Oct. 1 I set all I can from a pen of White Wyandot hens and a White Leghorn cock. Soon as I have all the fall setters I want, I marked my old stock, put the March pullets in the old house and allow the new house for the small chickens. The cockerels I divide into lots from six to ten, placing them to fatten in small coops made from large packing cases obtained from clothing dealers. They are very well made of matched boards, a box about 4 feet square, coming at from 75c. to $1, and make grand coops for setting hens in and mating stock to obtain eggs for setting. The late hatched chicks by good care will be ready for broilers in time to bring 30c. per lb., and are all sold, pullets and all, fast as ripe for dressing off for sale. One of the great mistakes made by most farmers is carrying over the winter too many old hens. Most hens after they are through laying and ready to molt represent a profit, but if left until ready (after molting) to lay again will have eaten more grain value than they have previously earned. If properly marketed when through laying you have the profit and their value from the market. By good calculation pullets ready to lay may take their place and by care a good supply of eggs may be obtained while the highest prices rule.—J. C. Hall, in Farm and Home.

It is what Hood's Sarsaparilla actually does that tells the story of its merits and has given it the largest sale of any medicine.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does, it is indeed wonderful. He authorizes all druggists to give those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 50c and a dollar. We certainly would advise a trial. Cures Others

Will cure You, is a true statement of the action of AYER'S Sarsaparilla, when taken for diseases originating in impure blood; but, while this assertion is true of AYER'S Sarsaparilla, as thousands can attest, it cannot be truthfully applied to other preparations, which unprincipled dealers will recommend, and try to impose upon you, as "just as good as Ayer's." Take Ayer's Sarsaparilla and Ayer's only, if you need a blood-purifier and would be benefited permanently. This medicine, for nearly fifty years, has enjoyed a reputation, and made a record for cures, that has never been equalled by other preparations. AYER'S Sarsaparilla eradicates the taint of hereditary scrofula and other blood diseases from the system, and it has, deservedly, the confidence of the people.

AYER'S

Sarsaparilla

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilla. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this, my body was covered with pimply eruptions. The remedies prescribed failed to help me. I then began to take AYER'S Sarsaparilla, and, in a short time, the pains ceased and the pimples disappeared. I advise every young man or woman, in case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. L. Jarmann, 33 William st., New York City.

A YACHTING COAT.

The Nearest Approach to Masculine Attire that Woman Has Attempted.

Mrs. Capt. Kidd, on her husband's yacht this summer, and other amateur sailors, will wear new and wonderful garments called yachting coats. It's the nearest approach to a man's coat that fashionable women have been persuaded to adopt. When the tailors put yachting coats on the market the patrons eyed them with disapproval, but hearing that the Princess Louise and the Duchess of Portland have ordered such coats for the season of yachting about the Isle of Wight, all doubts were set at rest and the yachting coat finds its fortune made on this side of the Atlantic. It is a cross between a common yellow slicker and a Santa Claus great coat. The material is a dark or light waterproof stuff something like covert cloth, light of weight, close woven, but very warm. At best it is in color dark brown or blue mixed with a little white, and of shape it has about as much as a workingman's jumper. The body of the coat slants on the shoulders and curves in at the armholes, while the waist line remains undefined in the vast, voluminous skirts, that fall below a wearer's knees. The seams are double felled with cut edges, the sleeves are two long bags, a collar, that when turned up reaches the tops of one's ears trims the neck, and with huge smoked pearl buttons the coat's fronts lap each other in a broad double breast. A wide belt that buttons over in front gathers in the skirts at the waist line, and dark blue or brown shot silk is the lining. Two huge square pockets with flaps to button over decorate either hip, and a third ornaments the left breast; there are inside pockets, too, and a snug little compartment on the inside of the coat's skirts where a convenient flask can find lodgment.

There is meaning in every inch of this queer garment the scoffing yachtsman discovers when his wife or sweetheart offers to explain its ins and outs. For instance, the coat is designed to keep one warm and dry on misty days and nights when the men get into their convenient, comfortable bad-weather togs and the women are left to shiver in their little jackets on deck or choke in a stuffy cabin. Into those capacious pockets can be safely stowed away and buttoned down all the odds and ends women ordinarily carry in their hands, and the unshapely size of the coat permits one to wear it over any number of gowns; then with that impressive collar about her ears, her hands in the ample pockets, and her cap well over her eyes, Mrs. Capt. Kidd can snap her fingers at the rain and let the wild wind blow with as little concern as her husband.—New York Sun.

Mars Approaching the Earth.

The month of August next is expected to bring important if not wonderful and sensational developments in the study of our mysterious heavenly little kinswoman. August 5 next Mars will arrive at a point directly opposite this earth, which it reaches but once in 15 years, when the distance between the two planets will be reduced from 141,000,000 to 35,000,000 miles. Upon that night a thousand telescopes will be levelled at the planet, which will repose in refulgent beauty in the southern skies, and a thousand eyes will seek to pierce the veil of distance that conceals the knowledge for which science thirsts.

Wonderful results are expected by reason of the marvellous improvements that have been made in astronomical instruments within 15 years and since the last most favorable observation was made. With the powerful lenses and the photographic appliances of to-day it will be as if the far-away visitor, tempted by curiosity, had drawn nearer to the earth than ever. Although Mars will be 35,000,000 miles away, the powerful Lick telescope will magnify her to a size as if viewed at a distance of but 17,500 miles.—Washington Star.

An Electrical Honor.

Baron Kelvin, who was known as Sir William Thompson before he was elevated to the peerage last winter, has received a curious recognition of his services to electrical science. The English Board of trade has adopted "Kelvin" as the name to be applied to its unit of electrical energy, and it is thought that the term, being short and clear, will be widely accepted by electrical engineers.

Keep the Works in good order.

NORMAN, Ont., January 15, 1890.

W. H. COMSTOCK, Brockville, Ont.

DEAR SIR,—Your "Dr. Morse's Indian Root Pills" are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheel in the works, and what is the result?—at first only a slight difference is perceptible in its time-keeping, but wait you; as the obstruction grows, the irregularity becomes greater, until at last, what could have been rectified with little trouble, in the beginning, will now require much care in thoroughly cleansing the entire works. So it is in human life—a slight derangement is neglected, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning, have been cured with little trouble, becomes almost fatal. To prevent this, I advise all to purify the system frequently, by the use of Morse's Pills, and so preserve vigor and vitality.

Yours faithfully,
H. F. ATWELL.

The Merriest Girl That's Out.

"Bonnie sweet Bessie, the maid of Dundee," was, no doubt, the kind of a girl to ask, "What are the wild waves saying?" or to put a little faded flower in your button hole, she was so full of vivacity, and beaming with robust health. Every girl in the land can be just as full of life, just as well, and just as merry as she, since Dr. Pierce has placed his "Favorite Prescription" within the reach of all. Young girls in their teens, passing the age of puberty, find it a great aid. Delicate, pale and sickly girls will find this a wonderful invigorator, and a rare corrective for all derangements and weakness incident to females. b

A FAMOUS CLOWN.

Doc Thayer, a Companion of Dan Rice, is Dead.

CHICAGO, July 5.—Doc Thayer, an old-time circus clown under Dan Rice, and who drove stage coaches in Indiana when the west was an unexplored country, is dead. He had not been well for two years and last Saturday he had hemorrhage, after which he rapidly failed.

James Thayer had an adventurous life—such a life as the heroes of lurid novels are supposed to have. He was born in Waddington, N.Y., May 20, 1830. In 1836 his father, with his family, moved to Milwaukee, and ten years later he decided to run away. Canada was the country to which he had directed his attention, and so one day when the lumberman called Jim to get up for breakfast Jim wasn't there to get up.

Thayer reached Belleville, Canada, where he had relatives living. At Belleville he apprenticed himself to a tinsmith and stayed with him until he learned the trade. When he was 15 years old he returned west and settled in Indiana. For one year he drove a stage-coach along the rough roads of that period and then adopted the life under the white tents by joining Jerry Mayhie's circus, which was exhibiting at Bargetown, Ill. He stayed with Mayhie's show one season, and then drove for various other combinations until 1836 he joined Dan Rice's show at Girard, Pa. All the horses and wagons used in transportation were under his charge.

Thayer's first appearance on the sawdust was in Canada, where, in 1858, he impersonated Dan Rice. As a clown he was a great success, and from that time on he was a circus actor instead of a horseman. He traveled with the Van Amberg show through the season of 1859 as head clown, and in 1863 he went to Girard, Pa., and started a circus on his own account. He had a partner named Noyes, and the firm name was Thayer & Noyes. In its beginning the show was a small one, but it increased until it was the largest circus of that day. In 1869 the firm failed in Cincinnati, and since that time Thayer had been connected at intervals with Barnum & Bailey, Forepaugh, Van Amberg and other shows. His home for eight years was in Chicago. Two years ago he was compelled to retire from active life.

A Doctor Elopes.

ST. JOHN, N.B., July 5.—The Island of Grand Manan has one practitioner less, Dr. James Andrews having induced the wife of William Robertson to leave her husband and five children and follow him. The injured husband went to St. John after her and begged her to return with him and he would forgive her, but she declared that she would not go back, as she loved the doctor more than she did husband or family.

But it was not many days before the scales were removed from her eyes, and she repented her wayward conduct. She wrote her husband that she was sorry for what she had done, and implored him to take her back to his bosom and she would prove a more faithful wife in future. He consented and she came down to Eastport from St. John a few days ago and with her husband returned to Grand Manan.

The Dog-Faced Woman Dead.

LANCASTER, Pa., July 5.—Mary Alloway, an aged and eccentric character of Mount Joy township, familiarly known in the neighborhood by the title of "Mary, the Dog-Faced Woman," has just died in her hovel in Eshleman's Woods.

She erected a tent in the woods and there lived in poverty all the year around, having only a tattered blanket for a bed covering, even in the severest winter weather. In summer she subsisted on wild fruits, berries, nuts and roots, and for the remainder of the year she contrived to keep soul and body together by begging from neighboring farmers.

"Godey's" New Owners.

NEW YORK, July 5.—The reported purchase of Godey's Lady's Book is confirmed. The purchasers are Henry J. Davison, the lawyer and capitalist, of this city; William Barnes, jr., of The Albany Express and The Albany Journal, and P. M. Richards, well known in newspaper circles. The publication office has been moved to this city, and the new magazine will hereafter be called Godey's. The price paid is understood to be $250,000.

His Aim Was Defective.

WINNIPEG, July 5.—Paul Blondin, suspecting Albert Petin, a Winnipeg bartender, of being too intimate with his wife, fired at him yesterday, but the bullet went wide of the mark, and Blondin will be tried for attempted murder.

The Bridge Collapsed.

The Sheriff of Norfolk Dead.

SIMCOE, July 5.—Edmond Deedes, sheriff of Norfolk County, died early yesterday at Woodstock, where he had gone on a visit. Deceased, who was in his 82nd year, was appointed to the office of sheriff in 1850.

Found Dead in Bed.

SCHAW, Ont., July 5.—Benjamin Wise, a farmer near here, attended a barn-raising at a neighbor's and on returning home complained of feeling tired, and retired early. When his wife awoke next morning she found her husband dead beside her.

TWO
TEMPTATIONS!

While the July leaf is doing calendar duty, the Golden Lion is going to test the capacity of Low Prices to build up a big warm weather trade. To begin with we throw out Two Temptations for shrewd lady buyers, namely:—Absolutely straightforward Reductions in the two following seasonable lines—

1.—BLOUSES.
2.—PRINTS.

These goods are now set apart for sacrifice, and if we don't inaugurate a flurry in Blouses and Prints, it will be because ladies are more short-sighted than we think they are. Now is unloading time with us, and we have a lucky facility of getting rid of things—just as willing to face loss as profit when losing time comes. Anyway if you want Blouses and Prints, you'll never buy them cheaper.

NEW GOODS

Constantly arriving at

TURNBULL'S

Sluggish streams stagnate, so do sluggish stocks—they become decayed—they are not fit for commercial use more than decayed meat. Finally, they are known as dead. Do you appreciate the advantage of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading at Turnbull's.

Just opened out 2,300 yards Flannelette, full width and heavy; usual price 10 and 12½c., our price 6½c. No one else has these goods or can have them, as we cleared the whole lot at a loss to the holder.

Black Henrietta Cloths, Silk Warp and Wool Fillings at 50c., regular price $1.00. Come quickly if you want to be in the race for these goods.

Ladies' Cotton Skirtings, heavy enough to stand alone; fast colors; at 12½c.

Fine Scotch Tweed Dress Goods, double fold, good shades, 40c.

Pure Silk Gloves to fit every hand, 35c. a pair.

Boys' Suits fresh from the factory, at $2.00, $2.25 and $2.50 each, all the latest cut. Better goods as cheap in proportion.

Ladies' White Underwear, all desirable goods, at prices to suit everybody.

Housekeepers, do you want Carpets? We are showing a fine line of American-made goods, 36 inches wide, at 35c., a yard. This is a line that we will not be able to get in again.

All the latest patterns in Summer Prints and Challies placed in stock.

Notwithstanding the quantity of flowers we showed earlier in our Millinery department, fresh lots arriving weekly with all the new shapes, which keeps our Millinery room attractive.

EXPLORER STANLEY DEFEATED.

The Marquis of Lorne Fails to Get Elected.

Richard Chamberlain Also Among the Slain—"Tay Pay" and "Labby" Elected—Some Desperate Fights—Unionists and Their Opponents Come to Blows at Peterborough While Parnellites are Belabored in Ireland—An Attempt to Wreck a Train Frustrated.

LONDON, July 6.—The vote yesterday, when polling took place in 23 Metropolitan boroughs, may be accepted as a fair estimate of what the general voice of the country will be. At dissolution the Conservatives represented 17 of the 23 seats. At the close of the polls last night the result was precisely the same. There were gains and losses to be sure, but they were exactly equal—seven on each side and the Conservatives are therefore numerically as strong in the London districts as they were with the exception of the eight seats lost on Monday. These figures tell the tale:

Number of members elected		160
Conservatives	89	
Liberal-Unionists	8	97
Liberals		63
McCarthyites		1

There is deep disappointment among the Liberals here over the results. It is evident that the success of the Radical element in the County Council elections has not involved desertion of the Conservative ranks in the general election.

If the Liberals are to win they have, in view of yesterday's results, an ardous task before them for the two or three remaining days of the borough elections.

Unopposed.

These Conservative candidates were elected without opposition in England today:

Major-General Feilden, N. Lancashire (Chamberlain Div).
Hyampshire Napier, East Dorset.
A. A. Douglas, East Kent.

LONDON, July 6.—The notable event of the day was the defeat of Richard Chamberlain in Islington West, and even the Radicals cannot help feeling some regret for his pretty young wife, who strove so hard to secure his re-election. Mrs. Chamberlain went personally among the voters and especially the working class. Her appeals, however, although respectfully met, appear not to have availed against the current of her husband's unpopularity, and whatever may be in store for Joe, Richard has fallen outside the breastworks.

Another disappointed woman to-night is Mrs. Henry M. Stanley, who pushed her husband into running for Parliament against his will. Some of those who know Stanley say he is himself not deeply disappointed. The majority rolled up against him by the North Lambeth costermongers was 130.

"Tay Pay" and "Labby."

Thomas Power O'Connor (Liberal) was elected Tuesday for Liverpool (Scotland division).

Henry Labouchere of Truth has been re-elected in Nottinghamshire.

Right Hon. Sir W. Harcourt was re-elected in Derby.

Deductions from the Result.

J. Kerr Hardie, the labor candidate, who captured the south division of West Ham, claims that his election was a triumph for Radicalism. "I hope," he said, "we shall soon see the beginning of a new independent labor party that will be able to attract new radicals who have shaken themselves free from laissez faire Liberalism. Mr. Hardie, in describing his views, says that he intended to press the question of an eight-hour day law and the establishment of municipal workshops.

T. P. O'Connor in The Star says: "The defeat yesterday of Sir T. Sutherland, Liberal-Unionist candidate, at Greenock by John Bruce, Liberal, is a deadly blow to the Unionist cause in Scotland."

The Thunderer's Opinion.

The Times says: The flowing tide has been absolutely stayed if not turned back. The campaign of profuse promises and unscrupulous calumny wherein Mr. Gladstone's personality has been exerted to the utmost in a desperate attack upon the citadel of the constitution has left the mass of the nation unmoved.

A Gladstonian correspondent summarizes Monday's result this way: The Liberal gains and losses in Monday's fight gave little indication as to the feeling of the nation. They won seats in the four Ecclesiastical boroughs of Durham, Herford, Lincoln and Reading. They lost heavily in the Episcopal town of Rochester. On the other hand they won in the manufacturing towns of Bradford and Stockport, but lost in an unexpected fashion in York and Nottingham. This last place is the only one where the eight-hour agitation, which at one time threatened such dire mischief to the Liberals, has done any harm. Here Broadhurst, who was one of the most important of the erst while labor members, has been defeated by the candidature of a more advanced workingman's candidate, standing on an eight-hour platform. Of other provincial contests the most interesting was that at Greenock, where Sir Thomas Sutherland, president of the Peninsular and Oriental steamer line, and a leading Liberal Unionist of Scotland, has been severely beaten. But of Monday's polling the chief interest attaches to the election in the two districts of West Ham, which are substantially part of London. These two went Tory six years ago by majorities of 737 and 306. The Liberals carry them now by 27 and 1232.

John Dillon states that in his opinion eight of the supporters of John Redmond will be returned. All the divisions of Mayo, he declares, are safe for the McCarthyites. While J. J. O'Kelly, the farmerite candidate for North Roscommon, will be defeated.

Campaign Incidents.

LONDON, July 6.—Daniel O'Connell, son of the Irish liberator, is strongly supporting the candidature of James Lowther (Conservative) in the Isle of Thanet division of Kent. Upon being asked why he, an Irishman and a Catholic, did not follow in the footsteps of his father Mr. O'Connell replied: "It is as an Irish Catholic that I vote for a Conservative. I have seen during the past six years the country wisely governed. Mr. Gladstone's Home Rule scheme would be most disastrous to Ireland."

When a Woman Will, She Will.

Col. Cornwall's West, Unionist candidate in Denbighshire, Wales, is being assisted in his canvass by his wife, the noted beauty. Mrs. West attempted to-day to address a meeting which had howled her husband down. For a moment there were cries of "Let her speak," but the silence which ensued was brief. The disorder being renewed Mrs West lost her temper and declared that in her native country, Ireland, the men were too manly to prevent a woman from championing a public cause. The hubbub increased, but Mrs. West nothing daunted, made her way to a platform where a rival orator was addressing a crowd and began an argument with him. He was impolite enough to shake his fist in her face, and the crowd was so threatening that Mrs. West finally retired to the platform provided for the orators of her husband's party.

Immediately upon the announcement of the victory of Sydney Herbert, the Conservative candidate in the Croydon district, yesterday, a well-known Radical named Jordan went to his shop and committed suicide by hanging himself.

Sore Heads in Erin.

CORK, July 6.—William O'Brien, who was struck on the head with a stone yesterday as he was returning from a political meeting, passed an uneasy night. The physicians in attendance apprehend that his condition will become worse. His assailant, a laborer named John Sheehan, has been arrested.

Mr. William O'Brien's condition shows no improvement last evening. His face is much swollen, and the attending doctors fear that erysipelas may supervene. The patient is suffering considerably and is unable to eat. Redmond and Horgan, the Parnellite candidates, are severely condemned for the outrage.

An attempt was made Tuesday to wreck a special train upon which were 300 members of the Parnellite branch of the Irish party en route to Lisdeen, County Clare, to attend a political meeting to be held there. A friendly warning given to the engineer alone averted a catastrophe.

Mr. Plunkett, the Parnellite candidate for the Middle Division of Tyrone, accompanied by Mr. Killeen, went to the chapel at Lough Macrory yesterday. Father Murphy, the priest who conducted the services, denounced Mr. Plunkett, saying that he would not be allowed to spread his blackguardism there. Mr. Plunkett and his companions thereupon withdrew to the chapel yard. The people, incited by the priest, rushed out of the chapel and savagely maltreated them. The entire party were kicked and pelted with stones and other missiles. Mr. Plunkett was badly hurt about the head and face. Mr. Killeen was thrown to the ground, and while some of the crowd were mauling him, Father Murphy called to them not to kill him. The Parnellites finally succeeded in escaping from the mob.

E. Leamy, the Parnellite candidate for the East Division of Waterford, and a party of his supporters were attacked by a number of McCarthyites at Kilmacthomas to-day, and a desperate fight occurred between the two factions, during which many of the contestants were seriously injured.

A Unionist meeting held at Peterborough yesterday was broken up and a free fight ensued, during which the benches and chairs were smashed and the hall in which the meeting was being held was much damaged. Several persons were more or less severely injured.

After the Cruel War is Over.

DUBLIN, July 6.—The Irish-American commission which arrived here a few days ago for the purpose of trying to effect a peaceful settlement of the differences existing between the warring Irish factions wrote to Justin McCarthy proposing an interview between him and John Redmond with a view to negotiations looking to the establishment of peace.

Mr. McCarthy replied to the commission to-day that he must consult with the members of his party on the subject.

It is known that the anti-Parnellites are utterly opposed to considering the question until after the elections are over and that the Parnellites are also unwilling to discuss the matter at present.

The commission say that they do not despair of smoothing matters after the elections have taken place.

The Battle of the Giants.

LONDON, July 6.—Mr. Gladstone addressed a large and enthusiastic meeting at Dalkeith yesterday. In the course of his speech he said that if Scotland on mature deliberation wanted Home Rule for herself she would get it as her right, but, he added, the Irish question leads Scottish nationalization. The Scottish national grievance was that whenever there was an anti-Liberal majority in Parliament the vote of Scotland was disregarded.

A Vote of Want of Confidence.

Mr. Gladstone, in an election address in Stow, Edinburghshire, declared that when, in 1879, he anticipated a victory in the then coming election his anticipation was more than realized. He believed that the same thing was going to happen now.

Parliament, he claimed, would never be able to attend to the business of the country until the Irish question was settled. The Liberals would have to repair all the present Government's work.

During the proceedings of the meeting a vote of want of confidence in Mr. Gladstone was proposed on account of his action in regard to the Scotch disestablishment question.

Mr. Gladstone in explaining his position in the matter said it was impossible for him to act otherwise than he had done without trampling the national opinion of Scotland under the feet of England.

Eight Hour Day Premature.

Mr. Gladstone also attended a meeting in Gorebridge and delivered an address, in which he emphasized the necessity for a thorough reform of the land laws. He also said that the demand for a universal working day of 8 hours was premature, but that the demand of the miners for an eight-hour day was more general, because if the men were practically unanimous on the question no employers' objections should prevent them from attaining the end which they sought. Where a district was unanimous in favor of the establishment of a working day of eight hours he believed that local option should prevail, although he was not confident of the success of the movement.

Chamberlain on Gladstone.

Mr. Joseph Chamberlain in a speech at Walsall to-day, said: "Mr. Gladstone never proposed measures for the benefit of working people until he required their votes.

He has suggested Home Rule for Ireland on the colonial model, but colonies are empowered to make tariffs, and unless Ireland is allowed to do the same this solution of the problem will not be accepted as final and Mr. Gladstone will be in a dilemma."

Balfour at Manchester.

Mr. Balfour made three speeches in Manchester to-day. In criticising the utterances of Mr. Gladstone he remarked that Mr. Gladstone had said he saw no objection to the Linton-Simmons negotiations. Mr. Gladstone himself when in office was in close diplomatic correspondence with the Pope, to whom was communicated the views of the English Cabinet on every sort of question, civil and religious. Mr. Balfour charged Mr. Gladstone with distorting history when he compared Home Rule to the star of promise. Home Rule, he said, was really like a gaseous meteor, destined to vanish after a brief but brilliant flourish.

The Rev. Newman Hall publishes in The London Times to-day the records contained in his diary of two conversations which he had with John Bright in May, 1887, in which Mr. Bright denounced Mr. Gladstone's espousal of Home Rule.

The Unionist press accuses the Liberal party of keeping the Home Rule question in the background, but it admits that Mr. Gladstone has not adopted this course, and that he rather facilitates the task of the Unionists by stating all the difficulties which stand in the way of obtaining Home Rule without giving his followers the slightest idea how to meet them.

LONDON, July 6.—Lord George Hamilton said to his electors that unless Great Britain was prepared to retaliate upon those nations having recourse to protection for the express purpose of shutting out English goods she would soon find herself deprived of her foreign markets.

Mr. Perrault protests in a letter against the description of Quebec by a correspondent to The Times as an "ignorant, priest-ridden country" and against other statements of the same character, which, he says, have been published with a view to influencing the Protestant vote on the Irish question. He regrets that such a paltry object should suffice to induce the maligning of a country which had twice preserved the Dominion to the British crown.

The strength of parties at dissolution is shown in the following table:

TORONTO'S ISLAND FREAK.

Confesses That He Came From Ancaster He's Sent Home.

TORONTO, July 6.—The Island freak has made a full confession and his name is William D. Adams, a son of Samuel Joseph Adams, a market gardener and small woollen manufacturer, living in Stroud-lane, off the stone road, between Dundas and Hamilton, in the township of Ancaster. He admits that he came to Toronto voluntarily, went out to the sandbar and tied himself in the position in which he was found. He says he did it for notoriety. His father was brought down last night and the magistrate granted the boy's discharge this morning. He has gone home in charge of his father.

Fell from a Train to Death.

WINNIPEG, July .—As St. Andrew's Church Sabbath School picnic train was returning from Gretna a little girl named Maggie Heslop lost her hat while standing on the platform, and reaching out for it fell from the train and had her neck broken, death being instantaneous.

A Doctor Charged With Manslaughter.

STE. SCHOLASTIQUE, Que., July 6.—The July term of the Court of Queen's Bench convened here on Saturday, Judge Taschereau presiding. The grand jury returned a true bill for manslaughter for the poisoning of a child of one Latour, against Dr. Gaudet of St. Ann del Plaines.

Made a Prophecy and Died.

ST. CATHARINES, July 6.—Barnabas A. Haynes, aged 52, a farmer on the Hamilton-road, awoke this morning about 5 o'clock and asked his wife if the wind was blowing. She said she thought so, and he turned over in the bed remarking that it would likely rain during the day. In a moment afterwards Mrs. Haynes noticed that he made a peculiar struggle to get his breath, when in almost a twinkling he expired, death being evidently caused by heart failure.

Paisley Boy Drowned.

PAISLEY, Ont., July 6.—The body of Arthur Webster, grandson of Joseph McDonald, about 8 years old, was found in the willow creek last evening. It is supposed that the little fellow had been playing on the bridge on his way home and had fallen in where the water was some three feet deep.

A Hebrew Charged with Murder.

BERLIN, July 6.—The trial of the Jewish butcher, Buschhoff, charged with the murder at Xanten in June, 1891, of a Christian boy named Hegmann, opened at Cleves yesterday.

Buschhoff pleaded not guilty, and the president of the court pointed out to the jury that the sole alleged motive for the crime was the desire of the accused for revenge because of damage done to Jewish gravestones.

Hegmann's mutilated body was found in a stable, and Buschhoff was suspected of the crime by certain zealous anti-Semitics, who declared that he had murdered the boy in order that his blood might be used in the observance of Jewish ritual.

Buschhoff was arrested months ago for the murder of Hegmann, but was subsequently released, owing to lack of evidence. Anti-Semitic agitation increased, however, to such a degree that the authorities finally had Buschhoff re-arrested.

NASAL BALM

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, dull pain in the forehead, loss of smell, foul breath, hawking and spitting, nausea, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of NASAL BALM. Do not be misled by the many worthless substitutes said to be "just as good." NASAL BALM is sold by all druggists, or will be sent, post paid, on receipt of price, 50 cents and $1.00, by addressing

THE FORCE OF HABIT.

We have read of an old lady who for many years regularly pawned her silver teapot every Monday morning and took it out again every Saturday night. She had sufficient by paying interest to the pawn-brokers to buy several new pots, but it seems she could never get even with her creditors without sacrificing the tea-brewer at the beginning of the week. That was simply from the force of habit. The policy-holder is apt to get into the same habit when the premium on his policy is to be paid. Is there a dividend? Yes; then he must use that in payment of the premium. Many policy-holders having become used to paying full premiums in cash do so to the end, and the result is a wonderful accumulation, showing an investment rarely equalled in the history of finance. Some policy-holders will be persistent for a few years in their cash payments and then begin to use the dividends to pay the premiums. Having once begun they rarely stop the practice, and year after year they find it impossible to pay the premiums in any other way. They simply cease to save and lose the advantages which the Canada Life offers every investor in its policies.

Presbytery of Peterborough.

Millbrook Makes a Call—Rev. R. G. Jones Resigns.

Rev. John McEwen, Lakefield, moderator, occupied the chair at the meeting of the Presbytery in St. Andrew's church Tuesday morning. Those present were:

Rev. James Cleland, Port Hope; Rev. John Hoing, Mt. Pleasant; Rev. F. Andrews, Keene; Rev. Wm. Bennett, Springville; Rev. R. F. Torrance, M.A., St. Paul's, Peterborough; Rev. J. Carmichael, M.A., Norwood; Rev. A. MacWilliams, St. Andrew's, Peterborough; Rev. H. Brown, Havelock; Rev. J. Drummond, Centreville; Rev. D. P. Oswald, Janetville; Rev. D. A. Thomson, Hastings; Rev. John Hay, B.D., Cobourg; Rev. R. Hyde, Warsaw; Rev. B. C. Jones, B.A., Port Hope; Rev. Wm. Anderson, M.A., Oakville—ministers. Messrs. W. R. Roxburgh, Norwood; Dingwall, Port Hope; James Russell, Cobourg; Richard Hall, St. Paul's, Peterborough; Rev. A. McNaughton, Port Hope; Wm. Archer, Millbrook; and Robert Tully, St. Andrew's, Peterborough—elders.

After routine business the call of Rev. J. A. Ellendorth to Millbrook as mentioned was reported, and the stipend in case of the minister's acceptance fixed at $800 per annum.

Rev. Wm. Bennett was appointed moderator of Millbrook session vice Rev. Mr. Jones, resigned, and Rev. Mr. Torrance reported in reference to students now laboring in the mission fields.

The application of Mr. Hargreaves, of Keene, wishing to have his name placed on the Presbytery roll, was not entertained inasmuch as the date of his appointment was within two years.

Rev. Mr. Cleland reported as to the state of the Presbytery funds and the ministers were asked to take collections to defray the expenses of delegates.

Rev. B. C. Jones, of Port Hope, placed the resignation of his pulpit, and asked the Presbytery to at once take steps to release him. The congregation, Mr. Dingwall, elder, said, would not oppose the removal of their pastor.

The motion of Rev. Mr. Carmichael, that the Presbytery accept the resignation to take effect on August 1st, embodied a warm tribute to the ministerial character of Rev. Mr. Jones, regret at losing his services, and sympathy with the congregation in the loss they sustain. Rev. Mr. Cleland was appointed Moderator of session and to preach the pulpit vacant on Aug. 21st.

Rev. Messrs. Torrance, Cleland and Hay were appointed a committee on pulpit supply, and Rev. Mr. Hyde and Mr. R. Tully a committee to examine the records of the first Presbyterian church, Port Hope.

In reference to the Springville stipend, the following resolution was adopted:

Rev. Mr. Carmichael moved, seconded by Mr. Drummond,—That the convener of the Presbyterian Home Mission Committee with the convener of the Assembly Home Mission Committee asking reasons for the proposed reduction of $50 to Springville congregation, the Presbytery feeling that an injustice would be done the congregation by said reduction, inasmuch as last year they added an additional $50 to the stipend and in so doing increased their burden already heavy; to reduce the minister's stipend by $50 would entail a great hardship.

Rev. Mr. Cleland was appointed a member of the Presbyterial Home Mission Committee.

The ladies of St. Andrew's at the adjournment of the Presbytery entertained the members to dinner in the Sunday school room.

THE AFTERNOON SESSION.

The Presbytery resumed at 2 o'clock, and was constituted.

The next meeting of the Presbytery was appointed to meet in the hall of the First Presbyterian church, Port Hope, on 20th September, at 9 o'clock.

It was agreed to appoint a committee on Presbytery Visitation. Moved by Rev. Mr. Carmichael, seconded by Rev. Mr. Hay, that the Presbytery appoint a committee to make arrangements for Presbyterial Visitation of congregations during the coming fall—said committee to be as follows: Messrs. McEwen, Sutherland, Torrance and the mover, ministers, and Messrs. Roxburgh, Tully and Russel, elders, Rev. Mr. Carmichael to be convener.

On the recommendation of the committee appointed to examine the records of First Church, Port Hope, were ordered to be attested as on the whole correctly kept.

Consideration of the notices of motion by Mr. Torrance and Mr. McEwen were deferred until the next meeting, the first in reference to the election of elders, the second in reference to absentism from meetings of the Presbytery.

Mr. Torrance was appointed to visit Haliburton and Minden, Mr. Hyde to visit Chandos and Burleigh before the next meeting of Presbytery.

Mr. Carmichael gave notice of motion anent the arrangement of holding missionary meetings, for next meeting.

Mr. Torrance presented the case of the proposed South Ward Mission Sunday School. On motion of Mr. Bennett it was agreed to appoint a committee to confer with the representatives of the two congregations, St. Paul's and St. Andrew's.

That a committee of three consisting of Messrs. McEwen, Hay and Carmichael be appointed to confer with the representatives of St. Paul and St. Andrew's churches as to the site of the Sunday school proposed to be erected by the St. Paul's congregation.

The Presbytery then adjourned.

The ladies of the church kindly provided a free tea for the visiting clergymen which was partaken of in the Sunday school rooms. The ministers appreciated the ladies' attention and kindness very much.

Killed While at Play.

ALBERT, N.S., July 5.—Herman A. Wilbur, aged 10 years, son of Capt. H. V. Wilbur of this place, died very suddenly yesterday from the effects of a blow which he received in the abdomen, from the letting slip of a bat in the hands of one of the ball players, while keeping score for them.

In old times it seemed to be thought that a medicine must be nauseating to be effective. Now, all this is changed. Ayers Sarsaparilla, one of the most powerful alterative, is agreeable to most palates, the flavor being by no means medicinal.

EXTENSIVE CHANGES IN

THOMAS KELLY'S

DRY GOODS ESTABLISHMENT.

POSITIVE ALTERATION SALE!

About a year ago extensive alterations and improvements in our George and Simcoe Street premises were contemplated and publicly announced in good faith, and preparations were commenced to transform our store into one of the finest business premises in Peterborough. Unfortunately, owing to difficulties which arose at the time, we were compelled to postpone the work indefinitely. Now, however, we have determined that These Improvements must go on, no matter what the Cost. We, therefore, beg to announce that during the month of July, in order to allow these important alterations to be made, we will be

COMPELLED TO MOVE OUT

of the premises altogether, for about a month. To avoid the expense and trouble of removing the goods, we have decided to sell off our whole stock, and will commence at once a SWEEPING CLEARANCE SALE of everything in the store. Nothing will be reserved during the next two months. The stock consists of regular Staple Goods—all new and fashionable—bought for this season's trade. THE SPLENDID VALUES which will be given will afford the greatest inducements to Dry Goods Buyers which have been offered for many years to the people of Peterborough.

To secure a complete clearance we are prepared to make great sacrifices in every department. PRICES WILL BE A SECONDARY MATTER! THE GOODS MUST GO! THERE WILL BE BARGAINS FOR EVERYBODY!

Come and buy NOW, if you want to reap the great benefit of the surrender of profits which must be made during this Positive Alteration Sale.

Relentless Break in Prices

—OF—

SUMMER CLOTHING

—AT—

H. LeBRUN & CO'S.

In order to secure a very large turn over during the next two months, the City Clothing Store has decided to make a Big Break in Prices throughout its entire stock of Ready-Made Clothing, Ordered Clothing, Gents' Furnishings, &c., &c.

THE BREAK IN READY-MADE CLOTHING will be a relentless one. Our mammoth stock is brimful of Suits, Coats, Vests and Pants, for Men and Boys, and in all these we have determined to make the prices to pave the way for a general clearance sale, if the profits amount to nothing

ALL ORDERED CLOTHING from this date will suffer a similar fate, and a decided cut of from 15 to 20 per cent. reduction will be made on every garment turned out of our establishment.

ALL CLOTHS AND GENTS' FURNISHINGS—of which we carry the largest stock in Peterborough—will also be reduced in the same proportions, so as to sweep everything before us clear and clean, during the next 60 days.

This is business, now come and take away your Bargains

Mark Street Excursion.

The annual Sunday School pic-nic of the Mark Street Methodist Church, Ashburnham, took place yesterday to Chemong Park per G. T. R. and steamer Mary Ellen. Nearly two hundred enjoyed the day's outing and spent a most delightful time at the Park. The happy picnicers returned at six o'clock last night. It was the best outing Mark St. church has ever held.

A Successful Garden Party.

The Ladies Aid Society of the Charlotte street Methodist church held a successful garden party on the grounds of Mr. Aaron Cox, Rubidge street, last night. There was a fair attendance. The band was present and played sweet selections. The handsome grounds were beautifully lighted and decorated with Chinese lanterns and electric lights. Choice refreshments were served by the many ladies present. A most enjoyable evening was spent until 10 o'clock.

Votes of Thanks Tendered.

At a monthly business meeting of the Y. P.S. C.E. of St. Andrew's church July 4th, the report of the garden party held on the grounds of J. J. Lundy, Esq., Ashburnham, on June 18th, was received, showing total receipts $66.30, total expenditure, $19 30, leaving balance of $47 00. $40.00 was given to the Y. M. C. A., in whose interests the garden party was held. Moved by Mr. W. White, seconded by Mr. R. M. Russell, that a vote of thanks is due Mr. Lundy for the use of his beautiful lawn in which to hold the social given in aid of the Y. M. C. A., and for his strong endeavours to make the same a success. Moved by Mr. R. Gray, seconded by Mr. H. Beal, that a vote of thanks is due the band, for their excellent music given, which added so much to the pleasure of the evening, coupled therewith a donation of $7 00 for the purchase of their instruments.

A. O. F. Installation.

On Monday evening last at a regular meeting of Court Stanley, No. 7690 A. O. F., the following officers were installed by Bro. W. D. Scott, M. D., P. C. R., for the ensuing term:—

Bro. A. Wilson	P. C. R.
" W. G. Howden	C. R.
" J. Holmes	S. C. R.
" R. Climkscale	Treas.
" A. E. Oliver	Sec.
" H. Williams	S. W.
" W. McMann	J. W.
" J. Howland	S. B.
" R. Barley	J. B.
" W. D. Scott	Court Physician

After the business of the court was concluded Bro. Howden, the new C. R., invited the brethren over to Mr. H. Long's restaurant where an hour was spent in satisfying the inner man and the brethren were unanimous in declaring Bro. Howden their chief for the ensuing term. Court Stanley will meet every other Monday evening after this date.

Bankrupt Stock of T. Dolan & Co. going at whatever we can get. Large sales last week. To make this sale interesting for a few weeks longer a further reduction will be made. Come and examine. Jim on deck, you know what this means—everything goes.

News Nuggets.

—A couple of monkeys were captured below the locks last night.

—There was no police court this morning—all is quiet in constabulary circles.

—The Peterborough Lacrosse Club will play the return match at Belleville on the 15th inst.

—The Third Series of the Ontario League matches will be shot to-morrow afternoon at the rifle ranges.

—The bicyclists will meet at the market square to-morrow night at 7.15 o'clock for their weekly spin. All should turn out.

—A great storm prevailed in Otonabee township yesterday. Large hailstones fell for some minutes. Fences were blown down and other damage done.

—A consecration meeting will be held in St. Paul's Presbyterian church on Sunday evening under the Y. P. S. C. E., in honor of the International Y. P. S. C. E. convention at New York.

—A mail driver hooked his conveyance into the new 'bus of the Snowdon House at the Grand Trunk station yesterday afternoon. A large hole was smashed in the side of the 'bus.

—Court Peterborough No. 10. I.O.O.F., meets to night for drill. A large attendance requested. Peterborough Lodge, No. 111, I.O.O.F. will install officers to-morrow night for the ensuing term.

—A train baggageman on a west bound passenger train made himself rather 'fresh' around the G. T. R. station last night. He kicked and struck the news agent and two or three other boys without any provocation.

—A large number of excursionists passed through Peterborough this morning to Lakefield, where they took the steamer Golden City for a trip up the lakes. It was the annual outing of the Millbrook Methodist Church Sunday School, Rev. W. R. Young pastor.

—St Andrew's Church Sunday School excursion took place to-day to Chemong Park per G.T.R. and steamer Mary Ellen; 225 availed themselves of the trip. The day was fine.

—Mr. John Kincaid is rapidly rushing to completion the new six foot turret on the tower of the market building. The great fire bell had been raised by means of windlasses. The work being done is a credit to the contractor.

—Mr. J. W. Crosby had his large phonograph broken at Lakefield this morning. It was being transferred from the train to the boat on a carter's conveyance and before being noticed the instrument fell off the vehicle to the ground breaking it in several places.

The various hotels in the Limestone City raised aloft their daily rates on Dominion Day. The majority of the smaller and second-class houses doubled, tripled and even quadrupled their usual rates for the day and for meals and lodging. If Kingston expects to prosper in the line of having people come to her doors this altogether too common practice will have of necessity to cease. The same game was perpetrated not long since at another demonstration in that city.

An Unfortunate Accident.

Mrs. James Gordon, Stewart street, had the misfortune to fall down cellar this morning. She was descending when a step broke, she falling heavily to the cellar floor, severely cutting and bruising her leg. One of Mrs. Gordon's hands went through a pain of glass and was cut. The unfortunate lady was picked up by Mrs. W. G. Ferguson and Miss Hill, and is progressing favourably.

Address and Presentation.

Last night Mr. W. Brandrette, on behalf of the railway employes, presented Mr. R. Sloan, for some time junior clerk at the G. T. R. freight office, with a handsome ebony cane furnished by Clarke & Gibson and a complimentary address. Mr. Sloan is a worthy young man well deserving of the honour he received. He has been prominently identified with the local Y.M.C.A. He left this morning for Denver, where he has secured a good situation.

Met a Watery Grave.

John, the Twelve Year-Old Son of Mr. James McComb, Water St., Drowned in the River This Morning.

A sad drowning accident occurred in the river shortly after eleven o'clock this morning. Jas. McComb, aged 12, son of Mr. Jas. McComb, glove manufacturer, Hunter street, was out on the river in a row boat with Michael Flaherty, Hugh Lynn and Louis Brennan. They were rowing up the river on the Peterborough side, and had reached Martin's old dam, where there is an eddy. They went to turn around, when the water which falls over the dam struck their boat, filling it completely full of water. All the occupants jumped out and McComb's three young companions succeeded in swimming to shore, which was only about twenty feet distant. The boys had been in swimming, and young McComb had his boots on and was unable to reach the shore successfully as the other boys had done. He grabbed the side of the boat, when it gave a lurch, throwing him off. His form sank under the water never to rise again, and the swift current covered up its victim. The young lad was drowned before any assistance could be rendered him by his companions. The body has not yet been recovered, although a large number of men have been dragging the river at that point all the afternoon. The drive of logs have been shut off at Auburn in order that the search for the body may be continued. Deceased was a bright intelligent boy and was very popular with all his companions who respected him greatly. Mr. and Mrs. McComb have the sympathy of all in their sudden death of their son, who was a pupil in Miss Beckett's division of the North Ward school.

Personal.

Rev. Father McGuire, of Bracebridge, is in town to-day.

Mr. and Mrs. D. W. Dumble left this morning on a few days trip to the Lakes.

The condition of Mr. Wm. Hamilton shows no improvement. He is somewhat worse to-day.

Mr. John Gunn, Napanee, is visiting his brother-in-law Mr. T. Osborne, G. T. R. baggageman, for a few days.

Mr. C. B. Bentley has taken Mr. Chas. Wynn's cottage at Stoney Lake. His family will spend the summer there.

Rev. Mr. McKnight, of Dunnville, an old Peterborough, is visiting his brother-in-law, Mr. Barton Earle, for a few days.

Rev. Mr. Fraser, of Bowmanville, has rented Mr. K. G. Loch's summer cottage "Kenmore" at Stoney Lake for a few weeks.

Mrs. Craig, the Misses Craig, and Mr. Charles Craig, of Charles street, left to-day for Stony Lake, where they will spend the summer.—Belleville Ontario.

Messrs. Alex. Dugan, George Sloan and Seth Adlam left this morning as delegates from Peterborough to attend the Grand Lodge of True Blues in session at Belleville to-day and to-morrow.

Mr. G. M. Carlisle, of Windsor, and Mr. John A. Morton, of Chatham, representative business men of their respective towns, were in Peterborough yesterday and took a look over the town. They were loud in their praises of its beauty and commercial thrifts.

The Band Concert.

To the Editor of the Examiner:

Sir,—The tickets for the band concert are now on sale. Everybody that wishes to help the band has the opportunity. The concert is for the purpose of procuring funds to buy new instruments, which are very badly needed. These instruments will be the property of the town. Those who frequent the Gardens and enjoy the weekly concerts, should do everything in their power to make this concert in the Skating Rink on July 15th a success. Strawberries and other delicacies will assist in making the evening a most pleasant one. It is gratifying to notice the kindness of the more prominent citizens of the town, who by their patronage and active help, are doing all they can to make the affair a success. Ticket sellers will call on the citizens.

Yours, etc.,

A Complete Cure by HOOD'S SARSAPARILLA.

This is from Mr. D. M. Jordan, a retired farmer, and one of the most respected citizens of Otsego Co., N. Y.

"Fourteen years ago I had an attack of the gravel, and have since been troubled with my

Liver and Kidneys

gradually growing worse. Three years ago I got down so low that I could scarcely walk. I looked more like a corpse than a living being. I had no appetite and for five weeks I ate nothing but gruel. I was badly emaciated and had no more color than a marble statue. Hood's Sarsaparilla was recommended and I thought I would try it. Before I had finished the first bottle I noticed that I felt better, suffered less, the inflammation of the bladder had subsided, the color began to return to my face, and I began to feel hungry. After I had taken three bottles I could eat anything without hurting me. Why, I got so hungry that I had to eat 5 times a day. I have now fully recovered, thanks to

Hood's Sarsaparilla

I feel well and am well. All who know me marvel to see me so well." D. M. Jordan.

DEFINING THE INSPECTOR'S DUTIES.

Moved by Mr. Hill, seconded by Mr. Hamilton, that the public school Inspector's duties be defined and that they consist of those suggested by the special committee as read at the regular meeting of the Board on the 7th ult., or such other duties as the Board may from time to time prescribe. A copy of the duties referred to was attached to the motion. These have already been published in the EXAMINER.

MR. DUMBLE OBJECTS STRONGLY.

Mr. DUMBLE asked if a full copy of the report had been sent to the Minister of Education.

The secretary said it had.

Mr. DUMBLE said that the duties as laid down in the report were very exacting. It made a man Inspector, headmaster, boss, etc., and everything else of the teachers and schools, and no man living could satisfactorily perform all these duties. It meant that an Inspector must give all his time and attention, and where was such an Inspector to be procured? He thought that it would be better and more honest to put the object straight without any subterfuge—the dismissal of the present Inspector. The new Inspector was to perform a wide range of duties; he was to carry the rawhide in his pocket and do it all; he would have to be at all the schools at nine o'clock every morning and report the attendance of the teachers, he would have to go all over the people's houses searching for truant children and see why they were not at school, he was to have general supervision, according to the report, of all school grounds, and the report forgot to mention Mr. Tighe's name in connection with the Central school grounds. Mr. Dumble went on to further outline the duties imposed by the report of the special committee pointing out the impossibility of any man fulfilling these duties, and

THE ABSURDITY OF THE DUTIES

prescribed. Two of the main points to be considered were: where could such a man be got, and the amount he would have to be paid to do all this. He must be a better man than any of these on the staff now, in order to direct, guide and teach them, and such men did not hold their services cheaply. If they engaged an inspector to perform such onerous duties they did not want an inferior man, and would have to pay from $1,200 to $1,800 a year salary. The matter had resolved itself into a question of dollars and cents. He was glad to see the board taking an interest in the schools and advancing measures for their usefulness. He did not oppose the present measure for the sake of being in opposition, but on the grounds that there was no need for such a change, the public schools being in a very efficient and satisfactory shape at present, and because of the expense of adopting the suggestions of the report. No one had demonstrated to the board that there was any need of a change or any crying evil or serious fault in the schools which demanded a sweeping change like the present one. No inefficiency of the teachers had been reported.

NO INVESTIGATION HAD BEEN MADE

into the condition of the public schools. He severely deprecated the adoption of a course that would practically mean deposing the head masters from their positions and putting over them another principal.

Mr. HILL—Are not the teachers under the inspectors now?

Mr. DUMBLE—Only as far as instructions go. Compare, he said, the schools of Peterborough in and out, room by room, with Lindsay, Bowmanville and other places, and compare the results of the school by numbers, and it would be found that the schools in Peterborough are as good as in any other place in the Dominion. If they were not, he would do everything to help them. He would move for a change. But the ward schools had steadily been improving for the last three years. Good, painstaking, careful, prudent, energetic men were at the head of all the schools. In Lindsay they had only female teachers in their ward schools and at a much smaller salary than they had in Peterborough, whereas here there was a male principal at the head of every school giving his whole time, attention and supervision. In Lindsay they had a head master who was not over any department, but he was also model school master. Our schools were superior to Lindsay taking them room by room and an investigation would award Peterborough schools the prize every time as superior over Lindsay. Everything in our schools being so far in advance of three years ago and being the best, what was the use of

PAYING OUT $1200

when we had to-day triple the inspection the government called for at $350 a year? Toronto with her 200,000 population had only 6 inspectors. We have to-day four principals, besides the inspector, who are doing their work well and thoroughly. Toronto until recently only had one inspector. Ottawa had only one and paid him $1800 a year, where they pay out some $30,000 a year for salaries. In proportion we got as good inspection and better than Ottawa. There were rooms in the public schools to-day crowded beyond the limit, by 15 or 20 pupils in seating accommodations. This condition needs remedying rather than going to the expense of paying an inspector a fancy salary, when it was not going to accomplish anything, and taking the onus and responsibility off the teachers themselves and putting it on the inspector. If there was a weak teacher on the staff let the matter be pointed out, and have it remedied, but do not squander money on an inspector who is not needed. Mr. Dumble said they had a letter from the Deputy-Minister of Education. He said it was permissible for an inspector to perform these duties, but he added at the foot of the letter,

"IF YOU CAN AFFORD IT!"

Mr. HAMILTON—Did he recommend the appointment?

Mr. DUMBLE—No, he did not. He had been told that the special committee appointed to make inquiries regarding the appointment of a local superintendent had made inquiries and received answers which, in the majority of instances, were not favourable to the changes proposed. The duties which the report recommended to be performed are not an inspector's duties. The school law said the inspector of schools could not take the place of a teacher in any respect. If the man to be appointed was to be responsible for the management, discipline, control, etc., he was not an inspector, he was a principal. It was not the present inspector's duty to do this.

Mr. HAMILTON—I have been in this Board three or four years and have heard no report or complaints made against any of the teachers by the inspector.

Mr. DUMBLE—That is not the case. The inspector has always reported against inefficient teachers. He always did it in a fair and candid way and aroused the hostility of a great many teachers. The report says that it is the duty of the inspector to teach.

Mr. HILL—No; it does not.

Mr. DUMBLE concluding said he opposed this thing

LARGELY ON THE GROUNDS OF EXPENSE.

He was certain that we would not get commensurate advantages to the schools from the money which would be expended. The principals were all doing good work and everything was working in a first class manner. His chief objection to this matter was the waste of money. He asked those laying down the duties of the inspector to come out fair and square and if the schools are bad say so, if it was good for the schools prove it, and the board was intelligent enough to change its plan. In its present state, with our schools so efficient and doing such good work as they are, under able teachers and careful headmasters with an inspector over them who gives four times more inspection than the law requires, the present motion certainly looked sinister and peculiar, to say the least.

THE MOTION UPHELD.
